In this era of low prices it is more I more demonstrated every day that good seves pay best to the man who raises them while common cattle must go be ging for suyers, and can only be sold by liberal concessions, choice cattle, especially those of light weight, are promptly taken at satisfactory prices. Among the heavy buyers this week were B. S. Trauerman & Bro., who bought 25 loads of cattle.

The run of fresh cows was somewhat larger this week than last. There were no fancy and few good on sale. The range was from \$20.00 to \$40.00 per head. Illowing is report of the week's transacs by Holmes, Briggs & Co.:
fe report 98 loads of cattle on sale Mony, which was about the same in numras Monday of last week. The quality,
swever, was below trat of last week. The
incinal receipts were cattle which had
een fed some grain through the winter and
urned on grass. But as there has been so
much rain this season, grass has been too
soft and wasting to produce lat, and we numed on grass. But as there has been so much rain this season, grass has been too soft and wasting to produce lat, and we think tarmers are making a big mistake to put their cattle and shrep off before they are fit to be killed. When there is such abundance of grass and every advantage to make fat stock it would be more profitable to the grazier and butcher to keep back stock until reany for market. It becomes more evident to a careful observer every week that grain fed sattle and sheep are below the demand and must command better prices in the near future. We quote prime 1,400 and 1,500 at \$4.5064.70; good, 1,200 to 1,300,84.2564.40; good, 1,000 to 1,200,83.256.360; too; mixed and half fut, 900 to 1,200,83.256.360; tookers, 600 to 900, 34/20c; cows and buils. \$2.0063.25; oxen, 3c to 4c; fresh cows, \$25.00645.00 per head.

There were fair receipts of hogs on Monday and demand fully equal to the supply. Everything sold at about last week's closing prices. Since Monday receipts have been light, and as the demand keeps good prices are hardening, and this morning they are strong and 10c higher than Monday, with prospects good for the rest of the week. Grains and Provisions Advance Early, Take a Backset During the Day and Close With . Upward Spurt-Free Boying

Makes Excitement in Onts.
CHICAGO—There was not much in the way of news to-day, but a feeling of firmness pervaded most of the pits during the early part of the session, though there was some weakness later in the day, when part of the gain was lost. Near the close, however, everything took a turn up, and the close was

gain was lost. Near the close, however, everything took a turn up, and the close was generally strong.

The reason for the strength in wheat was not very clear, as cables were no better and domestic markets were quiet. Crop prospects continue highly lavorable and European prospects are still flattering. There was very little wheat for sale, and the demand was not ungent, though fully equal to the offerings. The receipts were fair as to quantity, but unusually poor as to quality. Bradstreat's reported a decrease during the last week in the available supply east of the Bookies of 1,223,000 bushels, while the Pacific coast increased 155,000 bushels. July opened at 75%c, against 79%c at the close yesterday; advanced steadily to 79%c; weakened to 79c grew dull and steady; firmed up at the close, and closed at 79%c.

Corn was strong and higher early, but subsequently lost most of the improvement. July started unchanged at 50%c and advanced to 51%c. but the higher prices checked buying and there was a reaction to 51c. The market remained quiet and weak till just before the close, where it felt the effects of the general strength and rallied to and closed at 51%c.

In the early dealings oats went up sharply on the strength in corn and discouraging crop reports, but, like other grains, failed to hold all the advance. The market grew excited on free buying near the close and closed strong at %@ic higher.

Provisions sympathized with the early strength in grains and made good advances; but at the top some longs attempted to realize profits and the market went off sharply. Later there was a rally and the close shows small gains.

Reported Sale of the Property of the Late Toney Newell.

FRESH BUILDING INTELLIGENCE. over Two Hundred Lots Sold at Munhall

and Many Houses Erected. DRIFT OF MONEY AND SPECULATION

It was reported on reliable authority yesterday afternoon that the Newell property, corner Forbes street and Shady lane, had changed ownership at a price close to \$50,000. It consists of about three acres and a large and substantial two-story brick house, built by the late Toney Newell, as a summer resort. The name of the purchaser will be given when the deed passes. It will cause quite a flurry in the circle in which he moves.

Nineteenth Ward Improvements O. L. Straub & Sons report unusual activity in the building line in and around Fairmount Place, Nineteenth ward. They have old within a short time 22 lots in this locality, 10 of which are being improved with good houses. The remainder will be built on during the season. Among the owners of houses finished or under way are Mr. Seibert, Mr. Theis and Mr. Myers. The eost of these structures ranges from \$3,500 to \$9,000. Mr. Seibert will erect several more in the same neighborhood this season. Deals in Residence Properties.

E. F. Daume, with Black & Baird, has sold his residence property on Alder street, Twentieth ward, to Mrs. Loury, of Ben Avon borough, mother-in-law of J. Palmer O'Neil, and purchased from Mr. O. C. Watt, of Philadelphia, a place on Ivy street, same ward. Both transactions involve about A Block of Six Houses.

Mr. A. C. Watkins has plans in Architect Barr's office for six brick dwellings to be erected on the corner of O'Hara and Parker streets, East End, They will be started within a week and be completed by October 1. The total cost will be in the neighborood of \$16,000.

Activity at Munhall. Munhall station, or Terrace, which is really a suburb of Homestead, is keeping step with other places in the march of im-provement. It was laid out by the Mun-hall Valley Land Company about a year ago, and already upward of 200 lots have been disposed of and many of them improved with comfortable homes. Twenty or more are under way. To meet the demand of citizens for better business accommodations, a large structure for a general store is in contemplation.

Laying Out a Plan. The Fite property, comprising about 12 acres and fronting on Highland avenue, near the park, is being graded and streets paved and sidewalked. These improvements will cost between \$30,000 and \$40,000. This work completed, the ground will be laid out in large lots and put on the market, the plan for which has been approved by Councils. Mr. Fite will ereet a very fine residence on the corner next to the

Yesterday's Building Permits. Ten permits were issued yesterday for the same number of improvements, aggregating \$17,900. The most important are: W. C. Alexander, frame dwelling on Almeda street, Twenty-third ward, \$2,000; A. T. Romig, frame dwelling, on Ellsworth avenue, Twentieth ward, \$2,300; Robert Smith, frame dwelling on Millvale avenue, Twen-tieth ward, \$3,700; William Reany, brick dwelling on Baum street, Twentieth ward,

A HOLIDAY MARKET.

NO LIFE EXPECTED ON WALL STREET FOR SOME WEEKS.

Richmond Terminal a Leading Topic-The Latest Whisky Trust Decision Helps Distillers but Little-Covering of Shorts Has Some Effect-Bonds Dul!,

NEW YORK, June 29.—The proportions of the stock speculation continues steadily to dwindle, and even though from time to time a few stocks develop a certain amount of animation with comparatively wide fluctua-tions, the wholly professional nature of the trading robs the movements of significance. In the best opinion, the holiday character of the market is likely to continue till the effect of the July disbursements begins to be felt, and for the rest of this week nothing of any kind is to be expected of the market.

The Richmond and West Point affair furnished a subject for conversation and conjecture, but while the report, as issued by Drexel, Morgan & Co. was encouraging, as indicating the feasibility of a reorganization, no one was bold enough to indicate the lines upon which it would be carried out or the length of time it would take to accomplish it. The statements of the Vanderbilt and Reading lines were rather encouraging, but the effect, as far as Wall street is concerned, was hardly apparent in any direction.

but the effect, as far as wan street is concerned, was hardly apparent in any direction.

The last decision in favor of a Whisky Trust official advanced the price of the stock by per cent at the opening, but the improvement could not be held, and, as in the rest of the list, the gain melted away, while further tractions were lost. Besides Distillers', only Chicago Gas scored a loss of more than the smallest fractions.

The covering of shorts helped the market in the late dealings, and the close was quiet and firm generally at something under last night's prices, though losses extended to be per cent, and the only advance of note was that of 1½ in Lake Shore. The transactions reached only 118,136 listed and 5,416 unlisted.

The total sales of stocks to-day were 123,542 shares, including: Atchison, 3,500; Chicago Gas, 19,530; Delaware, Lackawanna and Western, 2,000; Eric, 2,615; Lake Shore, 2,590; Reading, 25,100; St. Paul, 21,470.

Bonds were even less active than usual of late, while exhibiting an irregular temper with most of the active issues inclined to droop, resulting in several material losses. Many marked gains were seen in other parts of the list. The trading looted up to \$505,000, but there was no animation in anything.

POINTS IN MONEY.

Tightening Tendency Expected When Crops Begin to More.

Crops Begin to More.

The local money market was reported easy but in good shape yesterday. July settlements will not seriously disturb present conditions. A few banks holding corporations are sent a little, but others

conditions. A few banks holding corporation money may suffer a little, but others
will be benefited. Funds will soon seek
their customary channels. Bank clearings
were \$2,378,780 93 and balances \$505,833 63.

A New York banker is quoted as saying:
"It is probable that there may be a tightening tendency as soon as the util crops begin
to call for money to move them. But this
will have an encouraging side, for these
crops will be extraordinarily large, and
though immense amounts of funds may be
necessary to harvest and market them, the
returns to the farmer and the increased
earnings assured to railways will add materially to the wealth of the country and will
quite offset any temporary call upon this
money center for financial accommodations."

tions."
At New York yesterday money on call was 14@2; closed offered at 2. Prime mercantile paper 3@5 per cent. Sterling exchange quiet but steady at \$8 for 60-day bills and \$1 824 for dayment.

Blackberries Now to the Front-Canned Goods Growing Scarce and Firm All Along the Line-Cereals Steady and Unchanged.

OFFICE OF THE DISPATCH, PITTEBURG, WEDNESDAY, June 29. COUNTRY PRODUCE—Jobbing Prices— Among the fresh arrivals in this line are currents and blackberries. The latter are as yet in short supply. Strawberries are drawing near their end and will belong to the past when the week is over. A good article of potatoes is scarce, and markets are quiet. Fancy grades of Elgin creamery butter and other grades are firmer than they were a week ago. Eggs are fairly steady at prices quoted. We note an improved demand for tropical fruits, particularly lemons, choice stock selling very freely at outside quotations. Watermelons and cantaloupes are coming in freely, and prices are fairly well maintained.

The Drygoods Market, The Drygoods Market.

New York, June 29.—Business in drygoods was more restricted to the specialties lately on the market—prints, ginghams and clothing woolens. Spring weights of the latter are having a good movement for this early stage of the season, but the market will not be fully opened in this direction before the middle of July. Agents of prints made the following opening prices: Pacific fancies, scarlets and robes, 6½c; Cochran fancies, 6½c; Merrimac fancies, reds, purples and plaks, 6½c; Merrimac shirting prints, 6½c. Other makes will soon follow on the same basis. These prices are subject to the usual discounts.

The blood makes a circuit of the body every % minutes, delivering nutriment and taking back waste matter to be discret out by the liver and kidneys and removed from the body through the bowels and the urinary secretion. Any stoppage or obstruction of this process may produce various forms of disease, such as Dyspensia. Billousness, Constipation, Headache, Deblitty and bad blood with its multiplied evils (boils, blotches, pimples, sores, eruptions, abscesses and the like). When such obstructions exist as evidenced by the presence of complaints similar to those just mentioned, the best medicine to use is Burdock Blood Bitters, which unlocks the secretions, removing all impure and effets matter through the proper channels. By restoring healthy action of the stomach, liver, kidneys and bowels, B. B. removes all impurities of the blood from a common pimple to the worst scrofulus sore.
