ROYAL RECEPTION TO BARGAIN SEEKERS

TO-DAY!

NEELD'S FARM IT IS. NOW IS THE TIME.

Agree Upon a Favorable Report.

MAYOR GOURLEY WILL APPROVE. Chief Elliot Fays Work Cannot Begin Be-

fore the Fall. THE LAND MUST FIRST BE SURVEYED

At next Monday's meetings of Council an ordinance for the purchase of the Captain Neeld farm will be reported by the Charities Committee. It will be passed, and the only thing then to be done to complete the purchase will be to have the document signed by the Mayor. All this was made evident at the meeting of the committee vesterday afternoon.

As to the Mayor, he will probably sign the ordinance at once, as he realizes that with the best speed possible the city will have less than a year in which to erect the new Poorhouse. He has stated that this farm comes nearer his ideas than any yet selected, and, although the price is steep, it seems relatively as low as any that can be bought when the city is to be the purchaser. The Mayor, however, still believes that a 100-acre farm would be plenty large enough, and that the city should buy it for not more than \$150 an sere. Many think the Neeld farm is not worth more than that,

Think It the Most Available Site. There were 14 members of the Charitie Committee present when the roll was called yesterday. No time was wasted in preliminaries. Chief Elliot's report was read by City Clerk Booth, It recommended the Neeld farm as the best offered, but said the Sewicklev Dairy Company's farm at Sewick-ley would suit admirably, were it not situ-nted so far back from the railroad. It was stated that 25 minutes were required to drive to the farm from the railroad, and most of the drive was up a steep hill.

The coal and building stone in the Neeld farm, its 700 rods of frontage on Chartiers creek, its 100 acres of bottom land and its convenience, to one railroad while spother.

convenience to one railroad while another passes through it were mentioned in the report as good reasons for its adoption as a Poor Farm site. All the original proposals received were attached to the report, but were not read, the recommendation of the Chief being approved with an affirmative return to Councils on motion of Mr. Flinn, of the Southside

No Opposition to the Report,

When remarks were called for on the mo tion no one offered to say a word, and Chair-man Perry begged that if any member had any objections to offer this was the time and place and he wanted to hear from them.
Mr. Flinn talked in the same strain, but there was no response, and the motion was

pdopted unanimously.

Thereupon it was suggested that the ordinance for the purchase of the farm be acted upon, so that it could be passed finally at next Monday's meeting of Councils. Mr. Booth ruled this out by declaring that the document must be referred to the committee by Councils before the committee could report it, but a suggestion was adopted that the ordinance be considered at once, and on Monday after it is referred the ommittee can withdraw, recommend it and have it passed before Councils adjourn. This suggestion suited Chief Elliot, and when asked for his opinion he said: Chief Elliot Says Time Is Everything.

"Time is everything now, and I think it advisable to save all we can. It will be fall before we can do anything, even under the most favorable circumstances. This farm has never been surveyed since Captain Neeld bought it. There are from 223 to 240 acres, but as it is offered by the acre the exect amount must be determined before a purchase can be closed. It will take a mouth for the preparation of building plans and before the plans are finally decided on they must go down to Philadelphia and be submitted for the approval of the State Board of Charities. After that some time will be required to advertise for bids for the work, so that it will require until about September 1 to get things started, leaving only ten months for the erection of the buildings."

No further remarks were made, the new

ordinance was read and the committee adjourned to meet during the Council meeting on Monday.

A World's Fair Investment.

A Chicago development association has prepared a handsomely illustrated booklet which contains a remarkable offer to any saving person. "The Way to Win" will be sent free to any address upon application to Messra. Jas. E. & Robt. L. McElroy & Co., Chamber of Commerce building, Chicago.

The Future of Natural Gas. The Future of Natural Gas.

Natural gas is a subject that always interests those using this most valued fuel. The statement published in the nowspapers in the last few days to the effect that a new field had been discovered within a few miles from the city, and that the supply would be sufficient for our wants for several years to come, means good news for every housekeeper. But every consumer should take enough interest in the subject to study its economic use, not only for their own benefit, but to save it, so that we may enjoy the pleasure of having it for domestic purposes at least for years to come, and the only way to use and save it is to buy a Jewett gas range, which will do your baking, frying, stewing and roasting, and at the same time give you a plentiful supply of hot water, and save you 75 per cent of gas. Call and see it in operation at the furnace, stove and range stores of J.C. Bartlett, 203 and 255 Wood street, Pittsburg.

The Charities Committee of Councils SUMMER IS HERE AND EVERY-ONE CAN BE OUT OF DOORS.

> Nature Building Up Its Work-What This Season Is Best Adapted To-A Few Timely Remarks. Now comes the summer !

Nature is warm and loving and generous It fructifies and builds up. It supplies anew the old exhausted sources. It reinrigorates and rejuvenates.

The sick feel almost well in sun

gentle is the season to the ailing. The vic-tim of a chronic disease feels an abatement of the sharpness of his suffering.

Nature does much for us, but she does not do all. It is not wise to assume that when this beautiful season works an improvement in the system, complete health will be

No.

Rather think that this is an offer of help from nature, which you should at once take advantage of.

In such diseases as catarrh and its kindred allments it is especially advisable that the sufferer be not deceived by the bland influence of the summer season, and that he recognize the necessity of securing that medical aid which is needed for perfect cooperation with nature.

Catarrh is an obstinate and dangerous disease. It clings tenaciously to the system and grows more malignant with each returning fall.

The time to take treatment for diseases of

and grows more mangaant wan each to turning fall.

The time to take treatment for diseases of a catarrhal nature is now. The climatic conditions are most favorable. In fact, the best of the year (the liability to taking cold being the lowest) and two or three months' treatment now will do more good than nine months' in cold or rainy weather.

Time and again Drs. Copeland, Hall and Byers have advised patients in desperate stages of catarrhal trouble to wait until summer before taking treatment. Time and time again have they urged the necessity of taking treatment while the weather was favorable to a cure.

taking treatment while the weather was favorable to a cure.

Now is that time. Those who suffer from catarrh should take advantage of all the influences that operate now in favor of a cure. They should not put off treatment until next winter's stormy days, but should prudently "mend their roof while the sun shines." Now is the time, and the opportunity is just what is desired for the worst cases. Do not let it go by, but place yourself under the treatment of Drs. Copeland, Hall and Byers, and have done for you in the next few months what might not be possible the next summer.

CONSUMPTION'S GHASTLY CLUTCH, Narrative of Remarkable Force From

Mr. Andrew Glover-Bronchial Catarra and Its Appalling Results. Do you know what it is to have consump tion threaten your life? It is to hear death

nocking at the door with quiet but appall-It is to hear the echoing laugh of the de-stroyer in every cough forced from the chest.

It is a shadow across the sunlight of your xistence, a shadow growing larger and blacker until it engulfs you completely. No wonder, then, that those who feel the

No wonder, then, that those who feel the ghastly clutch of this monster rush to the physicians who can slay it. No wonder that those who have escaped it cry aloud and call upon others to seek relief from the source whence they obtained it.

Mr. Andrew Glover, 217 Irwin avenue, Allegheny, makes this statement:

"I want everyone to whom it may be of interest to know how I suffered from inciplent consumption and how I was cured.

"Three years of pain and suffering; three years of medical treatment from the best physicians without even small relief; three years of constant struggle for health, and now perfect health and strength beyond my wildest hope. This is the story in brief. But to be particular:

"My trouble originated in neglected colds, then followed all the symptoms of catarrh of the head—violent beadaches, closing of the masal passages by hard lumps, buzzing, roaring and clicking sounds in the ears, sore throat and husky voice, poor appetite, loathing distasts for eating, uyspepsia, sleeplesness, etc.

"But the catarrh extended into the bron-

ing distasts for eating, uyspepsia, sleeplessness, etc.

"But the catarrh extended into the bronchial tubes and the lungs. My breathing
was difficult and was accompanied by a
wheezing sound. I got a heavy cough and
every time I coughed my lungs were racked
with pain. Sharp pains darted through my
chest constantly, I coughed incessantly during the day and at night I would be awakened with my coughing, which would then

Mr. Andrew Glover, 217 From Ave. Allegi scribed medicines which I took, but without

soribed medicines which I sook, but without avail.

"To-day matters are vastly changed. I never felt better in my life. By catarrh is a thing of the past. My cough has disappeared. I have increased greatly in flesh and strength, and I can say that I am entirely well.

"This is all due to the intelligent, gentic and yet powerful efforts of Dr. Copeland, Hall and Byers. I cannot express my thanks in terms strong enough to do my feelings justice. I hope everyone who is affected as I was will go and see them. Their treatment is wonderful in its results, for I have seen these in other cases besides my own."
