TROUBLE IN THE NEW YORK TEAM.

Entries for To-Day's Big Turf Events at Morris Park Meeting.

GENERAL SPORTING NEWS OF THE DAY

Our baseball sluggers got home from Washington vesterday morning, and are ready to tackle Manager Hanlon and his Orioles twice to-day. The latter will arrive early this morning, and Manager Hanlon, who is here in advance of his team, says that one of the two games must go to the list of Baltimore victories. Manager Buckenberger and Captain Burns are just as sanguine that our sluggers will get both of the games, and so the matter stands.

During a conversation last evening, Manager Buckenberger said: "When in Washington, I had a long conversation with President Young. He told me that according to the returns furnished him, Pittsburg has so far this season had the largest attendance, except Boston, and this goes to show that we have the best baseball city in the League, because if our team were as high up as the Boston team and the Boswhere we are, we would certainly outdraw them. In speaking of the game forteited to us by the New York team, President Young said that while he was not in a position to say anything definite about the case, he emphatically advised me to never act with our team as dld Manager Powers with his. That means, of course, that the forfeit will stand. Mr. Young also said that Umpire Lynch made a wrong decision in giving a forfeited game to the Cleveland team because the St. Louis Browns did not arrive on the grounds in time. The Browns were unavoidably de-

Manager Hanlon also had something to say about baseball matters. Ned is looking well and fully expected to play in both games to-day, but on Saturday his knee again failed him. He has great hopes of getting his team out of last place and says that the greatest defect is the lack of condition of two or three players. This must be remedied, he says.

If the weather is fine this morning and

afternoon large crowds are expected at both games. The pitchers for the visitors will be Cobb and McMahon and for the local team Galvin and Baldwin.

Beat the Wilkinsburgs.

The Wilkinsburgs opened their new grounds on Saturday and played a close and exciting game against the Sewickleys. The Sewickleys won the game in the first inning on a base on balls, a two-base bit, a single and daring base running by McMillen and Grady, resulting in three runs. The fine fielding of the visitors and the inability of the Wilkinsburgs to banch their hits lept the score close. The features of the game were the fielding of McCandless and McMillen and the work of both pitchers. In the fourth inning Tener sent the ball over the right field lence for a home run. Schumacher made a magnificent throw from deen center, catching Donoghue at the plate. The score:

THE GREAT DERBY.

Latest Betting and Gossip About the Big European Turf Event.

[HY CABLE TO THE DISPATCH.] LONDON, May 29.-[Coppright.]-The Derby which will be run next Wednesday is regarded as an open race, although La Fieche till maintains her position as first favorite. The bookmakers, however, are always ready to make the odds against the mare, and the steady opposition is disquieting to many en who would otherwise back her reely. Many good judges back Bona Vista, and it is certain that he will make an honest effort to land the stake. He certainly has stamina to last the course and his heart is good, though some object to his build as being unsuitable to the Ep-om course. Bona Vista's stable companion, St. Damlen, is still backed by his owner, who believes him

superior to Bona Vista, but the public are scarcely of the same mind and prefer public form to private trials.

The Frenchmen are backing M. Camille Bianche's colt, Bucentaure, who ran fourth in the French 2,000 guineas. He has never proved himself a horse of the first class and Frenchmen are probably backing him more Frenchmen are probably backing him more from sentiment than from any conviction that his chances for the great English race that his chances for the great English race are reasonably good. Some money has been invested on Lhanthony this week and the Colonel North party have been plunging on Eldorado, whose chances are not regarded favorably generally. On the other hand, Flyaway and the Lover have been struck out this week, their respective owners realizing the hopolessness of their chance. The latest betting quotations to-night are 2 to I against La Fleche, 7 to I against Bonn Vista, 8 to I against Damien, 10 to 1 The-salin and Lianthony, a 100 to 6 against Eldorado and St. Angelo, 25 to 1 against Bucentaure, and 33 to I against Sir Hugo.

It is interesting to note that great interest is being taken by the English pre-s and public in the condition of Buron Hirsch, who is lying ill with bronchitis at his home in Paris, not because he is a philanthropist and a many millionaire, but because he is true owner of La Fleche, the Derby favorite, and she will be struck from the list of starters, according to the law of the English

starters, according to the law of the English turf, if her owner dies before the race.

German Sugar Dealers, Boycotted by

the American Combine. MAY INVADE THE PACIFIC COAST.

Not a Pound of the European Product Now Coming Here, Where

MILLIONS WHERE IMPORTED BEFORE

BERLIN, May 29.-Last year \$3,673,899 worth of sugar was exported to America from the consular jurisdiction of Berlin (including the two great sugar centers, Hamburg and Madgeburg) during the quarter ending March 31. During the corresponding quarter of this year not one pound of sugar was exported. One hundred thousand tons of raw sugar are stored at Hamburg; an equal amount is held at Lubeck, Stettin and in the manufacturing districts. The German merchants and producers wish to sell, but no buyer appears. It is a very unusual situation, and many reasons have been given for its existence.

From the statements of many of the leading sugar dealers it was learned that the American Sugar Trust is purposely keeping away from the German markets in order to "bear" the raw products. The trust hopes to buy the German stock of sugar very cheaply in the end. The Germun merchants and producers, on the other hand, hope and believe that the Americans will eventually be forced to come into the market, and that in such an event prices will rise rapidly. Should this prove to be the case, then the price of refined sugar would trial under sufficient charges and speci-

naturally go up in the United States.

Among the many opinions expressed that of Carl Hager, editor of the leading organ of the sugar producers, is significant. He thinks it likely that the continued absence of the American buyers from the German market might be due to a plan of the trust to depress the German markets. It such is the case the German producers will meet the American combination with a trust of their own. They would combine and place their entire output into the hands of one selling office, and would not let a pound go below a reasonable price. There is some little talk of German capital starting refineries in San Francisco and handling the Sandwich Island sugar in opposition to the trust.

A RELIGIOUS WAR.

The French Government Complains Great Britain of the High-Handed Acts of the British East African Company-

Missionary Intrigues Punished. PARIS, May 28.-M. Ribot, Minister of Foreign Affairs, has instructed M. Waddington, French Ambassador at London, to give notice to Lord Salisbury of the treatment the white Fathers are undergoing at the hands of Captain Lugard, the representations of the business session will be hurried through because of a growthe hands of Captain Lugard, the representative of the British East African Company. It is alleged that Captain Lugard has imprisoned several of the Fathers, and that he has distributed arms to the natives with which they have made attacks upon the missionaries. M. Ribot urges the re-

sponsibility for Captain Lugard's actions should be promptly fixed.

The Catholic missionaries, it is further said, have done all in their power to defeat the objects of the company and render its position untenable. In putting down these positions with a trend hand. Captain intrigues with a strong hand, Captain Lugard has incurred the bitter animosity of the Catholic missionaries, and their representations, to the French Government have led M. Ribot to call the attention of Great Britain to the matter.

Britain to the matter.

The Catholic Missionary Review publishes an official report of the troubles. The Catholic kingdom of Uganda was destroyed, and the King, bishops and 17 missionaries were driven out by Protestant natives, supported by British agents: The Protestant s, armed with rifles given them by Captain Lugard, bombarded the Catholic mission and set fire to it, a doctor and a Catholic chief being killed. The missionaries and a remnant of the Catholic natives were forced to when leaving Uganda, was attacked by boats carrying a maxim gun and fled with one of the bishops, while the brothers dispersed in different directions.

THE PARISIAN VIEW OF IT.

A French Protestant Preacher Sees No Harm in Sunday Fair Opening.

PARIS, May 29.—The agitation in America against the opening of the World's Fair on Sundays attracts considerable attention here. Senator Dide, a Protestant clergyman, spoke as follows on the subject to a reporter:

On theological grounds, I do not think that On theological grounds, I do not think that opposition can be made to opening of exhibitions in general. Local considerations, however, may make it preferable that the Chicago Exhibition be closed on Sundays. If the majority of pious citizens are scandalized by the opening of the Fair on Sunday, it certainly ought not to be opened that day. Speaking as a European, who has studied both theology and political economy, I point out that on Sunday the working classes, free from labor, can visit the Fair without loss of money. Sunday opening is not really opposed to plety.

EMIN'S EXPEDITION IN HARD LUCK.

Smallpox and Famine Retard His March Through African Forests. BERLIN, May 29.-Details of Emin Pasha's latest journey from Zanzibar to the African interior, written by Dr. Stuhlmann, have been received here. The writer says Emin desired to explore the primeval forest rather than to return to Wadelai. Owing to lack of victuals the carriers were compelled to retreat, and disease and fam-ine laid the expedition open to frequent naand this last difficulty compelled Emin in December to send Stuhlmann in advance with the healthy members of the caravan.

Much valuable scientific and geographical knowledge has been gained by the expedi-tion. It appears to be certain that the Mumbiro Mountains, which Stanley annexed for England, are really west of the 30th meridian, and, therefore, belong to the Kongo State.

BRIGGS' FOES JUBILANT,

Though They Disclaim Any Zeal in the Matter-The Doctor Points Out the Strange Position in Which He Was Placed-The Programme To-Day.

PORTLAND, ORE., May 29.-With the ending of the "Briggs case" the Presbyterian Assembly comes to the question, How is it regarded by those affected? The prosecution are jubilant because they have got all they demanded. They will return to New York to renew their work, though they disclaim that they have any "zeal" in the matter. The position of the conservative men is that of partial satisfaction, some being dissatisfied because the case was not brought to an absolute decision on the In conversation, Dr. Briggs called atten-

tion to the anomalous position which he occupied in the appeal case. The real de fendant was the Presbytery of New York.

though for reasons entirely technical he was compelled to appear and defend the action which really damaged him. Being second "original party" in the case, he had to resist the appeal which was brought by the other "original party," although the appeal was not against him nor anything which he had done, but solely against the Presbytrial under sufficient charges and speci-fications, but to those which he had been called to plead he had grave objections.

Expressing his own personal views, a prominent officer of the assembly said: "A man who is accused of stealing chickens objects to being tried for stealing a horse."
In the vote of yesterday Moderator Young had no voice, being debarred by the consti-tution, but he expressed himself to-day as satisfied with the action taken. The vote to sustain the appeal was so large that the general sentiment is that of satisfaction, but those who for constitutional reasons voted

against the appeal in toto are preparing a formal protest, which will be largely signed and will be entered upon the minutes.

The remaining business in the Briggs case is only formal. A resolution disposing of the case will be offered early, and it is not expected that there will be much discussion, but the wording of it is regarded as important, and the interests of all parties will be carefully guarded. The order for 10 o'clock is a supplementary report of the Theological Seminaries Committee. It is almost identical with the report submitted some days ago, and will scarcely be condu-cive of the harmony which was desired. It ing desire of the commissioners to return t their homes.

JACKSONVILLE, FLA., May 29.-Bob Floyd, the express robber and murderer, turned up at midnight last night in the house of a farmer named Benafield, in Jonesville, 25 miles from Gainesville in Alachira county. He was recognized at Jonesville Friday, and word was sent to Gainesville on Saturday at noon for a posse to come and arrest him. He had a posse to come and arrest him. He had stopped at a house and got something to eat, and then inquired the way to Benafield's. Mr. Benafield met the posse yesterday, while they were coming into Jonesville. Alleged Dr. Jackson Murder. SEATTLE, WASH., May 29 .- [Special.]-The steamer Mexico has arrived here, having left Sitka May 11. None of the officers and passengers had heard anything of the alleged murder of Sheldon Jackson. The report of the murder was brought down on the Danube by James Dean, Alaska's World's Fair Commissioner, who got it from Indians. They told him the murder was committed three weeks ago, as described in vesterday's dispatches. Dean is not a man likely to make mistakes, but possibly the Indians were telling him of the killing of Missionary Charles H. Edwards

by smugglers in January.

Dr. Jackson sailed May 13, from Port Townsend, on the cutter Bear, for Oun-alaska, and even if the Bear left Jackson alaska, and even if the Bear left Jackson at Juneau he could not have arrived there before May 18, and there is no reason to believe he did not go directly to Ounalaska. Malcolm Campbell, the whisky smuggler charged with the murder of Charles H. Edwards was not indicted by the grand jury at Juneau. Campbell had the influence of the whisky element, and secured his calcase with little difficulty. his release with little difficulty.
