[BY CABLE TO THE DISPATCH.] LONDON, June 11 .- [Copyright.]-It is now settled that Balfour will announce on Monday the actual date of dissolution, and on the following Wednesday he will inaugurate the Tory campaign by a great speech at the Conservative demonstration to be held in London on the evening of that day. He will be answered by Mr. Gladstone in a speech which the Grand Old Man has arranged to deliver in Chester previous to the start on his Midlothian tour, and thereafter for two or three weeks the big guns on both sides will pound away at each

The Grand Old Man is as restive and eager for the fray as a mettled war horse. Scarcely a day now passes upon which he does not fire off a little speech or a letter replying to some inquirer or encouraging a Liberal candidate selected to lead the attack upon some Tory stronghold. By way of relaxation after the political fight he has promised to preside over one of the sections of the Oriental Congress to be held in London early in September, an deliver an address on "Orchaic Greece and the East," and in the following month he will lecture at Oxford, on "The History of the

A Move to Squelch Betting.

A determined effort is to be made in the next Parliament to put down betting. Editor Stead, who as all the world knows or should know, exudes morality and benevolence, has, with the assistance of several muddle-headed nonentities, drafted a bill which, should it ever become a law, will sweep into one penal net the small boy who plays pitch and toss in the street and the noble lord who gives or takes the odds at Epsom or New Market, the lad who sells newspapers containing ordinary sporting news, the journalist who edits them and the printer who prints them. Even Her Majestv's Postmaster General, who, by his Majestv's Postmaner General, and employes, accepts and transmits letters and telegrams relating to betting, may find himself in the criminal dock and in danger of being fined and imprisoned.

But Editor Stead and his friends are des-

perately in earnest, and they have been promised the support of a number of Radi-cal and labor members in the House of Commons. These mad moralists' monstrous commons. These mad moralists' monstrous measures will in all probability attain to the dignity of being debated and rejected.

When one considers the constant efforts that are made or sought to be made by legislative eunctment and municipal regulation to Puritanize this merry England the wonder is that people don't resort to sinful ways out of sheer discust and revulsion of leeling, as in the time of King Charles IL

Late Victories for Alleged Morality. The latest victories for the so-called cause of morality are the prohibition by the Lon-don County Council of the playing of dance music on Sundays by the bands in the publie parks, and the refusal by the corporation of the city of London to open Guild Hall Art Gallery on the Sabbath.

Something phenomenal in record-break-ing was accomplished by the House of Commons on Thursday night, when sitting in Committee of Supply for a period of about eight hours. It voted the enormous about eight hours. It voted the enormous sum of £18,622,016. In other words, it sanctioned the expenditure of public money at the rate of £2,327,752 per hour, or £38,795 17s 4d per minute, or £646 11s 11½d per second. Altogether, no fewer than 85 votes were agreed to, the largest being £3,796,213 for education in England and Wales, and the smallest £9, to complete the amount required for the background. quired for the bankruptcy department of

Lady Henry Somerset, invigorated by her American trip, has thrown herself into the electoral struggle with unbounded enthusiasm. As a fighting leader of the temperance party, she has imparted novelty to British political campaigning by urging anti-liquor men and women to hold plenty of meetings on Sundays, on the grounds that they are engaged in a religious crusade, and that the unregenerate masses can best be reached on the Sabbath. Staid people, however, regard this method of work as American, and are not certain that it does not savor of atheism. Her ladyship will have to moderate her enthusiasm if she does not wish to set the temperance people by the ears, and so play into the hands of the enemy. The liquor party is working with great energy on the Tory side, and has undertaken to spend £100,000 during the next few weeks to help defeat Liberal candidates identified with temperance prin-

Lord Randolph Churchill exhibits no sign of interest in the coming general elec-tion. He will seek re-election for Paddington, but has no intention of taking the stump on behalf of the Tory party. Only two items of news relating to this erratic genius and disappointed politician have appeared in the newspapers this week. The first is to the effect that he lost a lot of money at the Lewes races, Thursday, by backing the wrong horse in the chief race, and the second records that he has given to the Natural History Museum a very fine stuffed lion and lioness which he did not

SOCIALISM AT A CONGRESS

Falls to Enliven the Proceedings to Any

[BY CABLE TO THE DISPATCH.] LONDON, June 11 .- An international congress of miners has been held in London, this week. Its proceedings were ers is as much a dream as ever it was. The speeches were largely academic, and as far as one can judge by reported proceedings, the only practical proposal was made by the French Labor Deputy, Monsieur Thivrier, "the man in the blouse," who wanted to give all Govern-ments three months' notice that unless they started the industrial millennium within that period there would be a universal strike. Foreign delegates cheered this proposal wildly, but Englishmen pumped cold water upon it, and nothing came of it. Last even-ing the delegates were dined by an obscure democratic club, which has its headquarters

in a street off the Strand. The toast of "Democracy" was ostenta tiously substituted for that of the Queen's health, much to the delight and admiration of the foreigners, and the evening was pleasantly spent in alternate denunciations of the capitalists and exhortations to unity.

Meantime, Emin, reported dead, is having far more generous tributes paid to him than when he was known to be alive.

A DISTINCT FIASCO

That May Be of Benefit to an American Torpedo-The Brennan Affair Proves a Disa-trous Failure-Considerable Money

Thrown Away. [BY CABLE TO THE DISPATCH.] LONDON, June 11.-A few years ago a Radical member of Parliament attacked the Government for proposing to buy from an Australian named Brennan a torpedo which could be steered from the shore. The Radicals were promptly denounced as unpatriotic, ignorant persons, and a bargain was concluded by which Brennan received £25,-000 cash down, an appointment in the public service with a salary of £1,500 a year, and a valuable contingent advantage which he has since enjoyed.

has since enjoyed.

The torpedo at that time was admittedly barely out of the experimental stage, and since then it has been "perfected" at this generous country's expense. Its state of perfection was demonstrated last Tuesday, in the presence of General, the Duke of Connaught, and a crowd of notable naval and military experts. Two Brennan tor-pedoes were fired in the solent at a supposipedoes were fired in the solent at a supposi-titious enemy's ironclad. Both went wrong. The first stopped midway in its course, and could not be made to go any further, and the second, early in its journey, suddenly threw its tail into the air and ignominiously buried itself in the mud. The demonstra-tion was abruptly stopped, and experts are now endeavoring to discover what was wrong.

wrong.

This news will interest certain American citizens who are interested in the Edison-Sims torpedo, said to be an immense improvement on Brennan's machine. A few months ago an Edison-Sims torpedo was tried at Portsmouth, with some success, but warned by experience, the admiralty did not jump at the first offer made, despite dark hints or threats that if the Edison-Sims weapon should be sold to the French Government, which was hankering for it, Britannia in a rew years would cease to rule the waves. The British Government caused to be intimated that it was no longer a buyer of imcomplete inventions, but that a good price would be paid at any time for a first-rate working life descreyer. Brennan's fiasco has justified this atti-tude, and has amply vindicated the action taken by the much-abused parliamentary Radicals. The Edison-Sims syndicate will have to experiment with its own money, and probably for a long time, also for an economical government is about to come

BRITISH, BUT NOT ENGLISH

Scotch Association That Wants Distinction Drawn Fine. [BY CABLE TO THE DISPATCH.]

LONDON, June 11. - English writers and speakers have been solemnly taken to task this week by the Scottish Home Rule Association for their loose habit of using the terms England and English, instead of Britain and British, when referring to the British empire and its officers and institutions. Americans as well as Englishmer should take note, for instance, that Scot-land is not included in the term England; that Queen Victoria is a British not an English sovereign, and that the Government of this United Kingdom is the British, not the English Government. That the matter is regarded as serious by the Scottish Home Rule Association is evident from the fact that at its last meeting it passed a reso-lution setting forth that the practice com-plained of "is a deliberate attempt to deraud our country and countrymen of their treaty rights and privileges, and to degrade Scotchmen from their proper historical position and make their country a mere province of England."

Needless to say, had the resolution on such lines been passed by the Irish National League it would have been called rank treason, but coming from the Scottish society it is described by English commentators as a "noble expression of just pride in their nationality."

ESTIMATE OF THE MINORITY'S POWER LONDON, June 11 .- John Dillon was

interviewed by an Associated Press representative in Dublin to-day in regard to the present political situation in Ireland and his proposals for peace between the two factions. Mr. Dillon said he found it almost impossible to believe that Mr. Redmond had gone to America to advocate peace, in the face of the attitude Mr. Red-mond and his friends had all along adopted. "Is it true," he was asked, "that you

have always favored conciliation?" "It is quite true; and, further, myself and friends have gone so far in that direction that we have exposed ourselves to very hostile criticism from an influential section of our friends who are opposed to any attempt to effect a compromise."

In reply to further questions Mr. Dillon declared that the Irish people would not consent to be represented by men pledged against the unity of the Nationalist ranks. Miller was on the way to Liverpool when the World's article appeared. A DISPATCH reporter showed it to him after the City of Paris arrived. Miller was very indignant. "Mr. Harrington proposes that each party retain the seats they now hold."

"Why can't the offer be accepted?"

"For the all-sufficient reason that there is no power on earth to induce the constituencies to agree to it. There are now 29 Parnellites. By far the greater number of these 29 constituencies condemn by overwhalming majorities the policy of their whelming majorities the pelicy of their representatives, and could by no conceivable means be induced to re-elect them. They would most certainly revolt if we accepted such a proposal. The country wants a united party. Very few constituencies would accept members advocating two parties.

In reference to Mr. Dillon's statement it was learned in the Parnellite headquarters last night that the Liberal leaders had informally circulated to both sections of the Irish party the warning that unless the McCarthyite and Parnellite contests were abandoned the home rule cause would be hopelessly ruined. It was forcibly pointed out that a repetition of the scenes witnessed during the bye-elections lately held in Cork, Kilkenny and Waterford would ruin the chances of the Liberals in the English con-

PALACIO PENNED UP.

CRESPO, THE REBEL GENERAL, BESIEGES HIS CAPITAL

The Latest Battle, Fought Almost Under the Walls of Caracas, Lost by the Government Troops-The City Filled With Soldiers and Barricades.

PANAMA, June 3. -Advices from Venezuela by late steamers state that the revolution continues to make steady progress. It is said that Crespo does not desire to carry the war into the capital, but rather cut it off to exhaust Dictator Palacio, so that eventually he will be compelled to

evacuate peacefully.

It is a very significant fact that the priests are in sympathy with the revolution, and some have actually joined it, Fathers Lopez and Zuleto having commands. The latter recently fought and won a battle. Palacio threatened to imprison the arch-hishop if he does not restrain the priests from politics. This threat by a Catholic dictator in a country almost wholly Catholic has only had the effect of exasperating the people, and those who had hitherto remained neutral have now openly announced that their sympathies are with

Late advices as to the actual movements of the maneuvering bostile forces state that two weeks ago the Crespoists effected the capture of another of Palacio's chief gener-als, Salome, who, together with his whole als, Salome, who, together with his whole force, was carried in triumph into Puerto Tucuyo. On the other hand, about the same time, the Government forces captured Gen-eral Gill, one of Mora's lieutenants. An-other and more serious blow to the Crespoists was the capture of a German vessel loaded with arms and munitions of war for

their use.
Notwithstanding these two victories the Notwithstanding these two victories the-dictator's forces are in a thouroughly de-moralized condition. The Revolutionists are forcing them to the wall. Another battle was fought between the coast and Caracas yesterday. It resulted in a sweep-ing victory for the rebels. Palacio's troops were routed all along the line, and after stubborn resistance were put to flight. They left their dead and wounded on the battle-field and a quantity of arms and ammunition. General Crespo commanded the Revolutionists. He is now marching at the head of his army toward Caracas.

The panie in the capital cannot be exag-gerated. It is besieged on the south by revolutionists, who are only awaiting the arrival of Crespo's main body to attack Cara-cas. Palacio is a virtual prisoner in his Cosa Amarilla or Yellow House. Government troops fill the city. Barricades have been erected in all the principal thorough-fares. Terror reigns among the inhabit-ants of the city. At La Guayna a similar
