The youngsters, however, are not the only ones deserving of the credit of holding the heavy batters down, for there are a number of veterans who are shining in the baseball frinament. WESTERN LEAGUE GAMES.

Toledo and Columbus Ball Players Arrested for Sunday Ball Playing.

TOLEDO, May 22 .- The game this afternoon between Commbus and Toledo came to a sensational ending in the first half of the ninth inning, by the arrest of both teams for violation of the Sanday law. There has been agartion over this matter since the season opened. Many of the ministers of the city have preached sermons against abbath desceration, and on last Wednescay night a delegation of ministers attended meeting of the Police Board to utge that body to stop Sunday games. The arrest to-day was the result. A detail of 15 patrolmen, under command of the Chief of Police, entered the grounds at the sixth inning. The men distributed themselves about the field, but no move was made until the eighth inning had begun. Nicholson, of the ledos, was at the bat and one man on base, when the chief gave the signal, and the blue-coated representatives of the law the blue-coated representatives of the law closed in upor the players, and storped the mane. There were 3,500 spectators on the ground, and as soon as they be-cause countraint of whit, was hap-pening, a wild rush was made by several undred excited men to overpower the po-tion. President Gannels, of the Joledo dlab, made a speech from the front of the grand stand, requesting that there should be no re-sistance; and after a very exciting score all the players of both teams were raken to the points station. They were held in \$16 bail or the players of both teams were released. The trial will take place to-morrow morn-

When this we way behind early in the sea-son President Hart predicted that before the team went on its Eastern trip it would reach fourth place. At that time he was ridiculed by the cranks and the press for such an opinion, but, neverthe-less, his predictions have proven true.

DONOVAN, of Washington, cannot catch a ball hit over his head. He makes some wonderful scoops of short-hit balls, but when he has to turn his back and chase his weakness becomes apparent. How-ever, it was his luck to make a back running catch in the ten-inning game and keep Pittsburg from a vietory.

but his average would be about .600. No citib in the country needs a good, experienced pitcher worse than does the St. Louis Browns. The League, when the analgamation was consum-mated, did a wrong thing in assigning Stivetts to Boston, for that leam so far outclasses all the others in playing strength as to give it practically the first place in the race. Stivetts should have been compelled to remain with St. Louis.-Boston Globe.

Giose. HASERALL appears to be at a pretty low ebb in Philadelphia. For a city that pretends to so much the Quaker town is the worst quitter of any in the league circuit. It is an exceptional season and yet the Philadelphia cranks won't attend. This is partiy due to the fact that the Philaes do not stand very high in the race, and that Philadelphia wants baseload at 25 cents, with a free street car ride and a bag of peanuts thrown in.

WHOLESALE AND RETAIL DEALER.

Although THE second public sale of lots at the new town of ALIQUIPPA was an undeniable success on Saturday last, despite the rainy, miserable weather, the company have decided to hold another sale this week, giving an opportunity to those who staid away on account of the inclemency of the weather, but who are desirous of investigating ALIQUIPPA and its prospects.

* *

TRAINS will leave the P. & L. E. Station at 7, 8, 12:30 and 2:55, city time. Excursion rate tickets for sale at the station.

ALIQUIPPA HAS

ALIQUIPPA STEEL WORKS, J. C. R U S S E L L SHOVEL WORKS, ALIQUIPPA TIN PLATE W'KS. CRONIN BOILER WORKS, ENAMEL BRICK WORKS.

With one-half the lots sold in five weeks, five large factories already located there, with others coming, unprecedented advantages in size, location and low price of lots, river and railroad advantages for its factories, and the inestimable impulse given to its industries by the completion of the dam at Beaver (for which Congress has made appropriation and the shore rights secured), and every possibility of a ship canal from the great lakes meeting the Ohio River within a few miles of the new town in the near future, can you conceive of a better investment tor \$300 (the average price of lots) than ALIQUIPPA affords? Even if you do not buy a lot it will pay you to go to the sale and see what wonderful changes have taken place at the old familiar spot within the last five weeks.
