CORN THE STRONG CEREAL FACTOR

OFFICE OF THE DISPATCH, PITTISBURG, SATURDAY, May 21. In lines of country produce there is little new or strange. Home raised garden stuff has been very much retarded by the adverse weather. There have been so few sunny s the past few weeks that home cardeners have very little to bring to markets. All arden stuff is at least three weeks behind is average time. It will be seen by refe see to the home market column that all things in dairy product lines are drifting downward. Country butter has been a drug on the market all the week, and prices are merely nominal. The supply of cheese is steadly increasing, and prices are fully le per lb lower than they were a week are. The week to come promises even larger re-ceipts and still lower prices for both butter The strawberry zone has shifted from Tennessee to Maryland in the past week. Quality of offerings in this line is below par, and only the best are in demand.

In Cereal Lines. The boom in shell corn has been the prin cinal feature of cereal markets during the past week. Prices are advanced fully 7c per hel since the beginning of the week Ear corn has not kept pace with the upward novement of shelled. Oats have also bined in the upward movement and prices to about 2c per bushel above prices of a e drift toward higher prices, and are det at about the same price as prevailed a rek ago. Hay is a shade lower, for the

reason that pasturage is now at its The stock of flour in the hands of our The stock of floor in the hands of our obbers is reported very light. Dealers have been pursuing the hand to mouth solicy of late, because of expensive experience in the early part of the emission. The price of floor is relatively ower-than the price of wheat, and either he latter must go down or the former go

Hides and Calfskins. The stoppage of New England shoe leath-e tanners for 60 days has already had the to depress the market for all light on buff hides noted a few days ago is ore than justified by events. the situation and outlook concerning The situation in boots and shoes is conger, from the effect of the leather comtions. The jobbers seem to try to be inrent to the situation, but manufacturers re aware that they are slightly uneasy, y are harrying up goods that they natand young not care for for some weeks, od they are placing some orders that manufacturers were doubtful about getting only week or two ago. In fact, it may reasonable be claimed that there is stronger market laieng the line of leather and boots and uses. The Position of the Leather Market is a very interesting one, and it also seems on very firm one. In the first place the de leather agreement to not wet any hides ar as the tanners are concerned, while sthe thiners are concerned, while tement to check the production of eather will doubtless be attempted, promoters of the plan are very san-tencess. CHICAGO Corn sold to-day at 7lc a bushe or May delivery, making one of the greates jumps ever known in the history of the Chicago Board of Trade. At one time 790 was bid, a leap of exactly lie since last night. The price did not go up by fractions, but by cents at a time, jumping from 65c to 70c at one bound. The bulk of the trading,

however, was in July. The fluctuations in that option were not of a startling character. In wheat the feeling was unsettled and nervous, and most of the advance of Fridaywas lost.

OFFICE OF THE DISPATCH. PITTSBURG, SATURDAY, May 21. COUNTRY PRODUCE-Jobbing Prices-Cool wet weather has proved a check to trade in this line for the past few days. Dairy products incline toward lower prices, and there is little doubt of a reduction in the next few days. Country butter and new cheese are in excessive supply. Poultry and eggs are scarce and very firm at quotations. The strawberries offered on Saturday were mostly of inferior quality and were therefore of slow sale. Tropical fruits are in improved demand the past week and markets are firm for choice stock. Old potatoes are on the wane. There is a scarcity of good stock in this market and commission men report that they are not to be had any more. New Bermuda potatoes are in good supply and active demand.

RAILROAD SHARES REVIVED.

The Gains Only Fractional-The Better Feeling Comes Too Late to Save Rock Island-Plenty of Both Buying and Selling-Bonds Active,

New York, May 21.-The stock market tolay was more active than of late, and while the transactions were, as usual, mostly pro-fessional, there was a better feeling in the room, and prices, after some wild fluctuaions, ended generally fractions higher than last evening. The change in temper was, ndoubtedly, due primarily to the fact that the short interest was getting altogether too unwieldy, and it was discovered early this morning that the sun actually did shine in portions of the Western territory, which has been visited by excessive rainfall during the last week. The cry went up that something would be saved from the wreck, and buying became the iashion as selling has been for the few days past; and while there was no lack of selling, especially in the early dealings, the preponderance of buyers finally carried the day, and the first drive marked the limit of the decline for the time being.

The buying did not begin early enough to save Rock Island from a material decline, its loss on the drive being 1½ per cent, but other stocks, such as Union Pacific, Missouri Pacific and Readinz, with a few of the inactive shares, like Hocking Valley and Omaha preferred, suffered severely at the time. The down ward movement, which had every appearance of being brought about to buy stocks upon, suddenly ceased and the recovery began and ceased only with the close of business. The close was active and firm to strong at or near the highest prices. The dealings for the two hours' session, reached 183,14 listed and 10,151 unlisted.
