REDEMPTED AGAINST IRISH REUNION.

DUBLIN, June 3.—A meeting of the National League was held here today. William Redmond delivered a speech in which he said he did not think it would be for the good of Ireland for the Parrellite section of the Irish Parliamentary party to be united with the men who were responsible for the death of Mr. Parrell.

AS ACCIDENT AT GARIBOLDI CELEBRATION.

ROME, June 3.—Today was the tenth anniversary of the death of Giuseppe Garibaldi and was appropriately observed. The crowd in the villa formerly occupied by Garibaldi was so great that the floor collapsed, carrying with it a large number of persons, of whom were injured.

A RUSSIAN SHIP AT ENGLAND.

LONDON, June 3.—A Russian ship has presented a valuable ring set with the royal monogram to Colonel Farnoff, who expelled the English officers from the Amir colony.

THREE THOUSAND CHOLERA DEATHS.

CALCUTTA, June 3.—Thirteen have been buried today, and there have been 3,000 deaths from cholera in this city.

PARIS, June 3.—Blondel & Garnier,

brokers of this city, failed, with liabilities amounting to 3,000,000 francs. The failure was due to losses on the Bourse.

Paris, June 3.—An Anarchist named Drouot, who had been arrested in this city charged with a dynamite conspiracy, today divulged the hiding place of a quantity of dynamite which had been stolen by Anarchists from one of the Government arsenals. Officers went to the place indicated and unearthed 141 dynamite cartridges, 66 detonators and 24 fuses.

WASHINGTON, June 3.—In the census investigation today J. H. Wardwell testified that he had formerly been an engineer in the Census Bureau. While there he had, by order of Chief Engineer Cully, destroyed hundreds of thousands of official envelopes already addressed. He had also burned 500 or 600 feet of lumber, for which the bureau had paid \$330 to \$340 a hundred. He did not know whether or not Superintendent Porter was cognizant of these matters, but thought that he should have been. Superintendent Porter had appointed to place persons who were generally known about the city as bad characters.

MISS CLARA D. BOSWELL, "an old maid," as she described herself, and a former employee in the Census Bureau, testified that she had been employed in punching the enumeration slips. The employees were told that speed was needed, and not accuracy, and they were driven like animals, many of them fainting under the stress. The work was consequently inaccurate, for the clerks, being forced to make large records, would not stop to correct their errors. Because of the character of the work the men would not undertake it, so it was placed on the women. There was favoritism shown toward certain female clerks, and they were always the young and pretty employes.

NEW YORK, June 3.—Chairman Murphy, of the Democratic State Committee, has issued a call for a conference of the regular Democratic State delegation to the National Convention at Chicago. The meeting is to be held at the Hoffman House, next Tuesday evening. It is said that Senator Hill will attend, and that important action will be taken with reference to the Senator's candidacy.

A TROY DISPATCH, says: On good authority it is asserted here today that at the New York meeting it will be proposed that in case the National Committee refuses to admit any party to the contesting delegates the regular delegates will stay by Mr. Hill, but if any Syracuse delegates are admitted, the February delegates are to change their allegiance to Edward P. Flower, discarding both Mr. Hill and Mr. Cleveland. The proposition to make this change is to be submitted to the contesting delegation.

PHILADELPHIA, June 3.—[Special.]—Terence V. Powderly, of the Knights of Labor, has published a letter in which he takes himself out of the list of aspirants for the Presidential nomination of the new People's party organized by the Farmers' Alliance. While he will support that party and vote for its nominee, he will not run for any office on its ticket. He argues that he is not the proper man to nominate for the Presidency, and that there must be no mistake made in the nomination at Omaha. He says: "I am not and will not be a candidate for President, vice President or any other office. I beg leave to say that I have placed myself in the hands of my friends, and if any one of them is indiscreet enough to mention my name as a candidate for office of any kind I will scratch his name from my list of friends."

SNOW HILL, Md., June 3.—[Special.]—Henry Penwell, a young farmer residing near Snow Hill, while in a somnambulist state jumped from a second-story window of his residence one night recently without being injured by the fall. His wife awoke, and, missing her husband, made a search for him, as he had on previous occasions walked in his sleep.

SHE FOUND HIM BREATHING NATURALLY.

The ground upon which he fell being sandy, he was not hurt. She threw water over him, and soon brought him around all right, but very much astonished to find himself outdoors in his night clothes and to learn of his adventure.

She has just refused \$10,000 for a racehorse said to have been presented to her by Mr. Baird. An interesting sale is announced by Christie's of a collection of valuable gems presented to the prima donna De Grisi by wealthy admirers and European sovereigns during her long career.

DIFFERENCE OF OPINION IN MINNESOTA.

MINNEAPOLIS, June 3.—Opinion varies in nearly all of the uninstructed delegations, although perhaps not so much anywhere else as with the Minnesota delegates.

AN ILLINOIS OFFICE HOLDER FOR HARRISON.

MINNEAPOLIS, June 3.—Miles Kehoe, an Illinois delegate at large, is for Harrison, and believes that at least 44 of the 48 delegates from his State will be with him supporting the President, and possibly some of the others.

IMPARTIAL USERS SELECTED.

MINNEAPOLIS, June 3.—The appointment of the Minnesota contingent of users which means the majority of them have been kept clear of politics to a considerable extent. Sergeant at Arms Meek organized them out to one or two local organizations and institutions selecting their representatives. So far as Presidential preferences are concerned, they are as impartial as could be secured.

RENTKIFY FOR THE PRESIDENT.

MINNEAPOLIS, June 3.—Colonel W. O. Bradley of Kentucky, National Committee man, and a delegate at large, says: Kentucky is for Harrison. We are great admirers of Mr. Blaine, but we are not for Harrison, whether Mr. Blaine runs or not. We have 30 delegates, and every district convention except two instructed for Harrison. Blaine may get these two districts, but I don't think he can possibly get any more.

\$1,000,000 ON HARRISON AGAINST THE FIELD.

MINNEAPOLIS, June 3.—There were some bets made during the evening, of which the largest was \$1,000,000 even on Harrison's nomination against the field. Marcus Johnson, Revenue Collector at St. Paul, took the Harrison end of the bet and Deleage Eustis, of Minneapolis, a Blaine man, the other end.

THE MEN PREPARING FOR A STRUGGLE.

MINNEAPOLIS, June 3.—Developments now indicate that Homestead will be the scene of a great conflict between capital and labor. The Carnegie Steel Company stands on the one side and over 4,000 workmen under the protection of the Amalgamated Association on the other.

THE MEN PREPARING FOR A STRUGGLE.

MINNEAPOLIS, June 3.—The scale of wages which has been in force three years expires on June 30. In 1889, when this scale was signed, there was a short but very lively fight, which ended by Sheriff McCandless acting as mediator and bringing representatives of the two sides together after all negotiations had been dropped. At that time it was the avowed intention of the Carnegie to run the mill non-union, but this year their tactics have been very different.

WHY THE FIRMS HURRIED MET.

They desired to so arrange matters that the plant could run right along after the usual shutdown of July 1. This desire arose, of course, from the heavy contracts for the Government for armor plate, besides other orders. The management said, though, this conference was only to apply to four departments—the armor plate mill, the 119-plate mill and the two open-hearth departments.

THE COMPANY'S PROPOSITION WAS ACCEPTED BY THE MEN, WHO PRESENTED A COPY OF THE SCALE WHICH WAS SENT TO THE NATIONAL CONVENTION OF THE AMALGAMATED ASSOCIATION.

THE MEN RECEIVE THE ULTIMATUM.

Conference after conference was held, with no conclusion. The men contended that they could not work for less than present wages, while the management declared that on account of improved machinery and increased product, the price per ton for labor must be reduced.

THE SITUATION FROM THE LABOR STANDPOINT.

The proposed scale, as handed up by the

firm, is based on bills at \$20.30, the same as the present scale, but the minimum basis is reduced to \$23 instead of \$25 as at present. As bills are now the \$23 mark now that means a clear reduction to start with of about 17 per cent for every man in the great plant who works by tonnage. Then, in addition, every job except two or three in each department receives a reduction, in many cases amounting to over 30 per cent. This, with the reduction in the selling price of billets, makes a grand reduction of over 40 per cent upon the men under this scale for many of us to make as much as we could at ordinary laboring wages. There is no question in my mind that the proposed scale will be rejected by the Amalgamated men, and if that means a strike the men will be found in line as they were three years ago when the Sheriff was called in as mediator. I am sorry, but I fear trouble will come.
