OFFICE OF THE DISPATCH, PITISBURG, SATURDAY, April 23. The week's trade in produce lines has developed few new features. The supply of Southern vegetables has been large and

drift of markets is toward a lower level. Last season's stock of vegetables is dull and slow. The old is being steadily supplanted so low in price as they have been all this A year ago, the cost per bushel was about

the same as it now is per barrel. The family that consumes a bushel of potatoes in the week, has an advantage of \$1 50 per week over prices of a year ago.

proved in the past week, and an signs point to higher prices. The export demand for flour has improved, giving evidence that prices are down to hard pan and that future changes will be upward. Until the past month export demand for flour was very disappointing to jobbers, as well as North-

estern millers. The short crops of wheat in Eastern Eu-The short crops of wheat in Lastern Bu-rope last season were worked by bulls ar more than facts have justified. Rossis has managed to get along without importing as heavily from America as was generally an-ticipated by our speculators. Demand from that source has, however, shown decided im-provement in the past few weeks, and all signs point to higher-priced wheat and flour at an early day. Hides and Culfskins.

There has been a better demand this week than last, particularly for lightweights Steers are active at quotations, and all Steers are active at quotations, and an other anades are firm with prospects good for an advance. Calf and sheepskins are also in good request, nothwithstanding the fact that receipts are steadily increasing.

All offerings of calf and sheepskins are promptly taken at prices quoted.

The Boston Herald has this to say of the mation and outlook in boot and shoe lines: "The boot and shoe situation is not much changed. The number of buyers here in person is diminishing; the majority of these buyers, having finished their orders, have departed for home. Still there are a few buyers left, and they are placing some orders or buying samples. The number of imples sold for fall goods is remarkably large and if the volume of trade is anyhere nearly up to the same proportions, ie fall trade will be a heavy one. Indeed, the feeling is rather buoyant concerning the fall trade. The country is in better shape to take a heavy volume of goods than last year in all sections except the South, and in the South the position has improved somewhat, since cotton has advanced about le "In spring goods manufacturers are still

The volume of the spring season en a heavier one than might have spread, for the reason that trade has dull all along, with the exception of lines of goods. In these special es there has been a very heavy trade, and s in such special lines that the trade is iding out the best, some of the manu-cturers of special lines have all the orders t hand that they can possibly fill, and with hese manufacturers trade is very good."

Coal Stocks Inclined to Advance, but They, Too, Are Pulled Down by the General List-Even the Good Bank Statement New York, April 23.—The stock market to-day was moderately active, but being under the hammer for most of the session was weak almost throughout; and while the

limited nature of the speculation prevented any heavy declines or wide fluctuations, the esses were material in all of the leading The Coal stocks were inclined to advance

shares.

The Coal stocks were inclined to advance during the early part of the day. The purchases for Philadelphia account were marked, though as that center was so lately a seller, it is probable that the demand was to cover shorts exclusively. The effect, however, was to advance the stocks lever, was to advance the stocks lever, was to advance the stocks. If per cent, and to some extent the general list felt the influence. The room, however, was still Dearlishly inclined, and the published utterances of the representative of one of the largest foreign Lanking houses, that the movement of gold outward would probably continue for some time, but supplemented by a further advance in exchange rates, encourared the traders to attack the list, which they did with vigor and unusual impartiality, and under the pressure everything yielded.

Reading, St. Paul, Northern Pacific preferred, Atchison and New England were the active stocks, but they moved with the rest of the list, and the losses were remarkably uniform. The usual rally toward the close failed to come, notwithstanding the favorable nature of the bank statement, which showed a large gain in cash and an increase in the surplus reserve of over \$3,000,000. There were no special features, and the Coal stocks gave way with the rest in the late dealings, the market finally closing active and weak at the lowest prices of the day. The final changes are all losses, and they extend to 1 per cent in Jersey Central, Lake Shore and Northern Pacific preferred.

The following table shows the price of active stocks on the New York Stock Exchange yesterday. Corrected daily for The Disparch by Whitney & Stephenson, oldest Pittsburg members of the New York Stock Exchange, 57 Fourth avenue.

THE WEEK IN OIL

Russian Competition the Principal Bear Card-Cause of a Slump.

Card—Cause of a Slump.

Trading was light and the range of fluctuations narrower. The market was steady to firm up to Saturday morning, when it weakened on a statement, presumably from inside sources, that the average price of oil this year will be less than in 1891, due to active competition from Rassia, which is making heavy inroads on the European markets for the American product. As the average price of oil in 1891 did not exceed 65, there does not seem to be much encouragement to buy this year if the price is to be less. Fluctuations are shown in the following table:

WHAT TO EAT

is a difficult problem with many people because but few articles of food agree with them. The doctor says

AVOID GREASE and the result is unpalatable food. The reason the physician objects to grease is because lard is the article most used, and every physician knows that hog lard in any shape is unhealthy and indigestible.

Every one interested in pure and healthful food hails with joy the new product

COTTOLENE

which is composed of pure cottonseed oil and pure beef suet-nothing else-not even salt. It is better than either lard or butter for all cooking Poses, and one pound of Cottolene will do as much as two pounds of lard or butter, and it costs less than either.

Every housekeeper that tries Cottolene will find in

it just what she wants. Beware of imitations-get the geniune of your grocer. N. K. FAIRBANK & CO., CHICAGO.

The stomach can deal with a drop when it cannot deal with a spoonful.

Scott's Emulsion is codliver oil broken up into drops invisibly small; each separate drop is wrapped in glycerine so that the taste is lost.

This is why Scott's Emulsion is the easy and effectual form of cod-liver oil. Hypophosphites of lime

and soda combine in tonic effect with the half-digested oil. Let us send you a book on

Scott & Bowne, Chemists, 132 South 5th Avenue, New York. Your druggist keeps Scott's Emulsion of cod-liver oil—all druggists everywhere do. \$1.
