

HILL ON FREE SILVER.

An Old Letter of His Resurrected to Prove to Westerners

HE WOULDN'T VETO SUCH A BILL.

His Stand in Opposition to President Harrison is Flat-Footed.

A DOCUMENT THAT WILL BE PRESERVED

TOPICKA, Kan., June 18.—The following letter from D. B. Hill was received by Mr. Charles K. Holliday, of this city, proprietor of the Kansas Democrat and World's Fair Commissioner for Kansas, in December last. It contained some matters of a quasi personal nature, and hence Mr. Holliday did not feel at liberty to publish it then. It makes it clear that Senator Hill, if elected President, would not veto an adequate free coinage bill if passed by a Democratic Congress. The letter reads as follows:

STATE OF NEW YORK, EXECUTIVE CHAMBER, ALBANY, N. Y., June 23, 1891.

DEAR SIR:—For reply to your letter of the 5th I enclose a reprint of my speech at Empira, on the 5th, which I intend to confirm and reiterate in a short farwell address as Governor on next Thursday, New York's Eve. My faith is unshakable in the sound common sense of our fellow-countrymen. They will know that the Democratic Party is the only efficient instrument for tax reform and monetary reform. They will not commit their interests to the Republican party, which has just made both reforms our supreme necessity. The Democratic Party will as well commit suicide as shrink either duty, nor will it betray the people's trust by allowing the executive power to be used in a manner whose views are similar to the views of President Harrison, and who is pledged, like him, to block every approach to free metallic coinage.

It is a scandalous misuse of the executive power to employ the veto in preventing the remedial legislation from being carefully planned and passed when so great a majority of the people's representatives have been elected by the people expressly for the very work to repeal the Sherman silver law and to promote the return to free metallic coinage. Governor Tilden implied a wonderful view of the function of the Federal Executive when he said: "If summoned by the suffrages of my countrymen to attempt this work, I shall endeavor with God's help, to be the efficient instrument of their will, to repeal the Sherman silver law at the capacity of the gold monometallists, so reckless both of science and of public opinion. Free metallic coinage is the demand of a vast majority of the American people; no wonder, if we give the parity of the silver dollar and the gold dollar. Free metallic coinage is the last word of monetary science. To restore it is to restore the Democratic Party."

Mr. Harrison compels us to submit to inaction during the present executive term. That, I hope, may be the limit of our inaction. He intends that there be no hypocrite. He will not recede or suppress his conscientious scruples to get a second term. He and Mr. Blaine will rise up an International conference for delay. (See page 30 to 32 of speech.)

That is a state State article. One consequence of our enforced inaction will be that the financial position and threatened disasters last approaching will be seen by all to be caused by past and present Republican wrongs, not by future Democratic remedies. Yours truly, DAVID B. HILL

BLOOD POISONING

Mrs. Mary E. O'Fallon, a very intelligent lady of Piqua, Ohio, was poisoned while assisting physicians at an autopsy 5 years ago and soon terrible sores broke out on her head, arms, tongue and throat. Her hair all came out. Her husband spent hundreds of dollars without any benefit. She weighed but 78 pounds, and saw no prospect of help.

Hood's Sarsaparilla and am now a well woman. I weigh 128 pounds, eat well and do the work for a large family. My case seems a wonderful recovery and physicians look at me as almost like one raised from the dead.

HAIR ON THE FACE, NECK, ARMS OR ANY PART OF THE PERSON QUICKLY DISSOLVED AND REMOVED WITH THE NEW SOLUTION MODENE

It is now known, an incomplete mixture was accidentally spilled on the back of the head, and on waiting after it was discovered that the hair was completely removed. We purchased the new discovery and named it MODENE. It is perfectly pure, free from all injurious substances, and so simple any one can use it. It acts mildly but surely, and you will be surprised and delighted with the results. Apply for a few minutes and the hair disappears as if by magic. It has no resemblance whatever to any other preparation ever used for a like purpose, and no scientific discovery ever attained such wonderful results. IT CANNOT FAIL. If the growth be light, one application will remove it permanently; the heavy growth such as the beard or hair on neck, may require two or more applications before all the roots are destroyed, although all hair will be removed at each application, and without the slightest injury or unpleasant feeling when applied or ever afterward. —WOMEN'S SPECIALLY ELECTROLYTIC.—
