## FEATURES OF TRADE

An Unprecedented Activity in the Canned Meat Industry.

THE PRICE LIST TO BE ADVANCED.

Chicago Dressed Beef Firms Satisfied With

the Outlook.

#### CATTLE TRADE IN SOUTH AMERICA

OFFICE OF THE DISPATCH, PITTSBURG, TUESDAY, June 28.

There has been no time in the history of the canned meat industry when trade was anything like as lively as it is now. The pienic season is at its height, and the demand for outing meats shows that a large proportion of the population is taking to the woods. A representative of the lead-ing Chicago firm which makes a specialty in canned meats said in an interview yes-

"We are so far behind our orders in the line of canned beef, that I am afraid we will not be able to catch up this season. The foreign demand has been so great this summer that the Chicago house that I represent has not been able to furnish onehalf the supplies we need for our trade. We are now 5,000 cases or 100,000 pounds behind in our orders, and at the very best we will not be able to catch up under six weeks. The unprecedented demand has stimulated prices and an advance of 15 cents a dozen for canned beef will be established this week. The present price is \$1 60 per dozen of two pound cans."

Canned tongue and chipped beef are prepared in one pound cans. The former will be advanced 15c and the latter 10c per dozen in the next day or two. The price of

be advanced 15c and the latter 10c per dozen in the next day or two. The price of canned tongue is now \$2.75 per dozen and chipped beef \$1.80 per dozen.

The increased volume of trade over last year, is not less than 100 per cent thus far, with the best of the season yet to hear from. Within a few years the picnic season closed about the beginning of September, while now it holds up well into October. Among the new features of the canned meat industry is the attachment of a key opener to each can.

The Dressed Beef Industry.

The number of Chicago dressed beeves handled by the butchers of this city will no fall far short of 600 at this time when deweeks ago the total reached 100 above this figure. A fair estimate places the amount of Chicago dressed beef which is sold in the Diamond markets at one-half the total. There are now three Chicago beef firms represented by agents in this city, two of which have storage houses in Allegheny as well as Pittshure.

Pittsburg.

A salesman of one of these houses said yesterday: "I have on my books the names of 210 butchers that I supply. These butchers are for the most part in the two cities, but a number are located in the surrounding towns. We are now receiving about seven our loads of dressed cattle every week with 20 head to the car, and have received and sold as many as nine car loads per week this year." Dressed beeves are selling at a range of

South American Cattle. The current number of the Chicago Hide

and Leather furnishes the following facts: "South American advices bring the following later reports concerning slaughtering operations on the River Plate and Rio Grande, to which are added our usual com-parative statistics for the three years preced-ing:

 1890.</ Total cattle....1, 773, 000 1, 754, 000 1, 723, 300 1, 652, 000

Comparing the above figures with the position as it stood on May 15, the fact is established that during the last half of May of this year the total slaughter fell off, as against that for the same period of last year, although the aggregate thus far for the present seams is still sheed of less transfer. ent season is still ahead of last year's by 19,000 head. When a comparison is made with 1890 and 1891, however, the latter half of May of this year is shown to have been considerably in the lead; thus, whereas on considerably in the lead; thus, whereas on May 15 last the slaughter for the season was behind that of 1890 by 10,400 head, it closed the month 49,700 head in the van. And while on May 15 last the total as against 1889 showed an excess of 80,700 cattle in favor of 1892, the table above given demonstrates that this quantity had been increased to 110,100 head by 31st ultimo.

#### LIVE STOCK MARKETS.

Receipts, Shipments and Prices at East Liberty and All Other Yords. OFFICE OF THE DISPATCH, PITTSBURG, TUESDAY, June 28.

CATTLE-Receipts, 180; shipments, 140. Market very slow at vesterday's prices. No cat-Hogs—Receipts, 1,800: shipments, 1,000.
Market steady. Common to best, \$5 15@
5 60. Five cars of hogs were shipped to New
York to-day.
SHEET—Receipts, 1,000: shipments, 1,400.
Market dull at yesterday's prices.

By Telegraph.

By Telegraph.

New York—Beeves—Receipts, 211 bead, all for slaughters: no trade: feeling firm. Dressed beef—Steady at 64@73cc per lb. Shipments to-day, 810 beeves; to-morrow, 5.840 quarters of beef. Calves—Receipts, 445 head; market firm; veals. \$4.0006.00 per 100 lbs. Sheep—Receipts, 7,061 bead; market very dull, 20 cars unsold: sheep, \$4.0004.35 per 100 lbs: lambs, \$5.25@7.50; dressed mutton slow at 94@11c per lb; dressed lambs weak at 11%@15c. All News Favors Bulls and Everything fo Up - Prospects That the Batch Bill Can't Be Passed This Season-Bad Crop and Cable Reports.

CHICAGO-There was more activity and decidely more strength in all of the pits dur-ing most of the session of the Board of Trade to-day, but near the close there was a general weakening all along the line, and final fig-ures show only moderate gains. Nearly all of the early news was of more or less bullish character, the shorts becoming rattled, and in their efforts to cover put prices above the point at which they could be maintained. Perhaps the most encouraging factor of the day was the growing belief that the dreaded "Hatch" bill cannot pass the Senate this session.

day was the growing belief that the dreaded "Hatch" bill cannot pass the Senate this session.

There were other strong features: Crop reports come in less favorable than heretofore. Domestic markets were higher. There was a decrease of 1,888,000 bushels on coeah passage, and there was a report from New York that Liverpool had just cabled that the Indian wheat crop was 64,000,000 bushels less than last year. After all of these bull items had their effect it was noted that most later cables were lower, instead of higher, as would have been the case with an enormous decrease in India, July wheat opened at 78%c, advanced to 79%c, weakened to 78%c and closed at 79%c, against 78%c at the close yesterday.

Corn was strong and higher. The Illinois State report was unfavorable and other crop advices also discouraging, and there was active covering by shorts and good speculative buving, while there was little for sale The decided strength in wheat and the other speculative pits also helped the market, and it was aided by small receipts, present and prospective; but it weakened later with wheat. July opened at 50%c, advanced to 51%c, sold off to 50%c and closed at 50%c, an auvance of 9c.

Oats sympathized with the other cereals, and closed with only moderate advances.

The leading futures ranged as follows, as corrected by Jonn M. Oakley & Co., 48 Sixth street, members of the Chicago Board of Trade:

### BOROUGH

Matters of Interest in and Around Historic Braddock.

CONSOLIDATION KNOCKED OUT.

Copeland and North Braddock Taking the Lead in Improvements.

INDUSTRIAL CONCERNS IN GOOD SHAPE

Braddock may not be flourishing like the proverbial green bay tree, but it is keeping well to the front and steadily adding to its importance as a manufacturing center. All of its numerous manufacturing concerns, some of them the largest in the country, are actively employed. So far, there are no signs of serious labor trouble. Building is backward in the borough, but brisk outside. The Lloyd Hotel, a fine structure on Main street, has just been completed and occupied. The Carnegie Co-operative Asso plation building on the same street is receive ing the finishing touches. Two or three churches, a school house and a number of dwellings have been put up this season. Growth is of a substantial character. Real

estate values are steady, but sales are slow. North Braddock and Copeland.

The scheme of the big borough to annex these thriving suburbs appears to have fallen through, the people being decidedly opposed to such close fellowship with a community seriously handicapped, as claimed, with a heavy bonded debt. So it is likely they will continue to "paddle their own cance." Both ot these places are building up very fast, but Copeland is taking the lead. Ten years ago it was a brick-yard; now it is a town of perhaps 2,000 inhabitants. It occupies a good position and has plenty of room for expansion. Its proximity to nearly all the industrial centers makes it attractive to a large class of home-seekers. There is talk of a new subdivision above the railroad consisting of four or five acres. There is a large amount of vacant land in this quarter which is well adapted to residence purposes. Many of The scheme of the big borough to annex adapted to residence purposes. Many of Braddock's prominent citizens have their homes in Copeland. The western terminus of the Braddock and Turtle Creek Electric Railway is here.

Yesterday's Building Permits. Six permits were issued yesterday for seven buildings, aggregating in cost \$17,100. The list follows: Isaac Nelson, frame dwelling on Thirty-third street, Thirteenth dwelling on Thirty-third street, Thirteenth ward, \$1,600; Adam Wehmer, brick dwelling on Fish street, Seventeenth ward, \$3,500; H. J. Lang, two frame dwellings on Pacific avenue, Twentieth ward, \$7,200; C. M. Lindsey, frame dwelling on Butler street extension, Eighteenth ward, \$1,350; Mrs. Doyle, frame dwelling on Forward avenue, Twenty-second ward, \$800; James Patterson, brick dwelling on Alden street, Twenty-third ward, \$2,000.

Special Features of Trade The Pittsburg Exchange will be closed from Friday evening next until Tuesday morning, thus following the example eastern bodies.

The acid works at Ben Venue are being enlarged to meet the demands of increasing

Braddock recently voted on a proposition to increase the borough indebtedness to \$100,000 for street improvements and to wipe out the floating debt. It was carried by three to one, but the vote was light. This makes the combined debt of the borough and school board about \$300,000.

Elmira, N. Y., has marketed \$335,000 3½ per cent bonds, maturing in yearly series from 1912 to 1921, \$23,000 per year, at from 103.06 and interest to 194.32 and interest.

Disbursements of July interest and dividends in Pittsburg will, according to good authority, amount to nearly or quite \$2,000, 00. Of this large sum, Airbrake and Philadelphia Gas will furnish \$575,000, or more than one-fourth the total.

Speaking of the Braddock and Turtle Creek Railway yesterday, a gentleman familiar with its history said: "The statement that it is a non-payer is wrong. It is a good investment. The company is earning enough to pay fixed charges and to create a surplus for dividends. I think it will do Braddock recently voted on a proposition

investment. The company is earning enough to pay fixed charges and to create a surplus for dividends. I think it will do still better under the new management."

The Du Bois Deposit Bank, a State institution, has been organized at Du Bois, Pa., with a capital of \$75,000.

William Eberhart has purchased several parcels of land in Shaler and Harrison townships at an aggregate cost of \$10,000.

It is asserted in some quarters that the People's Natural Gas and Pipeage Company will pay a 3 per cent dividend in July.

The earnings of the Buffalo, Rochester and Pittsburg Railroad for the third week in June were \$4,478, a decrease of \$659.

Lake Shore yesterday announced a regular dividend of 3 per cent, putting the stock on a 6 per cent basis, Additional Points in Realty.

John D. Banks sold for A. Stroyd a modern frame dwelling of five rooms, with lot 27x120 to an alley, on Hailman street, East End, to Mrs. McKnight for \$3,050, cash. W. A. Herron & Sons sold on Bellefonte street, near Elisworth avenue, a lot 17x100 street, near Ellsworth avenue, a lot 17x100 feet, with a house of five rooms, for \$1,800, on very easy payments. They also sold lot 103 in Wilkins estate, third plan, Edgewood, 52x120 leet, on Mifflin street, for \$650.

John K. Ewing & Co. sold for Samuel and Joseph McNaugher to Thomas D. Campbell a lot fronting 40 feet on Pipe street and extending through 186 feet to Elm street, Twelfth ward, Allegheny, for \$1,000, on monthly payments. Twelfth ward, Allegheny, for \$1,000, on monthly payments.

Black & Baird sold for Mrs. Eliza Mason to Isabelia Gallagher lot 189 in C. B. Seeley's plan, in the Nineteenth ward, fronting 25 leet on Riverview avenue by a depth of 100 feet to Beech aliey, for \$325 cash.

McCune & Coulter sold lot No. 69 in their Dean Park plan, Twenty-first ward, te Mrs. Hannah Chocholke for \$400.

A. Z. Byers & Co. sold for Daniel S. Louder to C. D. Wruter lot No. 135 in the Northside Land Company's plan (limited), West Bellevie, Pittsburg, Ft. Wayne and Chicago Railroad, for \$500 cash.

Peter Shields reports the sale of lot No. 193, 10x30 feet, located on Hoosac street, in the Greenfield avenue plan, Twenty-third ward, for \$600.

ward, for \$600.

Reed B. Coyle & Co. sold nine lots in the Linden Land Company plan, Fourteenth ward, directly opposite Schenley Park.

· HOME SECURITIES. PLEASANT VALLEY AGAIN PASSES UNDER THE CLIPPERS.

sful Tactics to Prevent a Rise Pending Negotiations With Manchester-A Big Block of Bonds Changes Hands-

Sales and Fluctuations for the Day. Pleasant Valley Railway held the floor stock market. It was active at the expense

again yesterday as the attraction of the stock market. It was active at the expense of value, seiling down from 25% at the morning call to 26 in the afternoon. This bears out the opinion expressed last week that those managing the deal with Manchester are doing all in their power to keep the stock down. The consolidation scheme was said to be making progress, but nothing authentic was given out.

There was no special change in other directions. The natural gassers were steady. Pipeage was bid up a fraction at the midday call, but finished at the opening. The event of the day outside the Exchange was the sale by Henry M. Long of \$50,000 Pleasant Valley bonds at par and interest.

Sales at first call included 25 Birmingham Traction at 26; 100 Pleasant Valley at 26% and 100 United States Glass common at 67. Pleasant Valley monopolized the midday assion, 10 shares selting at 26%. Sales at the inst call were 5 Duquesne at 27%, 225 Pleasant Valley at 26% and 300 at 26.

The unlisted tractions finished the day as follows: Duquesne, 27% bid 28 asked; Birmingham, 26% bid; Manchester, offered 46%. Bids and offers at each call follow:

A BEAUTIFUL BLACK EYE GIVEN TO RICHMOND AND WEST

Orexel, Morgan & Co.'s Refusal Has a Bad Effect on Stocks-Vanderbilts Higher on Declaration of Larger Dividends-The

POINT SECURITIES.

General Market Still Very Dull. New York, June 28.—The event of the day in stock circles was the refusal of Drexel, Morgan & Co. to undertake the reorganiza-tion of the Richmond and West Point system, and to this event was due the spurt of animation and weakness caused by a seiling movement stimulated by the news. There was, also, some animation in the Vander-bilts, especially Lake Shore and Chesapeake and Ohio over the increase in the dividend rate on Lake Shore. Otherwise the market

bilts, especially Lake Shore and Chesapeake and Ohio over the increase in the dividend rate on Lake Shore. Otherwise the market to-day presented the same tame and uninteresting appearance that it has for the last few days, and the movements referred to were short-lived.

Although there is approaching a triple holiday and dullness which is the usual accompaniment of the approach of the July disbursements, there seems to be nothing to base a selling movement upon, but the apathy of security-holders, and all such attempts are likely for some time to be spasmodic and the effort to recoup followed by full recoveries. The refusal checked a very promising advance in Richmond and West Point securities, but while the stocks declined and the preferred materially, the effect was more largely seen in the bonds.

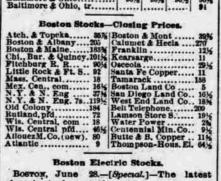

The drive at the Grangers resulted in knocking a large fraction off of Burlington, but the rest yielded refuctantly; and the reports from the crops being uniformly favorable, the movement was quickly checked. Considering the prevailing duliness, there were some very marked improvements, and these invariably in the upward direction among the specialties.

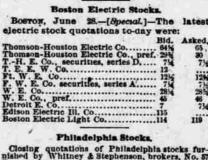

The market finally closed very dull but firm at close to the opening figures in most cases, while a few stocks retained the early advances, and Sugar and Hocking Vallev are I per cent. The trading reached 119,863 list and 19,256 uniisted.

The total sale of stocks to-day were 139.119 shares, including: Atchison, 19,690 Delaware, Lackawanna and Western, 3,710; Hocking Valley, 3,800; New England, 4,135; Reading, 10,100; Richmond and West Point, 7,495; St. Paul, 14,890; Western Union, 3,087.

Railroad bonds show rather an increased strength owing to the near approach of the July disbursements, and while there was little animation in the market, Louisville, New Albany and Chicago 5s attracted attention in the market at higher prices. The inactive issues, however, were the only ones to score material movelment. Richmond and West Point issues were depressed materially an

MONETARY SITUATION.

A Fair Movement for the Season - No Change in Rates. Money was perhaps a little more active Money was perhaps a little more active yesterday owing to the near approach of the half-yearly settlements, but the market was easy in all departments. There is little danger of seriously depleting the surplus before fall. Counter business was well up, and the Clearing House report denoted a fair movement in general trade lines. Exchanges were \$2,534,288 75, and balances, \$601,738 65. Rates were easy at 506 per cent on call and time loans.

Rates were easy at 505 per cent on call and time loans.

A New York authority says: "The surplus is quite large enough, and with the prospect of early return of gold for products exported the street perceives no occasion for alarm. Much is said in some quarters about the depletion of Treasury reserves, but the fact is that the net gold held after deducting gold certificates outstanding is now but \$2,400,000 less than June 30 last year, and meanwhile the New York banks, notwithstanding their loss last week, still held about \$20,000,000 more specie than they did then."

easy at 114@2; last loan 2, closing offered at 2. Prime mercantile paper 3@5 per cent. Sterling exchange quiet but steady at \$4 87 for 60-day bills and \$4 884 for demand.

THE HOME MARKETS.

ELGIN CREAMERY BUTTER CONTIN-UES TO MOVE UPWARD,

Oats and Hay the Leading Items for Strength-Garden Truck Is in Heavy Supply.

OFFICE OF THE DISPATCH, PITTSBURG, TUESDAY, June 28. COUNTRY PRODUCE-Jobbing Prices-At the regular weekly meeting of the Elgin butter board vesterday sales were made at an advance of le per pound over last week's

quotations, and in consequence prices here will be advanced the latter part of the week. The market for choice grades of butter holds quite firm under a steady demand and comparatively light supplies, and the chances are prices will be elevated again next week. Cheese is weak at the late declines, and eggs and poultry are easier under a falling off in the demand. Berries are coming forward liberally, and the market favors buyers, though quotations were not shaded to any material extent to-day. Vegetables are in full supply, this statement having especial reference to cabbage, toma-toes and onlons, but prices are holding up better than expected because of a slight improvement in demand. Tropical fruits are having a free movement and the general tendency of prices is upward. Melons and canteloupes are good stock at quotations. Potatoes are in excessive supply, with little choice stock on sale.

APPLES-New, \$4 50@5 00 a barrel; 75@85c per AFFLES-As a small box.

TALLOW—Country, \$6; city rendered, \$450.

Samuel Gompers, President of the American Federation of Labor, has written a letter to A. F. Ballonger, Secretary of the National Liberty Association, in which he says that the Federation \$6\$ in favor of the World's Fair being open on Sunday.

orld's Fair being open on Sunday. —A convention of the Confederate veterans of South Carolina has been called to meet in Columbia, July 19, for the purpose of effecting an organization similar to that of the Grand Army of the Republic, Exsenaton Wade Hampton will preside.

The chiefs of the Arapahoes and Cheyenne Indians refuse to accept the beef from the Government, which commenced Monday. This will be the last beef issued by the Government to these Indians, and there is no little concern among the settlers as to the outcome of this surliness among them. —Charles Nelson, the eldest son of the millionaire distiller, Charles Nelson, at Nashville, has filed notice of a contest of his father's will. The will devises the entire estate of something above \$1,000,000 to Mrs. Louisa Nelson, the second wife, young Nelson being cut off with \$400 per annum.

—The excitement at the Coeur d' Alen mines is still running high. A runnor is current that the miners are trying to render ineffective the injunction against them by dissolving their union. They have, it is stated, united with the Knightsof Labor, and under this order can carry on war without liability of trouble.

The suit of Nathan C. McKay against the United States for \$23,534 for the construction of the monitor Squando, which has been pending for 37 years, was decided in the Court of Claims yesterday. Judgment was given in his favor for \$115,117, being \$30,000 less than allowed him by the naval experts.

Infants Die From Want of Proper Food.

Death Rate From Cholera Infantum Grows.

Infant Mortality Credited to Hot Weather.

Boon Within the Reach of Every Family.

Letters From Happy Mothers in Pennsylvania Towns.

"The infants have got to suffer for two or three nouths now, " said a physician to a Dispatch man

"The health board returns say that in June last many infants died of cholers infantum. June. July and August are fatal months for children.

Cholers infantum, under which title many cases of indigestion are reported, is a preventable discase." and he showed the reporter a recent report in which two remedies were mentioned; one was giving the children a change of air, the other pro-

viding proper nourishment.

The proper nourishment is nature's food, or, when that falls, the nearest thing to it, which is nothing

more or less than lactated food. vestigated the cause of 274 deaths from cholera infantum, and they found that more than 250 of the little victims had been fed upon cow's milk, and among the number there was no death reported where lactated food had been used.

These figures simply bear out the theory recently advanced by Dr. Vaughn, of the Michigan Board of Health who says that the most fatal cause of olera infantum and kindred fatal diseases among children is stale cow's milk.

Many a mother knowing of the danger in cow's milk has attempted to nurse her child in the ho summer, because she feared to feed it partially or mother's milk, remove all dangers that lurk in stale cow's milk and keep the child strong and well during this dangerous season.

The experience of hundreds of physicians, pub-lic institutions and mothers proves that lactated food is a perfect diet for young children during the hot summer months when so many fall victims to Guernsey, Senior Editor of the New York Medical Times, says that he uses this lactated food with children, and commends it highly. There are many physicians in Pittsburg who prescribe it in-variably. The manufacturers have hundreds of letters from happy mothers in the towns of this State who have used it successfully where everything else failed. .

It must be borne in mind that lactated food is so inexpensive that it is within the reach of every family. 150 meals can be made from a dollar package of this food, and the food prepared for the use of infants will cost less than five cents a quart.

Many families keep it constantly on hand, for the food is not only of inestimable value for bables, but invalids and the aged, in fact, all whose digestion is in the least weakened, enjoy this nouris ing preparation and live a happier and longer life

DOCTOR

214 PENN AVENUE, PITTSBURG, PA.
As old residents know and leach iles of Pittsburg papers prove, is the oldest established and most prominent physician in the city devoting special attention to all enronise diseases.
