dispatches. The date of the trial of Mr. Dencon has been definitely fixed for the 20th inst. This date was fixed upon by the President of the Court of Assizes, the Pro-curer of the Republic, and M. Edgard Demange, Mr. Deacon's counsel. Mr. Edgard Demange is a member of the Paris bar and is a man of considerable talent. He is an eloquent speaker and has great dialec-tical skill. He has already won fame in connection with various causes celebresua. Mrs. Deacon will not be present at the trial, but her position will be read to the

jury. The State prosecution will be in the hands of M. du Noiron, the Procurer of the Republic. The members of the jury, who have been appointed by drawing lots, are chiefly residents of the country round about Nice.

The hall in which the trial will take place is of small dimensions, and in view of limited accommodation it affords, Parisian and foreign reporters are already forward-ing their requests for seats, which are all at the disposal of the President of the court.

#### EIGHTEEN MEN DEOWNED.

The Bark Earl of Aberdeen Wrecked on the Pembroke Coast.

LONDON, May 16 .- The bark Earl of Aberdeen, was wrecked on the rocks on the Pembroke coast this morning. Eighteen men were drowned. Two of the lifeboats were ruined and only one was left for use. The Captain says: "When I launched the lifeboat I called

to the crew to join me. The sea was breaking over the deck so heavily, however, that they feared to leave the rigging. The only exception was a black sailor named Sebastian, who jumped from the rigging and joined me. We drifted ten miles waist high in water, our boat having shipped a number of heavy seas. Then the steamer Scotairlie sighted us and came to our rescue. The remaining 18 men were drowned."

#### GENERAL GRESSER'S CRUELTY.

#### The Cause of His Death Was Bis Acts in Bis Official Capacity.

LONDON, May 17.-The Telegraph's Vienna correspondent says: There is no doubt that General Gresser, the Prefect of St. Petersburg, was the victim of a plot of which Gatchowsky was impocent, and that the plotters tampered with the "Vitaline" with which General Gresser was treated.

Two plans have been formed to remove Gresser within the past six months. His treatment of criminals and suspects was barbarous. He addressed authors and barbarous. He addressed authors and journalists like common laborers, and often banished them without a trial. He introduced the system of torture of non-political prisoners in all prisons. All attempts to persuade the Emperor to remove him failed.

#### GEEMANY AGAINST BIMETALLISM.

#### A Belief That the Silver Conference Will Not Be Satisfactory.

LONDON, May 17 .- The News' Berlin correspondent says: In financial circles here a belief prevails that the international silver conference will have no satisfactory results. Germany will only accept the invitation because she does not desire to hold aloof from the other powers.

The Government and the Reichstag have always been opposed to bimetallism. They even rejected a motion a few years ago de claring Germany's willingness to negotiate it England previously adopted bimetallism

Steamer and Passengers Reported Lost, ST. PETERSBURG, May 16.-It is reported from Astrakan that the steamer Alexander Wolkow has foundered in the Caspian Sea and that 250 passengers were drowned.

to Mrs. Bryant's bedroom. She was sleep-ing with two little children and the man attacked her with a light wing knot, striking her two blows on the head. She undertook to scream and was fearfully choked. Finally the man became trightened and left. It was supposed that his motive was to get some money which Bryant had received trom sales of cotton and had put in his trunk. When Bryant left home Saturday night his wife asked the cook to remain with her. but she refused. This led to the cook being suspected, and a report comes that she finally confessed that it was a plot between herself and her two brothers, the Rowden negroes and Will Cantor, to get Bryant's money, and she and Cantor were to go away and marry on their share. The three negroes were arrested yesterday while hiding in a swamp, and put in the Childers-

burgh jail. A mob of 50 men went there in the night, but the marshal was informed of their pur-pose and drove them away with threats. They retired across a hill, and the marshal went home to bed. This morning he found his prisoners gone. The discovery of the two bodies in the river followed soon after.

# WILL HAVE A COMBINE.

# Pittsburg, Cincinnati and Indianapolis to

Be in a New Theatrical Circuit. Managers Henck & Fennessy, of the People's Theater, Cincinnati, have entered into a combine with Harry Williams, of this city, to have a circuit of variety houses in connection with the Pittsburg and Cincinnati houses. It was the intention to secure establishments in St. Louis, Louisville and Indianapolis, but, not succeeding entirely to their satisfaction, Mr. Henck finally determined to purchase ground and erect a new theater in Indianapolis. For the present their operations will be confined to Pittsburg, Cincinnati and Indianapolis. The circuit will be known as the Empire. Only first-class comedy, vandeville and spectacular attrac-tions will be run. Louis Robie will look after the People's Theater and James E. Fenneasy will be General Manager of the

Fennessy will be General Manager of the circuit, also of the new theater which will also be known as the Empire. Manager Williams will look after their interests at this end of the line. Manager Williams said yesterday that the object of the combine was to secure

only first-class attractions and keep them in the circuit. St. Louis and Louisville will probably be added later when the scheme has been thoroughly tested. now in use, and yet have it weigh but half as much.

### ELLIOT BOROUGH IMPROVEMENTS. A Proposition for the Issue of Bonds to

## Come Before the Council.

The Burgess of Elliot is at present in rented quarters, and it is suggested that a municipal building be erected this summer for the accommodation of the Council and Burgess, and also quarters for prisoners. The borough is badly in need of a lockup, as no provisiou of any kind has so far been made for the keeping of law-breakers.

Bonds will also be issued for the improve-ment and opening of streets. At the next meeting of the Council something will probmeeting of the Council something will prob-ably be done looking to the issue of bonds, and the work on the proposed improve-ments, should the proposition be 'carried, will begin early in the summer.

New Combination Car for Second Avenue

The first of a number of combination summer cars for the Second avenue line was received yesterday, and immediately put on trial. Five more will be received from the Stevenson Car Company of New York by the middle of June.

Will Use the Killen Scaffold. The scaffold for Fitzpatrick's execution

will be the one constructed for Alexander Killen, whose reprieve came in time to spare his life.

country and a member of the Lehigh Uni-versity Faculty, is quoted by Lieutenant Brown as saying: "The reason that an aluminium spoon is listed at \$1 50 is that it is made, engraved, and polished like a silver spoon by a silversmith, and they sell perhaps 160 a month. An aluminum spoon could be stamped out of a sheet, and since it contains about 3 cents' worth of aluminum, the cost should not be over 5 cents. But Government spoone are made by themask. spoons are made by thousands. If the makers of these spoons bought hard-rolled aluminum sheet, stiffened with titanium, they could easily stamp them out and sell for 5 or 7 cents apiece. Regarding alum-inum canteens—the meat can and cup—if these orticles was made he theorem. these articles were made by thousands, they should not cost more than one and a half or two times as much as ordinary material. The extra cost of the fork should not be more than 4 cents apiece, or a total of 9 cents each, if stamped out of aluminum stiffened with titanium." The Canteen Will Never Bust.

the manufacture of saber and bayonet scabbards and many like articles of equip-

ment. The picket pin, which weighs not less than 22 ounces, ought to weigh, if made of this alloy, not more than 11 or 12 ounces, and would doubtless be found fully as serv-

Germany Utilizing Aluminum.

## It is shown that with aluminum at \$1 50

# per pound in the manufactured shape the saber belt and infantry cartridge belt plate can actually be furnished in aluminium for can actually be furnished in aluminium for less than they are now supplied in brass by the War Department. This, of course, is largely due to the fact that the specific gravity of aluminum is less than one-third that of brass. The canteen made of this material will never rust and will not only be more durable than the tin one, but the water contained in it will always be pure instead of being contaminated with iron rust, which is now frequently the case. Lieutenant Brown is having made at Lieutenant Brown is having made at Pittsburg of the aluminum-titanium alloy two picket pins, and expects that their weight, even with the present iron swivel head, will be a half, and possibly less than a half, that of the present iron pin. Of its durability he cannot say at this time, but intends to give it a thorough trial in actual service.

intends to give it a thorough trial in actual service. The saber belt plate, which he submits, has been tried in the army for two months, and during that time has not been cleaned or polished in any way. The curb bit has been used for about two weeks, and sub-jected to a test sufficiently severe to demonstrate that it is perfectly practicable to make a curb bit of aluminum which is as safe as the present one. There seems to be no doubt that the aluminum alloy will be better for this purpose than the purp metal. better for this purpose than the pure metal, and by its use Lieutenant Brown hopes to secure a stronger and safer bit than the one

# ENDED WITH A BALL.

spent this forenoon in hearing reports of individual churches and the afternoon in listening to the reports of the American and foreign mission committees. A committee was appointed to take charge of the con-struction of a fine church edifice in Wash-

ington City. To-night over 600 persons attended a re-ception at the Grand hotel tendered by the churches of Cincinnati and violaity. It was followed by a ball in which the young people took part.

Through Cars to Highland Avenue.

A change in the running of cars was made on the Duquesne electric road yesterday. Heretofore passengers to and from Highland avenue and neighborhood were required to change cars at Craig street. Through cars are now running to both Larimer and Highland avenues. A sign hanging from the front cap of the car designates which avenue the car is bound for.

BE sure to get in at the great sale of short lengths of carpets at Groetzinger's this week. 627 and 629 Penn avenue.

SECOND PUBLIC SALE

AT

裟

THE WONDERFUL success attending the first public sale of lots at the new town of ALIQUIPPA, at which 110 lots were sold on a dismal, rainy day, and the great interest of the investing public in the new town which has manifested itself in an average sale of ten lots daily for the past four weeks, has induced the company to hold a second public sale at the grounds on the above date. TRAINS WILL LEAVE THE P. & L. E. STATION AT 7, 8, 12:30 AND 2:55, CITY TIME. TICKETS CAN BE SECURED AT THE OFFICE, ROOM 30, WESTINGHOUSE BUILDING.

# THE RECORD OF A MONTH.

The growth of Aliquippa in the past month exceeds all precedents. Almost one-half of the property has been sold. Five big factories have located there, whose working population will insure a town of 4,000 people, and new factories coming. The lots average but \$300 apiece, affording a splendid investment. Purchasers are already holding their lots at an advance of 50 to 80 per cent, while the original prices asked by the company remain the same. Aliquippa offers a safe investment that will double or even treble present prices within a year. Aliquippa needs homes. Buy a lot at \$300; build a house for \$1,000. It will be a sure renter for \$200 a year or more. This means a \$1,300 investment paying over 15 per cent in addition to the enhancement on the value of the property. Can savings banks or building and loan associations do as well? Many choice lots are still left, but they are going every day. Your golden opportunity will be at the sale, SATURDAY, MAY 21. Don't miss it. Call at the office in the meantime for plans and information. We want you to thoroughly investigate the prospects and strength of Aliquippa before investing a dollar.

ALIQUIPPA STEEL CO., WESTINGHOUSE BUILDING.
