OFFICE OF THE DISFATCH, PITTSBURG, MONDAY, April 25. There were 58 carloads of cattle on the

market at East Liberty this morning, against 52 loads last Monday and 60 the previous Monday. Of to-day's offering some 23 loads were from Chicago and 6 loads from Omaha. The balance were from Ohio and Indiana. Though there were offered to-day a few beeves that were considerably above the late average in quality, the general average was no better than it has been for some weeks past. Buvers were on hand in the usual force, and markets opened strong at an advance of 10c to 15c per cwt on prices of a week ago.

The greatest advance was on light tidy butcher beeves, which were in very light supply. The supply of this grade of cattle

supply. The supply of this grade of cattle has not been equal to demand any time this senson. Sales were reported as high as a nickel a pound, which was 50c per evit above the highest price obtained last week. Stockers were in light supply, but there were sufficient for all demands. The late cool weather has been adverse to trade in this line. **Good Fresh Cows Scarce.** There were not all told above 30 head of fresh cows on sale at Liberty, and the bulk of those offered were of inferior quality. Choice stock was in good demand at outside prices, but low grades were dull and slow. The range of markets was 520 to \$40 per head, and one sale was reported above the outside price. Calves were in very heavy supply and prices were lower. There were bound on sale and more than doub's this number were promised for Tuesday. The range of markets was 4c to 4½ co per 1b. Sheep-Markets opened with about 20 loads The range of markets was 220 to 540 per , head, and one sale was reported above the outside price. Calves were in very heavy supply and prices were lower. and an advance of ½c for July. Provisions wound up firm at 10c improvement over Saturday's closing price for pork and a gain of 5c each in lard and ribs. In wheat the opening was ½c advance and the market ruled strong, advancing an ad-ditional ½c and eased off ½G%c, closing steady. The early strength was influenced by the backwardness of the season being made so apparent by the various official State bulletins. The visible supply state-ment remained a matter of uncertainty until late in the session and trading whilo waiting for its appearance was extremely light. Some operators professed to see a bullish card in a dispatch from Washington saying a census of the House showed the Hatch bill could not pass. Pardridge, it is current gossip to-night, is short of July whest 8,000,000 or 10,000,000 bushels. Irwin-Green bought a good deal of wheat to-day, supposed to be for Captain Phillips, who has heretofore been quite a bear. In the corn pit Norton and Worthington sold out about 500,000 bushels of long corn early in the session. Outside of that there was no conspicuous individual trading. The price was well maintained at from 42c to 4½c for May, but weakened toward the end of the session, and in the last ten minutes the sellers crowded the price down to 411½c, and it closed at 14%c. downtown business property, because the owner refused to "split the difference," about \$3,000, with the buyer, is significant as showing that owners realize the possibilities of central property, and see no reason for making concessions. Whether they are right or wrong in exacting their own terms is their own business; but it is certain that more sales would be effected if buyers were humored to a reasonable extent. It cannot be denied that property-owners have a right to ask what they choose, and that they are pursuing this course must be taken as a sign of confidence on their part rather

than an indication of fictitious values. If the latter were true, the bottom would soon fall out of the market. Yesterday's Building Record. Yesterday was a fairly good day in the

to-day was again a quiet and narrow one with small fluctuations even among the leading stocks, and while there was a gen-

There was con siderable trading in Reading, Atchison and St. Paul but the short interest in those stocks is known to have been largely in-creased of late, and the stiffness of the prices of those shares may have been owing

creased of late, and the stiffness of the prices of those shares may have been owing to some covering. The only really strong spot in the list was Hocking Valley, both the common and pre-ferred rising over 1 per cent on light trans-actions, and these gains are based on the improved prospects of the company entirely. The Richmond and West Point securities were still quieter, than last week, and, except in Beading, there was no feature among the coal stocks, the late rumors hav-ing no foundation and few believers. The opaning was in all cases lower, with excep-tional losses extending to 3% per cent. The pressure upon Northern Pacific preferred immediately made itself feit, while the strength in the Hocking Valley stocks was equally as pronounced, but the general list followed the first named and fractional losses were the rule. The selling, however, never reached large proportions, and prices rallied toward noon, and, while extreme duliness marked the dealings after that time, there was a slow but steady apprecia-tion in values which as a rule wiped out the early losses with some additional gains. The only features of the late trading were the sudden rally in Lackawanna from 157% to 159%, and the slow and steady drop in Mis-souri Pacific, which finally brought it below the level of all other stocks, and it stands alone this evening in showing a material de-cline for the day. Monday is uniformly an off day in this line. Trade to-day is reported by commission men alone this evening in showing a material de The market finally closed dull but steady

The market finally closed dull but steady to firm despite some realizations in the last hour, but the final charges are in all cases immaterial, except in Missouri Pacific, which is down 1½ per cent. Raitroad bonds were devoid of feature, and a selling movement in the Atchison incomes furnished the only fitem of interest in the day's operations. The bonds furnished \$173,000 out of a total of \$1,414,000 for the day. Prices remained without decided tendency throughout the day, and transactions were restricted to a rather small number of issues.

The Drygoods Market.

The Drygoods Market. New York, April 25.—The drygoods mar-ket opened with fair prospects for the week, although there was but little new develop-ment. Cotton flannels were in chief request in cotton goods, but there was more inquiry and more business in other articles. Dress goods continued to receive special attention and there were some good sales in flannels and blankets. Prices for flannels are about settled, showing but slight modifications from those of last year. Indications were favorable for a more general trade tor fail during the week. Converters show more interest and are taking a good many brown cottons. The jobbing trade was moderate. The print cloth market was very firm and fairly active.

THE MONEY MARKET.

No Prospect of an Early Change in Interest Rate.

The week in local financial quarters opened with considerable animation in routine lines, and some improvement was noted in the offerings of commercial paper. A cashier remarked that, owing to the large A cashler remarked that, owing to the large amount of idle funds in the country, gold exports, unless they assumed large propor-tions, which is not likely, would be a benefit, rather than an obstacle, to business. There is no indication of an early change in the in-terest rate. Bank clearings were \$3 33, 150 b, and balances \$460,356 64, against \$3,935,023 30 and \$712,361 33, respectively, a week ago. According to a compilation by Mr. R. J. Stoney, Jr., the capital surplus and undi-vided profits of the 65 banks in the county agregate \$39,290 bl2, and the deposits \$33, 369,425, making a total of \$12,648,440. This is an increase of about \$11,660,000 since Jana-ary 1, 1800, the gain in deposits alone during that period amounting to \$3,852,248.
