# GENERAL SPORTING NEWS OF THE DAY

So far as fine weather has been concerned the Western trips of the local hall team have been very bad ones. Once more rain vetoed a game for the home players at Chicago yesterday, and left them no chance whatever to win another game before coming home. So far, these Western trips have not paid expenses, according to the figures of a local magnate. The local sluggers will stop over in the

city to-day on their way to Washington, to play off a postponed game with the Cleveland team. The contest cannot be other than an interesting one, as the Forest City fellows have not been here yet. They are really a plucky lot of players, and are capable of giving the best of people just as tough an argument as may be desired. There is also considerable rivalry between the partisans of the two teams, judging from the way in which a few of said partisans keep bandying remarks to and partsame keep bandying remarks to and fro. And there is a deal of money bet as to which of the two teams will be higher up at the finish of the first pennant race. Altogether there is likely to be quite a lively contest. Captain Tonimy Burns will also make his first superscreame here today in a Pitteburg first appearance here to-day in a Pittsburg uniform. He will be in the coacher's box, as he is yet unable to play. Tommy is an earnest man on the ball field, whatever his other qualities may be, and as he has the players in charge now the better part will be to give him a cheering reception. Elmer Smith will pitch for the home players, and he has an old score to settle with the Cleveland lot. They beat him at Cleveland a short time ago. He may have better luck to-day. The teams will be made up as tollows:

above order. After the game the teams will leave for

Washington and Baltimore respectively to begin their Eastern series to-morrow. The local team will not return until June 15 except for two games here on Decoration Day with Baltimore. The trip will be quite a long one and many changes are sure to happeu all round before it is over. At present Ed Swartwood is unable to play on account of his injured arm. Farrell will be kept in the outfield in the meantime and Raymond at third until Captain Burns is ready to play.

That cancels three of the Reds' engagements. Captain Comiskey will probably sign Jack Dolan. He intimated as much this morning when the club passed through town en route East.

Anson's team is playing good ball, but not to lis full strength. I do not like to say that Chicago will win the chammionship of the first division, but I expect that Chicago will finish taird, maybe fourth. It is my belief that Chicago will be very much in the fight for first place in the second division. Philadelphia should be sixth in the race, counting the five clubs I have named as leaders, There is also a chance in this respect for Pittsburg." here on Saturday, Harness, one of the pitchers of the club, was taken to a hospital suffering from an aberration of the mind, brought on by overwork. Harness when taken to the hospital conversed intelligently upon everything that had happened prior to last Wednesday. He then came to himself, and asked a police-man to have him returned to the hospital. This was done, and he now seems perfectly rational. #### INPECIAL TELEGRAM TO THE DISPATCH.1

HARRISBURG, May 24 .- The number of cases to be heard next week by the Supreme Court are fewer than usual, but they involve several new and important questions relating to the revenues of the Commonwealth. Nearly every case involves questions arising out of the taxation of stock of manufacturing companies "organized exclusively for manufacturing purposes." This expression occurs for the first time in the

revenue act of 1889. One question to be decided by this Court s what the word "organized" means, whether it means chartered, or formed, or created, and whether it refers to what a company does with its capital stock, even outside of

its charter or organization.

Another question to be decided is, Whether a valuation placed upon patent rights by a corporation in its capital stock is taxable. All of the corporations in the State claim that this valuation on capital stock in patent rights cannot be taxed by the State, as it is a violation of the Constitution of the United States,

Another important question to be decided is, Whether under the revenue act of 1889 an apportionment of the capital stock of a

These different questions involve very large amounts, and their decision will decide a large number of Commonwealth cases that have been decided by the Court of Common Pleas of Dauphin county. Just enough cases have been taken to the Supreme Court to decide all these questions.
