THE LOCAL LIVE STOCK

Receipts of Cattle at East Liberty Light and Quality Low.

GOOD BUTCHER BEEVES ADVANCED.

A Better Market Than Last Week From

Seller's Standpoint.

SHEEP AND SWINE ARE ALSO HIGHER

OFFICE OF THE DISPATCH, PITTSBURG, MONDAY, May 16. At the East Liberty yards there was an improvement all along the line of live stock, as compared with last week. Butchering cattle, fresh cows, calves, sheep and hogs all brought better prices than a week ago. The better prices were mainly due to light receipts, as reports from other centers indi-

cate weakness of markets and lower prices. Markets opened at East Liberty stock yards with 60 carloads of cattle on sale against 65 loads last Monday, and 83 the week before. In to-day's offerings there were about 47 carloads from Chicago. The average quality of offerings was much beaverage quality of ollerings was much be-low that of last week. There were no prime heavy beeves on sale, and few light primes. Buyers were present in small force at the opening, but more were expected later on. Markets opened active at 10c to 15c per cwt advance on last Monday's prices for all butcher beeves. A carload of 1.175 lb cattle was sold at \$4.35. There were none on sale worthy to bring above \$4.50. From the seller's standpoint markets were decidedly better than they were a week ago, notwithbetter than they were a week ago, notwith-standing the fact that average quality was much lower.

Fresh Cows Higher.

Receipts of fresh cows were the lightest of the season. There were only 27 head on sale against more than 100 head last Monday. A sale of seven head at \$38 per head was reported. One shorthorn Durham of extra quality was sold at \$65. Receipts of extra quality was sold at \$65. Receipts of calves were light and markets were 50c per cwt higher than a week ago, with 5c as top. Sheep—Markets opened with 20 carlonds on sale against 25 loads last Monday. Good sheep were ingood demandat lot to like better prices than were obtained a week ago, while interior grades were steady at former prices. Wool sheep are no longer a quantity in our local markets. Top price of clipped sheep was \$5.45, and of spring lambs 9c per 1b. sheep was \$5 45, and of per lb.

Hogs—There were 17 loads on sale at the more expected later

Hogs—There were 17 loads on sale at the opening, with a rew more expected later on. Demand was active at \$5.09 to \$5.05 for tops. At Chicago receipts to-day were 40.000, or 7,000 above the estimate, and at Buffalo receipts were more than four times as large as here. Pittsburg proved to be the highest market in the land to-day, owing to light receipts.

Run yards 185 head of cattle from Chicago. All were sold at a range of \$3 75 to \$4 80 per owt. The same firm had on sale \$34 clipped yearling lumbs and 78 hogs. The lambs were sold at a range of \$6 to 64c per lb, and hogs at an average of \$5 15 per cwt.

A NARROW MARKET

Caused Surprise in Chicago Yesterday-Pardridge the Best Individual Buyer-Cudaby Was a Big Seller-A Signal Service Prediction Helps Prices.

CHICAGO-The chief surprise to the wheat trade to-day was the narrowness of the market. The change in the weather map was a very radical one and naturally caused lower prices, but the price this evening is only %c under Saturday's final figures. Corn was relatively weaker than wheat, and is Jac down. Pork is 5c off, but lard and ribs

are about unchanged. Pardridge was about the best individual buyer of wheat, evidently covering shorts. Logan & Co. had liberal buying orders, but the crowd generally sold freely, both in the way of getting rid of long property and sellway of getting rid of long property and sening short. Wright, who has been a vigorous
bear all along, seemed to be none the less so
at the deelline. Cuds by was reported to have
sold 500,000 at 80% @81c. The final footing of
the report, a decrease of 1,679,000 busilels,
was within the scope of the popular estimate, and had little effect when posted. Du-

luth figures gave the market a little bulge and raised hopes of a larger decrease, and this caused a little easier feeling when the result was known. An offsetting influence was the Signal Service prediction that another general rain, reaching as far as Chicago, will prevail over the West on Wednesday. The opening for July was \$40% lower than Saturday's closing, and the market declined 1/20 more, rallied 1/20, receded 1/20, ruled steady and the closing was about 1/20 lower than Saturday.

There was not that selling pressure in corn that was expected with the improvement in the weather. A collapse was so generally predicted with these conditions that the change was largely discounted. The July price started on a break of about 11/20 from Saturday, lost another fraction, made a fair recovery at once, and held in narrow limits the remainder of the day.

For oats, the weakness and decline in other grains had a depressing effect, and opening sales were at \$400 c decline. After prices receded a shade more a stronger feeling developed and prices advanced 1/20%, but receded slightly, and closed with a net loss of \$100 c.

but receded slightly, and closed with a net loss of %@%c.
Provisions opened lower on a heavy run of live hogs and lower prices, and a further decline was precipitated by the commission men selling and the weakness in wheat and corn on reports of fine weather. Shortly afterward the market firmed up slightly on a few of the "shorts" covering. There was very little doing, and the closing was from steady to firm all around at about the outside prices of the day.
Vessel room was in good demand, and rates held steady at 2c for wheat and 1½c for corn to Buffalo, and 1½c for oats to Port Huron.

THE TREND OF TRADE. A New System of House Building Introduced Into Pittsburg.

GOOD EXAMPLES IN THE EAST END.

Local Speculation Increases in Volume, but Some Figures Reduced.

ANOTHER GOOD LIST OF NEW BUILDINGS

Pittsburg is as full of new ideas as of business. It has been mentioned that a Scotchman has sent here for suggestions to be utilized in an office building to be erected in Dundee. Several American cities have done the same thing. Pittsburg promises to become as noted for its archiecture as for its iron and glass.

Within a year a new scheme in house construction has been devised and carried out in this city which is attracting considerable attention in other places. Iliustrations of this important innovation may be seen in the cementine houses of the Messra. Chess. Steel fireproof lathing is fastened to the usual framework of wood, and covered with German Portland cement in an artistic manner. The materials and process are simple. The effects are artistic and pleasing.

Examples of the System. One of the houses referred to, that of Mr. Walter Chess, on Wightman street, is after designs by Mr. Sauer, and represents a rather conventional suburban type in its general makeup. The interest lies in its admirable representation of rock-faced range work, produced by clever modeling of the cement. This is colored to a pleasing warm brown. The hardness and durability of these cement

walls seem beyond question.

Very different is the style of the pair of houses of Mr. H. B. Chess, also done in cementine, on Aiken avenue, Shadyside. These are from designs furnished by Mr. F. J. Cooper. The walls are produced as in the other case by high grade Portland cement application to the same steel fabric, but the treatment is quite different. The large surfaces are left flat in coarse sand finish, and decorative effect is secured from a free use of moldings, brackets, etc., all executed in cement in the same way as the body of the structure. Even the window heads, sills and jambs are so produced. The cement has been left gray in tone, and in their handsome setting of the old carefully preserved maples these houses present a decidedly pleasing and interesting departure.

Handsome Interior Effects. Interiors are equally interesting. Wood trimming about doors and windows is largely dispensed with and the full color value of the decorated wall comes up to these openings. The walls meet ceilings in all the rooms in graceful elliptical coves springing from picture molding which seems part of the wall. The troublesome inside shutter question is cleverly met by screens which slide sideways into the hollow walls, out of sight and entanglement. It is needless to say the whole interior plastering is done on the same fire-resisting lathing as is the exterior, and that no strip-

ping off by any accident is possible.

As a whole, these structures present the results of an intelligent and successful effort to devise a new system of building, and are well worth visiting.

Homes for the People.

Seventeen permits were taken out yester-Seventeen permits were taken out yester-day for 20 improvements, aggregating in cost \$19,617. The most important are: Samuel Giffin, frame dwelling on Boggs' avenue. Thirty-second ward, \$2,000; Samuel Sweeney, two frame dwellings on Monte-zuma street, Twenty-first ward, \$3,000; C. H. Watkins, frame dwelling on Burrowe H. Stark ward, \$1,625; Mrs. Mary J. Williams and M. Stark ward. ning, brick store and dwelling on Wylie

avenue, Eleventh ward, \$1,700. Special Features of Trade.

The week opened with considerable ctivity in nearly all business lines. William McFarland, the East End dry goods merchant, has torn down the old building on his lot on Penn avenue, between Speridan and Highland, and will at once begin the erection of a four-story business

house.

The bad condition of Perrysville avenue is keeping back a large number of buildings. Mud and progress are incompatible.

The Pennsylvania Renting Company has sold to B. P. Wallace a block of 57 lots in Jefferson township, for \$14,430.

Statistics show there were in the United States in 1890 II,483,318 dwellings, occupied by 12,690,152 families, aggregating 32,622,250 parsons.

12,699,152 families, aggregating 32,622,250 persons.

Good building lots in the Shadyside district at \$20 a foot front should meet the popular view. This price is certainly low for such a city as Pittsburg.

Michael Geary has sold his stock and retired from the Exchange.

The First National Bank of Duquesne commenced business yesterday in a regular way. The annual meeting of the Manchester

Traction Company was held yesterday evening. It is reported in another column. Additional Points in Realty. Howard Brown sold to Michael Page lot No. 60, Bank of Commerce addition ex-tended, Brushton, having a frontage of 50 feet on Baxter street by 250 feet in depth

Trading of Fair Dimensions, but Values in Some Cases Seek a Lower Leve!-Birmingham, Central and Pleasant Valley

Disposed to React. There was a fairly good market yesterday. but prices were inclined to weakness. This was especially noticeable in the street railway list. Central Traction dropped below 30, and even Pleasant Valley let down a fraction. Duquesne was held up, but Bir-mingham weakened a trifle on heavy selling at the last call. Manchester was about

FOREIGN BUYING

CROWDED UP PRICE; IN THE NEW YORK MARKET YESTERDAY.

The Bulls Kept Out at First, but Rallied Later-No More Herring-Hall-Marvin Safe Company Preferred for Sale-News of the Day. New York, May 16.—The stock market to-

day exhibited a firmer temper in the main than during the latter part of last week, but the improvement was largely due to the entrance of the foreign element into the market as a buyer. The bears were inclined to be as aggressive as ever, but the appearance of foreign buying orders in the market not only checked the decline, but rallied the entire list, including the specially weak

not only checked the decline, but rallied the entire list, including the specially weak points of the last few days. The generally accepted opinion is that, owing to the extent to which the bears have pushed their advantage, things are ripe for a rally of some proportions in the near future. The undoubted heavy demand for good railroad mortgages and the prevailing and prospective ease in the money market of the chief manerial centers renders any bear demonstrations unlikely of success except of a transient nature, and the exceptionally high prices to which a few specialties have been pushed have failed to develop any disposition of their holders to part with them. The crop advices have not been the most encouraging, but the senson is not vet far enough advanced to base any extended operations upon them, especially as a few favorable days would wipe out the difference between this and last year.

The market to-day was still narrow, but yielded only to organized pressure while the strength of the grangers was a most encouraging treature, nearly offsetting the weakness in Hocking Valley and Sugar. The improved condition of affairs in London will tend to still further strengthen the disposition of English investors to deal in American securities. In this connection and particularly as bearing on American industrial combinations of strong standing comes the announcement that the Herring-Hall-Marvin Safe Company 8 per cent preferred stock has been withdrawn from the market where it has been but a few days, because the offerings were in excess of the amount of stock for sale. The lists for the common stock will close on Thursday next, because of the already heavy orders.

The bears renewed their attacks after the

for sale. The lists for the common stock will close on Thursday next, because of the already heavy orders.

The bears renewed their attacks after the London buying was over, and again succeeded in making a marked impression upon Northern Pacific preferred and Hocking Valley, but the rest of the market was well held and later a substantial rally occurred, which placed all the leading stocks on a higher level and the final changes show some material gains. The close was quiet, but steady to firm though generally at insignificant changes for the day.

Ralinoad bonds were less animated and showed only slight fluctuations, though Reading Convertibles are up 1% at 63%. The transactions reached \$1,56,300 with no special activity in any portion.

The total sales of stock to-day were 230,772 shares including: Atchison, 5,789; Chicago Gas, 11,539; Delaware Lackawanna and Western, 4,300; Erie, 4,500; Hocking Valley, 12,485; Louisville and Nashville, 6,651; North American, 4,300; Northern Pacific common, 2,310; Northern Pacific preferred, 29,946; Reading, 13,010; Richmond and WestPoint, 3,614; St. Paul, 14,600; St. Paul and Omana, 5,630; Union Pacific, 24,525; Wheeling and Lake Erie, 4,000.

TRAFFIC IN CASH. Stocks and Bonds Absorb Considerable of

Chicago's Idle Capital. The local money market yesterday was quiet, with no changes in conditions from Saturday except a slightly better demand for call loans. Rates were easy at 5@6 per

cent. Bank clearings were \$2,753,565 80 and balances \$572,969 14. The Chicago Journal of Commerce says of the market there: "The feature of the money the market there: "The feature of the money market is the continued ease, with offerings in excess of the demands, which are only fair. The market for call loans is weak, and loans have been made as low as 3 per cent, but the general rate was 3½ to 4. Commercial paper is readily taken, and there is unusual activity in local securities and bonds at advanced prices. The feature of the week was the placing of the 44,000,000 stock and \$2,500,000 of bonds of the new consolidated packing house syndicate—the International Packing Company—all being taken at par."

At New York yesterday money on call was easy at 1½ to 2 per cent; last loan, 2 per cent; closed offered at 2 per cent. Prime mercantile paper, 365 per cent. Steriling exchange quiet but steady at \$4.85½ for 60-day bills, and \$4.87% for demand.

Grain, Flour and Feed. There was but one sale on Monday's call at the Grain Exchange, namely, a carload of No. 1 white oats, 37c, spot. Receipts as bulletined, 46 cars. By Pittsburg, Ft. Wayne and Chicago Railway-1 car of corn, 16 of oats, 8 of hay, 6 of flour, 1 of wheat. By Pittsburg, Cincinnati and St. Louis-2 cars of bran, 1 of oats, 2 of hay. By Baltimore and Ohio-2 cars of oats, 2 of hay. By Pittsburg and Lake Erie—I car of rye. By Pitts-burg and Western—3 cars of hay, I of wheat-Carcai markets give no signs of improve-ment. The situation remains as it has been for some days past, in favor of the buyer. Receipts of oats are very heavy, and as a result markets are weak, with an inclination to lower prices. Following prices are for carload lots on track. Dealers charge an advance from

The Drygoods Market. New York, May 16.-The drygoods market opened with good encouragement as regards the weather, but the demand was irregular the weather, but the demand was irregular at first hands and quiet with jobbers. With business largely accomplished for autumn as well as for the current season little more is expected than further developments for next season. In that direction there was more doing in plain cottons, chiefly for water transportation, but there were no indications of an immediate general movement. Agents have expected to do more at this time, but buyers are inclined to wait awhile yet, perhaps until June. Yet an active demand is liable to spring up at any moment.

New Church at Sharpsburg.

The English Lutheran Church building of Sharpsburg has grown too small and a new one is to be erected. The Episcopal Society may purchase the old structure.

An honest druggist will invariably tell you that the genuine Johann Hoff's Malt Extract is the standard of the world.

1st. It is recommended by the medical fraternity throughout the civilized world.

2d. It is now and has been for thirty years used by the royalties of Europe. (Write for pamphlets giving fac-similies of appointments from kings and emperors). 3d. It is a standard remedy for

indigestion, general debility, weak-

nesses of women, coughs, hoarseness

and catarrhal affections-in short, it is the FIRST and best nutritive tonic. Be sure and obtain the genuine. The signature of "Johann Hoff" is on the neck of every bottle. Eisner & Mendelson Co., Sole Agents and Importers of Mineral Waters, 6 Bar-

clay street, New York.
