> SPECIAL TELEGRAPHIC LETTER.] BURFAU OF THE DISPATCH.) WASHINGTON, D. C., May H.

Gorman's Speech.

The week in Congress ends with the naval appropriation bill in the air. The Democratic Senators, one by one, are acknowledging that their colleagues in the House have put their party into a very deep hole, not only on the general issue of so-called economy, but upon a number of separate questions involved in the clauses of the appropriation bills. Of all these no one is ore important, both patriotically and politically, than the question as to the development of the new navy in the direction of coast defense.

Under the guidauce of Mr. Holman, the Democratic majority of the House has been as it was in name. solish enough to send the Senate a naval appropriation bill which is usterly inadequate to continue the present scheme of enarging our force of commerce destroyers and of hattleships. The bill as it passed the House provides for one sea-going battleship. The bill as it is before the Senate provides for two fast sea-going battleships, and also for two coast-defense monitors, as well as eight light-draught gunboats and several torpedo boats.

Mercly a Sample of the Issnes.

This is but a single example of the issue chich has arisen between the House and on the expenditure of public or previous condition of servitude. Niggardly parsimonionsness of the numer. ise, coupled with its excessive liberality in the river and harbor appropriations for Democratic districts, has disgusted the party managers, who have just begun to see that ex-Speaker Reed scored a great point the other day when he excoriated Mr. Holman for his hypocrisy in opposing all ap-propriations except those of personal and

tical advantage to himself. So far has this feeling gone against Mr Holman's narrow and bigoted policy that even Mr. Hill has found it necessary to retreat by denial from his announced inten-tion to exploit "economy" as the chief te in the coming Presidental campaign, while Senator Gorman, the most astute and tur-seeing leader of the Democratic side of the Senate, has been careful to declare in over of increased, instead of lessened apit departments and for the new mayy.
