RETALIATION URGED.

The President Sounds the Death Knell of Canadian Reciprocity.

RIGHTS OF AMERICAN CITIZENS

Guaranteed by the Washington Treaty Denied by the Dominion.

A STRONG MESSAGE SENT TO CONGRESS

WASHINGTON, June 20 .- In a state paper sent to the Senate to-day in answer to a resolution of February 24, last, calling for information relative to reciprocity negotiations with Canada the President sounds the death knell of that project and plants a mile post in American history by deliberately, in effect, recommending that Congress proceed to retaliate upon the Dominion for its persistent denial of the rights of American citizens (guaranteed by the treaty of Washington) in connection with the navigation of Canadian canals.

The text of his communication says that his answer to the resolution was delayed at the suggestion of the Secretary of State until the conference of the 3d instant took place between the Secretary and the British Minister and Hon, Mackenzie Powell and Hon. George E. Foster. Hon. John W. Foster also appeared on behalt of the Goverament of the United States, at the request of the Secretary of State.

The President says: "The result of the conference, as to the practicability of arranging a reciprocity treaty with the Dominion of Canada, is clearly stated in the letter of Mr. Blaine, and was anticipated, I think, by him and every other thoughtful American who had considered the subject. A reciprocity treaty limited to the exchange of natural products would have been such only in form. The benefits of such a treaty would have inured almost wholly to Canada. Tr vious Experiments Unsatisfactory.

"Previous experiments on this line had been unsatisfactory to this government. A treaty that should be reciprocal in fact and of mutual advantage must necessarily bave embraced the list of important manufactured articles and have secured to the United States a favored introduction of these articles into Canada as against the world; but it was not believed that the Camadian Ministry was ready to propose or as-sent to such an arrangement. The conclusion of the Canadian commissioners as stated in the report of Mr. Blaine is as fol-

In the second place it seemed to be impossible for the Canadian Government, in view of its present political relations and obligations, to extend to American goods a preferential treatment over those of other ics. As Chunda was a part of the Emptre, they did not consider it tent for the Dominion Government to enter into any commercial arrangement with the United States from the benefits of which Great Britain and its colonies should

"It is not for this Government to argue against this announcement of Canadian officials' opinion. It must be accepted, however, I think, as the statement of a condition which places an insuperable barrier in the way of the attainment of that large and beneficial intercourse and reciprocal trade which might otherwise be developed between the United States and the Domin-

"It will be noticed that Mr. Blaine's reports as one of the results of the conference informal engagement to repeal and abanden the drawback of 18 cents a ton given to wheat (grain) that is carried through to Montreal and shipped therefrom to Europe. By the American railways runother American Pathways ran-ning from Ogdensburg and Oswego and other American ports, the shippers paid the fail 20 cents a ton, while in effect those by the way of Montreal pay only 2 cents. It was understood that the Canadian Commissioners who were all three members of the Cabinet would see to the withdrawal of tember.

'From the report of the recent conference by Mr. Foster, it will be seen that the Canadian commissioners declare that this statement does not conform to their understanding, and that the only assurance that they had intended to give, was that the complaint of the Government of the United States should be taken into consideration by the Canadian Ministry on their return to Ottawa. Mr. Foster, who was present at the first conference, confirms the statement of Mr. Blaine. While this misunderstanding is unfortunate, the more serious phase of the situation is that instead of rescinding the discriminating canal tolls of which this government complains, the Canadian Ministry, after the return of the commission from their visit to Washington, on April 4, reissued, without any communication with this government, the order continuing the discrimination by which a rebate of 18 cents a ton is allowed upon grain going to Montreal, but not to American ports, and re-Montreal, if trans-shipped at an American

"The report of Mr. Partridge, the Solicitor of the Department of State, which ac-companies the letter of the Secretary of State, states these discriminations very clearly. That these orders as to canal tells and rebates are in direct violation of article 27, of the treaty of 1891, seems to be clear. It is wholly evasive to say that there is no discrimination between Canadian and American vessels; that the rebate is allowed to both without favor upon grain carried through to Montreal, or transhipped at a Canadian port to Montreal."

"The treaty runs: To secure to the citizens of the United States the use of the Welland, St. Lawrence and other canals in the Dominion on to

equality with the inhabitants of the Do

Fourthly of Treatment Demanded.

"It was intended to give consumers in the United States, our people engaged in rail-road transportation, and to those exporting from our ports equal terms in passing their merchandise through these canais. This absolute equality of treatment was the consideration for concessions on the part of this government made in the same article of the treaty and which have been faithfully kept. It is a matter of regret that the Canadian government has not responded promptly to our request for the removal of these discriminate tolls. The papers submitted show how serious the loss inflicted is upon our lake vessels and upon some of our

In view of the fact that the Canadian Commissioners still contest with us the claim that these tolls are discriminating and insist that they constitute no violation of the letter or spirit of article 27 of the treaty, it would seem appropriate that Con-gress, if the view held by the Executive is approved, should with deliberation and yet with promptuess take such steps as may be necessary to secure the just rights of our citizens. In view of the delays which have already taken place in transmitting this correspondence to Congress, I have not felt justified in awaiting the further communi-cation from the Government of Canada which was suggested in the recent conference. Should any proposition relating to this matter be received, it will be immediately submitted for the consideration of the Senate, and forwarded within the time suggested which will undoubtedly anticipate any final action by Congress." The President encloses a report from Sec-retary Blaine and also one from Mr. John

W. Foster on the subject. Agonizing Twists Below the Waistband Are produced by a drenching cathartic. Why use such an irrational means of reme oying costiveness? That pure, botanic painless, philosophic remedy, Hostetter's Stomach Birters, produces the desired result decisively, but without inconvenience or griping. Captain Enton Acts as Guardian for a Bride and She Got Her Marriage License.

who had to delay his marriage to Miss
Carpenter on account of the Saturday hall
to the transfer of the bard bush on that day
holiday. After his hard luck on that day
the young Benedict didn't find it plain
sailing yesterday. Miss Carpenter was no
of age, and her parents are dead. Her
of age, and her parents are dead. Its
older brother was present, and assured Cap
tain Heber that everything was all right,
but under the law a guardian had to be ap-
pointed. Mr. McGarvey returned to the
hotel, and Captain Joseph Eaton was
pressed into service. It was the first time
he had acted in such a capacity, but the
gallant captain gave the bride away with
as much tenderness as if she had been his
own daughter. With the boys around the

the National Committee. CHICAGO, June 20. - The most interesting development in the work of the State delegations to-day was the surprise brought about by the announcement that Mr. Clark Howell, of the Atlanta Constitution, had been chosen by the unauimous vote of the State delegation as the National Committeeman for the next four years, alter a vigor-ous fight by Mr. Hoke Smith, who was a candidate, on what he urged as the Cleveand issue.

When the Georgia convention of May 18 When the Georgia convention of May 18 went for Cleveland by a close vote, Smith began an active fight for the position of National Committeeman. This fight, he continued until it was evident that Mr. Howell would defeat him. Then he urged several other names, but the effort being futile he withdrew and left a walkover to
