THE TRADE OUTLOOK

Hides Have Been Reduced by the Allegheny Tanners, and

PRICES ARE LOWER THAN EVER.

The Bull Movements in Cereals Seem Short-Lived This Season.

A BOSTON VIEW OF THE LEATHER TRADE

OFFICE OF THE DISPATCH, PITTSBURG, SATURDAY, June 4.

It will be seen by reference to home man ket column that all products of the dairy are at their lowest price for this season. Elgin creamery butter is 2c per pound lower than a week ago, and slow at the de-cline. Ohio and New York cheese are off about %c per pound within the week, and as to country butter the trade is entirely demoralized. Immense quantities were dumped on to our markets, which were sold at 10c per pound, and the best could not be sold at more than 13c to 14c per pound.

In the week past choice old potatoes have been very scarce in this market, and prices have advanced from 50c to 70c per bushel. In the same time Bermuda and Mobile new potatoes have declined about \$2 00 per barrel. The hot weather of the past few days has brought heavy demands on tropical fruits, especially lemons and bananas, and markets are very firm. Apples are about over for this season. The egg market has been about stationery all the week, with 17c as top price for job lots.

In Cereal Lines.

The upward movement of shell corn dur-Ing the latter part of May, came to pause, a few days before the month expired, and since that time prices have declined 4c to 5c per bushel from the highest point. All bull movements in cereal lines seem to be short lived this season. Once prices are advanced to few points on the prices are advanced to the prices are advanc vanced a few points, an abundance comes to the front showing that there is plenty in the land of last year's abundant crops. Ear corn did not join in the upward movement or shell corn and is fairly steady at old prices. Oats have proved the strong factor of cereal markets during the week. Prices have steadily been moving upward, and Saturday's markets were 3c per bushel above those of the previous Saturday. Re-ceipts of wheat and flour have been large for the week and markets are quiet in both lines. Mill feed and hay are slow at a shade lower prices than were obtained a week ago.

Drop in Hides and Caliskins, The action of New England tanners in curtailing production of leather is already felt here in lower priced hides. Pittsburg and Allegheny tanners joined together within a few days and agreed unanimously to reduce quotations, the new scale to take effect on Monday, June 6. The prices agreed on are the lowest in the past generation. A leading dealer said to-day: "I have never seen prices as low as now, and with the low prices we are having of late very slow mar-

Following is a classification of hides and scale of prices adopted by the tanners of Pittsburg and Allegheny City, to take effect Monday, June 6, 1892:

Green steer hides, trimmed, 25 Be and up.
Green steer hides, trimmed, 60 to 73 bb.
Green steer hides, trimmed, moder 60 bs.
Green cow hides, trimmed, all weights.
Green bull hides, trimmed, all weights.
Green calfskins, No. 1
Green calfskins, No. 2
Green calfskins, No. 2
Green steer hides, trimmed, side branded.
Green cow hides, trimmed, side branded.

The Leather Outlook. The Boston Hera'd has this to say of the situation and prospects:

The situation in the leather market show decided improvement. While boot and shoe manufacturers are not upanimous as as to the importance of the movement for curtailment, they show their practical faith in it by the amount of leather they are buying. Upper leather has not selt the good in the market for sole leather, but still there is a decided improvement there, and the outlook for the month is considered very outlook for the month is considered very good. Prices cannot be changed, but dealers are getting full quotations, and are really selling considerable leather without making any concessions. Some sole leather dealers report the May business as very heavy, and the June business as promising very well. Others are more conservative, but all are feeling the good effects of the movement. As a matter of fact, there has as yet been no dimunition in the receipts of leather, but this will come later, and will be as yet been no dimunition in the receipts of leather, but this will come later, and will be distributed through the next three months, as the agreement was to shut down for 60 days, without specifying the exact time each tannery should begin. The result of this action is being largely discounted, and stocks are being well worked down.

LIVE STOCK MARKETS.

Receipts, Shipments and Prices at Ensi Liberty and All Other Yards. OFFICE OF THE DISPATCH, PITTSBURG, SATURDAY, June 4.

HOME SECURITIES.

Trading Quiet and but Few Price Changes

of Much Significance, While the stock market was not distinguished for special activity during the week, it was characterized by several interesting features. By death, the M. and M. and Iron City National Banks were enabled to avail themselves of previously unmarketable as-sets to strengthen their position and intrease their surplus. This stimulated demand for the stocks with a consequent advance in prices. The adage was true, in these cases, that an ill wind blows somebody

these cases, that an ill wind blows somebody good.

The following are the principal changes in the active list for the week: Philadelphia Gas gained 3/2, Citizens' Traction, 3/2, Airbrake 3/2, Barmingham Traction, 3/2, and Manchester Traction 1. The losses are: Pipeage 3/2, Plensant Valley 3/2, Loster 1/2, old Electric 1/2, Switch 3/2, and Duquesne Traction 3/2. The rest of the list closed the week firm as a rule.

Sales Saturday were 250 shares of Central Traction for account, etc., at 25/2, a \$1,000 Birmingham Traction bond at 1011/2, 25 Pleasant Valley at 24/2, 25 Alrbrake at 120/5, and a \$1,000 H. C. Frica first mortgage bond, coke, at par and interest. Sales for the week were 1,715 shares and \$2,000 bonds. Pleasant Valley led with 325 shares, followed by Philadelphia Company with 250. Final bids and offers for the week follow.

Turpentine Markets.

WILMINGTON—Spirits of turpentine steady at 2014c. Resin steady; strained, 90c; good strained, 95c. Tar steady. Crude turpentine steady; hard, \$1 00; yellow dip, \$1 80; virgin, \$1 80. vingin, \$1 50.

Savannah...Turpentine steady at 27½c.

BUYING FROM LONDON

PRODUCES A LARGE SELLING MOVE MENT IN STOCKS

Moderate Business and No Pronounced Features-Short Fales of the Bears Are the Moving Force in the Market-Bonds

Unusually Quiet. New York, June 4 .- The stock market displayed a moderate volume of business to-day, but the animation was again at the expense of values. The bears, in the marked absence of organized support, became aggressive and their operations resulted in material losses among the stocks which re-ceived particular attention from them. These were principally Burlington, Rock Island, Northern Pacific preferred, Lackawanna,

were principally Burlington, Rock Island, Northern Pacific preferred, Lackawanna, Sugar and Kausas and Texas. The only strong points in the list were held without making any material improvement.

There was considerable encouragement to the bulls at the opening in the shape of buying apparently for London account; but, as usua! of late, upon the appearance of foreign buying, selling begins with more vigor, and while it is preposterous to say that no long stocks come upon the market, the propelling force in the declines established is undoubtedly the short sales of the bears. The general list, as a rule, was dull and as featureless as usual, and the firm opening was succeeded by a drooping temper in sympathy with the movement among the leaders. The close was fairly active and weak at about the lowest prices of the day.

The total sales of stocks to-day were life. 376 shares, including: Atchison, L559; Chicago Gas, 1,559; Erie, 1,529; Louisville and Nashville, 1,328; Northern Pacific preferred, 5,824; New England, 8,135; Reading, 13,500; St. Paul, 7,215; Western Union, 1,778.

Railroad bonds were unusually quiet, the total transactions being only \$613,000, while the prevailing temper of the share list was closely followed, with the result of making some material losses for the day. The most promising issue was the Kansas and Texas seconds, which were sold down on the probability of the non-payment of the next coupon. The other changes, however, were generally insignificant, and the number of bonds traded in was unusually small.

THE WEEK IN OIL.

A Slump Followed by a Reaction-Obstacles

to Improvement. Trading was unsatisfactory, the bulk of it being incident to the change of options. The features were heavy selling on Thursday by Oil City people, and a recession in the European markets. These caused a slump in the middle of the week. The strength later was due to some disposition among outsiders to buy, and sellers having "shot their wad." removing the principal pressure, a reaction followed. There was no special develop-ment in the field, and production remained in statu quo. Fluctuations for the five days re given in the following table:

Open- High- Low- Close, ing. est. Close. It will be seen that while the finish was It will be seen that while the finish was 1% below the opening on Monday, it was a good fraction better than the lowest point of the week. The close was steady. In regard to the prospects for this week, a broker said: "While I think the price is close to the bottom, I see nothing to indicate an early improvement. The depressing influence of the Standard is as great as ever, and outsiders manifest very little interest. There is no encouragement to buy, and no chance

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria to sell without knocking the market to pieces."

Dieces."
OIL CITY, June 4.—National Transit certificates opened at 54%c: highest, 54%c: lowest, 54%c: closed, 54%c. Sales, 37,000 barrels; clearances, 150,000 barrels.
Næw Yonk, June 4.—The petroleum market opened strong on Western buying, advanced 3c. then reacted 3c, and closed steady. Pennsylvania oil, spot sales none: July option sales, 27,000 barrels; opening, 54%c. Lima oil, no sales. Total sales, 27,000 barrels. American Woman.

THE TRAFFIC IN MONEY.

Slightly Better Here, but General Conditions Unchanged-New York Figures. There was some improvement in local monetary matters during the week, incident to the beginning of a new month, but it made no serious impression upon the surplus. The inflow from deposits was about equal to the outflow. Rates rolled around 5@6 per cent. Eastern exchange was in limited supply. Clearing House figures for the day and week are:

Growing More Liberal

That's what the human race is doing - particularly the American part of it.

There are a few left who are satisfied with ancient history. But most people are ready to apply modern progress and common-sense to the reatment of the human stomach-an organ that demands its rights whether or no; that resents the insults of wornout methods. All this is to emphasize the facts about

COTTOLENE

There was once a prejudice against Cottonseed oil. But people who are alive, who investigate, who have no bigotry in their composition, have found that pure, refined cottonseed oil combined with selected beef suet is a better article in every conceivable way than hog's lard. And so they wisely use it for cooking-and are correspondingly healthy and happy. The sales of COTTOLENE are enormous and constantly increasing; a proof that it is appreciated by appreciative persons.

Ask your grocer for it. N. K. FAIRBANK & CO., CHICAGO. PITTSBURGH AGENTS : F. SELLERS & CO.

When you ask your grocer for Java, he does not offer you Maracaibo and say it is "just as good,"

When you ask your druggist for Scott's Emulsion of cod-liver oil, if he is honest, he will not try to sell you something "just as good."

Why do you want it? The answer is in a book on CARE-FUL LIVING; we send it free.

COTT & BOWNE, Chemists, 132 South 5th Avenue, Your druggist keeps Scott's Emulsion of cod-liver oil—all druggists everywhere do. \$1.

STYLISH WOMEN OF PITTSBURG

His Views Are Correct in Some Respects-Where the English Women Excel-Out-Up Strength-Just What Women Re-

"American ladies are certainly the most stylish nd, in some respects, the most attractive women in the world. Pittsburg women are as good examples of this as I have seen in any town where I have been. But they have not that stability and ruggedness that you see in the women of London and throughout England."

The above remark was made by an Englishman who has been spending a few days in town. It was intended to be half complimentary, perhaps half sarcastic, but it actually hit the real trouble of most American women. They are stylish, bright and attractive, but there is no denying the fact that they possess such delicate and high-strung nerves that they are peculiarly susceptible to weakness and disease. They are subject to despondency and blue feelings because their nervous systems are more or less shattered, because they need and must have assistance.

Many women in this section realize that there has been a discovery made by a great scientist, an absolute relief and cure for just the trouble which afflicts American women. The discovery referred to is Paine's celery compound. It is not a cheap specific, sarsaparilla or essence, but a grand discovery, which by reason of its great merits is to

day the most popular of all remedies, Volumes could be written in the words of those
