Wire nails are selling at a basis and cut nails at \$1 60. At these price to manufacturers are well nigh obliterated. to manufacturers are well high conterated. Nail manufacturers who can declare divi-dentis at present prices must possess un-neual advantages in securing raw materials. Putstour - manufacturers of nails have of into years practically abandoned the nail trade, because there was nothing in it.

Nails Sell Lower Than Ever.

It was thought a year ago that prices of nails had touched bottom. But it seems that there was a lower stratum, and to-day the price of nails is lower than it has been in the history of the trade. In war times prices went up to \$7 per keg. The same money will now buy about four and a half The demand for refrigerators, ice cream

The demand for refrigerators, ice cream freezers and fly screens has opened up ear-lier than usual this senson, and all sizes point to a much larger volume of trade this senson than last in these lines. In all hardware lines margins are close and the only saivation for the dealer is in large sales. The manufacturers who come out more than even at present prices, are not in the uniperity. Events have proved that Pittsburg nail makers who abandoned the trade years ago have been justified in their actions. To have been justified in their actions. To have continued in the trade would have entailed loss. Canned Meats Going Up.

Canned Meats Going Up.

Trade in this line has been steadily on the grin of late, and prices of canned, chipped and roast beef have been advanced. Corned and roast beef have been advanced. Corned and roast beef have been advanced in the past week from \$160 to \$170 per dozen and chipped beef from \$170 to \$180. Volume of April's trade was fully 50 per cent larger than for the same month hist year. A representative of one of the leading Chicago firms, in an interview yesterday, said: "Our sales of corned and roast beef for April were equal to 5,000 cases, and we have now orders on our books for as much

have now orders on our books for as much more. Notwithstanding recent advance prices are lower than they were at this time a year ago.

Growth of the Banana Trade.

The produce commission merchant, who brought the first barrel of bananas to Pittsburg in war times at a venture, is still hale and hearty, though he has retired from active business life. In a recent interview the retired merchant said that he had all he could do to dispose of that first barrel of

The change 'twixt now and then is demon-The change 'twixt now and then is demon-strated by the fact that it is no unusual thing for our dealers to receive 30 carloads of humanas in a single week. On Monday of Lis week an entire train of humanas, com-prising 12 carloads was received by Thomas H. McGowan, a Liberty street commission merchant. And the difficulty of selling this amount was less than that of the original hurrel which was received at the beginning of trade in this line.

It is a matter for congratulation that Pittsburg has no real estate boom. The only experience of that kind in local history proved so disastrous that it is not likely to be repeated by this generation. A scarcity of New England was developed in the loan crowd, and the limited buying of that stock was evidently for the short ac-count, which resulted in a rise of $\frac{7}{4}$ per cent before the demand culminated. A drive was made at Northern Pacific common, with the effect of knocking its price down about $\frac{13}{4}$ per cent on light sales: but the raid was be-lieved to be for the purpose of shaking out preferred stock. The pressure was trans-ferred to New England late in the day, and more substantial results attended this effort, for the stock, after selling as aligh as $\frac{39}{4}$ in the carly dealings, retired to $\frac{37}{4}$ in the late trading. many cases for large amounts, as re-n the city papers show. for the stock, after selling as night as 39% in the early dealings, retired to 37% in the late trading. The Sugar Trust people put supporting orders on their stocks to neutralize the pos-sible effects of legal and legislative move-ments which are being made against them, but the narrowness of the market gave the bears a chance to raid other stocks, of which they availed themselves. There were more transactions in the Texas Pacific se-curities at advanced prices because of the impression that the meeting of the stock-holders in June will result in the defeat of the anti-railroad party. The Edison Trust receipts were again of about 1% per cent, but the rest of the market was without feature or interest, and the close was duil and barely steady after the raids, with prices in most stocks at only slight changes from those of the opening. The total safes of stock To-fern Pacific, 4,300; preferred, 9,432; New England, 34,326; Reading, 48,725; st. Paul, 9,400; Western Union, 1,953. There was more animation in the bond market, without the great preponderance of a few issues in the dealings, as usual of late; but the common was widely ard evenly distributed throughout the list, with a firm temper. The transactions reached \$1,768,000, and beside the Atchison incomes, the Chesa-peake and Ohio 45% and some others were brought forward as leaders in activity. The strength of Richmond and West Point and texas Pacific was a feature. The following table shows the prices of active stocks on the New York Nock Exchange yesterday. CREAMERY BUTTER SEEKS A LOWER Poultry Quiet at a Reduction-Buyers Still

OFFICE OF THE DISPATCH, PITTSBURG, TUESDAY, May 3. -Anarchist pamphlets denouncing the Czar find means to circulate in Russia. -The Newfoundland Legislature has re-newed the discriminatory tariff against COUNTRY PRODUCE-Jobbing Prices-At the Monday sales of creamery butter at Canada. Eigin, prices were from 1 to 2c per pound -Nicholls, the editor of the London An-archist newspaper, the Commonweal, has been indicted. lower than the previous Monday. The lower rates will be due here in the latter -Miss Tipton, of Altamont, Tenn., has committed suicide because a woman she loved had left her. part of the week. In the meantime markets

are weak, with the situation in favor of buyers. Country butter is in good supply and markets are quiet. Receipts of eggs have been light for a few days past and markets are firm at outside quotations. From all trade centers both East and West the report comes that eggs are climbing up-

ward. Poolity is not so firm as it has been for a week or two past. High prices have called to our markets supplies of poultry from unusual sources. There came by rail yesterday 630 pairs of chickens from the Cumberland valley of Tennessee.

Manchester Traction Continues Its Progress, With Few Sellers in Sight-Du-

quesne and Central Follow a Long Way Behind-Other Features of the Day, There were a few interesting features in the local stock market yesterday, but for the most part it was narrow and somewhat

stereotyped. The strongest spot was Manchester Trac-tion. It sold at the first call at 41%, and advanced steadily till the finish, when 42% was bid, with none in sight under 43. The bulge

was attributed to expectation of a dividend in July. There was repetition of the talk of a pooling arrangement with the Pleasant Valley. Duquesue and Central were a triffe firmer. There were no conspicuous changes in other parts of the list. The Natural Gas shares were about steady. Airbrake closed a good fraction better for the day. Luster and Switch were weaker. firmer.

Sales at first call were, 100 Central Trac-tion at 29%, 15 Switch at 17, 10 Philadelphia
