Gloating Over Irish Dissensions.

Little interest is taken in the debate on te Irish local government bill. The nionist press is gloating over the Freeman's surnal meeting, which is held up as another structive example of what to expect if the rish get their own Parliament. The Glad-onians are not pleased at the editying exbition, which, on the eve of dissolution, ev think is not likely to assist the proscets of home rule.

rers of home rule. To-day's meeting was quieter, chiefly wing to the withdrawal of many of the inreholders. After the election of Mr. exton us a director, Mr. Dillon, in closing we proceedings, said he hoped this would a the last of the extraordinary meetings. plete accord with Mr. Healy is now stablished, and the Freeman's Journal will neetorth be the official organ of the Irish arilamentary party.

Lord Salisbury's Protection Bomb.

The sensation of the week is Lord Salisuy's protection speech, which has proked the greatest consternation among his wn followers and organs. That Lord Salisnry should have journeyed to Hastings, d to a watering-place audience to deliver ich an important manifesto, is a subject of onder on all sides. His speech, though ery guarded and so qualified by reservaon that it really commits him to nothing, as produced a decidedly unfortunate effect.

Manchester, Liverpool, Birmingham, asgow and other business centers the remier is most severely denounced. Bi-metallists are absorbed in a discussion the location of the International Silver nforence. The proposal that the conrence be held in Brussels does not meet th favor. The unanimous feeling in and is that the conference ought to be in London. The provincial chambers commerce are already preparing to me-orialize Mz. Goschen on the subject, pecial stress will be haid on the fact that instrictions are undivided in favor of London.

Total bank clearings this week, as wired from 68 citles exclusively to *Bradstreet's*, amount to \$1,234,114,000, apparently 8 per cent in excess of the week's total a year ago, and nominally about the same as last week. Clearing House operations at the New York Stock Exchange for four days, covering four stocks, are calculated to reduce the total volume of New York (ftr's bank clearings by about \$97,000,000 or \$28,000,000, which, on previous bases of comparison, would indi-cate an increase over last week of 2.4 per cent, and over the week last year of nearly 11 per cent. A meeting of the Pennsylvania Tax Con ference, composed of representatives from agricultural, commercial, manufacturing, labor, railway and transportation associations and County Commissioners, will meet on June 1. The first meeting was held Feb ruary 4 when a commission was appointed from the delegates to ascertain value of the various classes of taxable property, the amount of property exempt from taxation not covered by the exemptions specified in the new Constitution, and the amount of

tax paid by each class of property, local and State. This commission is to report at cent, and over the week last year of nearly 11 per cent. Sixty per cent of the total went from the port of New York. Ex-ports of Indian corn this week were 1,745,000 bushels: last week they were 1,735,000 the next meeting, and some interesting re-ports will probably be turned in. Joseph D. This makes a decrease of 15,558 in the quan-tity marketed during the first 20 days of May as compared with last season.

THE Cleveland Iron Trade Review says There has been an attempt among vessel owners the past week, with indifferent suc cess, to bring the coal rate out of Cleveland up to 50 cents and to get ore rates on an 80-cent basis from Escunaba. The Escanaba rate is still 75 cents, and there seems no imnediate prospect of anything better.

It is now reported that a flood is rushing down the Sioux Valley and is only two hours distant from Sioux City. The river is now two miles wide. The rise of the Big FIFTY lever men on the steam hoists of the New York, Pennsylvania and Ohio and the Cleveland and Pittsburg ore docks at Cleveland struck Wednesday for an increase in wages of \$10 a month. Meanwhile vessels are unloading at Ashtabula. Sloux is said to be from 12 to 15 feet. It has risen eight inches at riverside, the western boundary of Sioux City, and the inhabitants of the quarter are making pre-parations for a flood. CHARTERS were issued to-day as follows: The Brownsville, Fayette county, Electric

The Des Moines, which at one time threatened the demolition of Keckuk, Alexandria, and a score of other towns, is Light Company, capital stock, \$7,000: the Conneaut Lake Exposition Company, of Meadville, capital stock, \$25,000; the Salem Mutual Fire Insurance Company, of Salem township, Marcer county at a standstill. One thousand houses have been abandoned in Des Moines. Streams in Illinois and Wisconsin are still high, but unless there is a further rainfall within the next 48 hours there is little danger of further loss of property. The Missouri and Mississippi are roaring, angry rivers. The pent-up floods of all tributary streams have made the great rivers vust seas, which threaten to burst their banks at every point. The flood in the Illinois is subsiding, and people who have been living on bluffs for

weeks are returning to their homes. Down the Raging Missouri River.

At Omaha, where it has been snowing at intervals all day, the Missouri river has fallen six inches, and all fears of a flood coming down from Sioux City are over. The worst seems to be over at Kansas City. Har-lem, across the river, is all under water, and that town now has not a single inhabitant. The Burlington bridge, which connects Harlem with Kansas City, looks like Noah's ark. It is crowded with animals of Noah's ark. It is crowded with animals of all descriptions, men, women and children, horses, cattle, hogs and sheep, all driven there by the flood. Many of the people of Harlem have taken up their abode on the bridge's approach, and will remain until the water in their homes subsides.

In all quarters a confident spirit prevails, and even at the South business seems to be relatively less embarrassed than of late. Money is everywhere in large supply and light demand. Iron is weaker in Fittsburg, but there is fair demand for finished products, especially fair demand for finished products, especially for hardware, and an improving trade in

giass. The great industries are fully as active, as usual, at this season. Cotton, perhaps, fares best. New wool begins to come forward and is promptly taken with slight advances. The from business is distinctly more active with large transactions in all grades, though prices do not improve at all. There is still some pressure to sell inferior grades of pig,

The origin of the fire is pre-sumed to be incendiary, as there was no stove or gas in the shed from which the fire could start. The loss is about \$75. About two months ago there was a fire in the bath-rooms that were at the rear of the same house.

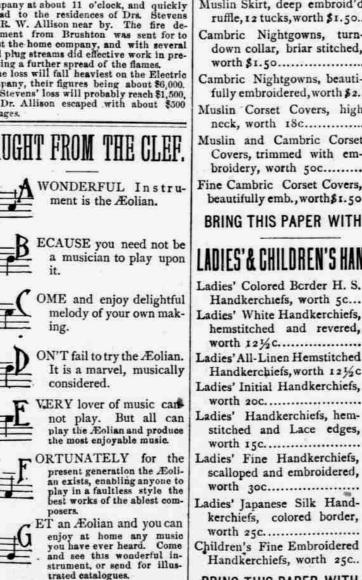

The County Poor Board Can't Be Found. Examiner Hoffman is having more trouble with the county poor officials. This time it s over two women who keep speak-easies in

McKeesport. They get out of the jail or workhouse and then have to be sent home from Pittsburg. They do not have any money, and Mr. Hoffman says he can't find the county people, and so has to send them back. Yesterday the city gave a ticket to Mrs. Mary Hickey, and the day before one

was given to Mrs. Griffith. A Monument for Honest Old Abe.
