ried Down the Ohio River.

DUMP FLOATS ON THE ALLEGHENY. No Offal to Be Allowed to Remain Within the City Limits.

COUNCILS TO MAKE A MOVE FOR HEALTH

A solution to a question that has been bothering city officials for several years was presented to notice yesterday afternoon at meeting of the Committee on Public Works in the shape of an ordinance authorizing the disposal of the garbage of the city. As everybody knows, a small portion of the city's waste matter has been burned in garbage furnaces, maintained by the city at considerable expense and small satisfaction. The balance has been dumped into the rivers and in vacant lots or dumps within the city limits, a menace to health and public safety.

Every annual report for the past five years from the Bureau of Health and the officers having the disposition of garbage in hand has contained a recommendation for some other system of taking care of the city's health as affected by her garbage. The ordinance recommended yesterday covers that point whatever may be its de-

Floating Garbage Down the Ohio, It provides for the removal of all gar-bage, sweepings, offal, dirt and refuse of all kinds by a company composed of W. A. Hoeveller, George Trautman and R. B. Brown, by floats or dumpboats, in which it will be conveyed to a point down the Ohio river and disposed of without expense to the city. The flosts are to be 300 feet long and 24 feet wide, will be provided with machinery for properly handling the stuff, and located at convenient places all along

and located at convenient places all along the city's river frontage.

On the Allegheny river the floats are to be located at the following places: Between the Exposition and Sixth street, near the Ft. Wayne bridge, between Twenty-sixth and Twenty-eighth streets, between Thirty-second and Thirty-fifth streets, between Forty-first and Forty-third streets, near the Sharpsburg bridge and at Haight's run. On the Monongahela river between Grant and Smithfield streets, near the Four Mill run and at Hazelstreet, near the Four Mill run and at Hazelwood; on the Southside near Sawmill run, near South First street, between Ninth and Thirteenth streets, at Nineteenth street, and between Twenty-sixth and Thirtieth

Location of the Dump Floats.

Location of the Dump Floats.

The full complement of floats will not be provided at once. The ordinance requires that within six months after passage of the ordinance six floats shall be placed where Chief Bigelow may direct, and it makes it unlawful to dump garbage anywhere in the city except on these dump boats under penalty of a \$50-fine. The charge of delivering refuse is regulated as to the kinds, from sweepings, etc., at 20 cents a cubic yard, to \$2 a load and includes everything now hauled to the city garbage furnace to night soil and dead animals. The privilege of loading and unloading material transported by river is also given and a grant of ten by river is also given and a grant of ten years is named, in consideration of taking the refuse of the city streets at a reduced

the refuse of the city streets at a reduced rate not named.

The Pittsburg Sanitary Company had an ordinance before Councils last year containing practically the same provisions as this one, but it died in committee. The same gentlemen were named in the previous ordinance as the company. One of the company stated yesterday that they proposed eventually to spend \$175,000 in a plant for carrying on the work if the city gave them the privilege. Their intention is to flood the garbage down to Brunot's Island in which they are interested, where it will be which they are interested, where it will be dumped, distributed and separated. The sweepings, street cleanings and dirt of that character will be used to fill up the island, place it above high water mark, and make it valuable as real estate.

Making Money Out of Garbage,

The vegetable and waste matter will be converted into fertilizer and a schindery will probably be erected in which the carcasses of dead animals will be converted into give and the other products of such institutions. The expense saved to the city will be an item of importance. The garbage furnaces need no longer be sup-ported and the property occupied by them, which is valued at \$12,000 or \$15,000 can be realized on. The labor and fuel required for the garbage furnace on the bluff amounts to \$10,000 a year, while the Southside and East End year, while the Southside and Last End-furnaces would aggregate nearly as much, outside of the repairs and maintenance, which cost a total of \$1,000 more. The scheme seems to meet with the approval of the city officials generally. It was affirma-tively recommended to Councils by the committee with a number of other ordinances, which were as follows:

All These Were Recommended, Resolution directing the Chief of the De-partment of Public Works to report the number of rented stalls at the market partment of Public Works to report the number of rented stalls at the market houses and the amount of revenue received from them; opening Colombo street, Negley to Black street; Pacific avenue, Pennavenue to Breedshill street; Leopold street, Kearns to city line; Dauphiu street, Rebecca to Machida streets; Beatty street, Rural to Rippey street; Evaline street, Penn to Breedshill street; Manton alley. Carran, Alder to Ravenna; Susquehanna, Homewood to Albion; Finance and Dufermline, Homewood to Susquehanna, Tioga, city line to Albion; McDonald, Meadow and Ormand, Venus alley to Dayton alley and Race street; Walnut street, Ivy to Belletonte.

A Pointer.

"I am very much pleased with Chamber-lain's Cough Remedy," says H. M. Bangs, the druggist at Chatsworth, Ill. "During the epidemic of la grippe here it took the lead and was very much better liked than other cough medicines." The grip requires precisely the same treatment as a very severe cold, for which this remedy is so efficient. It will promptly loosen a cold and relieve the lungs, soon effecting a per-manent cure, while most other medicines in common use for colds only give temporary relief. Fifty cent bottles for sale by drug-gists.

Charged With Becelving Stolen Goods Mrs. Eliza Townsend, residing at No. 1004 Muriel street, Southside, was arrested at her home vesterday on a charge of re-equiving stolen goods. She was released on bail for a hearing. It is alleged that Ella Palmer, who is employed on a steamboat, stole a sewing machine and some other ar-ticles from Jacob Tickum. She stored them in Mrs. Townsend's house.

These little Pellets have better methods. They cleanse and regulate the whole system naturally. In other words, they do it thoroughly, but mildly and gently. There's no disturbance to the system, diet or occupation. They're the smallest in size, but the most effective in result—purely vegetable, perfectly harmless. Only one little sugar-coated Pellet for a laxative—three for a cethartic.

cathartic.

They're the cheapest pills you can buy, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get.

GENTLEMEN-During a professional life of

5 years, this testimonial is the second I
have given utterance to. However, I have
been importuned many times to do so. Testimonials should in all cases deal with facts.

After losing ten months of time and business from rheumatism I commenced the use
of "Rheumacura" December 5, 1891, and am
now practically well and have been for
some time.

now practically well and have been for some time.

I have delayed expressing my gratitude from the fact that I wanted to be sure that I was all right, as I did not want anyone to be misled by any statement that I might make. Any person afflict d with Rheumatism cannot make any mistake by giving Rheumacura a faithful trial. Yours very truly, DR. A. F. EMMINGER.

KAUFMANNS.

Only a step between boyhood and manhood. The boys of to-day will, in a few short years, be taking the places occupied by us now. How truly the Bard of Avon depicted life in "As You

Like It," from cradle to grave. The "tot" in Kilts; then the romping lad; a step, and we have the studious boy; a year or two more, and with all the warmth of early manhood kindled in his breast, he seeks a partner for life. Another step further we find him in the full vigor of manhood, aspiring to greatness in the field of statesmanship or

finance. One more chapter and the dark tide of life's meridian has been reached; now he is on the downward path. Next, full of years and

honor, he steps aside for the lad of to-day. We, as the acknowledged and recognized Leading Clothiers of Western Pennsylvania, must be alive to the various stages of man-

hood and boyhood. We must ever keep in view the age, purposes and financial condition of the one for whom we are cutting the coat; we must, in a sense, be mind readers. Our immense Spring Stock has been made and selected with a view to catering to the wants of the masses. We don't think we have missed getting

a single thing worth having; we have copied nature everywhere; the autumn woods, with their tints of indescribable brown, old oak, walnut, maple and ash are some of the shades of the clothing produced to our order. Blue, yet not blue, gray-brown, hazy mist and many colors that are indescribable on paper. These and many more for little boys 2 years old—and down the

ladder of our picture till we reach the plain, quiet, conservative taste of granddad. And all these at our matchlessly low prices—From 25 to 33 Per CENT BELOW ALL OTHER Dealers :: :: :: ::

And it's still the same honest, reliable make as of yore. Of course, the constant improvements in manufacture and our immense outlet have combined to enable us to put down the prices; but, as we say, the good, tried and trusted quality is still there. The effect has been phenomenal; the boys we fitted out 25 years ago are the men we clothe to-day, and our clothing has become a household word in every family in this section of the country. So much for a retrospect. Now for a look ahead. A future far more prosperous and successful than even our glorious past confronts us. This season in particular finds us with better facilities than ever to serve an intelligent, thrifty and appreciative public.

KAUFMANNS.

But, not another word. We will let our goods and prices say the rest
