

BIDS TAKE A TUMBLE.

The First Fruits of the New Interest-Paying Ordinance Are

PLUCKED BY CHIEF BIGELOW.

City Contractors Willing to Work for Much Lower Prices.

STILL CHEAPER RATES ANTICIPATED

The first fruits of the new ordinance signed and made a law by the Mayor last Friday, providing for the payment of interest on street improvements from the time of completion until all bills are paid, were shown yesterday in the bids opened for street repaving. Chief Bigelow spent three days opening and reading 143 bids on 37 repaving contracts, but owing to the variance in the figures for grading, curbing and laying of crossings, it will require considerable figuring to compute which bidder gets each contract. The awards will be made to-morrow, and the work must all be completed by September 15.

In the proposals made yesterday the figures of the lowest bidders for laying pavements were considerably lower than heretofore. The lowest price for asphalt was \$2.80 per square yard, and for regular block stone \$2.71. These are the lowest figures, according to Chief Bigelow, that have ever been reached in this city, and are lower than in any other city in the country for the same class of work excepting Washington, D. C. Last year's rates on asphalt were from \$3 to \$3.34, and on block stone from \$3.15 to \$3.50.

May Try the Washington Plan. "However," said the Chief, "Washington's specifications call for a much lighter foundation than any of the bids opened to-day call for. As we propose to try some of that kind of work we may get down to Washingtonian figures. I will open bids on Wednesday for paving several streets in the Washington plan. There is no doubt in my mind but that the ordinance passed last week by Councils is to be credited for the reduced rates. It is the restored competition and the basis of 10 or 12 years ago for work must follow. I look for even greater competition and lower prices before very long."

In the bids opened yesterday Booth & Flinn were the lowest bidders for paving in a majority of cases. Sloan & McElvaine, Evan Jones being a few cents higher on all but a few contracts. Evan Jones though within 2 or 3 cents of the lowest in a number of cases was not the lowest on any paving, though he ranked the same as in some instances for grading and curbing and may get some of the contracts in consequence. The highest bidders on paving were Keeling, Ridge & Co. and Carson & Orr, their figures being about the same as through as last year's rates. The repaving included in the list aggregates more than \$300,000, and with the lowest bidder, for paving only, is as follows:

The Lowest Bids on Contracts. Forty-eighth street, from Butler street to the Allegheny Valley Railroad, 2,900 yards of paving, \$2.80 per square yard for asphalt and \$2.72 block stone; Booth & Flinn, lowest bidder. West Carson street, from Point bridge, eastwardly, 3,941 yards; Booth & Flinn, \$2.72 per square yard for block stone. Liberty avenue, from Center avenue, eastwardly, 5,530 yards; Sloan & McElvaine, \$2.86 for block stone. Lincoln avenue, from Frankstown avenue, northwardly, 3,941 yards; Booth & Flinn, block stone, \$2.79 per square yard. Water street, from Smithfield street to the Point, 4,147 yards; Booth & Flinn, \$2.72 for block stone. Forbes street, from end of present pavement, eastwardly, 2,820 yards; Booth & Flinn, \$2.96 for block stone and \$2.83 for asphalt. Penn avenue, from Smithfield bridge eastwardly, 4,940 yards; Sloan & McElvaine, \$2.87 for block stone. East Carson street, from Monongahela bridge eastwardly, 2,566 yards; Sloan & McElvaine, \$2.85 for block stone. Seventh avenue, from Penn and Tunnel streets, from Grant street to Webster avenue, 1,999 yards; Booth & Flinn, \$2.84 per yard for block stone. Highland avenue, from Penn avenue, southwardly, Booth & Flinn, \$2.87 for block stone. 50th or asphalt. West Carson street, from Monongahela bridge, westwardly, 1,833 yards; Booth & Flinn, \$2.83 for block stone. Evans street, Liberty street to Duquesne way, 1,297 yards; Booth & Flinn, asphalt \$2.86 and block stone \$2.72. Buzz alley, 267 yards; Booth & Flinn, \$2.72 for block stone. Stanton avenue, from present pavement, east, 2,850 yards; Booth & Flinn, asphalt \$2.86 and block stone \$2.72. Hill street, from present pavement, east, 2,828 yards; Booth & Flinn, block stone, \$2.96. Second avenue, from present pavement, east, 2,088 yards; Booth & Flinn, \$2.84 for block stone. Poplar alley, 22 yards; Booth & Flinn, block stone, \$2.87. Booth & Flinn \$2.84 in the lead.

Pure Water. The importance of having better and more healthful water for drinking and cooking purposes, is attracting the attention of all who live in the more thickly settled portions of this country.

It is an established fact, which is now recognized and acknowledged by well-informed people everywhere, that living germs taken into the system—most generally through the medium of drinking water—are the causes of such diseases as Asiatic cholera, cholera morbus, typhoid fever, scarlet fever, diphtheria, yellow fever, etc. Scientists, physicians and inventors have for years combined to secure some means of extracting these and kindred impurities from water without changing its chemical properties. L. Pasteur, the great scientist, with the assistance of his associates, in his laboratory in Paris, France, was the first and only one to adopt a practical means for accomplishing this result, by inventing the celebrated Pasteur germ-proof filter.

It has been subjected to the severest tests by physicians, chemists and medical and scientific associations, and has, in every case, sustained its reputation of being a perfect water filter.

It is the only filter that is sold on the broad guarantee of filtering the water absolutely free from disease germs, and all organic matter held in suspension.

Mr. McCurdy Talks Evasively Upon a Second Audit of Wyman's Books.

Auditor McCurdy, of Allegheny, refused yesterday to either deny or affirm the report that a second audit of ex-Mayor Wyman's books had been made. A general audit had been made, he admitted, but beyond this, all direct questions were evasively answered.

From authentic source comes the information that the reformers are at the bottom of the second audit, and the result will be used as a lever in preventing the ex-Mayor from re-entering political life.

It is understood that the reformers hold some important points against Mr. Wyman in addition to the three indictments, and the moment his political influence becomes apparent, or is felt in any slight degree, there will be an emphatic move made by the reformers, and ex-Mayor Wyman will be placed in a difficult position. As a result of these reports there is more or less agitation in Allegheny among the politicians of both factions, and conflicting rumors are prevalent from all sources.

A prominent reformer, in speaking upon the subject yesterday, said there was no doubt but what ex-Mayor Wyman would be so seriously affected by the second audit, that he would not re-enter politics at all. "We all appreciate his influence," continued the gentleman, "and realize that our power is much greater with him out of the field."

CHARIVARIED THE CAPTAIN.

He Objected to the Noise on His Nuptial Night and Entered Suit.

William Lickman, charged with malicious mischief in participating in a charivari, was discharged by Alderman McMaisters, as the witnesses for the prosecution could not identify him as being one of the party.

Captain James Large, of Guidhall, the prosecuting witness, stated that he was married on the 18th inst. A crowd serenaded him, but became so boisterous that he was obliged to go out and drive them off. He had hardly got back in the house when they returned and became more boisterous than ever, throwing stones through the windows, breaking the shrubbery and he thought exploding dynamite. He made the information charging William Lickman and O. F. Irving with being the instigators of the outrage. Irving has not been arrested as yet.

At the Executive Board's Pickles. The Executive Board of the Woman's Foreign Missionary Society of the M. P. Church, which has been in session at Sharpburg for several days, adjourned yesterday morning. After adjournment the ladies visited the pickling works of H. J. Heinz & Co., in this city, and were entertained at lunch in the firm's restaurant. The party included delegates from a score of States and several missionaries recently returned from Japan.

Strikers Return to Work. The strike in the structural department of the American Iron Works has ended. The men returned to work yesterday after being out for a month. They had been working ten hours a day and demanded nine, which was refused.

HATCH'S ANTI-OPTION BILL.

It May Cause a Lively Time in the Convention of the National Millers.

CHICAGO, May 23.—The sixteenth annual Convention of the Millers' National Association of the United States will begin to-morrow at the Grand Pacific Hotel. Lively times are expected over Hatch's anti-option bill now pending in Congress. The country members, it is said, will be pitted against the "city fellows." An attempt will be made to prevent the Association from putting itself on record on the measure, but the prospects are that those who favor the bill will be able to force the Convention to a vote. Senator Washburn, of Minnesota, will, it is understood, lead the attack on the enemies of the bill.

The Association is already on record as opposed to the Board of Trade speculation, a resolution having been passed at the convention two years ago indorsing the Butterworth bill. Many members declare, however, that the vote did not fairly represent the sentiment of the Association, the resolution having been rushed through with a hurrah. The Board of Trade sent one of its representatives to the Secretary to-day, visiting the Association to hold its session in the Call Board rooms of the Board of Trade. Thus the unique spectacle of the millers denouncing options in a hall not 50 feet from "Ed" Partridge and the grain pit may be witnessed.

Charged With Embezzlement. I. M. Penneck, the Fourth avenue real estate dealer, gave bail yesterday for a hearing before Alderman McKenna on a charge of embezzlement. The prosecutrix, Sarah A. Taper, lives on Fayette street, and owns a number of houses there. She employed Penneck to collect her rents, and alleges that about the first of the year he collected \$89.50 which he converted to his own use, and never made any pretense of concealing the fact.

Sensation in Catholic Circle. DENVER, COL., May 23.—A pastoral letter from Bishop Maz, of Denver, was read in the Catholic churches here yesterday, in which what is known as the Faribault plan of education, which was recently passed upon by the Vatican in Archbishop Ireland's favor, was vigorously denounced, and the Colorado Catholic published in this city, was strongly censured for maintaining the cause espoused by the Archbishop of St. Paul.

New African M. E. Bishops. PHILADELPHIA, May 23.—Bishops were appointed to conferences by the African M. E. General Conference to-day: For the First district—Philadelphia, New York, New Jersey and New England Conferences, Bishop B. L. Tanner, and for the Third—Ohio, North Ohio and Pittsburgh Conferences, Bishop D. A. Payne.
