NEWS OF THE COUNTY COURTS

Judge Slagle yesterday handed down an opinion refusing a divorce in the case of Lottie E. Fox against Edward Fox. The couple separated in 1886, and "malicious desertion" was alleged in the suit. In his opinion Judge Slarle said there was little evidence to sustain the charge. Continuing he said:

The increasing number of applications for divorce on the ground of desertion demands a careful scrutiny of the te-timony adduced to sustain the charge. There seems to be a growing impression in the minds of the peo ple that all that is necessary to procure a decree of divorce is to show that the parties had lived apart for more than two years, erroneous idea. Desertion im plies an abandonment by one party against the will and without the assent of the other. Separation is not desertion. Poverty, idleness and untruthfulness are great evils when they drive a wife into separation from her husband, but they must separation from her husband, but they must not be mistaken for the high crime of deser-tion. A wilful abandonment without the as-sent of the deserted, persisted in for two vers, may be assumed to be malicious. But in proceedings for divorce, as in other cases, malice will not be presumed. It must be proved by showing facts from it may be rea-sonably inferred. The burden of proving such facts is upon the libeliant and in all cases, but especially where the proceedings are ex-parts, should be clearly proved. The facts should rebut any implication of separ-ation by mutnal consent. The evidence in this case does not do so.

In conclusion, the divorce was refused. Attorney Harry M. Scott yesterday filed the answer of Mrs. Johanna Geiger to the suit for a divorce brought by her husband, Daniel Geiger. They were married Jan-uary 2, 1839, and separated 22 days later. Desertion was alleged. Mrs. Geiger denies the charge of describin, and states that she was compelled to leave for husband, being unable to stand his treatment of her and his excesses. She described him as "a fiend of passion incarnate."

A divorce was granted yesterday in the case of Sadie J. Short against Bobert Short. Ill-treatment was the charge.

A BLOW AT POLITICAL CLUBS.

Judge White Desides a Charter Is Not messary for Them.

Judge White yesterday refused the apiestion for a charter of incorporation of the Ton-a-lu-ka Republican Club of Braddock. The application set forth that the club was an association of a number of citisens of Pennsylvania, banded together for the maintenance of a club for acquiring literary attainments and culture and the study of political economy. The officers of the club are: President, G. W. C. Day; First Vice President, W. J. Vance; Second Vice President, E. J. Smail; Recording Becretary, J. E. Menges; Corresponding Becretary, D. F. Melville; Treasurer, H. C. Shal-lanbergar.

In his opinion Judge White said:

In consequence, he asked that the child be brought into court. June 18 was fixed for a hearing. A petition for a writ of hnbeas corpus was filed yesterday by James Purdy to ob-tain possession of his child, aged 1 year and 3 months. He states that the child was taken from him by N. E. Dorente, Secre-tary of the Anti-Cruelty Society, who re-luses to return it. Secretary Dorente, he luses to return it. Secretary Dorente, he asserts, intends to place it in the hands of persons of different religious denomination than its parents, and the petition says further that he has a place for the infant with an aunt, a respectable and fit person. Secretary Dorente says he took the child from its parents because it was ill-treated, and when he found it, was weak from hunger and filthy. The Court fixed to-morrow for a hearing.

It is with an unusual degree of pride and satisfaction that Drs. Copeland, Hall and Byers publish the interview below with W. cures made under their superior system of treatment, but from the prominence of these gentlemen the statements cannot be flip-pantly spoken of by envious rivals as bought testimonials. Drs. Copeland, Hall & Byers do not have to resort to this means to secure testimonials of their treatment. Many patients coming under their care are so grateful for the relief afforded them for which they have sought years in vain, fre-quently ask the privilege of adding their in-dorsement to the already overwheiming proof in favor of their method of treatment. Under no circumstance is a patient's name published without his or her consent, and no one is solicited to give a statement. These bubbled without his or her consent, and no one is solicited to give a statement. These statements are voluntary on the part of grateful patients. Evidence of this kind, verified and substantiated as it is by the patient's name, picture and residence, can-not tail to afford subject for serious thought. These people are telling the truth. They could have no possible object to do other-wise: they are your irlends and neighbors-not "straw" men or women-and their testi-mony must establish in any sensible mind that charth is liable to develop into almost any form of chronic trouble, as well as the forcible and vital fact that Dr. Copeland, Hall and Byers thoroughly understand the

Contingent Fee. Judge White yesterday handed down a

opinion in the matter of the dispute between Mrs. Caroline Davies and her attor. nev, K. T. Mead, over the amount retained by him for tees for services as her counsel. Mrs. Davies had received a verdict for \$2,800 in her suit against Felix McKnight. the saloon keeper, and others for damages for the death of her husband. The interest on the amount when it was paid was \$118. Attorney Mead collected the money. Mrs. Davies shortly afterward filed a petition stating that Mead only gave her \$1,340 47, retaining \$1,577 53, and wanting the Court to fix a fee. Mead's answer was that she had agreed to give him 50 per cent of what might be recovered. Judge White, in his opinion, said:

It appears from the amdavits that plaintiff It appears from the affidavits that plaintiff signed an agreement with the attorney to allow him on his tace 50 per cent of what might be recovered, and if the facts stated are true the plaintiff was deceived and im-posed upon when she signed that agreement. But that is a question we cannot decide on this rule. The respondent is entitled to a jury trial on that question of fact, which can be decided, if properly raised, in an action by her. The reasonable and just amount of fee for his services in the case can only be settled in that way. For these reasons the rule is discharged.

OBJECT TO THE COMMITTER.

His Removal Is Asked on Account Serious Charges.

A petition was filed yesterday by William Gallagher, asking for the discharge of M. F. Ryan as committee of Mary J. Gallagher, the petitioner's sister. He states that on his petition to count an inquisition was held on his sister and she was declared an habitual orunkard. In June, 1890, Rvan was appointed a committee to take charge of her. She owned two houses in McKeesport. Ryan, it is asserted, has collected the rents, but has applied no part of them to the support of his charge, Mrs. Gallacher. He, it is alleged, is a man of intemperate habits and pecuniarily irre-sponsible and, it is believed, is appropriat-ing the rents to his own use. The Court was asked to remove him as committee and compel him to file an account forthwith. A rule to show cause why the petition should not be granted was issued on Ryan.

Wants Damages for a Kick.

Clarence Thompson yesterday entered suit against Julius Jacob for \$10,000 damages for injuries. The plaintiff is 13 years of age, and lives in the Third ward, Atlegheny. It is stated that on March 30, 1892, he was playing about the stable of Jacob when the latter ordered him to get water for a horse. He refused and Jacob kicked and beat him. From a kick in the ankie, it is alleged, erysipelas and blood poisoning set in, and the boy is now bedridden and permanently injured.

WHAT PICTURE OF A BELL MEANS

In the game of life and death as played be tween the doctor and the sexton, it has been well said by an able Pittsburg physician the injury done by noxious medicine is the sexton's perquisite for keeping the green table.

He might have said that the principal parbol the sexton's "rake-off" was dyspep

A physician to prevent or reduce inflam-maiton, to relieve rheumatic pain, to eure neuralgia, to get rid of a distressing back-ache or sideache, generally applies a liell-cap-sic plaster, and for years these plasters were made only in quantities large enough to meet the wants of physicians. Now anyone can buy them at any first-class drug store for only a quarter apico. No annily should be without them. They are always ready to use. In rheumatism, sprains or strains, neuralgia, pleurisy, sciatica, swollen joints and soreness of the muscles, apply a Bell-cap sic plaster to the part affected. Sometimes, as in cases of avoiden joints, etc., it would be advisable to cut the plaster so that it will fit closely to the part applied. everything ever heard of and had grown completely discouraged until I saw Mr. Con-rad Apel's statement in the Pittsburg pa-pers, descriptive of his symptoms and final cure by Drs. Copeland, Hall and Byers. As his symptoms were similar to mine I deter-mined to give these physicians a trial and how giad I am that I did so, for they have cured my a-thinatic symptoms completely. how glad I am that I did so, for they have cured my a-thmatic symptoms completely, I can now go to bed and sleep all night with-out waking up, and have no fear of the de-mon asthma clutching at my throat every night, choking the life out of me. Besides this, all my catarrhal and stomach symp-toms have disappeared under their skillini treatment, and I feel ugain that I am a well man.

"I cheerfully make this statement for the benefit of suffering humanity and in justice to these honorable physicians who are do-ing the noblest work of any in the country. The very low rates at which they treat pa-tients brings the skill of highly educated and trained specialists within the possibil-ities of the humblest citizen in our land."

Asthma is rarely a disease of itself. It arises from numerous causes—diseases of the kidnoys, stoinach, heart, nerves, lungs, blood and nose. If these several causes were well understood and treated accord-indly, there would be tewer irascible asth-matics. Catarrh of the nose, moist, dry, atrophic, hypertrophic, is now regarded the most frequent cause of asthma—reflected asthma, it is called. The cause, of course, indicates the treatment—cure the catarrh, correct the deformity in the nostrils, if there be any, and the asthma will disapear.

Well-Known Allegheny Lady Whose Doctor Told Her She Would Not Live Through the Spring Now on the Road to Perfect Health Through Drs. Copeland, Hall and Byers' Tres ment,

"How sorry I am that I did not consult these physicians last fall instead of wasting my time and money with other doctors," said a well-known Allegheny lady in the office of Drs. Copeland, Hall and Byers a few days ago. "I had read so much of their wonderful cures and desired to try them but was persuaded out of it by a lady friend who

persuaded out of it by a lady friend who spoke disparagingly of them because they ad-vertised. Instead of follo ying my own judg-ment I was persuaded to consult another doctor who said I would not live through the sprinz. Growing no better nader his treatment I finally decided to consult Drs. Copeland, Hall and Byers. I have been here just one month and my cough has entirely ceased, I am gaining in strength and flesh daily, and feel that I will eventually be en-tirely cured.

"I would advise any one who is akeptical "I would advise any one who is akeptical and of little faith to visit the office of Drs. Copeland, Hall and Byers and talk with their patients, and they will soon change their opinion concerning these physicians. I know I will always investigate for myself after this."

The liability to cataling cold is largely reduced, and the influences, which, in the uncertain and severe weather of the winter cause and increase catarrh are ab-sont.
