## PASTOR AND PEOPLE.

The Larger Hope Is Now a Bone of Contention in the Churches.

TENNYSON'S VIEWS OF THE FUTURE

Some Topics to Be Discussed in Our City Pulpits To-Horrow.

GLEANINGS FROM CHURCH FIELDS

The questions which most agitate the religious world to-day are as to the future of the impenitent. The "larger hope" has of late years become a popular phrase with been embraced by the clergy is difficult to determine. Certain it is that preachers of this time do not preach eternal punishment this time do not preach eternal punishment as they did a generation ago. Whatever the orthodox clergy may believe on this Bretnren."

John Weidley, pastor—Services at 11 A. M., subject, "The Transfiguration of Christ," and at 7:45 F. M., subject, "Joseph and His Bretnren." question they no longer proclaim the doctrine of hell as it was believed and preached in the olden time. Heretics who dulge the larger hope are arraigned from time to time, but it is evident that their following is large. Tenuvson in his "In Memoriam," long years ago, seemed to have expressed the sentiment which at this day is bringing hereties into conflict with ecclesiastical machinery. This is what he said:

O, yet we trust that something good will be the final good of ill To pange of nature, sine of will, Defects of doubt, and taints of blood. That nothing walks with simless feet,

That not one life shall be destroyed Or cast as rubbish to the void When God bath made the pile complete.

Behold, we know not anything: I can but trust that good shall fall At hist-far off-at hist, to all, And every winter change to spring.

NEVER in the history of the clothing trade have merchants made so "much ado about nothing" as at this time. Every vender of cheap clothing jumps into the newspaper and the unscrupulous are the loudest bargain givers (?) as a rule.

ENTERING the field of advertisers our aim has always been and always is to tell the truth. Here's a point which you shouldn't lose sight of. A garment that fits well, looks well, wears well, is cheaper than the garments you get for nothing.

WEAR should be the first object to be considered, and what better evidence can we give to the wearing quality of our clothing than to guarantee to keep them in repair for you free of charge for one year?

SUCH satisfaction is not offered elsewhere; in this respect we have no competition; everybody seems to be anxious to sell cheap stuff: our aim is to sell good stuff cheap. Our lines of stuff cheap. Our lines of
