cos Conkling and James G. Blaine. Only remains to day and he has no peer. one remains to-day and he has no peer. Both were wonderful men when both were alive, but the death of one has left the other supreme. If Blaine will ac-cept the nomination it is his, hands down. He will carry New York and every Northern State without trouble. Pennsylvania will give him the largest majority ever accorded any man in her history, and the whole coun-try will be proud to do honor to her greatest living son. E. N. Randolph, Secretary of the State League of Republican Clubs-Blaine is the strongest candidate in the country. I am for the man who can win, and I believe he is the man who can do it most easily.

Blaine the Man of the Year.

Attorney A. C. Robertson, Select Councilman-Blaing is the biggest man in the country. There will be no doubt of his election, and the Republican party owes it to him to make him President. If the party cannot win with Blaine they cannot win at all. His strength, outside of his great popularity, lies in the fact that any differen he may have had with party leaders throughout the country have been healed or forgotten; he would go into a campaign

throughout the country have been healed or forgotten; he would go into a campaign without a bitter enemy within the party. While the present administration has been clean, honest and, in some respects, brilliant, enemies have been made, a host of disap-pointed office seekers are on the agrressive and would be a hindrance to an elevation for a second term, which, by the way, there seems to be a growing sentiment agninst. Blaine is the man of the year and I believe he will be nominated and elected. Hou, M. B. Lemon, member of the Legisla-ture-1 was never a Blaine man until two years ago at the State Convention of Repub-lican Clubs in Philadelphia. His name was the only one that created euthusiasm in that convention. When it was mentioned, even in the most accidental way, it created a sensation. Men rose by hundreds and cheered, threw their hats in the nit and almost tore off their couts in the excitement. The demonstration was so strong and so marked that it converted me to the Maine man's dolowing. I believe he is the greatest citizen, the greatest states-man and the greatest diplomatist this coun-try has ever produced. He will not only get man and the greatest diplomatist this coun-try has ever produced. He will not only get more votes in his own party, but more from the opposition parties than any man that can be named.

For Blaine Since He Was a Boy,

James Piatt, Common Councilman-I have been a Blaine enthusiast ever since as a boy I learned to read in the township school on Wheeling creek. My enthusiasm has grown with me to manhood, and I believe to-day that Blaine is the greatest intellectual power on the American continent. Every-body else is of the same opinion, and as a result he will be nominated and elected.

Thomas McClare, Common Councilman-Binine is the strongest man in the country and there is no doubt of his election if nomi-

nated. Dr. George Gladden, of the Americus Club, from Homestead-Blaine is my man, and al-ways has been. He can win easily, but with any other man it means a fight. Eoger O'Mara, Police Superintendent-The excitement that would follow Blaine's nom-ination would excel anything in American politics. He would be elected by an over-whelmine malority. elming majority. Varden McAleese–I am for the best man

and the best man talked of is Blaine. He is a man for the country to be proud of, and if given a chance the people will show their appreciation of his services by electing him with a rousing majority.

is more than desirable to the Republican party, it is a necessity. Blaine the Most Desirable Candidate.

Emanuel Wertheimer, Select Councilman from the Third ward-Blaine is the mos desirable candidate by far. He not only has the good will of the public at large, of the entire country, but also has their carnest and hearty support, and provided his health and hearty support, and provided his health will permit him to run for the nomination, they will labor for election with more zest than they ever have for a Presidental can-didate. I am in favor of Blaine from every possible standpoint, and fervently hope that his health will permit him to allow his name to be used at the Minneapolis convention.

him to allow his name to be used at the Minneapolis convention. Major William Kennedy, Mayor-I am in favor of Blaine as a Presidental nominee, and think if his health permits him to run for the nomination that his election will certainly follow. He is the strongest man from a political standpoint, that is living to-day. George Elphinstone, City Solicitor4-There is no doubt of the desirability of Blaine's nomination. His party is with him, and more than this, the people are with him, He has had a most successful career during his term as Secretary of State and has won the affections of the entire public. He will be nominated without a struggle, I believe, if his health permits him to accept. Blaine should head the party ticket if they wish to succeed. succeed.

J. H. Skelton's livery stable at Twelfth street and Spring alley was totally burned and a number of tenements on Liberty avenue were irreparably damaged about 12 o'clock last night. The loss will not exceed 515,000. The property is all owned by Mel-lon & Sons, and partially insured. The livery stable runs from Twelfth street back 105 feet to the stables of the Philadel-

The fire is supposed to have originated by a spark from one of the chimneys of the tenements alighting on the hay in the stable. The building burned rapidly. The flames quickly spread to the tenements and for a little while it looked as though the whole block would be destroyed. The fire demonstranged were articular The fire department responded very quickly

The tenement houses were very thickly populated, and when the fire broke out babies and furniture were tumbled out into the street in great profusion. The firemen had great trouble in getting through the rooms as there were five and six beds in each apartment. Nearly all of these places were greatly damaged. All of the buildings were condemned by the Building Inspector

Blaine Belleved to Be the Only Man Who Can Bring Cut the Full Strength of His Farty-Most Popular Man in the United States.

The name of Blaine evokes great enthusiasm on the Northside, as is shown by the following:

E. L. Braun, Alderman of the First ward-There is not an lota of doubt in my mind but what the American people of each and every class, from the workman to the theo-logian, would hail Blaine's nomination with a zeal that no other name could arouse. With his name on the head of the Republican ticket the party would be as certain and as positive of receiving the electoral vote for the Presidency as they would of losing that vote with any other name at the top. I that vote with any other name at the top. I think the American people expect to east their vote for Blaine and I feel safe in posi-tively asserting that his nomination means election. His dash and brilliancy in things pertaining to national affairs, as exhibited during his term as Secretary of State, have popularized him with the people to a far greater extent than his political enemies concede to him. There is no ne-cessity conceding that popularity, for fit is enemies concede to him. There is no ne-cessity conceding that popularity, for it is as well known as is anything in political life. ROHE'S CONSTABLE ARRESTED.

He Is Charged With Stealing a Trunk and Other Articles.

Alderman Rohe's constable, Louis Kuchem, was arrested yesterday on a charge of larceny. The prosecutor is Andrew Jackson, who alleges the constable went to his boarding house at 45 Linton street and stole a trunk, a wash bowl and a pitcher valued at \$37.

Jackson boarded with Mrs. Annie John son and was sued some days ago before Al-derman Rohe for a board bill. Before the case was heard he alleged he went to the Alderman's office, satisfied the claim and the case was settled. The next day the constable took took the goods and yesterday Jackson went before Alderman Richards and entered the suit. Kuchem was arrested, but waived a hearing and gave bail in \$500 for court.

One man said vesterday that there wasn't much competition between business men in Pittsburg. Most of the firms make specialties for which they are noted. For this reason there is not much business jealousy, and it is probably the cause of so much of the apathy to a trade organization.

The committee in charge of the banquet are mostly men of great affairs. They are busy men, men who have amassed large fortunes, yet to show their interest in the future welfare of the city, at least ten of the members have been present at the daily meetings. If one was absent yesterday he is sure to be there to-day. They have all felt that it was best to keep the iron hot, and their efforts are certain to be crowned with success. Such people as H. C. Frick, Superintendent Pitcairn, John W. Chaliant, John H. Ricketson, W. P. De Armitt, John Bindley, C. W. Batchelor, James B. Scott, A. J. Logan, Colonel Thomas P. Roberts, Collector John F. Dravo, Reuben Miller and others have plenty of work to do looking after their own business interests, yet these men have been willing to give up much of their time to the banquet and its

worthy objects. Major Logan was busy yesterday atternoon helping Secretary Follansbee to send out the tickets, while John Bindley sat nearby making suggestions and pleased with what had been and the interest manifested all around. The Banquet Orators Already Selected.

There will be 15 speakers and as many tonsts. The subjects are first-class, and touch on the various industries of the city.

Owing to a streak of rare modesty THE DISPATCH was requested by the committee not to publish the toasts and the names of hot to publish the toasts and the names of the orators. They are to be suppressed even on the menu card, and when John Smith is called on to speak, his subject will be one of the surprises of the evening. This is reversing the usual order of things, and it may be good policy in this case. Some of the speakers are afraid THE DIS-PATCH will steal their thunder, so they are keeping religiously quiet and loading up for to-morrow evening. President Kelly, of the Chamber of Commerce, is hard at work preparing his address of welcome. He is leaving the details of the banquet to the strong committee he has selected to do the work. They are certainly doing it well. Major A. J. Logan, a member of the committee, in speaking of the Eric Canal yesterday, said if it were built, Pittsburg would soon become a second Grand Rapids

in the manufacture of furniture. The only thing that prevents the industry from flourishing here is the heavy freight on wood. It costs too much to transport the timber from the Michigan forests. Showing the City to Strangers. Continuing, he said he favored the ap-pointment of an active superintendent in counection with the Chamber of Commerce

to show the city and point out its advantages to strangers looking for sites for factories and light manufactories. Plenty of people come to the city in search of a location, but there is nobody to assist them, and they go away disheartened to other places. The superintendent could also be a representa-tive of every firm in the Chamber of Commerce. For example, a buyer comes to town for steel, and he asks somebody where to go to get it. If business men were trained to send him to the Commerce rooms, he

would meet the superintendent, who would name over the firms in this business and their location. It would be a great saving of time to the buyer, and he would be better pleased. Mr. Logan said further: "I think also the issuing of a little book annually, furnishing statistics about the city and its industries,

HAD HIS ARM TORN OFF.

Young Mechanic Caught and Whirled by a Revolving Shaft.

William Galloway, an 18-year-old boy, employed at the Shiffler Bridge Works, had his left arm torn out at the socket yesterday. He was employed at a revolving shaft when his coat sleeve caught in a part of the machinery. Immediately he was caught and whirled around and around the giant circle and this continued until the arm was torn off. His clothes were torn from the body and he was badly scratched and bruised. He was removed to his hom on Keystone avenue in a carriage.

ALONE WITH HUNGER,

A Mother Who Left Her Chi'dren Locked Up for Fays.

Captain McLaughlin, of the Second police listrict, reported a sad case to Agent O'Brien, of the Humane Society, vesterday, Mrs. Margaret Fogerty has been in the only 22 per yard. In view of the fact that labor costs \$1 50 per day here, against \$1 in Washington, and the extra amount of broken stone required, Chief Bigelow says the price is the lowest ever reached in the habit of locking her two small children up in her house on Forbes street and going off for several days at a time to get drunk. Yesterday a neighbor found the two children almost starved. Mrs. Fogerty had been away since Monday. The children are being cared for by the neighbors, and the police are on the lookout venicle tranc.
