A NEW STEEL PLANT ASSURED.

What a Leading Dealer Has to Say About the Situation.

REPORTS FROM ALL TRADE CENTERS

OFFICE OF THE DISPATCH, PITTSBURG, FRIDAY, May 20. RAW IRON AND STEEL-Trade during the week was not very active. In regard to certain articles the same unsettled condition of affairs continues, and there seems little indication of any early change for the better. The Amalgamated iron and steel scale will come up for adjustment on the 1st of July. As usual there are plenty of rumors about what will be demanded from both parties; but rumors don't count for much. As a matter of fact business has been in a very unsatisfactory condition for some time. Certain descriptions of iron and steel have been disposed of at the lowest prices ever recorded, but it is evident that ottom prices have been reached. Certain makers of pig iron have set their figures and refuse to accept less. As usual, citymade iron continues to command top figures. On the other hand, there are unknown and outside brands that require shading before sales can be effected. These sales are gen-

emily of limited amounts, and are used as mixtures with better descriptions of iron. Some Buyers Not Very Confident. Certain buyers believe present prices are kely to continue for some time yet, and that, therefore, nothing is to be gained by probasing ahead unless concessions from nt rates can be secured for future detre not very anxious to make contracts for ong deliveries at present spot prices, feelthat it is only a question of a few on to renize on current output, and the raing of this from on the market cannot il exerting a depressing effect. The committee of the Southern producers connues brisk at certain points in the West

spatch from Youngstown says: "It is rected near this city during the summer that it will turnish employment to from a 1,000 men. The capital stock has been ed at 5500,000. The major part of it has a subscribed and there is little dealst of entire amount being placed here. Among to who have taken large blocks of the k are the Youngstown Iron and Steel many, the Andrews Iron Company, and Malsoning Valley Company, It is extend that the output of the plant will be a 800 to 1,000 tons per day, all of which find a ready market in the rolling mills as Malsoning Valley."

What a Leading Dealer Says. What a Leading Dealer Says.

A leading dealer has this to say? "The exected movement toward better prices has of yet put in appearance. Nevertheless affigence now in operation must in the not my distant future develop something of kind. The steady decrease in the supind. The steady decrease in the sup-post of itself bring about an adjustment unity, but when we add to that a little demand the movement, when once d ought be a fairly rapid one. But the is not easily arrowed, and before such ary meets general acceptance it will be an accomplished fact. Improve-tioning about by decreasing produc-not one to arouse much enthusiasm.

i it is usually a preliminary to a of a more definite and decided charreduction of the output of pig the rate of over three-quarters of heavy surinkage, and upon that basis scheved that demand and supply will be adjusted to current requirements." UKI-SMELTED LAKE AND NATIVE ORES.

SHILL DULL AT CINCINNATL Most Boyers Distrustful of the Future of

the Market.

CINCINNATI, May 20.-[Special,]-Rogers, Brown & Co. say: The tone of the pig iron parchet, has continued dull and with few atures of interest. Some large contracts been closed by agricultural implement nkers for next season's deliveries, and ers are in the market for large blocks, t are retusing to buy at higher prices for extent for next season, though not generally diverses running into next year than they as yet, and there was more business in prints and low-grade bleached cottons, which are d on nearby deliveries. Most buyinue to distrust the future of the as they will go and order only special steady. The South is buying more freely than for some time past. Clothing woolens were without new feature. The jobbing trade was fair, but with no incident of importance are to shipment. Not a few buyers acconveniently caught by not calculations.

St. Louis-Wool-Receipts, 73,000 pounds; shipments, 26,000 pounds. The food restricts movement and sales are light. The tone of the market, however, is steady and prices are soliding firm at established prices. Shipments are going forward at a repid rate, and stocks in the Southern Sales, at least, are being reduced. At the same time, there is a good deal of iron piled up at certain firmaces. The leading Southern for years just, and realizing sales are not necessary. The widely extended floods have disarranged matters in the West, and one manufacturing concerns have been opped. Prospective less of crops has also said question as to the future. MORE INQUIRIES THAN SALES

Chicago Iron Market,

CHICAGO, May 20 .- [Special.]-Rogers, Brown & Merwin say: A moderate amount of ton-nage booked, with conflued numerous in-quiries, describes the market during the past week. Some good-sized contracts have been placed, deliveries in many cases running 6 to 12 months. These have been on the part of consumers, satisfied that prices can go no lower, and that any fluctuations are likely to be in an upward direction. There is no change in the position of pig There is no change in the position of pig-manufacturers. Their view is that the con-ditions are all healthy: that production is no longer in advance of consumption; that the cost of manufacture has been nearly or quite reached, and that rather than make further cuts in prices they prefer to accumulate stocks. Meanwhile, the amount of iron in the hands of consumers is grow-ing less, and the time when a free buying rovement must set in is being hastened. movement must set in is being hastene Many astate buyers realize the situatio and are quietly securing options and guar anteed quotations covering the longest de liveries obtainable. While no further sag ging of prices seems to be probable, there are on the other hand few indications point are on the other hand few indications pointing to any material change during the next four months. Lake Superior charcoals continue to constitute one of the most interesting departments. The position of the leading turnace companies is unchanged. While large buyers are still talking \$16 Chicago, many are quietly closing at the market figures, which remain \$16 75 to \$17. The indicatons are that these figures will be maintained, as the existing conditions are all against a lower range of prices.

LIGHT DEMAND AT ST. LOUIS.

Principally Owing to the High Water, and

Coal Stocks Are Now Running Low. St. Louis, May 20.-[Special.]-Rogers, Brown & Meacham say: On account of the flood in the Mississippi river, the demand for iron has been very light during the past week. All of the railroads on the east side of the river are under water, and it is with difficulty that the trains are able to go East or to Chicago. It is more than probable or to Chicago. It is more than probable that, even after the water recedes, the railroads centering in East St. Louis will be unable to handle freight of any kind for ten dars, on account of damage from the flood. The coal supply is very short, and it looks as if a large number of manufacturing industries will be compelled to close down in a lew days. However, coal can be secured for use of the St. Louis manufacturers from the West if the present supply is explanated. the West, if the present supply is exhausted, but at a price probably 100 per cent in excess of present trade prices.

Low Offers at Philladelphia.

PHILADELPHIA, May 20,-[Special.]-Rogers Brown & Co. say: The pig iron market seems to be a shade steadier this week. We have numerous offers to report, most of which have been at figures ridiculously below the maximum selling price. The promptness with which said offers have been refused is having a wholesome effect, and will probably stimulate buying.

The Metal Markets.

THE MARKET BASKET.

Garden Stuff Gains in Quality and Decline in Price. At the Diamond market fruit and vegeta

ble stalls the week's trade shows some improvement over the previous week. Home raised garden stuff is in better supply than it was a week ago, and with improvement in quality, there has been a steady decline in prices. Asparagus, lettuce, rhubarb, and, n fact, everything in the garden line, is in much better quality than last Saturday, and prices are reduced all along the line. There has been no time this season when the market basket could be filled with the choicest vegetables at as low rates as it can be at this time. Strawberries from the Eastern shore put in their first appearance the past lew days, and all that is wanted in this line are o be had at reasonable rates. Butter has ouched its lowest point for the season, being in much larger supply than our markets are able to absort. A good quality of country rolls is to be had at 16c per pound Eggs are firm at better prices than ruled a week ago. Florists report slow trade, with prices declining, as our quotations will disclose. Outdoor flowers are now near to their best, and the regular trade suffers accordingly. Spanish mackerel are particularly scarce and prices are advanced.

Rapid Transit Beginning to Move Things on Greenfield Avenue.

A NICE RESIDENCE PICKED UP.

About Sums Up the Present Condition of the | Oil Dealers Combine to Purchase Land at the National Capital.

FEATURES OF MONEY AND SPECULATION

Rapid transit on Greenfield avenue, making access to and from the city easy and cheap, has greatly stimulated the lot market in that quarter To meet the increased demand a new subdivision will soon be placed in the market. Building is being pushed forward with great vigor. Senator Flinn is maturing a scheme in this line which ranks with the most important conceptions of the season. The B. & O. will soon begin a series of improvements which will add materially to the beauty of the locality. A few months ago Greenfield ave-nue was a "back number." Now it is full of vim and progress. Rapid transit works wonders. Sale of East End Property.

Mr. P. C. Duffy, proprietor of the Old Battery, on Grant street, has purchased from the Schenley Park Land Company, through the Peter Shields agency, the John I. House residence property in the Green-field avenue district for \$9,000. It consists of about one acre of ground and a sub-stantial house of 14 rooms. The purchaser

will make some changes in the place and occupy it as a summer residence. A New Oil Combine.

A syndicate has been formed in this city, the principal member of which is Mrs. M. V. Taylor, the Queen of the oll trade, for the purpose of purchasing a large tract of land adjoining Washington, D. C., on the northeast and on the line of the Baltimore and Ohio Railroad. The majority of the syndicate are Pittsburgers. The others are residents of Oil City and Titusville. All are engaged in the oil business. If the deal be successful, of which there is no reason-able doubt, the land will be sub-divided and improved somewhat after the manner of the East End of this city. It belongs to an estate, and has only recently been put in the market. It is valued at upward of

Handleapped by Bad Roads, For the past two or three months sales of real estate have been impeded by the re-luctance of buyers to wade through mud to look at property. Every real estate broker in the city knows this to be a fact. If made accessible by good roadways and rapid transit facilities, neglected districts would soon be built up, with the result of a larger revenue to the city.

Yesterday's Building Permits. Six permits were taken out vesterday for the same number of improvements, all estimated to cost \$16,950. The most important are: Thomas M. Ulam, brick stone front dwelling on Wallingford avenue, Twentieth ward, \$6,500; Mrs. Samuel Schaffer, brick dwelling on Park avenue, Twenty-first ward, \$3,400; Mrs. L. Y. SHAKING OUT THE TIMID THE PROBABLE OBJECT OF THE WALL STREET BEARS.

attacks Concentrated on Northern Pacific Preferred and Erie-Floods Also Continue to Weaken the Grangers-The Market, Being Oversold, Holds Its Own Stubbornly.

PEx. div.

NEW YORK, May 20.-The stock market today continued to show a fair volume of business, but as usual of late, the greater part of the trading was directly the result of the bearish operations, and while prices were for the greater part of the day firm to strong, the impression grows that the short interest is again rather unwieldy, and the activity is due to efforts to cover without

The belief that the market is largely over sold aids materially in creating a resisting power, which prevents material losses, despite the very aggressive position taken by the bear leaders of late: and while the public, in view of the late developments in both Northern Pacific and Atchison, are inclined to be still more cautious in their pur chases, the evident manipulation having for its object the shaking out of weak holders, and, undoubtedly, of depressing prices to enable covering, gives encourage ment to holders that a revival of interest i not far in the future. This sentiment prevents the bears, also, from hanging on to long, and while drives at particular stocks have become more frequent of late, the rally follows closely; and periods of depression are, therefore, of comparatively short dura-

are, therefore, of comparatively short duration.

To-day efforts were again concentrated upon Northern Pacific preferred, and later on the Erie stocks. The preferred stocks of the latter road were carried down rapidly for a time. The Granzers, also, suffered to some extent, but the efforts in most of them were believed to be for the purpose of covering, and the prices were held firmly, while Lake Shore and Hocking Valley were among the weakest stocks. The low-priced shares were more largely dealt in, but made no movement of importance, and the strongest points in the market were again the Industrials.

In the afternoon, after the general rally,

trials.

In the afternoon, after the general rally, the Grangers, especially Rock Island and Burlington, were made to bear the brant of the pressure. The floods were brought forward as the excuse for this drive, but there was no thought of selling either until the bears discovered that great damage was being done along the lines of these railroads. The result was to depress the prices of these stocks about 3 per cent each, and the general list at last gave way in sympathy, so that the late dealings had a very weak appearance, despite frequent rallies in the list. The close was active and weak, with the leading stocks at or near the lowest of the day. The trading was 374,095 listed and 20,270 unlisted. Eric contributing 46,240; Northern Pacific preferred, 23,240; Rock Island, 37,399; Burlington, 36,800, and Atchison, 35,480.

The total sales of stocks to-day were 394,365 shares, including: Atchison, 35,480; Chicaro Gas, 9,160; Eric, 46,250; Hocking Valley, 3,613; Louisville and Nashville, 7,660; Northern Pacific, 43,240; New England, 4,900; Readne, 25,419; St. Paul, 26,000; Union Pacific, 14,950; Wheeling and Lake Eric, 4,200.

OFFICE OF THE DISPATCH. PITTSBURG, FRIDAY, May 20. COUNTRY PRODUCE-Jobbing Prices-Butter is a drug on the market, and prices of all under fancy are nominal. Country roils are hard to sell at any price. New cheese is oming in freely, and prices are on the decline. Old cheese is practically out of the market. Eggs are in limited supply, and markets are very firm. Home-raised garden stuff is in fair demand, but that which comes from afar is dull and slow, with a downward tendency. Tropical fruits improve in demand, and choice stock brings better prices than it did a week ago. Strawberries of in-ferior quality are in large supply and slow, while choice stock sells freely at outside quotations. Poultry is in better supply than it has been for some time past, but markets

CHICAGO-Wilder clamor and excite nent over scarcity of grain and provisions than was witnessed to-day on 'Change could scarcely be imagined in starving Russia. Short seilers, big and little, were in a panic. The price of May corn shot up 7c and closed within ic of the top. The July option gained 31/6c. Wheat is up 25/6c, and pork, lard and ribs are respectively for, 15c. and 17%c higher. A brizzard following disastrous rain floods for a month was the hor-

What is

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrheea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea-the Mother's Friend.

Castoria.

Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children." Da. G. C. Oscoon.

Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing oplum, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves.

DR. J. F. KINCHELOE,

I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

Castoria.

"Castoria is so well adapted to children that

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with

favor upon it." UNITED HOSPITAL AND DISPENSARY,

Conway, Ark. | ALLEN C. SHITH, Pres.,

The Centaur Company, 77 Murray Street, New York City.

ONE ENJOYS Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the sys-

tem effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most

popular remedy known.
