NEW YORK DOWNS ANSON'S COLTS.

Sir Walter Wins the Great American Stakes at Gravesend Track.

BIG OFFER TO M'AULIFFE AND MYER

Once more our sluggers were stopped from winning a game by rain yesterday, and their rivals, the Clevelands, were in the same fix. Baseball magnates all over the country are complaining strongly about the remarkably bad weather, and each claims that thousands and thousands of dollars have been lost by the rain. Messrs. Temple and Kerr, of the local club, state that rain has cost the club near \$20,000 so far this season, judging from the attendance on fine days. Rain has not only been injurious at home but also abroad. The recent trip of the team to Chicago was a little better than expected, Manager Buckenberger bringing back with him \$1,100. The directors of the club, together with

Captain Burns, have made up their minds to have as few players as possible on the team so as to keep expenses as low as they reasonably can be. The cutting down was

accordingly done yesterday by Swartwood and Earle being released. Mr. Temple went to New York last evening and before going he definitely stated that the players had been released becaused the expenses of the club were too big. He said: "It was left with Captain Burns to reduce the number, as he would know best what players he could do without. Of course two good men have been released, but it is always difficult to select men to be released when they are all good ones."

There is an opinion prevailing to some extent that Pitcher Woodcock will not be long here. Mr. Temple and Mr. Kerr had nothing to say on this point, but it is known that Captain Burns recommended his re-lease. He may be retained for awhile longer so as to give him a better try. One thing should not be lost sight of, viz., that when Woodcock has been pitching he has not had very good support. But it is not unsale to say that either he or Camp will have to go, and efforts will be made to sign a first-class outfielder. Captain Burns in-tends to make several changes, and he has seen given absolute power to do so by the

club's directors. Local baseball pairons will regret the hard luck of Ed Swartwood. His arm is in bad shape, but with fine weather he expects it will be all right. When it does get well again there will be few more useful play-ers on a team than Ed. He would be a valunble man for more than one League club. And Billy Earle will soon get an offer, as it will be hard to find many catchers anything better than Earle is. Earle is a ball player and no mistake, being a good base runner, a good hitter and an excellent Each player accepted his release catcher. vesterday with good grace. Swartwood will remain in the city until his arm is all right, and Earle will remain here a few days.

Coney Island Athletic Ciub Offers A Verdict in the Fuhrer Murder Trial Will The \$12,000 for McAuliffe and Myer.

NEW YORK, May 26 .- [Special.]-The Coney Island Athletic Club, through Manager Lumley, yesterday made a move which would seem to indicate a square fight with the Olympic Club, of New Orleans. It was in the shape of an offer to Jack McAuliffe and Billy Myer to transfer their contest, now and Billy Myer to transfer their contest, now hilled for September 5 in New Orleans, to the C. I. A. C. The inducement was in the form of \$1,000 added to the purse of \$10,000 offered by the Olympic. A side issue in the negotiations between the man is a \$1,000 forfeit which Myer claims on the ground that McAuliffe refused to continue the match that was begun by the posting of said forfeit. The Olympic Club promised, when he signed the present articles of agreement, to make this amount good to Myer. Manager Lumley proposes to make ar-rangements such that McAuliffe shall pay the forfeit claimed by Myer out of his share. Thus, if McAuliffe should be beaten by Myer, he would not get a cent, while if Mc

Thus, if McAuliffe should be beaten by Myer, he would not get a cent, while if Mc-Auliffe should win, Myer would receive \$2,000. McAuliffe says he would rather fight at Coney Island for the larger purse. A telegram was sent to Myer in Chicago hear-ing the new proposal. The Coney Island Club scheme may be as-sisted by a notification of Representative O'Neil, of New Orleans, in the Louisiana Lerislature on Wednesday to the effect that that member of the body intended to intro-duce a bill calling for the repeal of all char-ters or licenses that permit glove contests in the State. Only one other witness testified in defense, and his testimony was immaterial. Shortly after 3 o'clock District Attorney Colburn began his addross to the Jury, but was sud-denly taken ill after he had talked half an hour and was unable to proceed. He was followed by ex-Judge Baer for the delense. This was the Judge's first appearance before a jury in the capacity of a lawyer since he was clovated to the bench 11 years ago. He confined his talk entirely to the points of law involved, and declared that the evi-dence would admit of no other verdict than manslaughter, and the jury would have to strain a point to find his client guilty of that. Thomas M. Marshall followed for the defense. He said he would not have come here had it not been that he desired to de-fend an Allegheny county boy, and declared that the evidence given by the defense was the clearest and most truthful he ever heard on the witness stand. General Koontz closed for the Commonwesith. The jury will be charged in the forenoon. A verdict of manslaughter is expected.

He failed to do so, but from some tips given him by some Pittsburg gamblers he had no trouble identifying him as being Cook Hall. Hall has quite a record. We mourn the dead, we sympathize with those who have lost dollars. But lost health hardly excites a rippie of comment outside the sufferer's close circle. It's so common. Nearly everybody is ailing in some way. The missery of it all is that bud goes to worse; the cold of this week is the grip of next and the pneumonia of soon after. The little ache grows to rheumatism—the cough turns to consumption. Doctors and under-takers are the only happy ones. If the world went on as it should—and could—there wouldn't be one doctor where there are ten now. Putting off, putting off—hoping against reason and trying to save expense are at the bottom of most of this suffering and dy-ing.
