KILGORE THE KICKER

UNLESS IT'S PAID FOR PROPERLY.

The Senate Passes the River and Harbor Appropriation Bill

WASHINGTON, May 20 .- There was conamong the Republicans in the House tocivil bill appropriating \$50,000 for the erection in the city of Washington of a statue to the late General W. T. Sherman. The matter will be called up in the House tomorrow, in the shape of a separate bill.

Once more the third party, as represented by Mr. Watson, of Georgia, attempted to secure consideration of the resolution requesting the Ways and Means Committee to report the sub-Treasury bill, and once more the demand for the "regular order" operated as an objection.

After the call of committees for reports the House went into committee of the whole, Mr. Lester, of Georgia, in the chair, on the sundry civil bill. Mr. Dickerson moved to strike out the appropriation of \$150,000 to enable the Secretary of War to complete the establishment of the Chickamauga and Chattanooga National Park. Lost-30 to 88.

Some Little Work Attended To. An amendment was adopted appropriat-ing \$11,500 for improving grounds and fences around the arsenal at Columbia,

The announcement of the approval by the President of the Inman registry bill was received with applause.

Mr. Kilgore, of Texas, raised a point of order against the clause in the bill approin the city of Washington.

Mr. Henderson, of Iowa, made an earnest appeal to the gentleman from Texas to withdraw his objection and to permit the committee unanimously to pay this tribute to the memory of the grand commander of the army. Unless this clause were allowed to stand, the Army of the Tennessee would have no spot in the District where it could erect a statue of General Sherman. Speaking for that army, he appealed to the only body that could give it a site. Here alone was the power lodged. If it were denied, the intention of the Army of the Ten-nessee was defeated. He trusted that the rentleman would withdraw his point of

Not a Question of Patriotism

But Mr. Kilgore, while paying tribute to the courage, ability and patriotism of Gen-eral Sherman, declined to withdraw his point. The rules of the House should be enfored. If the statue should be erected, it should be provided for in an orderly

Mr. Breekinridge, of Kentucky, argued that the clause was in order. He then proceeded to pay an eloquent tribute to the horoes who served in the armies during the war, and his graceful delivery and fervid words elicited loud applause. Mr. Boutelle said a technicality was interposed to prevent the erection of a monument to the great

ommander of the srmy.

The chair (Mr. Herbert) said he would like to overrule the point of order if he could see his way clear to do so. But he could find no law authorizing the appropriation, and was constrained to sustain the

oint and rule out the clause.

Mr. Henderson, of Iowa, then asked manimous consent to reinsert the clause, but Mr. Kilgore objected. Mr. Henderson then gave notice that he would call the matter up in the House, to-morrow, in the shape of a separate bill, and ask unanimous consent for its consideration. Pending fur-ther action, the committee rose and the House took a recess, the evening session to be for the consideration of the private pension bills.

River and Harbor Bill Passed.

After a little routine business the Senate to-day resumed the consideration of the river and harbor bill, and various amendments of small importance were offered and narreed to. After a long political discus-sion the bill was reported back to the Sen-nic. All the amendments agreed to in committee were concurred in, in gross, and the bill was passed without a division, although Mr. Mel'herson remarked, a few minutes afterward, that he had intended to ask the yeas and navs. A conference was asked, and Messrs. Feye, Dolph and Ransom were appointed conferees on the part of the Sen-ate. The following bills were then taken from the calendar and passed:

Senate bill appropriating \$160,000 for a public building in Joilet, III. House bill to ratify an agreement with the Indians residing on the Colville Reservation in the State of Washington. Senate bill authorizing the construction of a bridge neross the Red River of the North. Senate bill to increase to \$12,600 the appropriation for the public building at Lansing, Mich. Senate bill to nuthorize the Illinois and Iowa Railway and Terminal Company to build a bridge across Terminal Company to build a bridge across the Mississippi river at Moline, Ill. Senate bill to authorize the construction of a rail-road bridge across the Columbia river in the State of Washington.

After an executive session the Senate ad-

FAVA IN HARD LUCK.

The Bearer of an Important Message Unable to Deliver It.

Washington, May 20.-Baron Fava, the Italian Minister, is unfortunate in his efforts to renew his official acquaintance with Secretary Blaine. He called at the State Department to-day for the second time to see him, but as on the occasion of his previous visit, Mr. Blaine was not there. The Minister had an interview with Assistant Secretaries Wharton and Adee, but what took place is not known. It is understood that the Minister is

charged with the delivery of an important message to the President from the King of Italy, and is trying to arrange for an audience at the White House.

The Laws on Immigration.

WASHINGTON, May 20.—The joint immigration committee of the two Houses of Congress is making rapid progress in the consideration of a bill for the better administration of the laws relating to immigration. To-day a very full meeting of the joint committee was held and some disputed points were adjusted. They merely provide for a practical and efficient enforcement of the provisions of existing law.

A Pension While You Wait,

It's No Longer a Joke-New York May Yet Be Reformed, NEW YORK, May 20.-The Parkhurst movement has grown so that no longer words of contempt and sneers and jokes are heard concerning this heroic effort, but in their place has arisen a great moral influence which will be manifested at a mass meeting to be held in Cooper Union very soon. That great hall has been the birth place of many political and economic reforms, but WITHOUT A DIVISION BEING ASKED such a mission as that which will call

together the defenders of Dr. Parkhurst in mass meeting next week, It is at last understood here that Parksiderable excitement and some ill feeling hurst's crusade is not against vice primarilv. Heretosustained by the Chair (Mr. Herbert, of fore the society has undertaken its work in Alabama) against the clause in the sundry a mistaken manner. It has tried to supplement the Police Department. Parkhurst realized that instead of supplementing, its first duty was to attack this department, for Parkhurst had obtained moral evidence which convinced him that the police were in collusion with three illegal businesses They were protecting the gamblers, the violators of the excise law and the keepers of disreputable resorts. Dr. Parkhurst obtained evidence which showed him that the proprietresses of the more prominent resorts of the latter class had been compelled for a

number of years to pay \$300 a month to somebody in authority for police protection. The Cooper Union meeting will empha-size the strength of public opinion which is now giving Parkhurst and his society magnificent support, and instead of being a spasmodic attempt at reform, as so many movements have been heretofore, it now seems likely that out of the Parkhurst cruthere may be developed something which will put an end to the association of the police department with those who are doing criminal acts.

GUTHRIE, OKLA., May 20. - While Charles McGill was hunting in the Cherokee strip he was surrounded by ten Osage printing \$50,000 for the preparation for a site and the erection of a pedestal for a statue of the late General W. T. Sherman miles to their village. There he was kent bound for three days and nights. He was compelled to sleep out of doors in the rain, was given nothing to eat, and suffered all

kinds of indignities. During his captivity he was tied to a stake, and painted braves held war dances around him, at the same time cutting off his hair and a piece of his scalp. Finally he was released. He arrived here to-day, nearer dead than alive. Warrants have been issued for the leading members of the tribe, and the Government will take steps to punish the offenders.

A HEATER'S STORY

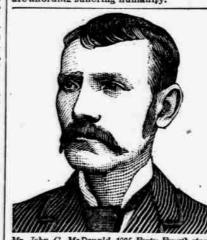

Remarkable Experience of Mr. John G. McDonald, as Related by Himself.

For Seventeen Years He Never Experience the Enjoyment Derived From Breathing Through His Nostrill

Mr. John G. McDonald, a heater at Clark's Solar Iron Works, and who resides at No. 1093 Forty-fourth street, says: "For seventeen long years I never knew what it was to draw a breath of air through either nostril, although I had consulted many doctors and paid enormous doctor bills. No doctor could tell me what ailed me until I consulted Drs.

tell me what alled me until I consulted Drs. Copeland, Hall and Byers. After a thorough examination they informed me that my nostrils were filled with gelatinous polypti, which clogged up the channels to such an extent that breathing was impossible—that this was the cause of all the distressing head, throat and stomach symptoms of which I also compolained.

"I had suffered so many years, and had applied in vain for relief to so many doctors, that I doubted their diagnosis, until they removed from my nostrils 13 little tumors, after which I could breathe as well as anyone. No one can appreciate the relief I felt and the gratifude I owe these skillful gentlemen, and every night I pray God to bless them and prosper them for the relief they are affording suffering humanity.

Mr. John G. McDonald, 1095 Porty-Fourth street. Mr. John G. McDonald, 1995 Forty-Fourth street.

"I could not sleep at night, could not eat formy stomach trouble, was sick all the time with pain in my head, ringing in, my ears, watering and burning of my eyes, pains through my shoulders and stomach, so you may know what I passed through. Since undergoing a course of treatment with Drs. Copeland, Hall and Byers, all these distressing symptoms have left me, and I have gained 22 pounds in flesh. I heartily recommend them to my friends and the public, and will be pleased to see and talk with anyone who doubts the truthfulness of this statement."

UNSOLICITED,

Samples of the Letters Received Every Day. Given below are three letters recently reseived. They are not given on account of their novelty, for others of the same import are received daily. They are shown as ex-amples of the success which attends the sys-tem of mail treatment practiced by Drs.

Copeland, Hall and Byers.
Only one of these writers had a personal examination, and all were treated by means of our home treatment. All three cases were of marked severity. The former, Mrs. John Shore, had a marked case of Bronchial Asthma, with a tendency to bronchial con-sumption, with all its distressing symptoms. Mr. J. P. Growall's principal atiment was a continual and annoving ringing noise in his ears, while Mr. Williamson suffered in-tensely from agonizing neuralgic aches and

pains.

She has been able to eat her meals regularly, her cough has improved, and she has gained about ten pounds in weight. She is able to sleep all night now, without coughing, where before she had to be propped up to get her breath. Her general health is greatly improved, and she is able to take a walk every day. I do not know how to thank you for your skill in doing her so much good in so short a time."

My head is spells I do not notice it at all. My head is clear, memory good, and the dizziness all gone. My whole system is again in good health. Am breathing once more through my nestrils, which I could not do last fall, and realize that of all God's blessings there is none like good health. I thank you for the interest manifested in my case, and have recommended a gentleman, whose case is similar to mine, to try a course of your treatment."

A Young Lady Who Formerly Could Not Hear the Screech of a Locomotive, Can Now Distinguish Ordinary Conversation Now Distinguish Ordinary Conversation.

"I want to tell you how greatly my hearing has improved, it you will not publish my name," said a young lady this week to Drs. Copeland, Hall and Byers. "You know I live out of town a few miles. Well, my hearing was so impaired I could not hear the locomotive when it blew for the station, and my mother would not let me visit the city alone, for fear I would be run over and killed. Now I can distinguish ordinar* conversation, and I cannot tell you how happy I am. You can refer anyone to me for the truthfulness of the above, but I do not want my name published."

This young lady's case was one of the most stubborn that ever came under our observation, and illustrates what can be done by continuous and persistent treatment in chronic ear trouble. The reason so few patients afflicted with ringing noises and partial deafness never fully recover is because they grow tired and impatient, and will not give a physician sufficient time to benefit them. Or all catarrhal symptoms, the ear complications are the most difficult to relieve, but they can be cured if patients to relieve, but they can be cured if patients only have the pluck this young lady had.

Mr. Williamson makes the following statement by letter: "I had been troubled a long time with neuralgic pains shooting through my head, nose and chest, which through my head, nose and chest, which caused at times the most intense suffering. Besides this I had catarrh of the stomach, which, because of frequent bilious attacks it produced, kept me in an all-run-down condition.
