

# CLARKSON AGAIN IN THE SADDLE.

## Now Slated to Be Chairman of the National Executive Committee

### AT HARRISON'S REQUEST.

#### The President Recognizes the Chairman's Ability.

Only a Touch of the Button Needed by the President to Bring the New York Machine Into Play—Ex-Congressman Townsend Sure Harrison and Reid Will Hold Their Own in the West—Secretary Elkins Expects the Republicans to Carry Connecticut and West Virginia—New Yorkers Urged to Get Together—Illinois and Ohio Put Down as Solidly Republican as Ever—Land Commissioner Carter in Pretty Hot Water.

#### URGED TO GET TOGETHER.

The Machine in New York All Ready for the President to Touch the Button—Harrison to Thank Elkins' Best Deal With an Ax.

New York, June 30.—[Special.]—The Republican machine in New York is now in fine running order. Platt and Miller have been hand on the throttle and the other on the steering wheel. The machine is now in fine running order. Platt and Miller have been hand on the throttle and the other on the steering wheel. The machine is now in fine running order. Platt and Miller have been hand on the throttle and the other on the steering wheel.

#### WESTERN SENATORS ANXIOUS.

In the Privacy of Their Closed Rooms They Admit the Democrats Have a Chance of Gaining Several of Their States—Keeping Up Their Courage by Chances.

Washington, June 30.—[Special.]—In the Republican cloak room to-day there was an animated discussion between a dozen or more Senators as to Harrison's strength as a candidate, particularly in the Western States. The Republicans generally in Washington have been very free of late in expressing the opinion that Cleveland could not be elected for the reason that he would lose both New York and Indiana. They find this the easiest statement to make, and they always repeat and reiterate it when talking for publication.

#### ELKINS IN GOOD SPIRITS.

He Feels That Harrison Will Carry Every State He Did Before, and Two in Addition—Consistent and West Virginia Adds to the List.

New York, June 30.—[Special.]—Secretary of War Elkins, spending a few days in the city with R. G. Keane, National Commissioner from Missouri, in conference over his business affairs. At his hotel to-day the Secretary declared his absolute confidence in President Harrison's re-election. He said:

#### FORCE BILL OR TARIFF?

Democrats at Sea as to Which of the Two is to Be Made the Chief Issue of the Campaign—The Issue of the Tariff or the Force Bill is the Issue of the Campaign.

Washington, June 30.—[Special.]—The Senatorial cloakroom is a good place to pick up gossip. Much of it would make good campaign material if it could be collected and transferred to the enemy. To-day a group of Democratic Senators sat in their corner chatting about the attitude toward Cleveland of the man who opposed his nomination at Chicago, and whether the force bill or the tariff is to be the leading issue in the coming campaign.

#### SURE OF THE WEST.

Congressman Townsend Says the Democrats Can't Carry One Side of Illinois—Ohio as Solidly Republican as Ever—Kansas, He Thinks, Will Vote for Her Son.

New York, June 30.—[Special.]—The Democrats foolishly imagine they can carry Illinois, but they will be sadly mistaken, says Congressman Amos Townsend, of Ohio, to-day at the Fifth Avenue Hotel. "Either Senator Palmer, Mr. Stevenson, or free trade can give Illinois to the Democrats," he said. "That State can be counted on to give Harrison and Reid a large plurality. Ohio, of course, can be safely put in the Republican column. It requires work, though, to carry Ohio. We have over 700,000 voters, and only a small percentage against a ticket, no matter how small, counts in the aggregate. Ohio generally goes Republican by 15,000 to 20,000 majority, but in a national election the majority is usually increased."

# 4,000 WORKMEN WANT TO MATCH.

## The First Day of the Great Lockout at Carnegie's Homestead Works.

### ALL THE WHEELS STOPPED

#### Mechanics and Day Laborers to Quit Work This Morning.

#### HARRITY WON'T HAVE IT.

His Business Felt His Accepting the Position of President of the Carnegie Steel Company.

Pittsburgh, June 30.—[Special.]—Secretary of State William B. Harrison said to-day that he was not only not a candidate for Chairman of the Democratic National Committee, but would be compelled, by reason of pressing business engagements, to refuse to accept the position if it were tendered to him. "There is a large responsibility connected with the national chairmanship," said Mr. Harrison, "and to assume the duties inseparable from such an appointment means a sacrifice that I am not prepared to make. I am very interested in the work of the Democratic party, but I am not prepared to accept the duties of a national chairman."

#### THE MILLER MUDDLE.

May Be Shipped Up Next Week When Sherman Returns to Washington.

Washington, June 30.—[Special.]—C. L. Magee left for Pittsburgh to-night. It is understood he has had several interviews with Senator Quay, indirectly and through the Senator's son, Richard Quay. Mr. Magee has not abated his defiant attitude regarding the prospective rejection of the nomination of Internal Revenue Collector George W. Miller. He insists that if the nomination is rejected the President will reappoint Mr. Miller.

#### A NEW JERSEY CYCLONE.

Killed Two People and Seriously Injured Three Others.

GloUCESTER, N. J., June 30.—At 1:30 this afternoon a wind storm of cyclonic proportions struck this city from the southwest, doing a great deal of damage to property and killing two people and injuring three others severely. The killed are Patrick Higgins, aged 30 years, of Philadelphia, employed as a bill poster in the Sheriff's office; Robert Hamilton, aged 40, of Gloucester Point, killed while sitting at dinner with his family by the crashing in of his house by the roof of Prohagen's pavilion. The injured are Mrs. Robert Hamilton, wife of Robert Hamilton, foot badly crushed; Mary Hamilton, daughter of Robert Hamilton, seriously injured about the body and limbs; Patrick Higgins of Camden, severe contusion on the head. A number of narrow-gauge cars were derailed and several buildings were more or less damaged.

#### MILES OF COUNTRY FLOODED.

The Rivers in Louisiana Continue to Do Considerable Damage.

New Orleans, June 30.—[Special.]—The officers of the steamer Apollo, which reached this city to-day, report that the entire country along the Amite river, between Lake Marneaux and Port Vincent, is under water; that in consequence of a freshet the Amite river has risen 7 feet, and the country from the mouth to Port Vincent, a distance of 60 miles, is under water from 3 to 8 feet deep. Business is being wholly suspended, mills have stopped work and many families are leaving their homes for the hills. Crops are almost wholly destroyed, and there has been a very heavy loss in growing farm products, but most of the crops, however, were saved from the overflow and driven to dry land.

#### A RECEPTION TO CAMPBELL.

The New National Chairman Greeted by the Leaders of His Own Side.

CHICAGO, June 30.—The main feature of to-day's session of the Republican State Central Committee was the reception tendered to the new Chairman of the National Republican Committee, W. J. Campbell. The State Committee met in the forenoon, and had some desultory talk on the general aspect of the situation in Illinois, the gist of which was that this State was safely Republican.

#### THE BRIDGE FROM OFFICE TO WORKS.

Nothing has been seen of the 200 Pinkerton men, who were reported to be on their way to Homestead.

There was a sensational rumor on the streets late to-night that Yardmaster Dobby had been brutally assaulted while leaving the works this afternoon. As a matter of fact a vagrant threw a stone which struck Mr. Dobby on the head. Little or no damage was done. The men declare that they are in no way responsible.

# IRON KINGS WEAKEN.

## They Request a Third Conference With the Amalgamated Association.

### PEACE PROBABLE TO-DAY.

#### Manufacturers Not Willing to Let Their Mills Be Idle.

#### THOUSANDS OF WHEELS STOPPED.

#### At Midnight All Mills Closed Where the Scale Is Unagreed.

#### THE CARNEGIE FIRMS CONSOLIDATED.

#### VIEW OF TRACKS FROM CITY PARK STATION.

Pittsburgh Iron and steel manufacturers have at last consented to pay tribute to the strength and determination of the Amalgamated Association. They made a move yesterday which shows a willingness to make peace. They asked for an additional conference in which to discuss the new iron scale. The manufacturers have made a bold effort to gain their ends and united in holding out as long as was practical, with the idea that the Amalgamated Association would ultimately give in. Up until 10 o'clock last night both sides had remained firm in the stand they had taken, but at last the iron and steel masters weakened and asked that the Amalgamated Association meet them in another conference. At the headquarters of the Amalgamated Association last night President W. J. Campbell said nothing of the affair. From a prominent manufacturer it was learned that it was true that the manufacturers had asked for a third conference, and the meeting would take place in the Ferguson block this afternoon at 2 o'clock.

#### MECHANICS CALLED ON THE JOINT COMMITTEE.

The mechanics called on the joint committee, but the case being a peculiar one, it was decided that the committee, from a constitutional point of view, did not have the power to legislate for the Association.

When the meeting had ratified the appointment of William McCongally as Secretary the report of the Executive Committee was presented. It was a digest of what was done at the secret meeting held Wednesday night in Amity Hall by a joint committee representing the eight local lodges.

#### A CARNEGIE STATEMENT.

The Firm's Side of the Controversy at the Homestead Mills.

When asked last evening for a complete and impartial statement as to the scale situation, and the company's reasons for making the proposed reductions, General Manager H. C. Frick, of the Carnegie Steel Company, said he did not care to say anything in reference to the matter, but such a statement had been prepared and would appear in an editorial in this week's issue of the American Manufacturer.

#### CLOSED AT MIDNIGHT.

Four Hundred Iron and Steel Mills Shut Down Until the Scales Are Agreed—Thousands of Glass Workers Begin Their Vacation.

When the clocks tolled 12 strokes last night and the first day of July made its appearance nearly 100,000 workmen, who had toiled almost incessantly during the past 12 months, were out of employment.

#### HELD AN OPEN MEETING.

Homestead Mill Workers Discuss the Situation in the Opera House—Will Endeavor to Close Down the Mechanical Department—Laborers to Be Asked to Quit Work.

Homestead's leading theater is a two-story, one-story structure of wood. It is devoid of architectural adornment of any kind; it boasts of a single gallery, a shallow stage and a seating capacity of 1,200. Monday between the hours of 2 and 12 yesterday morning, when 4,000 men were crowded into the building.

VIEW OF TRACKS FROM CITY PARK STATION.

VIEW OF TRACKS FROM CITY PARK STATION.

populated, as only a few of the foremen looked on. The meeting was held in the entrance of the morning. In a word, at 7 o'clock this morning the only persons in the vicinity of the mills will be the watchmen, the police and a few loafers. All the prevailing humors and excitement of the day the friends and followers of the company retained their mental equilibrium. They did not attend the mass meeting in the morning, nor did they show themselves on the streets during the afternoon and evening. They declined to talk to the newspaper men and could not be prevailed upon to express an opinion on the ultimate result.

When the meeting had ratified the appointment of William McCongally as Secretary the report of the Executive Committee was presented. It was a digest of what was done at the secret meeting held Wednesday night in Amity Hall by a joint committee representing the eight local lodges.

After obtaining a pledge from the reporters that his name would not be published, the Chairman said: "Much was done of which I cannot speak, but to my mind the most important topic for discussion was the question of shutting down the mechanical department. The existing difficulty was carefully investigated, but we decided that the committee, from a constitutional point of view, did not have the power to legislate for the Association."

The motion as amended was passed amid great cheering, and the report of the Conference Committee was read and approved. A press committee was then appointed, and after a collection and a half hour of informal discussion the meeting adjourned.
