FEATURES OF TRADE.

Exchange This Year.

Reports of Transactions at the Grain

HOW CEREALS HAVE FLUCTUATED.

Unusual Activity in All Agricultural Implement Lines.

MOVEMENT TO HOLD UP HIDE PRICES

OFFICE OF THE DISPATOR, PITTERURG, TUESDAT, June 14. At the Grain Exchange to-day the main business was the election of a Board of Directors for the coming year. The officials who have served for the year past presented their reports, which showed a year of prosperity to the Exchange. President James Herron's report was an interesting resume of the work of the Exchange, with comparisons between now and former years, showing the wonderful development of trade in the line of cereals. The treasurer's report was greeted with hearty ap-

plause, the report showing a balance of \$105 66 in the treasury. Superintendent Alexander furnished statistics which were indications of a very condition of trade in the year now healthy condition of trade in the year now closing. Thirteen new directors were chosen, who will meet on Thursday, June 16, and choose the officials for the coming year. The directors chosen were: R. S. McCagne, J. W. Smith, D. G. Stewart, E. B. Mahood, R. D. Elw ood, James Herron, S. R. Patterson, D. Witmyer, G. W. C. Johnson, John Hood, J. C. Honck, J. A. McCracken. There was a tie vote between J. J. McCaffrey and S. McNaugher. Grain Exchange Cereal Statistics.

The following facts of interest are culled from Superintendent Alexander's report to the Grain Exchange: Receipts of flour for the year past, as bulletined, 2,9% carloads; wheat 2 730; shell corn. 1.550 cars: ear corn. 798; oats, 3,250; rye, 1,258; malt and barley, 1,051; mill feed, 1,179; hay, 3,512, and straw, 135. Total receipts for the year now closing, 18,440 cars, against 18,500 cars for the previou.

ls,440 cars, against 18,590 cars for the previous year. As the capacity of grain cars has been increased the past year, the total tonnage of cereal and hay receipts shows a gain this year over last. The highest price of wheat reached during the year was, according to sales, \$i.04, and the lowest 920 per bushel, the latter price being touched within a few days. No. 2 yellow shell cornsold as high as 75c and as low as 45c per bushel during the year. No. 2 white oats was sold as high as 51½c and as low as 33½c. The highest price for No. 1 timothy hay was \$14.25 and the lowest \$11.00 per ton.

Farming Tools Active. Dealers in agricultural implements report unusual activity in this department of trade. One of our principal dealers in this line, had this to say of trade: "We have now on our books orders for cultivators, reapers and mowers, which we will not be able to fill for a couple of weeks. Our vol-ume of trade in the line of agricultural imnine of trade in the line of agricultural im-plements has exceeded that of last season at this date more than 50 per cent." The trade in seeds is practically over for the season. Millet and buckwheat are about all in the seed line that are now wanted. The volume of business in seed lines this season has been fully up to last, with prices higher, the advance being greatest for clover seed. Action of Hide Dealers.

As an offset to the movement of New England tanners curtailing the output of leather, hide dealers have been in session the past week in thicago to hold up prices of hides. The current Chicago Hide and Leother has this editorial comment on the action of hide dealers:

"Adversity has its uses. If hides had been selling freely and at full prices, the convention of hide dealers in Chicago this week would not have occurred. The readiness of the trade to meet and discuss the weak points of their business was wise and timely. The decision to refuse to buy hides "flat" is commendable. Such a rule ought to have been enforced long ago. In future, country butchers will have to grade their hides as No. 1 and No. 2. The Hide Convention passed a stringent resolution to this effect. Butchers may now be induced to be more careful in flaying; one cut will cause a hide to be a No. 2 and not a "B," as formerly. The dealers, in their de bates and agreements frequently alluded to the fact that they represented only a portion of their number. They felt nervous about hinding themselves, for instance, not to buy flat, while competitors might step in and secure their trade. This argument was met by the very sensible reply, that if others wish to lose money or work for nothing, they should certainly be allowed to do so. But the necessity for reform is so urgent, that would not have occurred. The readiness of the necessity for reform is so urgent, that the necessity for reform is so lingent, that hide dealers all over the country will see the wisdom and economy in adopting the resolutions of the convention. These resolutions received careful and critical examination from the leading hide men of Chicago and Onio, also the West."

A SNAIL'S MARKET.

Wheat Demoralised, as Well as the Telegraph Lines-A Better Feeling in Corn, Owing to the Storms-Shorts Covered-A Slump in Oats.

CHICAGO-The slowest markets fo weeks were those on 'Change to-day. Business was decidedly under the average volness was decidedly inder the average vor-neme. Telegraph lines were badly demoral-ized, and this may have helped to keep back calamity information, as it certainly restricted business. Wheat left off 13/co

back calamity information, as it certainly restricted business. Wheat left off 1½ obelow last night's stopping point, and corn declined 1,2½ or. Provisions were firm, but wound up substantially without change as compared with 2½ hours previous.

Wheat shorts were evidently well covered, for there was less demand and with no support an easy feeling existed. Reports that harvesting was in progress in Kansas and that the quality is good, also of harvesting in Southern Illinois, helped the prevailing bearishness. Foreign crop advices were also of a weak tenor. The opening was 1/2 ½ lower, and prices further declined 1½ or ruled steady and the closing was about 1/2 ½ forom the bottom for the day.

Corn held up better than wheat, but there was no approach to animation. The rain last night appeared to have visited a large part of Northern Illinois, Iowa and a part of Indiana, and was thought to have complicated the crop situation. There was not the same selling pressure as there was in wheat, and more buying on the weak spots. Shipments of No. 2 yellow were reported to be arriving in New York musty. Opening transactions were at 1/2 ½ decline and sold off a fraction more shortly afterward, when the demand improved and the price reacted 1/2 ½ or the crowd afterward sold freely, carrying the market down 1/2 ½ changed some and closed with July 1/2 ½ changed and the price changed some and closed with July 1/2 ½ changed and the price changed some and closed with July 1/2 ½ c Some and closed with July 1/201/c lower, and September off 1/201/c.
Outs were unqualifiedly dull and closed at about the inside, with a net loss of 1/201/c. Enormous receipts largely caused the closes

Slump.

Receipts of live hogs were less than half the estimates. Provisions opened strong and higher. Pork advanced 19%c. The demand filled, the market eased off and details a limited range.

POINTS IN REALTY.

Several Good-Sized Transactions Show How the Wind Blows.

ANOTHER DEAL AT SHADYSIDE.

Two Lots of Wilkinsburg Property Change Hands, One at Tall Figures.

PEATURES OF MONEY AND SPECULATION

The Farley property, on Morewood street, Shadyside, changed ownership yesterday at about \$20,000. It consists of a lot 60x120, and a 10-roomed Queen Anne dwelling. The purchaser is W. J. Lawrence, a well-known

Allegheny City business man.

James W. Drape & Co. say: "As an evidence of the confidence of the English people in American insti-tutions and business prosperity, a very important deal has been closed for the removal of an extensive manufacturing plant from that country to this locality. The site has been secured and the papers are all signed. The investment represents an outlay of over \$1,000,000."

Two Wilkinsburg Deals Closed. An important transaction in Wilkins-

burg realty was concluded yesterday by passing the deeds, by which W. C. Lyne bought from John W. Milligan, of Swissvale, all the remaining lots, nine in number, of the Carothers estate, corner of Penn avenue and Wood street, the consideration being \$30,500. It was the intention of Mr. Lyne to erect a business block on the corner of Penn and Wood, fronting on both streets, but receiving an offer of about \$3,500 profit upon that portion of the property he sold it to Samuel W. Black. This sale of 66x108 feet for \$17,000 to Mr. Black is equal to about \$260 a foot front, the highest price ever reached for Wilkinsburg realty. The sale to Mr. Lyne was made through Hoff-

man & Baldridge.

In addition to this transaction the same In addition to this transaction the same firm sold to Mr. Lyne the Fuhrer property, corner of Wallace and Water streets, four brick houses and two adjoining lots, upon which the purchaser will erect two brick residences on Wallace street, and upon the completion of these he will put up two others on Water street. These purchases are regarded as bargains, the Milligan property being well adapted to business purposes and the Fuhrer having strong attractions for home-seekers.

Improvement in Architecture. Boulevard place is being built up very fast. Eleven brick and stone dwellings are above the foundations, and some of them are under roof. Among those who have purchased lots and will build immediately are W. W. Reed, Edward Wilkins, R. P. Crawford, and several others. Mr. Craw-

ford will put up a house costing not less than \$15,000 on a lot 114x142. The character of the houses in this quarter is a good illustration of the advancement in Pittsburg architecture within the past few years.

Yesterday's Building Permits

Five permits were issued yesterday for small—aggregating \$5,725, among them the following: Lorenz Wittmyer, frame dwelling on Carver street, Twenty-first ward, \$2,225; George Harley, brick store and dwelling on Penn avenue, Nineteenth ward, \$1,800; Feller & Kupper, frame dwelling on Lenors street, Twenty-first ward, \$000; Feller & Kupper, frame dwelling on Lenora street, Twenty-first ward, \$950. Special Features of Trade.

Foundations are being laid for two hand-some dwellings on Wallace street, Wilkins-burg.

Pittaburg architects are fairly busy on

Pittsburg architects are fairly busy on plans for suburban homes, but only two or three have anything of special importance on hand.

A pipe line is being laid from the Worley gas well, Washington county, to Waynesburg, a distance of 14 miles.

Major Pentecost will do the "knocking down" at the auction sale of lots in the Mayfield plan, Perrysville avenue, on Monday next. Everything will be free and all are

next. Everything will be free and all are invited.

A site has been secured for the proposed academy in the town of Hickory, Washington county. Nearly all the funds for the erection of the building have been subscribed, and it is expected that it will be completed by the middle of September.

The estimated value of buildings for which permits were issued during the month of May is \$942,993, arainst \$165,672 last year.

On eall yesterday 20 was bid for Pittsburg and Mexican Tin Mining Company stock.

The Central Traction Company will double its electric equipment on the Center avenue its electric equipment on the Center avenu branch. The receipts of the latter are abov expectations and the traffic shows a dail oxpectations and the training and the increase.

On 'Change yesterday \$20,000 Pleasant Valley lateral 5s were offered at 101 flat, and Mo-Keesport 4½ per cent school bonds were offered at par and interest.

Additional Points in Realty. W. A. Herron & Sons sold lot 92 in Wilkins' third plan, Edgewood, Pennsylvania Railroad, 52x120 feet, on Savannah street, for \$150; also in the John I. Williams' plan, Bennett

road, 52x120 feet, on Savannah street, for \$500; also in the John I. Williams' plan, Bennett station (Millvale), three lots, Nos. 85, 36 and 37, each 24x115 feet, on Irwin street, 107 \$800 for all.

Prices were strong to higher throughout.

The best features were Citisens' Insurance, The best features were Citizens' Insurance, Lester, Switch and Airbrake, each of which finished the day with small gains. There were no recessions. Airbrake reached high water mark at the last call.

The speculative situation is really better than it appears on the surface. The Westinghouse interests have appreciated upward of 45,00,000 within about a year. Rearly all the brokers are doing a good office business. Bonds are active and strong, especially those of street railways. Pittsburg securities have sufficient imberent strength to resist bear measure under almost any conditions, as shown by the course of the market in the last few weeks.

Sales at first call were 50 United States.

STOCKS DULL BUT STRONG.

DESPITE LONDON SELLING SOME-WHAT ON TICKET DAY.

EXCHANGE

The Housetonic Deal Not So Much of a Bugaboo to New England Holders-The Grangers Gain and Cordage Rises Sharply-Beading Bonds Strong.

NEW YORK, June 14.—The usual animation in the stock market yesterday was entirely lacking to-day, and the bulk of the trading was again concentrated upon a few stocks, among which St. Paul, Burlington, New Eng-land and Reading were alone conspicuous. There was a marked absence of selling pressure, even though the foreigners were to a limited degree sellers of their specialties, ow

sure, even though the foreigners were to a limited degree sellers of their specialties, ow ing to the fact that to-day was ticket day in London; and when the early demand, which was principally to cover shorts, had been satisfied, the market sank into the usual duliness and practical stagnation in the general list.

There was a disposition shown to hedge on the New England deal, and it was not so fashionable to sell that stock as yesterday, as the purchase of the Housatonic may not be found to be so detrimental to New England as at first supposed, and some of the sellers of yesterday were buyers to-day, with the result of a very material improvement over the lowest price of yesterday.

The Grangers were most prominent in the dealings early in the day, but their gains were confined to fractions. The most marked gains, however, were in the Industrials, Cordage rising sharply, but there was no life in the great majority of stocks traded in, and the movements soon died away and duliness settled down over the entire market. The market, under the stimulus of late buying, closed active and strong, with the leaning shares at the highest of the day. The total sales of stocks to-day were 284,206 thares, including: Archison, 7.875; Chicago shares, including: Archison, 7.875; Chicago shares, including: Archison, 7.875; Chicago

The transactions reached 278,000 listed and 6,100 unlisted.

The total sales of stocks to-day were 284,206 shares, including: Archison, 7,375; Chicago Gas, 14.472; Delaware, Lackuwanna and Western, 114,000; Brie, 8,230; Louisville and Nashville, 5,920; Northern Pacific, preferred, 8,250; New England, 40,909; Reading, 49,550; St. Paul, 44.954; Western Union, 3,650.

Railroad bonds were quiet but firm, but the new strength in Reading issues was the only feature of note for the day. The second incomes furnished \$140,000 out of the total of \$1,404,000, but the distribution of business was not so large nor the fluctuations so great as yesterday.

-Two small boys, John Lohr and William Lay, have been arrested near Westfield, Tex., charged with attempting to wreck a freight train on the International and Great Northern Railroad.

—There is a church war among the Friends' Society at Odon, Ind., over the organ question. The anti-musicians, who were barred out from a meeting, smashed in the windows and interrupted the services. -Officials of the Battimore and Ohio Rail-road Company at Baltimore say there is no truth in the story that an attempt was made to hold up the New York and Phila-delphia express between Layton station and

Connellsville.

—The river at Missoula, Mont, is higher than it has been for five years. The town is in darkness at night, as the electric light plant is surrounded by water. The lower part of the town is flooded and people have left their homes. The tresties at the ends of the bridge have washed away, and communication between the north and south sides of the town is cut off.

LANE'S MEDIGINE

NEW ADVERTISEMENTS.

What is It?

A substitute for lard? Upsetting the customs, habits, and prejudices of centuries? Yes, all this and more. Cottolene is a new cooking product-it is better than lard or butter for cooking, so say such noted housekeepers as

Marion Harland, Catharine Owen,
Christine Terhune Herrick,
Emma P. Ewing,
Mrs. S. T. Rorer,
Mrs. F. A. Benson,
Amy Barnes,
Margaret Wistor,

and many others; it is healthier -so says every thoughtful physician; and it is cheaper as every housekeeper knows when she finds that one-half the quantity answers every purpose.

COTTOLENE

is the purest clarified cottonseed oil mixed with pure beef fat. It is the best cooking material ever devised for frying anything and everything-easily digested and highly nutritious.

Beware of imitations. Ask your grocer for the genuine Cottolene.
