

N' my be some interesting legal complications.

The Burgess Counts as One.

Council

tion of

The law governing boroughs in this State provides for a council of six men, who are alone empowered to enact the legislation of their town, but it is provided that the court issuing a borough charter may, on petition of the proper persons, designate that there shall be five Councilmen and that the Burgess shall have the right to a seat in the Council. Under the act of 1834, borough Councils were allowed only five men and the Burgess was made Chairman ex officio, but the act of 1851 took away from him any such power and in 1871 the borough Councils were increased to a membership of six, and that is the limit. In the case of Duquesne seven Councilmen were elected, although that borough's charter makes the Burgess a member of Council. In his opinion Judge Stowe decided that the two extra men were not entitled to seats, and that the Burgess , nd five Councilmen were all that could old office.

Cit e Etna, Sharpsburg, Millvale, Knoxville id other boroughs in this county there are six regularly elected Councilmen and the Burgess, who presides as Chairman, votes when his vote is needed and exercises all the powers of a Councilman.

Getting Even With the Bargess.

In the case of Etna borough, although there is only one Democrat in Council and six months. the town is overwhelmingly Republican, there is a majority who have a grievance against the Burgess which they have nursed for two or three years, and they are taking the opportunity presented by Judge Stowe's decision to get even. Burgess Martin has held the office for four years. He is a pop-

The Randall Club have completed arrangements to attend the Democratic National Convention at Chicago in a body The club will travel to and from Chicago in a special train. They will remain in Chicago for four days, and they are arranging to make the trip decidedly enjoyable. Speaking of the contemplated trip yes-terday President Duncan, of the Randall Club, said: "Yes, we are going to Chicago in good style, and we are going there heart and soul for some Western candidate for the Presidency."

Lima Oil for Fuel. Chief Bigelow yesterday accepted the proposition of the Philadelphia Company o supply the Brilliant pumping station with natural gas for fuel for a period of six months at \$7,000 per month. The contract will go into effect to-morrow, or as soon as

E. C. Dunnavant, of the Lake Eric, is one of the few passenger men in the city who is posted on the business. He spends a great deal of his time in the clubrooms, and he is a walking encyclopedia of facts about hunt-ing and fishing grounds. He knows all the nooks and corners in the old resorts, and the burners which have been used for the Lima oil fuel can be replaced with natural The city's contract with the Standard Oil Company for Lima oil was so arranged that t could be cancelled at any time, and Chief there is no new place that escapes him. Every year the demand for new grounds, new streams that have never been fished, Bigelow yesterday served notice that he would take advantage of that provision to would take advantage of that provision to-morrow. In burning Lima oil the city paid by the quantity of oil consumed, but the gas contract is a fixed price, no matter how much is consumed. Mr. Bigelow was asked what he would do when the six Loud Demands for Good Fishing. nonths contract expired.

Loud Demands for Good Fishing. This season the elamor is louder than ever, and the prospects for the fishing busi-ness were never better. Last year such clubs as the Soho, Seymour, Whitcomb. Yough, Solid Comforts, West Penn and others camped in the Gravenhurst, Severn river and Lake Nipissing regions in Canada. This summer these clubs expect to go back to the St. Clair river and the Gogebic section in Wisconsin. Mr. Dunnannt says Canada, for several reasons, is losing its standing with camping clubs. A number of old anglers, who have fished all through the Nipissing and Muskoka Lake regions in the Dominion think the fish are not as game as in the St. Clair river. An-other drawback is the high rates to Canada. The fare to Michigan points is only about months contract expired. "Either make a new contract with the Gas Company or return to oil," was his reply. "If we can get a six months gas contract that is reasonable we will continue to use gas, because it is the most satisfact-ory tuel in the world, but if the price is too high we will go back to coal. I have had enough of Lima oil. It's a good steam maker, but it's too expensive. The only way I would go back to using it would be by a contract at a fair fixed price, allowing us to use all we need. I am chad I made a us to use all we need. I am glad I made a contract with the Standard Company that could be cancelled, for it makes it possible to save the city about \$30,000 in the next

farm. The opinion of City Attorney More-land on the matter, the substance of which has already been printed, advising that ad-vertisements be inserted for a new farm, ig-noring all offers that have been under con-Chairman Perry gave notice that he had the offer of a farm of 100 to 300 acres at

\$225 an acre, on the Monongahela river 25 miles from the city, but as proposals are to be invited the parties offering this farm will be required to make their proposition in the regular way.

DIED IN AN ELEVATOR SHAFT

William Murphy Killed While at Work in the Magee Building. William P. Murphy, one of the foremen n the Magee building, Fourth avenue, was instantly killed yesterday morning. He had the building of the elevators in charge and was at work on the freight elevator. He started to descend from the top floor in the car and when about 75 feet down fell

out and lodged between the car and the wall. His neck was broken and his head badly erushed. He was a widower about 45 years of age, and lived at Wilmerding.

MOTHER IN JAIL, PATHER AWAY.

increases the size of the park and adds to its value by securing an entrance from Stanton avenue. The land is worth the money for that purpose alone, as it makes the park more convenient and consequently more popular with the people. I think Mr. Bige-low did wisely in buying that property. As to the lots to be purchased, they were sur-rounded by park property and there was no alternative but to secure them." cretary Dorente Takes Charge of Two Children Left Alone

Mrs. Katherine McCabe, living in ear of No. 159 Forbes street, is in jail The fare to Michigan points is only about half as much. Then the Canadians have a waiting a hearing on a charge of enterng No. 153 Forbes street and stealing a gold watch and chain and \$178 belonging o Frank Storer.

half as much. Then the Canadians have a disagreeable habit of charging duty on guns, fishing tackle and camp para-phernalia. The money, to be sure, is given back when the club returns, but the boys don't like the inspections, delays and red tape. Mr. Dunnavant ex-pects to see a decline in the Canadian busi-ness this summer, while the rush to Michi-gen and Wisconin will be increased Mrs. McCabe has two children, but her husband is aeldom if ever at home. Secretary Dorente, of the Anti-Cruelty Society, was notified of the children being left alone and took them and placed them in the Tannehill Orphan Asylum.

cheap clothing jumps into the newspaper and the un-

scrupulous are the loudest bargain givers (?) as a rule. ENTERING the field of ad-Other Improvements to Be Made. A new conservatory of modest cost and dimensions, a new music pavilion and other similar improvements are contemvertisers our aim has always been and always is plated in addition to those already men-tioned. Most of them will be finished this summer and the park will, it is expected, divide honors with Schenley in point of popularity with the people before the sum-mer is over. to tell the truth. Here's a

point which you shouldn't lose sight of. A garment Mayor Gourley was expected to disapprove the ordinances for the addition of this land to the park, but he says he has been in favor of it ever since he understood the situation. Said he: "Highland Park is a beautiful place, and its only fault has been that fits well, looks well, wears well, is cheaper than the garments you get for its inconvenience to persons who do not have conveyances. By securing the Peo-ple's Bank property Mr. Bigelow gets some desirable property at a low figure, increases the size of the park and adds to its relate the securing an entrance from Stories nothing.

WEAR should be the first object to be considered, and what better evidence can we give to the wearing quality of our clothing than to guarantee to keep them in repair for you free of charge for one year?

city and spends the time in camp until the fires are relighted in September. The bulk of these outdoor clubs in the two cities are made up of working people. Each club av-erages from 40 to 60 members, and as a rule, not less than these outboards in the two cities in the not less than these numbers join in the summer camping trips. The list of visitors will swell the figures, so that it must be apparent that the clubs are a great source of profit to the railroads. E. C. Dunnavant, of the Lake Erie, is one

arbitrary chairman and has a habit of ting out any member who takes opposite position to him, and has even been referred to as shutting "the Czar," on various occasions. At the last meeting of the Council the question of his right to preside was raised. The bor-rough solicior, T. J. Ford, was present, and when asked for an opinion he replied that, under the law and the borough charter, the Burgess had no right in Coun-cil business except to approve or disapprove ordinances, resolutions or other business of that character. The next meeting of the Council will be held to-morrow night, and there is much speculation as to what will be done. Those opposed to the Burgess declare their inten-tion of ignoring him and calling for the election of one of their number as chair-

Mr. Martin Will Test the Law.

man.

It is also stated that Mr. Martin has deeided to step down and out without a pro-test, but this is denied by his friends, who say he has consulted legal authorities who have advised him to carry the case to the Supreme Court, where they say the law will be declared unconstitutional.

The charter of Etna was granted under the act of 1851, and has no clause making the Burgess a Councilnian. Knoxville is in the same position, and several of her citithe same position, and several of her cit-zens have been consulting legal advice with a view of removing the Burgess from Coun-cil. Sharpsburg has a special charter issued before the act of 1851, but at present has seven Councilmen, including the Burgess. The borough solicitor, W. P. Potter says that while the Burgess has no legal right to sit as chairman of Council, he may do so by the courtesy of the body though having no right to a vote. At the present time the question is an

important one in Millvale borough owing to the fight on there between the Manchester and Pleasant Valley street car lines. A copy of the borough charter could not be found yesterday, but it was stated that it provides for the Burgess sitting as a member of Council. If this is true there should only be five Councilmen instead of six as at present. It is claimed that if the question is taken into court the election of three Councilmen last February will be declared void, and a new election ordered, because there should have been only two elected. In that case the Manchester Trac-tion people feel assured of victory because, they say, the people are with them.

JUDGE OVER'S FORESIGHT.

Why the Compbell Heirs Thank Him fo

Refusing Permission to Sell. An example of Judge Over's foresight and good judgment was shown in Orphans' Court yesterday in the case of the Campbell heirs. Six months ago the guardian of one of the heirs, through Attorney Charles Scovel, asked permission to sell his ward's interest in a 50-acre tract of land adjoining

the Meise farm. The price to be paid then was \$500 for one-third interest. It was argued that a few months before a similar interest had been sold for less. Judge Over, however, decided that as the land was within two miles of the oil field it would be well to wait. On Wednesday the biggest Gordon well known was struck by C. R. Buchheit on the Meise farm, and yesterday the court was asked to approve an il lease, for which a bonus of \$5,000 had been paid and a rental of \$60 per month is also to be given. Outside of this the heirs will get a royalty.

Women Remonstrate With the Mayor. Mrs. Colonel W. A. Herron, President of the Woman's Health Protective Association, yesterday presented to Mayor Gourey the remonstrance adopted by that body trainst the garbage ordinance. The Mayor ion. ion.

It Meets the Mayor's Approval.

Mayor Gourley and Chief Brown, of the Department of Public Safety, held a conference vesterday in which the ordinance placing the suppression and regulation of poolrooms in the care of the police depart-ment was discussed at length. The Mayor considers the ordinance a good one.

A NEW MUSICAL INVENTION.

Is it an Organ or a Plane? All the objections to a parlor organ are at isst done away with by this new invention. It has seven full octaves (as many keys as the steinway grands) and looks exactly like a fine upright plane. There are no stops in view nor any unsightly bellows pedals, but the instrument is worked by two pedals ex-actly like those on a plano, and a 6-year-old child is able to work them with ease. The delicacy and variety of its tones are won-derful, and the touch so light and quick that the most difficult plano places can be exe-vided theron without difficulty. It is a mar-velous improvement on the common parlor oreau, and has created a great sensation in musical circle. The price is not higher than that of the ordinary organ. H. Kleber & Bro, 566 Wood street, Pittsburg, are the sole agents, and they invite all, whether pur-chasers or not, to call and see it. Kleber & Bro, are selling these wonderful instru-ments as fast as the manufacturers can fur-ments as fast as the manufacturers can fur-ments as fast as the manufacturers can fur-Is It an Organ or a Flano? up the river are covered with tents during the summer, and the same thing is true along the Pittsburg and Western road. The well-known Waverley Club always camps at Moravia, on the Beaver river. The camp is opened early in the summer, and is maintained until late in the fall.
