LIVE STOCK REVIEW.

Prime Light Beeves Not in Sufficient Supply This Week and

PRICES BETTER THAN FORMERLY.

Low Grade Stock and Heavy Cattle no Longer in Demand Here.

SHEEP LOWER AND SWINE STEADY

OFFICE OF THE DISPATCH, PITTSBURG, WEDNESDAY, June 1. There have been all told about 62 carloads of cattle on the market at East Liberty yards this week, against 72 loads last week. More than one-half of this week's offerings were from Chicago. Monday being a holiday buyers were present in smaller force than usual, and markets were draggy on all grades excepting prime light beeves, weighing from 1,000 to 1,150 lbs. This grade was not in supply sufficient for demand, and all offered were, promptly taken at strong last week's prices. All other grades were dull and slow. There was little or no demand for feeders or heavy cattle. The latter have

ceased to be a quantity at the East Liberty yards. A load of 1,500-B beeves well up to rime was held at \$4.75 but had to be sold clow this figure. A load of light prime catthe was sold at \$4.75, which was the top of the market. Fresh cows were not in as large supply this week as last and choice stock found ready sale while common was slow at a decline. Sales were reported at \$45.00 and \$50.00 per head. Calves were in light supply and markets were firm at a slight advance. Choice yealers were sold as high as \$5.85.

high as \$5 85.
Sheep—The run was the largest of the season. There were over 30 carloads on sale Monday, and a dozen or more have been received since. Markets are weak and slow at a decline of not less than 25c per cwt from prices of last week. Hogs were in larger supply this week than last, but prices are practically unchanged. Top price of Philadelphias was \$5 10. This morning there were but four loads on sale and markets were barely steady.

A Live Stock Firm's Review.

Following is the report of the week's transactions by Holmes, Briggs & Co.: We report 60 cars of cattle on sale Monday against 68 loads on Monday of last week. Thirty-six of those were from Chicago and the balance from Ohio and Indiana. The Thirty-six of those, were from Chicago and the balance from Ohio and Indiana. The average quality was about the same as last week. The attendance of buyers was light on account of Decoration Day. We were counting on a good market, and no doubt would have had it but for the holiday. Yet good, smooth butchering grades were fully as strong as for the pst two weeks, while quite common grades weighing 900 to 1,000 were plentiful and were dull at a shade lower tima last week's prices. Fresh cows were quite plenty and all except rood kinds were slow sale at lower prices. We quote good to printe 1,400 to 1,300 steers at 4 5094 65; good 1,200 to 1,300 steers at 4 5094 65; good 1,200 to 1,300 steers at 4 5094 65; good 1,200 to 1,300 steers at 4 5094 65; good 1,200 to 1,300 steers at 4 5094 65; good 1,200 to 1,300 steers at 4 5094 65; good 1,200 to 1,300 for long steers at 4 5094 65; good 1,200 to 1,300 steers at 4 5094 65; good 1,200 to 1,300 for long steers at 4 5094 65; good 1,200 to 1,300 for long steers at 5 5094 65; good 1,200 to 1,300 for long steers at 5 5093 50; fresh cows and apringers, \$20 00025 00 per head.

Recipts of logs on Monday were about 20 cars, which were fully equal to demand, and, on account of Monday being a noliday, the trade was very slow at a shade lower prices than the close of last week. Since Monday receipts have been fugat, and demand light at about Monday's prices. This morning the demand is better, and market closes firm. We quote seed to the full slow at strong 50 cents lower than last week. Since Monday New York has made another to a break and with light receipts week. CORN EXPECTED TO BOOM.

Countrymen and Other Speculators Eager to Buy, Believing an Advance Is Sure to Come-Continued Weather Still the Moving Factor-Wheat Dull,

Moving Factor—Wheat Duil,

CHICAGO—There was a lively corn market to contend with to-day and it demanded all the attention of the trade. The chief feature of the market was the weather. Hundreds of stations throughout the corn belt reported another night of heavy rain and no prospect of a let-up. The floor was pretty well sprinkied with countrymen who are on hand to get in on the buil side of corn and oats in expectation of higher prices when the damage is fully understood. The market opened with a decided bulge of le or more. There was a little reaction caused by selling on the bulge, when a second advance put prices to the high point of the session and about 1½c over the close yesterday. On reports of clearing weather the market lost half its advance.

Wheat opened %@%c higher than yesterday's closing; advanced ½c more; then declined ½c; fluctuated some, and closed ½c higher than last night. Trading was mainly local and of moderate volume. Reports of rain caused the early advance. It was also claimed that wheat, if the weather turns hot, is liable to rust, and is in a critical condition. There was also talk about the Government crop report, which it was thought would make a bad showing. Late in the day a rumor that the Hatch bill might be before the House before night caused some selling. Predictions of clearing weather also helped to weaken the market to 42½c, the low point of the day, but there was a rally before the close on buying by shorts.

Outs were fairly active all day, the market ductuating with corn, and closing ½c better than last night.

The provision trade was not a heavy one, and prices were easily influenced. Although the board showed nearly 40,000 hogs at the yards and prices 5c to 10c lower, there was enough influence from the strong corn market to start prices steady or higher. Late in the day provisions weakened with the easier feeling in the grain market. Compared with last evening, pork and irred.

REAL ESTATE

Points for the Consideration of Non-Resident Inquirers.

A DEAL CLOSED ON FOURTH AVE.

Ficture of the House Hon. John Dalzell Is Building in Washington.

The condition of the realty market is well understood by local owners and buyers, but, for the benefit of outsiders writing here for information on the subject, it may be stated that it is fairly active and full of good points. Speculation is at a comparatively low ebb, purchases as a rule being made purely and solely for permanent investment. Unless indications be wholly misleading matters are shaping themselves for an aggressive movement on the part of investors. This is indicated by recent pur-chases in the Squirrel Hill and Highland Park districts. There is scarcely a real estate agent in the city who does not talk hopefully. Owners are firm, and there is not the faintest sign of a break anywhere

along the line.

A Deal on Fourth Avenue. A transaction in central real estate was concluded yesterday by W. A. Herron & Sons, the outcome of which will be another Sons, the outcome of which will be another large office building. They sold for nearly \$60,000 a business property on Fourth avenue, but declined for sufficient reasons to give the exact location. It may be stated, however, that the property is in the Second ward, which locates it above Wood street. As indicated, the purchaser, who has on several previous occasions backed his belief in the future of the city in the same substantial manner, will improve with an office building, but perhaps not this year.

Da zell's Washington Home.

The house which Hon. John Dalzell is erecting in Washington, D. C., is thus decribed in the 'tar of that city: "The residence which Representative Dalzell is building on Eighteenth street just north of Q street will be a good example of brick architecture. There will be some stone used, but the principal material will be brick in combination with terra cotta. The walls will be only two stories in height, covered with a heavy roof, with deep overhanging eaves. The entrance will be on a level with the street, the front steps being inclosed and leading up into a large central hall. The rooms on the first floor will open upon this hall, which will contain a large platform staircase leading to the upper Da zell's Washington Home. upon this hall, which will contain a large platform staircase leading to the upper floor. All the details of the exterior and interior will be plain and simple, and the house, as a whole, while quiet in effect, will be pleasing and attractive. The wide frontage of some 40 feet will give an opportunity for the treatment of spaces, which count for so much when well used."

Special Features of Trade. Mrs. Hanelly has let the contract for a handsome residence at Hazelwood. Six permits were issued yesterday for the same number of improvements, all small, the aggregate being \$3,700.

Boggs & Buhl will to-day begin an addition to their store on Federal street, Allegheny. They purchased the ground two or three months ago through the real estate agency of John K. Ewing & Co.

The Standard Oil Company yesterday promulgated the following: "We desire to advise that this company has conveyed its property to the Atlantic Refining Company, and that the business will, on and after June 1, 1892, be done under the name of 'The Atlantic Refining Company, Pittsburg Department.' The business will be conducted under the same management as heretofore."

POINTS IN MONEY.

The Outflow Report d a Little Stronger, Though Still Unsatisfactory.

Business was fairly active at the city banks yesterday. There was no rush on the part of borrowers, but improvement in the demand was manifest. It was not large, but encouraging, showing a stronger pulse in the loan department, though still below a satisfactory point. Funds were abundant, however, and fates casy at 506 per cent. Any talk concerning an advance of rates finds little support in the statistics. The recent statements of the national and State banks would indicate that the money situation was never easier. Clearings were \$2.848.890 is and balances \$618.333 80. Eastern exchange was still scarce in some quarters. activity and breadth yesterday, and values were decidedly stronger. Advances included the unlisted Tractions, Airbrake, Luster, Underground Cable, Philadelphia Gas and People's Insurance. While the street railways are justly regarded as the hope of the market, there are obstacles which may prevent for a time the realization of all that is expected of them. One of these is the proposition to levy a tax on them for the benefit of the city. The right or wrong of this cannot be touched upon here, but the mere suggestion of such a thing will make investors cautious, and tone down any enthusiasm that may exist. The street railways are all right, but they are in a transition state. Once firmly on their feet, they will speedily reach the high position as investments to which they are destined.

INDUSTRIALS WEAKEN.

THE STOCK MARKET LISTLESS, WITH-OUT MARKED CHANGES.

Only the Last Hour Sees a Change in the Industrials-A Raid on Reading, Owing to an Injunction, Depresses the Entire

NEW YORK, June 1.-The stock market to lay was less interesting than that of vesterday, and the transactions of significance were narrowed down to three or four stocks

were narrowed down to three or four stocks, the rest of the list presenting the usual dull and listless appearance, their fluctuations being confined within extremely narrow limits. No change in the general situation seems likely to be made until the crops are well forward.

The granting of a preliminary injunction by the Chancellor of New Jersey, restraining the Port Reading Railroad from operating the Jersey Central, was made the basis of an attack upon Reading, and the early weakness was the effect, resulting in a loss of something over I per cent. The influence of this did not outlast the forenoon, and a partial recovery was followed by duliness. Northern Pacific preferred was the other special point of attack, but the change was measured by smaller figures than that in Reading.

special point of attack, but the change was measured by smaller figures than that in Rending.

Burlington in the forenoon and Louisville and Nashville later in the day were subjected to some pressure, but with St. Paul and Erie they were held within comparatively narrow limits. The Industrials continued to be the strong features of the market, but in none of these, even, was the range of prices of importance.

The general market showed the effects of yesterday's drive at the opening, which was made at lower prices, Reading leading with a loss of ½ per cent, but the rest of the list, except one or two, showed only slight losses. The bears concentrated their efforts at first on Reading, but later Northern Pacific preferred was taken in hand and Louisville and Nashville followed. The declines in these stocks failed to dislodge stocks in the general list, and as quotations went down more subborn resistance was met, which compelled the operators for lower figures to turn their attention to fresh fields. Accordingly, such stocks as C. C. & St. L., in the absence of support, were suddenly attacked and driven down from 67½ to 65; Erle preferred from 66 to 64. and Jersey Central was remembered late in the day and sold off from 140 to 188%. Oregon Navigation also sold down to 65 but recovered a portion of the loss, rallying to 67. Burlington, Rock Island and St. Paul were pressed for sale, but the resistance was so efficient that the fluctuations of neither reached more than a fraction.

fraction.

Prices became heavy under the continued Prices became heavy under the continued pressure, and generally retired to a shade below the opening. The close was heavy, though quiet at insignificant changes in most of the list. The Industrials, which had been the strong point in the market, were dropped suddenly in the last hour, and the Lead stocks are lower this evening. Among the active stocks final changes are insignificant, except in Reading, which lost 1 per cent.

cent.

The total sales of stocks to-day were 248, 085 shares, including: Atchison, 10,175; Chicago Gas, 12,920; Eric, 17,570; Louisville and Nashville, 17,783; Northwestern, 3,800; Northern Pacific preferred, 19,977; Rending, 45,485; St. Paul, 21,910; Union Pacific, 4,100.

Ratironal hounds, in the main were still St. Paul, 21 910; Union Pacific, 4,100.

Railroad bonds, in the main, were still firm to-day, but there was less animation in the list. The Rending issues developed some weakness, following the stock, though no material loss occurred. The sales reached 1615,000, with special activity in Atchison incomes, Detroit, Mackinac and Marquette land grants and the Readings.
