THE PITTSBURG DISPATCH, WEDNESDAY, MAY 25, 1892,

The River and Harbor Appropriation Bill Back in the House.

SENT TO THE COMMITTEE OF THE WHOLE

WASHINGTON, May 24 .- Vice President Morton presided over the Senate to-day. A number of personal bills of sectional interest were passed. The calendar was laid aside at 2 P. M. and the bill for the punishment of violations of treaty rights of aliens was taken up, Mr. Morgan continuing his argument in advocacy of the bill.

Referring to the case of the Italians killed in New Orleans Mr. Morgan said that if American citizens had been maltreated in Italy and if the Italian Government had given to the Government of the United States such an answer as the American Government had given to Italy the com-ment would be: "Your Government is a very imperfect one and you ought to have in-formed us of it when the treaty was pend-

Mr. Blaine, he said, had been compelled (acting exactly rightly) to use the Secret Service fund to pay \$25,000 to the families of the men massacred in the prison of New

Orleans. The Government of the United States wa in a pitiable condition when the Secretary of State was compelled to resort to the Secret Service fund to keep peace with a foreign Government. It would be impos-Toreign Government. It would be impos-sible to frame and pass through Congress a Federal code that would cover all cases of violations of the rights of allens, and the only way to do so was (as provided in the pending bill) to adopt the laws of the sev-eral States and let those laws operate on the Endered courts

eral States and let those laws operate on the Federal courts. Mr. Gray asked Mr. Morgan whether if the New Orleans outrage had happened in England Lord Salisbury would not have been compelled to tell the Italian Govern-ment that it would have to wait until the ordinary judicial tribunal had taken action, and would have to abide by that action.

How England Would Beply.

How England Would Keply. Mr. Morgan replied that his opinion was that Lord Salisbury and every other En-glish statesman, in such a case, would reply to Italy that the English Government had put in operation the necessary methods of procedure to have a fair judicial investiga-tion. He would not turn the matter over to the Town Council of Glasgow or Liver-pool. The English Government would alpool. The English Government would al-ways answer "We are able to stand up to our treaties, and to meet our engagements, and to do what we have agreed to do, be-cause our system of laws enables us to lay this question before the judicial tribunals

of the country." Mr. Gray-Do you suppose that the Foreign Affairs Department of Great Brit-sin has any control over the action of the courts; or that such control would be tolera-

ted for one moment? Mr. Morgan—No; and nothing of that sort is in this bill. We do not propose to control the action of the courts. We pro-pose to provide courts to take action. As it is we have no courts that can take action in babali of the Government of the United in behalt of the Government of the United States. The bill is misunderstood if Senators have the conception of it that it is in-tended to give the United States Government any control over the courts. All that we can do is to provide proper jurisdiction for the courts.

The matter went over without action. Mr. Pettigrew, from the Committee on the Quadro-Centennial, reported a joint resolu-tion directing the President to proclaim a general holiday commemorating the four-hundredth anniversary of the discovery of America, on October 12, 1892. is no probability of an early report by the Committee upon these measures. The feeling of the Republican majority is tory at Schenley Park was let yesterday by Chief Bigelow to the Lord & Burnham Company, of Irvington-on-the-Hudson, that an agitation of the subject of tariff revision at this time would be harmful to revision at this time would be harmful to business interests and would be unwar-ranted, as it is alleged that the Republican majority of the Senate is already fully com-mitted in opposition to any of the House tariff bills. Some discussion of the subject in the Senate cannot of course be avoided as Senator Vest's resolution discharging the committee from further consideration of the "free wool" bill now lies on the table from which it will doubtless be taken to serve as the basis for speeches. the contract price being \$101,334 45. Mr. L. Pearson, the representative of the firm, declared it would, when completed, be the finest building of its kind anywhere in the world and, so far as his knowledge went, the largest. Certainly nothing in the United States can compare with it, the nearest approach to anything like it being in San Francisco, with much less area and a very much less handsome building in apthe basis for speeches.

Properly combined they are better than lard for all kinds of shortening, and everyone can eat, digest, and enjoy food cooked with it. Food that was indigestible when cooked with lard is easily digested when cooked with Cottolene, and many of the leading housekeepers of the land say they can make nicer bread, rolls, biscuit, cakes, cookies, ginger bread, pies, patties, tarts, griddle cakes, croquettes with Cottolene than with either lard or butter.

WASHINGTON, May 24 .- Mr. Mitchell, from the Committee on Privileges and Elections, to-day reported to the Senate a joint resolution proposing a constitutional amendment providing for the election of United States Senators by popular vote. He said that the members of the committee were divided on the subject and would make separate reports. The joint resolu-tion was placed on the calendar. The subject was discussed at some length

The subject was discussed at some length by the committee this morning. Mr. Chand-ler offered an amendment proposing to arrike out of the joint resolution that phrase which describes the qualification of the elec-tors as those "Requisite for electors of the most numerous branches of the State Legis-lature," and to substitute the phrase, "Such availation of the state and the phrase of the state legis-lature," and the substitute the phrase of the state legis-lature. lature," and to substitute the phrase, "Such qualifications as may be prescribed by Con-gress." This amendment was rejected as was also one proposing to elect the Presi-dent and Vice President at the same time, and in the same manner as Representatives.

The Confidence of Woman,

It is harder to gain than that of men, but once obtained it is most constant. For 40 years the Marshall Kennedy Milling Com-pany have had their confidence. They have been careful to guard this confidence with jealousy and never allow it to depart from jealousy and never allow it to depart from them because they have allowed their flour to deteriorate. As a consequence they are to-day selling more flour in this market than any other. The demand for Camellia is now beyond the ability of the mill to supply, while their medium priced brand, Bayard Amber, is making triends wherever it goes. Bayard Amber is especially de-signed to meet the wants of those who de-mand a splendid family flour at a medium price and who do not care or are unable to price and who do not care or are unable to pay for the fine fancy grades. To all such no better family flour than Bayard Amber can be recommended. It is white, strong, pure and is sure to give satisfaction. Try it.

when I see so many beautiful women so deli-cate, and suffering so much, and I have often asked myself what the reason is? I think hadles do not extrevise the proper care. They do not eat nourishing food, they are careless of their feet, their necks, their chests. In this way they open the door for diseases and those thousands of troubles which so often afflet womankind, but worse than all they allow their life and strength to run down to a low ebb. How many women we see con-stantly in this condition. They need help, they need something to depend upon, some-thing that will assist them, some friend in need. I know this, largely, from my own ex-perience for I was once in the same condi-tion myself. I though the matter over care-thing that will assist them, some friend in need a genetile, constant stimulant, some-thing that would assist my vital forces, keep my blood throbbing and act as a tonic. I decided to try Duff's Fure Mait Whiskey and its effect has been simply wonderful. I do not know what pains, sickness or weak-ness are and I am satisfied ladies generally could be in the same means." This lady's remarks are entilted to the proper use of the same means."

Our business for the past 13 weeks in the Wall Paper Department has equaled the entire business of last year. This explodes with us the superstition that 13 is an unlucky number. In consequence we offer you a chance never offered before in Pittsburg. We bought almost the entire product of the best things made by the leading factory of America, and intend selling them at a little more than they cost us in order to establish a name for ourselves among people who only want the finest things made. We bought these goods at much less than it cost to make them, and many of the patterns are the finest gems of art. They will be sold from 25c to 50c a bolt. They sell ordinarily at \$1.50. We would like to send and measure a room, or a dozen, and give you an estimate. Our paper hanging force is most complete and our prices the lowest. Landlords or agents of

property would do well by getting our prices. We keep a stock of Picture Mouldings and Lincrustra Walton that is the largest. We send samples of Wall Paper free to anyone, and pay especial attention to our Mail Order Department. Each lot of samples with stamps costs us 25c. Still, we send them free because they are samples of the best and cheapest Wall Paper in the country, otherwise we would waste our money.
