#### THE TRADE OUTLOOK.

Cold. Wet Weather an Adverse Feature to the Produce Trade.

A REACTION TO THE BOOM IN CORN.

The Hide and Calfskin Market Weak at the Recent Decline.

CANNED MEATS IN ACTIVE DEMAND

Office of The Dispatch, Pritsburg, Saturday, May 28.4
The feature of the week past in produce lines has been the steady decline of dairy products. Markets are glutted with country butter, and all grades under fancy are sell-ing just for what they will bring. A fair quality has sold during the past day or two at 10c per pound, and the best is selling in a Jobbing way at 15c per pound.

The quality of Ohio cheese coming to our

markets of late is for the most part poor. Prices are fully it less than they were n week ago. Home raised garden stuff is un-usually backward owing to the cool, cloudy weather which has predominated all the month of May. The days of bright sunshine have been very rare for the month, and garden stuff is fully three weeks behind time. Old vegetables are near their end for this season. The cold, wet weather of the week has proved a check to egg and poultry supplies, and in both lines markets are firm at an advance on prices of a week ago.

In Cereal Lines. In the early part of the week shell corn was on the boom and prices were sharply advanced. The boom has subsided and prices are now back to where they were a week ago. All bull movements in cereal lines seem destined to have a short career since the great yield of 1891. It is evident that there is an abundance in the land, and the last advance in prices calls the stuff to the front. A multitude of fore-landed farmers, who are able to carry their products, withold them from markets in this era of low prices. But once there is an advance in prices, there ampears to be an abundance of stuff offered. The cereal situation for the stuff offered.

ation is run as it has been all the season—in myorof the buyer. Canned Meats.

The Pittsburg representative of one of the Chicago firms had this to say of trade in this line: "Our orders for canned corned beef re away beyond our power to fill. We have 5,000 cases sold ahead, and were unable to 5,000 cases sold ahead, and were unable to secure 20 per cent of this amount this week. The demand from Europe has been so large this season that the home orders cannot be filled. I ordered 5,000 cases, a few days ago, and received only 500 cases, for the reason that only that amount could be spared. There is a great demand this season for 1-b cans, instead of 2-b cans, which have heretofore had the call. With the exception of corned beef we are able to fill orders, but trade is very active all along the line. trade is very active all along the line. Hides and Calfskins.

Trade in this line has not been so tho oughly demoralized for years as it is at the present time. The shutdown of New England shoeleather tanneries for June and July has very much lessened demand for hides and calfskins, and markets here are exceedingly dull at the decline noted a week ago. While we do not change our price list, some of the tanners will not buy at these prices. Sheepskins are fairly steady at quo Following are prices paid by dealers and anners for stock delivered here:

No. I green salied steers, 60ths and over.
No. I green salied tows, all weights.
No. I green salied hides, 40 to 60 ths.
No. I green salied hides, 25 to 40 ths. green saited calfekins ...1 00@1 25

Reduction for No. 2 stock, 1½ cents per hon steers and light hides, 1 cent on buils and 2 cents on calfakins.

Footwear in Boston

The following from the Boston Herald will dicate the situation of the boot and shoe trade at the head center of this industry: The market on boot and shoes, from the standpoint of manufacturers, is rather quiet. But the position is well sustained. ath a tendency toward greater firmness, by reason of the position leather has taken and the prospects of still greater firmness in that market. At present there are not a in that market. At present there are not a great many orders being taken, though there are some small orders for summer goods. In a few instances they are sufficient to keep certain parts of factories devoted to immediate order work busy up to date. But this sort of trade is not expected to hold out much longer, of course. In some instances there is already considerable pressure for the delivery of fall goods, and manufacturers are tarning them out and shipfactures are turning them out and ship-ing them about as fast as possible. As a whole, manufacturers are busy. The lack of a beavy Southern trade is, of course, being felt to some extent, and for this reason there are less goods being made this season than would otherwise be the case. But it is the would otherwise be the case. But it is the endeavor of manufacturers to make up the lack of Southern trade by extra exertion in other markets, and this has made trade in sections more prosperous than the South seems overdone. It leather continues to increase in firmness, on the advent of another season manufacturers of boors and shoes will find themselves under the necessity of increasing prices.

#### FOR PRESERVING LOGS.

A New Method for Impregnating Them With Zine Chloride.

The process of preserving logs is very rapid, and has the additional advantage of being applicable to the timber as soon as it is felled. A zinc chloride solution, which has a specific gravity of 1.01, is forced into the thick of the log by a force pump. To this end an Iron disc of suitable diameter and furnished with a cutting rim is forced into the end of the log and secured by clamps. The preparatory work for impreg-nating each log takes from three to four minutes. When a pressure of two or three atmospheres has been maintained at the thick end of the log for a few minutes the sap begins to exude at the opposite end, and when this is followed by a weak solution of schen this is followed by a has been com-zine chloride the operation has been com-pleted. About two gallons and a half of the solution are required per cubic foot of timber treated. One disadvantage of the process which has not yet been overcome is that it does not distribute the solution so uniformly as some other methods,

#### A Useful Invention.

New Orleans Picavane. A bricklayer of Chicago has invented a garbage box, whose general adoption would do away with one of the most unsightly and offensive nuisances that disfigure the street of our cities. The invention is a round, galvanized receptacle to be placed underground and covered with a movable iron lid. When raised into the garbage cart by means of a small, portable crane attached to the cart, the bottom drops and empties the contents, when the box can be quickly and easily re-placed in its unseen receptacle.

#### The Drygoods Market.

New York, May 28. Business in drygoods was restricted as usual on the closing day of the week, but there was relative activity in wide sheetings, tickings, fall ginghams, indigo blue and shirting prints. The undertone of the cotton goods market continued strong, and in spite of slow trade the tend-

#### WALL STREET'S CLOSE.

A Show of Life in Reading, Rock Island and Atchison-The New Lead Shares Placed on the Market-Colorado Coal

Makes a Marked Advance. New York, May 28.—The stock market to-day was an extremely limited affair, presenting a holiday appearance throughout the session, and while there was for the size of the market an urgent demand for the shorts, the movements were insignificant in most of the active shares, even though a strong temper marked the trading from opening to close. Some pretense to anima-tion was seen in Reading, Rock Island and

tion was seen in Reading, Rock Island and Atchison, eked out by special movements in Hocking Valley and the new Lead shares, which scored material advances, being affected by special causes. The general list, however, remained without feature other than firmness.

Colorado Coal is the only stock of the list which showed a marked advance for the day. The upward movement was kept going by the very favorable bank statement, and the close was fairly active and strong at the highest points, Colorado Coal showing a gain of 1½ per cent, and the others small fractions. The trade reached only 63,232 listed, and 9,720 unlisted.

The following table shows the prices of active stocks on the New York Stock Exchange vesterday. Corrected daily for The Disparch by Wiltness of the New York Stock Exchange vesterday. Corrected daily for The Disparch by Wiltness & Stephersson, oldest Pittsburg members of the New York Stock Exchange, 57 Fourth avenue.

#### THE WEEK IN OIL.

A Preponderance of Bearish Influen Pulls Down the Price. Nothing eventful transpired. With the exception of one day trading was light all through and prices exhibited a downward tendency. The sentiment and influences of the trade were bearish, the field making a spurt and European markets declining. Added to these was the windup of the month, a period always dull. Outsiders ed no interest, and traders wer lest to their own resources. Fi are shown in the following table.

Open- High- Low- Close. 5714 5714 5714 5714 5714 5714 5651 56 5614 5651 5614 56 5614 565 5614 56 5614 56 5514

The finish Saturday was 1%c below the opening on Monday. This represents the loss for the week. Buns and shipments increased a few hundred barrels each. Refined closed as follows: New York, 6.05; London, 4%c; Antwerp, 13%c. The July option will come in on Wednesday.

OIL City, May 28.—National Transit certificates opened at 55%c; highest, 56c; lowest, 55%c; closed, 55%c; Sales, 34,000 barrels, Clearances, 106,000 barrels.

New York, May 28.—The petroleum market was stagnant from the opening until the close, only one transaction being made in the two hours of business. Pennsylvania oil, spot sales none; June option sales, 5,000 barrels, at 55%c. Lima oil, no sales. Total sales, 5,000 barrels.

HOME SECURITIES AND MONEY. Events of the Past Week in Local Specula-

tive Cire: The week in local speculative circles was more notable for slumpiness than business, Sellers took and held the floor; Dut, al-

THE PITTSBURG DISPATCH, MONDAY, MAY 30, 1892.

Changes for the week in the listed special-ties are: Pipeage gained % Old Electric 1½, Switch and Signal ½, United States Glass, common. ½, United States Glass, pre-ferred, ½, Boatman's Insurance 5, and Citi-zens' Insurance 1. Philadelphia Gas de-clined % Central Traction ½, Citizens' Trac-tion ½, Luster ¾, and Brake ½. Philadel-phia Gas, although lower for the week, fin-ished a fraction better than their low-water mark.

ished a fraction better than their low-water mark.

The unlisted tractions finished the week as follows: Duquesne 27% pid, offered at 28 Birmingham 28% bid, offered at 28%: Manchester 43 bid, offered at 44.

Sales Saturday were 13 Switch, preferred at 30, 100 Pipeage at 11%, and 200 Philadelphia Gas at 18. Sales for the week were 2, 108 shares and \$2,000 bonds. Philadelphia Company led with 615 shares, followed by Manchester Traction with 450. Office trading was fair.

was fair.

The local money market underwent some improvement during the week in the losn department, but the reduction of the supply of funds was inappreciable owing to depositing keeping up. Interest rates were a shade firmer at the close, and concessions from the 5% per cent basis were less frequent and confined to a smaller number of banks. While it is encouraging to note a broadening tendency it is the general opinion that there will be no marked change before fall. The following is the Clearing House statement for the week and day.

#### ONE DAY'S HISTORY

CHRONICLED IN 24 PAGES OF THE SUNDAY DISPATCH.

Newspaper Replete in Every Department of News and the Cream of Current Literature-All Wholesome Tastes Gratifled-Every Happening Recorded.

What THE SUNDAY DISPATCH failed to record of Saturday's events is not worth ecording. The big paper covered the whole field—local, general and foreign. Among the matters chronicled were the following:

Local. The regulars won at the Republican primaries....The Coroner disposed of 14 cases.... A druggist will test the Blue Laws....Only ten of the Pennsylvania Republican delega-tion will vote for Harrison...Prizes were awarded at Harry Davis' baby show.... Mayor Gourley has reached no decision on the Exchange Railroad ordinance .... A new company will bury people on the install-ment plan... H. D. Reynolds will be sent to Dixmont because he is bound to build a canal from Pittsburg to the Pacific Ocean ... Most of the season dates at Rock Point are taken ...John Laten was bound over for shooting Henry Arney and himself ... . The Royal Arcanum may reduce the age limit .... A trunk supposed to contain dynamite is at the Fourteenth ward station....Decoration Day will probably be damp....Speakers at the Trades Assembly said labor laws are defect-

ive... Sparrows are disappearing and native birds are returning... Arnold's boat supply store was damaged \$12,000 by fire.... United Presbyterians discussed the old tithe system....Mrs. Kuhn's sanity was established General. The Blaine wave is still growing .... Harri-

son made several speeches en route to Rochester, N. Y....Father Quigley is in jail at Toledo....Seven men escaped from the Mississippi penitentiary, but all were killed, wounded or captured within two hours.... The Kansas tornado destroyed several towns and many lives .... A New York manufacturer married one of his saleswomen .... Dr. Garrison received a light sentence ... Newfoundland's trade dispute with Canada is being settled....Tariff and silver are still bothering Congress....More money is needed to enforce the Chinese law....The legislative appropriation bill will be cut more than \$1,000,000 .... Generals Buckland and Moorhead are dead.... A locomotive fireman eloped with an heiross.... An Irish village will be exhibited at the World's Fair.... Cleveland will keep quiet until after the Syracuse Convention...Archbishop Ireland unced an Italian organizations indorsed the National Union Company....Kernan will preside at anti-snap convention....Pittsburg won a ball game and lost one....College athletes broke records ....All is ready for the Slavin-Jackson fight

....The appeal case went against Briggs.... Methodist Protestants struck out the word "obey" from the marriage service....Bap-tists denounce the Faribault plan....Wheeling street car lines were sold .... Floyd, the Florida train robber, eluded pursuit ... A Pittsburger at Chicora met with foul play and is dying...A Benver Falls lunatic imagines himself a railroad magnate...The ambition of a Philadelphia dynamiter is to destroy the world ... Ingersoll is for Gres written....Charles Gayler, the playwright, is dead....Ford City Glass Works struck a great gasser....An Erie man stole part of a

Foreign. German political parties will form no alliances....A military outrage on a civilian in Germany nearly resulted in a lynching.... The Kaiser is indifferent over President Carnot's visit to Nancy ... Moors are enraged over the English flag flying in their capita Russians will advertise their sugar at the World's Fair .... General Sheridan gathered campaign material in Europe....Spain is devastated by storms....French dynamiters are still at work....Parnellites and antimon enemy no Parliamentary seats....London society is shocked over sweating estab-lishments....A forced sale illustrated the decay of princely fortunes....Prince George is now Duke of York...Keeley will test his cure on six English dipsomaniacs...The

Austro-American reciprocity treaty was signed....Port wine a drug on the market,

CHOICE TIMOTHY HAY A SPECIALITY. DANIEL M'CAFFREY. Hay, Grain and Commission,

With flying colors we have carried consternation in the camp of every imitator and counterfeiter who has attempted to make money on the reputation of the world-renowned Southwest System-Pan Handle Koute Carlsbad Sprudel Salts. There is but one such place, and we are the sole agents in the United States for its products. The Carlsbad Sprudel Salts are nothing but the Carlsbad treatment put up in bottles ready for your use at a very reasonable price. Have you ever tried them? Men and women of sedentary habits will find renewed pleasure in life if they will take them. It removes false adipose tissue, and replaces it with that muscle and bone which is absolutely necessary for comfort and health. Look out for counterfeits. The genuine have the name, Eisner & Mendelson Co., N. Y., Sole Agents, on every bottle.

The hypophosphites of lime and soda combined with cod-liver oil in Scott's Emulsion improve the appetite, promote digestion, and increase the weight.

They are thought by some to be food; but this is not proved. They are tonics; this is admitted by all. Cod-liver oil is mainly a

food, but also a tonic. In Scott's Emulsion the cod-liver oil and hypophosphites are so combined as to

get the full advantage of both. Let us send you a book on CAREFUL LIVING; free.
