SATURDAY, JUNE 4 1892 THE PITTSBURG DISPATCH and standing broad jumps. The Treasurer's report was approved and the profits of the last field day were divided between the five colleges. It was suggested that an inter-col-legiste football and baseball league be formed for the purpose of playing regular schedule games in the fall, and it is very likely that this idea will be carried out. The Executive Committee will meet early next spring and decide upon the order of events and the date of the field day, which will take place about the same date as this year. In the meantime, the collegians will go into training with a view of breaking the excel-lent records made as week or ten days ago. Young, 1. Passed halt-Zimmer, Wild pitches-Rutger, 1: Young, 1. SPECIAL TELEGRAM TO THE DISPATCH.]

NEW YORK, June 3.-"One good turn deserves another," said Ed Crane this morning in the club

hit the ball," and Crane smiled proudly as he pictured himself pulling down liners and hitting a three barger with the bases full. Rusie seemed pleased by Crane's assurances and went into the game with great confidence.

Crune Was a Complete Failure,

At the end of the sixth inning, Crane by a bad ercor had presented two runs to the Pittshurgs and he had struck out twice. Then he wandered over to the club house, threw his cap on the floor, kicked the cuspidor and remarked to Tiernan, who was nursing his lame leg, that he never wanted o oblige a man, but what he slipped up. Fields took Crane's place and made a single, but fortunately had no fielding chances. Rusic pitched one of his old-time games and with the exception of the first inning was very effective. While the New Yorks tande the most hits, they were usually made with two men out and Baldwin vetoed any more. Again Miller and Corkbill cut off some agly drives, while Shugart made some phenomenal stops.

They Made a Good Start.

The New Yorks got a run in the first on re's two-barger and a low throw to first The Pittsburgs did better. Farrell Miller's fly ha a fallen into O'Rourke's and Bierhouer's easy grounder to ad been fielded to first. Shugart hit she had been fielded to first. Shugart hit left for a base and Beckley came next h a terrific smash to right for three es. Smith drove Beckley home with a rn single to center and Farrell ended the with a grounder to Rusie. That hitting ich was ddhe with two men out was very earsive. After that inning Rusie settled in and but three more hits were made off . The New Yorks tied the score in e d. getting in a run on Gore's base on le and singles by Faller and Richardson, ther tried to score from first on a single was run out. th a terrific smash to right for three an single to center and Farrell ended the wn and but three more hits were made off ird, getting in a run on Gore's base on Fuller tried to score from first on a single

ELECTRICITY FOR NEW YORK'S L LINE

ISPECIAL TELEGRAM TO THE DISPATCH.1 NEW YORK, June 3.-Dr. Wellington Adams' scheme of building an electrical railroad between Chicago and St. Louis that will run passenger cars at the rate of 100 miles an hour, proved an interesting topic of conversation for the electricians of this town to-day. Mr. Adams told the story of his project vaguely to the members of the Electric Club on Monday night and rather startled his expert listeners.

To-day the electricians debated among themselves as to whether the project was PITTSBURG, June 3 .- The United States Sigpracticable. Opinious seemed to be divided nal Service officer in this city furnishes th about it. One of the editors of the Electric Wor'd said this afternoon that he saw no reason to doubt that the thing could be accomplished. "As I understand it, from Mr. Adams' somewhat guarded explanation of his method," he said, "he is going to adopt the three-phase current to develo the motive power. The three-phase current differs from the alternating current in that it has three wave motions instead of two. The alternating current has a forward and backward wave motion. The three-phase has a third, which is produced by the pecu-liar construction of the dynamo generator. That is a secret that Mr. Adams does not reveal. The three-phase current is used be-cause it is better adapted to transmission over long distances and is operated with less loss of energy than the alternating current, and is consequently more economical than the alternating current.

Thinks 100 Miles an Hour Is Obtainable. "Mr. Adams' description of his energy-producing method indicates that it will be similar to the system exhibited last year at the Frankfort Electrical Exhibition, which is called the Frankfort-Lauften system. The Ex-Commissioner of Customs Henry C

motive power was generated by waterfalls at Lauffen and transmitted over small trolley wires to Frankfort, a distance of something more than 100 miles, and used in \$1.

Frankfort to operate motors. To attain his proposed speed of 100 miles an hour Mr. Adams will have only to gain 25 miles on the speed already attained by steam power, short time since, died to-day at the age of 67. The deceased was born in Pittsburg, his and the scheme is therefore a comparatively easy undertaking in the advanced state of the art of electrical propulsion. "Prof. Crosby's experiment, referred to

The deceased was born in Pittsburg, his father being an officer in the army there at the time. He graduated and was admitted to the practice of inw in Meadville. He served his county as District Attorney, and was three times in the Legislature, during which time he was Speaker in 1864. He was an active member of the convention which nominated Lincoln, and was President of the State Convention in 1865. He was a Presi-dental elector in 1868, and was Attorney General of New Mexico in 1874. He was ap-pointed by President Grant Commissioner of Customs, and being reappointed by Presi-dent Hayes and Arthur, served till 1855. He has two sons, one an officer in the regular army, and a daughter. He was a man of splendid presence and showed great elo-quence as a speaker during his long career as a politician. He was a great triend of Simon Cameron. at the Electrical Club discussion, of attain-ing 120 miles an hour speed, was made last year with an electric motor car on a con-tinuous circular track at Laurel Hill, Md. The track was about a mile and a half long. Mr. Crosby had his motors built in a special car, which worked on the locomotive plan, and was designed to carry passenger cars as

the locomotive does." Dr. Louis Bell, who is a consulting en-Boys' Waists, 150 styles, 25c, 38c, 50c, 75c \$1, \$1 50, including a line of Star and Mother's Friend Waists. gineer for a number of electrical projects is one of the experts who doubts the prac A grand line of new Teck, Puff and Four in Hand Searfs at 25c, 50c, 75c, \$1. Windsor Scarfs, Lawn Ties and Bowsticability of the Adams scheme. Dr. Bell said that the road bed of the 100 mile an hour Chicago Air Line railway would be a serious problem from an engineering stand-point. He himself would not think of con-structing a road of this kind without being grand assortment. of the village blacksmith, while temporary ToWe have everything in the in ane and just after her husband left the room, cut her throat with a razor, almost severing the wind-pipe. WASHINGTON, June 3 -- Washington took

the last name of the series to-day. Weather Attendance, 1.050 Score

SHOTN, E B P A LOLEVELAND R B P present: Washington and Jefferson, B. F. Mevay, Russell Meyers; Westminster, W. B. Anderson, G. A. Sowash; Goneva, C. O. Bernies, W. M. George; Western University, W. C. Gill, A. R. Hamilton; Allegheny, F. W. Black and C. A. Peffer. The following were elected officers for the year: President, M. George, of Geneva; Vice President, W 21 72 C 0

Nothing as yet, however, has been outlined either as to the character of Sullivan's The would thereafter be 'Hamlet' without the Dane. Feeling this way, I say that if Anson, atter all these long years of patient, faith-ful, splendld work, should come before the steckholders of the Chicago club and say he desired to go elsewhere, not a hand would be raised against him. Anson has carned the right to go or stor as he pleases at the training or the selecting of training ground. the right to go or stay as he pleases. At the same time, those interested in the Chicago club would take the departure of the old man as a personal affliction.

To Strengthen Two Teams.

NEW YORK, June 8 .- Last night a secret meeting was held here by the Leagae magnates-Byrnes, Robinson, Brush and Day. This morning a prominent director of the New York club was asked if the meeting was for the purpose of making a deal whereby the New York and Baltimore clubs could be strengthened. He said: "Well, I guess you are not far wrong: however, I'm not at liberty to say anything about it." Pitcher Meekin has been reinstated.

Enret Ordered to Report.

have been mentioned as allording special facilities for Sullivan's work, but it is safe to say that neither of these locations will be se-lected. In talking to a reporter about the match yesterday Casey said: "A proper training ground is of the utmost importance. I must say that Corbett has picked out a good spot in Asbury Park, but then that place has its objections. It is gen-erally filled with summer residents from the large cities, and it is just such things that 1 wisn to avoid. Quarters near sait water are just the thing if you can get them properly located. My idea will be to get as far from railroad communication as possible. "Sullivan is going into this affair with Cor-bett as if his life depended upon the result. He is confident of winning; so am I. But we will take no chances. Therefore, Sul-livan knows, probably better than any other man, what will be necessary to get into berfect trim. I have my own ideas about the matter, and little conferences be-tween us I'm sure will lead to happy re-sults. Another thing, I don't think that Sullivan should be charged with irritability. Any man who can travel around the coun-try and have his privacy invaded by gaping crowds, and have all sorts of questions howled at him without the slightest evi-dence of disapprobation, must be a man of wonderful temperament," A telegram was received by Mr. Temple of the local ball club, yesterday from Manager Buckenberger stating that Captain Burns had ordered Pitcher Ehret to report on June 15 in condition to pitch. If Ehret is not in condition by that time he will be suspended indefinitely. Mr. Buckenberger also stated in his telegram that Woodcock will pitch at Boston to-day. Inter-Collegiate Football.

To-Day's County League Game,

WASHINGTON, PA., June 8.-[Special]-The Athletic Association, composed of the stu-dents of Wash-Jeff College, have, inaugu-The old County League favorites, the Homestead club, will play against the champion Gyms at Gymnastic Club Park this rated a movement having in view the or ganization of an inter-collegiate footbal league. It is the intention to include in th afternoon. The ex-champions will receive a hearty and enthusiastic welcome, as they were always well liked for their quiet and circuit the following colleges: W. U. P., Geneva, Westminster, Kiskiminetas, Mor-gantown, W. Va., and W. & J. Should this scheme fall through, W. & J. will endeavor to gain admission in the Eastern State League, composed of Lehigh University and several other institutions of learning. gentlemanly deportment on the field, as well as for the superior article of baseball they always put up. The old-time favorites, the Colgan brothers, Rowe, Youngman and Vet-

ters, the crack left fielder of last year's Jeannette Grays, as well as several other old-time notice Grays, as well as several other old-time County League stars, will be found with them. Al Crum, who pitched for the Alle-ghenies in 1829, will be the pitcher, and he will make the heavy hitters of the Gyms hastle. The Gyms will present Boyle, of last year's Our Boys, at short stop. He is a quick and active little player, and will fill up the big hole at short caused by Cargo's descrition to the State League. The game will be called at 4 o'clock.

Two Games To-Day. The Allentown and Pittsburg clubs did

not play yesterday at Exposition Park on account of wet grounds, so there will be two games to-day for one price of admissio The first will commence at 2 o'clock and the second at 4. Manager Felix Marks, of the Allentown club, seems to be very confident that his team will take one of the two games, possibly both. Lukens, the Phila-delphia phenomenon, will pitch the first delphia phenomenon, will pitch the first game, and McCullough the second, while Menefee and Jones will do the twiriing for the home team. The make-up of the two teams will be the same as published in yesterday's DISPATCH.

At Johnstown-

At the close of the East End pool tourna-ment last night the score stood: Godell, 50 balls; Gusman, 100; Frey, 98; Swager, 100; Barber, 100; Godell, 72. The State League
