PITTSBURG, MONDAY, June 18. At the East Liberty Stock Yards there were 55 loads of cattle on sale at the opening of markets this morning, against 60 loads last Monday. About five loads of today's offerings were held over from last week. There were few primes on sale this morning, but quality was a fair average. The best on sale was a carload of Allegheny county beeves, weighing about 1,500 lbs, well up to prime, which were held at \$4 75, but prospects were that some concessions would be necessary before a sale could be made. Markets opened slow at an advance of 10c to 15c per cwt on prices of last week. Light prime butcher beeves were in short supply and were in good demand at 15c per cwt higher prices than prevailed a week ago. The highest price reported was \$4.50 per cwt for a load of 1,300-lb beeves which were close to prime

ceves which were close to prime. Fresh Cows in Light Supply. Fresh cows were not in as large supply to day as last Monday. There were few choice in the offerings, and markets dragged. One sale was reported at \$41, and six head from Noble county, O., were sold

There was a fair run of calves and markets There was a fair run of calves and markets were steady at a shade better prices than last week. Top price was 5%c per lb.

Sheep—There were 25 loads on sale at the opening of markets, against the same number a week ago. Good sheep were scarce and the few offered held up well to last week's prices, while common were dull at a slight decline. Top price of sheep was 5%c, and yearlings 6c per lb. Spring lambs were quiet at a range of 5c to 7c per lb. There were about 20 loads of hogs on sale when markets opened, and a half dozen loads were expected later on. Last Monday there were over 40 loads on sale. Markets opened active with \$5.20 as top, an advance of 20c per cwt on prices of a week ago.

SHORTS BUYING IN.

They Purchase Over Five Million Rushal to Cover Sales They Made at Higher Prices-They Get Out 10c Lower Than

Did the Plunger Pardridge. CHICAGO. The event to-day in the wheat pit was the covering of a line of 1,000,000 bushels or more by Charley Wright. He has been short for a considerable time, having put out the bulk of it, it was supposed at 82c to 55c, and not only stood by it on the recent bulge to 88c, but added considerably to it.
On a break to-day he seemed to have consluded that it was the proper place to cover, and begun to buy in. He was joined by and begun to buy in. He was joined by Cudahy, Linn and other big shorts. Their purchases all together are said to have reached over \$000,000 bushels to-day.

Owing to the continued fine weather, the weak cables, lower domestic markets and the free selling on stop loss orders, the first sales were at 13/c decline from Saturday, with July at 78c and a few transactions at 17/40.

These prices were 10c lower than the busy

Tuesday last when Pardridge did the bulk of his covering of short wheat at \$500,000 or \$750,000 loss.

With some fluctuations the markes rallied steadily from the start, and closed 1,2% on higher than Saturday. There was buying on California account, rumors of large freight engagements here, a better export business at the seaboard, and reports of foreigners buying futures. In addition came reports of hot winds doing damage in Kansas.

Corn was active and unsettled, ruling weaker at the start, but stronger as the seasion advanced, and the bulge was fairly well maintained. Offerings at the opening were immense and initial transactions were at 1½ 01% decline, the country being very free sellers as also local operators. The fine weather all over the West and the large receipts, both present and prospective, were the factors which caused the early weakness and at the decline a good demand sprung up, and market gradually advanced \$25000 on covering by shorts and on investment buying by local operators, many thinking the price low enough for the present. The market ruled steady for awhile, rescred ½ changed some and at the close July had gained ½ 00000 on the secretary for a time was very weak. The longs unloaded the shorts, rather over did and in their efforts to cover later in the close was steady at about the outside and ½ 000000 on markets at the start similarly affected provisions for a few moments. There was a sudden raily in the how more and cround next the Harron Hill. Park helpony.

The almost panicky decline in the wheat and corn markets at the start similarly affected provisions for a few moments. There was a sudden rally in the hog products and a strong market succeding the momentary weakness referred to at the opening. The chief feature of the day's business was the buying for account of Wright of about 7,000,000 pounds of ribs. Such heavy nurchases advanced the price from \$6.2506.55%, the market closing at the latter price, as against \$6.37% on Saturday. Lard and pork also recovered from the early weakness and closed with improvements respectively of 5c in lard and 20c per barrel in pork.

Vessel room was in good demand and rates held steady at 2c fog wheat and 1%c for corn to Buffalo.

consists of a square of very eligibly located ground near the Herron Hill Park, belongng to George L. Herron. Mr. Sweeny represents a firm that will immediately break ground for the erection of houses on the entire plot which will soon be placed on the market.

Fresh Building Schemes. Ground was broken yesterday in the Greenfield avenue plan of lots for two nice dwellings, making about 90 houses just finished or under way in this locality. Peter Shields, the agent, yesterday sold a fine lot in the same place to a prominent business man, who will improve it at once with a commodious general store, which will be a great convenience to a large population. Mr. Shields also sold two lots in the Schen-

ley Park plan, both of which will be improved during the summer.

The Baltimore and Ohio people are at work on the bridge at Second and Greenfield avenues. The Greenfield avenue electric road hauled upward of 2,000 people to Schenley Park on Synday. Schenley Park on Suuday.

Views of a Business Man. Despite the warm weather, Mr. Edwin Powell is busy making arrangements for the construction of 12 three-story stone houses on Alpha terrace, opposite the 13 strendy built and occupied. In the course of a conversation with Mr. Powell yesterday he said: "There is a fine opening for such houses as I have built and expect to build. houses as I have built and expect to build. Values of property all through the Nineteenth and Twentieth wards, and especially the Nineteenth, are advancing. For instance, side lots that were bought last year by home capital for \$25 a foot front are now being sold for \$60. The advance has been especially marked on Stanton avenue fronting on Hays, Euclid and St. Clair streets."

Mr. Powall added: "The advance is in Mr. Powell added: "The salvance is in no sense the outcome or forerunner of wild speculation, but is the legitimate result of a good home demand backed by ready cash, which, of course, is the basis of all values."

Yesterday's Building Permits. The week started with a snap in the The week started with a snap in the building line. Twenty permits were issued for 24 improvements, all estimated to cost \$45,400. The most important are: Mrs. J. B. Barbour, brick dwelling on Beatty street, Nineteenth ward, \$5,100; J. C. Rodgers, brick dwelling on Stanton avenue, Nineteenth ward, \$5,100; J. B. PLEASANT VALLEY RAILWAY GETS BACK TO THE OLD MARK,

Revival of the Report That It Will Consoli date With Manchester-Airbrake Dividend-Birmingham People Order New Cars-Sales and Fluctuations for the Day. The stock market was sluggish yesterday, The stock market was sluggish yesterday, but prices held their own, and in a few cases were higher. Pleasant Valley got back to par. This resurrected the phantom of consolidation with Manchester, but nothing reliable to back it up was offered. There may be some basis for it, however. Pipeare, Citzens' Traction and Airbrake were also strong features. Luster was bid up a fragion after the last call. It was stated by an insider that the Airbrake dividend next month will be 10 per cent—5 regular and 5 extra. The Birmingham Traction people have ordered 20 additional cars, all to have the Westinghouse gearless motor. A leading broker said he confidently expected this company to declare a dividend at the coming meeting. He believes earnings justify this action.

There was only one sale at the first call—18 Exchange National Bank at 85. After call, 25 Pieasant Valley sold at 24%. The second call was better. Sales were 2 shares of Pipeage at 11%, 24,000 Birmingham Traction bonds at 101%, 25 Pieasant Valley at 25, and 2 Philadelphia Gas at 18% and 18%. There was no business at the last call. STOCKS DECIDEDLY ACTIVE.

FOR THE FIRST TIME IN MANY WEEKS A CHANGE OCCURS.

Values Materially Improve Clear Through the List-The Grangers and Industrials Are Particularly Strong-The Influence of the Crop Reports.

New Your, June 18 .- The stock market for the first time in many weeks developed de-cided activity, while the strength shown, especially in the afternoon, was very pro-nounced, resulting in material improvement in values all over the list, though the Grangers and Industrials and Chicago Gas in particular were the especially strong points. The buying was more urgent than

points. The buying was more urgent than at any time during the last few weeks, and its source was principally Chicago, and the favorites of that center were not specially active, but scored large gains before the rush to buy was satisfied.

The general belief that the improved conditions reflected in the Government crop report would result in increasing the foreign investments in American securities was met with some buying for foreign account but port would result in increasing the foreign investments in American securities was met with some buying for foreign account, but the local traders followed the lead of the Chicago party and bought largely of St. Paul, Burlington, Rock Island and Chicago Gas. There was only one weak spot in the market, and that was New England, which suffered the effects of the new move of the New Haven people in buying the Housatonic Railroad, and its opening loss was not only as great as any advance, by the Grangers, but its further decline was equally as great. It partially recovered, however, and remained quiet after the first slump was over. The only other week point in the list was Tennessee coal, which fell away 2 per cent, while New England lost nearly at the lowest price, railying only fractionally.

The final dealings under the pressure brought to bear developed considerable weakness and the market closed on the decline, rather weak but still generally fractionally higher than on Saturday. The trading reached 39,650 listed and Il,165 unlisted. Raifroad bonds also shared on the general improvement in the temper of the market and tollowed the share list in both increased activity and strength. The business done was widely distributed and a few specially active issues were seen. Among the important advances, Alabama Midland firsts rose

THE TREND OF MONEY.

Clearing Bouse Statistics Show Bus Conditions Are Satisfactory. Local bankers reported about the usual volume of discounting yesterday, with nothing to indicate a radical change in the early future. The ruling rate for loans was

5@6 per cent. Clearings were \$2,895,757 43 and balances \$661,209 16. The New York Journal of Finance says of Saturday's bank statement: "As a whole, it cannot be regarded in any other than a favorable light, because although the gross is about the same as last year, there has been stendy gain at leading financial points while the losses have been largely confined to New England and the Middle States, and must be due to idle money. The Clearing House returns show that business conditions all over the country are certainly satisfactory. In all the leading cities there was an increase last week compared with the same week last year, in spite of the excitement attending a Presidental convention."

At New York yesterday money on call was easy, 16114, per cent; last loan 14: closed offered at 14; prime mercantile paper 24.65 per cent; sterling exchange quiet but steady at 48.74 for 60-day bills and 48.854 for demand. Saturday's bank statement: "As a whole, it
