### Nearly Made a Record.

His fifth try at bat almost yielded nuother great hit. And Counie Mack, too. was on deck with the stick. He made a fine three-bagger and was cheered so much that he subsequently sent the ball to the 25-cent seats for another home run. This was all very pleasing, but it really left the Baltimores so far behind that there was comparatively little enthusiasm over the tall slugging.

And Old Sport Galvin pitched another good game, although he surprised his oldest acquaintances by giving three bases on balls in succession and forcing in a run. This was, indeed, something remarkable for Jeems. The fielding behind him was once more brilliant, and the only error credited to the team was a highly excusable one

made by Bierbauer in trying to effect a double play. He made a bad throw and a run scored on account of the throw. Alto gether the home team put up a splendid

#### In the first inning Miller started off by knocking a grounder to Schoch. Schoch's Numerous Errors

The latter threw the ball over first has and Miller reached second. Bierbauer made a little single to left and Miller reached third. Bierbauer got to second on a passed hall, and then Smith got his base on balls, filling the bases and nobody out. Farrell knocked up a little fly, which Whistler cought, and Beckley sent a grounder to Schoch, who fumbled the ball, Miller scoring and Beckley reaching first all right. Sill three men on bases and then a wild pitch scored Bierbauer. Shugart got his has on balls, and Corkhill's single scored Emith and Beckley.

In the next inning Galvin struck out and Miller got his base on balls. Bierbauer made another single, and still once again schoch made a fumble on Smith's grounder and Elmer reached first, Miller scoring. Farrell's sacrifice hit scored Bierbauer.

In the second half of the inning, Whister made a single and reached second on a passed ball. Pickett sent a fly to Miller hich was caught, and Gilbert struck out. Then Jeems to vary his history as a pitcher gave three bases on balls in succession and forced in a run. This was followed by a hit by Van Haltren, which scored anothe run. Healy was nabbed at third.

#### Mack's Big Hitting.

In the third inning after Shugart had struck out, Corkhill made a single and got to second on a fumble by Welch. Then it was that Mack swiped out a three-bagger to left, scoring Corkhill,

In the fifth unning Van Haltren made a single, and so did Schoch. Wood sent a grounder to Shugart who threw Schoch out at second, and Bierbauer in trying to make a double play threw too low to Beckley, and Van Haltren scored on the error.

Bierbauer started the sixth inning and got a tremendous thump at the ball, knock-ing it clean to the left center fence. In the ninth inning Smith started with a single and reached second on Farrell's sacrifice. Beckley's fly was caught by Welch, and Biugart made a lively single to right. Corkhill got his base on balls, although he was struck out, Umpire Gallney evidently being mistaken. Mack kept up the fun by ending the ball to the center field seats, all this netted four runs, three of them

## The League Record.

TONY MULLANE, of the Cincinnati club, prob-ably fields his position better than any other pitcher in the comutry. Hc faces the hardest hit balls without a wince and gathers in nine out of every ten of them. He never lets a bail pass for the infielders that he can possibly get his hands on. In the latter respect he reminds one so much of Latham-he's so different. Notes of the Amateurs. MATTIGAN and Leyman will be the battery for the South Pittsburgers in a game at Jeannette to-day. Catarrhai Deafness. "The rapidity with which the catarrhal process extended to ears, throat, bronchial and stomach." said Mr. Jerry Garvey, Sharpsivarg, Pa., "was in my case not only remarkable, but extremely alarming. "I seemed always to have a cold, nose stopped up, and constant formation of mu-cus, dropping into my throat and causing continual hawking and spitting to expel it. "The insidious disease soon attacked the enstachian tubes, and extended to my ears, causing roaring and

eustachian tubes, and exte-causing roaring and buzzing noises and duliness of hearing in my cars. The published evidence of the skill of Drs. Copeland, Hall and Byers was so convine-ing that I determined to go to them. Under their treatment the ringing noises have stopped, and the hear-ing is entirely restored. In fact, I feel as well as ever I did in my life."

Mr. Garvey.
