to the affair. Mr. O'Brien went to Roches-

cattle doing harm to one another, he should have sawed off the tops of, or attached blunt

brass knobs to, the horns, which, in either case would have answered the purpose and no cruelty would have been practiced, but

in cutting the horns of the cattle close to their heads a powerful nerve had been in-jured, which would naturally cause much suffering. In order to show the alderman

that the operation of dehorning was attend-

ed with great pain, Mr. O'Brien said that usually when a cow's horn was cut off close

to the head blood squirted from the wound for several feet in the air, and the beast in

all cases roared with pain. Not only this, but the wounds often required many days

DRILLING NEAR THE WALKER.

The Output of McDonald Brought Up Yesterday to 24,500 Barrels.

TANKS SET ON FIRE BY LIGHTNING

The production of the McDonald field was up 1,000 barrels yesterday. It was estimated by the gauges at 24,500 barrels. Glycerine was the cause. Wells were shot in every part of the field, and in nearly every case the output of the wells was increased. Wednesday there were only eight wells in the list of those reported to be making 20 barrels an hour or more and they aggregated 325 barrels. Yesterday there were ten wells and they only aggre-gated 315 barrels. The Walker No. 3 of rated 315 harreis. The Walker No. 3 of Firzgibbons & Co, was shot and ran up to 150 burrels an hour. It was reported to be doing 115 harrels an hour yesterday afternoon. The territory in the region of this well is to be thoroughly tested. It lies on the western side of the pool, and may turn out to be as prolific as the Wetmore wells, which are located about a mile and a half northeast of the Walker farm.

FEATURES OF MONEY AND SPECULATION

Police Judge A. H. Leslie has purchase through the agency of J. C. Reilly, from Charles McKenna, Esq., the vacant lot, 125x165, corner of Pacific and Liberty avenues, for \$7,000, upon which he will at once begin the erection of several handsome dwellings, to help meet the demand for this class of houses in that quarter.

The Myers-Wilson Deal, W. A. Herron & Sons closed the sale, and delivered the papers yesterday in the transaction between Mrs. F. R. Myers and A. H. Wilson for the property corner of Penn and Dallas avenues, Twenty-second ward. The lot is 156x800 feet, and the consideration is said to be about \$45,000. Mr. Wilson will lay the property out in nice sized lots, the plan for which is being prepared by the above-named firm, who will put it on the market next week at very attractive prices. This is one of the best residence quarters in the eastern part of the city, and is being built up with comfortable homes. is being built up with comfortable homes with amazing rapidity.

A Wilkinsburg Schema A few Wilkinsburg capitalists, who are awake to the possibilities of that district, are figuring on the purchase of two or three acres of ground near Penn avenue, south of the railroad, with a view to the erection of a number of nice, moderate-sized dwellings, for sale or rent, as may be subsequently determined. The project is still in the paper stage, but there is a fair prospect of a lavorable issue. The rapid growth of Wilkinshurg and its environs end the scarcity of burg and its environs, and the scarcity of houses of the class indicated, would seem to justify such an enterprise as the one in ques-tion, if not one of even greater magnitude.

Yesterday's Building Permits. Nine permits were issued yesterday for ten improvements, all estimated to cost \$15,725. The largest are: Mrs. Magdalena Koeghler, frame dwelling on Harkins alley, Twenty-sixth ward, \$1,200; Pittsburg Lawn Tennis Club, frame clubhouse on Craig street, Fourteenth ward, \$1,000; John Moore, two frame dwellings on Second ave-nue, Twenty-third ward, \$4,750; Jones Newhagen, brick store and dwelling on Carson street, Twenty-fifth ward, \$5,000.

Special Features of Trade. The Messrs. Kaufmann are solving the Fifth avenue hump problem for themselves. At the last stock call yesterday it was ancontributed \$100 to the C'l City and Titusville flood fund, making total contributions by flood fund, making total contributions by members of the Exchange to date, \$1,214. No credit should be given to any report of a change of ownership of the Lizgett block. The property on the northeast corner of Penn avenue and Wood street, Wilkinsburg, has been re-sold to a Fourth ayenue real estate broker. He proposes to cut it up into los suitable for business purposes, all excepting the corner to front on Wood street. The general market is thus described by an expert: "The short interest gets bigger every day and the market is in a condition now which would give anything like a rally on the short interest the opportunity to develop into a boom. Many stocks are selling for less than they are worth, for the reason that all the hurrahing is on the bear side, and quotations have been smashed irrespective of earnings and prospects."

New-Orders for the Long Account Brought in Slowly-A Quiet Market Closes With Fractional Gains - Usual Realizations for Profits-Bonds Active.

New York, June & The stock market was still quiet, and, except in the few leading shares, even dull to-day, while the general list exhibited no decided tendency of prices in either direction. The activity was con-fined to St. Paul, Burlington and Northern, in either direction. The activity was confined to St. Paul, Burlington and Northern, and during the forenoon the continuation of the upward movement in Northern Pacific and North American gave what little character the market possessed, even though the Grangers were still under pressure.

From appearances the decline in Rock Island was made to conceal the covering operations in St. Paul and Burlington. The strength then developed, while spasmodle, gave evidence that the buying power in the market had its origin in other sources than the shorts served to maintain a firm temper to the dealings, and new buying orders for the long account were brought in slowly.

The Grangers became prominent in the advance, but their slugrishness in the early dealings prevented any marked rise in them. There was the usual realization of profits on the rise in the last few minutes' trading, but the market closed quiet and firm generally at fractional gains for the day. The transactions footed up 221,000 listed and 18,435 unlisted.

The total sales of stocks to-day were 239,635 shares, including: Atchison, 7,785; Delaware, Lackawanna and Western, 5,106; Erie, 7,720; Louisville and Nashville, 6,025; Missouri Pacific, 3,500; North American, 8,645; Northern Pacific, 6,110; Northern Pacific, 9,000.

Railroad bonds, also, felt the stimulus of a

cific, 3,600.

Railroad bonds, also, felt the stimulus of a Railroad bonds, also, felt the stimulus of a new buying movement, and the market was not only more active and broader, but more than the soual number of marked gains were seen in the list. The Atchison incomes were again the most permanent issues, both as to activity and strength.

A New York authority says: "While Clearing House figures for May reveal no especially new feature the results on the whole must be regarded as quite encouraging, especially in view of the complaints of poor trade which have prevailed. Examining a little more closely into the clearings outside of New York we find that out of ten leading cities all but two record larger totals than for the corresponding month of last year. The two exceptions, of course, are San Francisco and New Orleans, the one apparently reflecting the condition of things on the Pacific coast, the other the depression in the South." sion in the South."

Drad Superintendent, Assistant Cotain Scott and Superintend ent of Police Silvis, representing the com-

mittee of officers and newspaper men, yesterday presented to James T. Weir the memorial adopted by the committee on the death of Superintendent Gamble Weir.

The memorial, which is a beautiful piece of workmanship, is in the form of a book bound in Russia leather and engrossed by W. C. McClelland, who took unusual pains in order to turn out something nest. Weir was much touched by the gift, and responded by presenting each member of the committee with a handsome photograph of the dead Superintendent.

MOOK'S COTTON ROOT COMPOUND. A recent discovery by an old physician. Successfully used monthly by thousands of ladies, is the only perfectly safe and reliable medicine discovered.

Beauty often depends on plumpness; so does comfort; so does health. If you get thin, there is something wrong, though you may feel no sign of it.

Thinness itself is a sign; sometimes the first sign; sometimes not.

The way to get back plumpness is by CAREFUL LIVING, which sometimes includes the use of Scott's Emulsion of cod-liver oil. Let us send you-free-a

Growing More Liberal

That's what the human race is doing - particularly the American part of it. There are a few left who

are satisfied with ancient history. But most people are ready to apply modern progress and common-sense to the treatment of the human stomach-an organ that demands its rights whether or no; that resents the insults of wornout methods. All this is to emphasize the facts about

COTTOLENE

There was once a prejudice against Cottonseed oil. But people who are alive, who investigate, who have no bigotry in their composition, have found that pure, refined cottonseed oil combined with selected beef suet is a better article in every conceivable way than hog's lard. And so they wisely use it for cooking-and are correspondingly healthy and happy. The sales of COTTOLENE are enormous and constantly increasing; a proof that it is appreciated by

appreciative persons. Ask your grocer for it. N. K. FAIRBANK & CO., CHICAGO. F. SELLERS & CO.
