IMPORTANT DOINGS AT THE CAPITAL

WASHINGTON, June 30.—When the Senate adjourned on Wednesday it was with the arrangement, fixed up by unanimous consent, that the bill for the coinage of silver would be voted on at 2 p. m. today.

Mr. Morgan denounced Mr. McPherson's unwillingness to abide by the unanimous consent of yesterday as a violation of good faith and of the traditions of the Senate for a century, and he declared that the policy of delay would not succeed, but that the Senate would pass the bill and send it to the House in time for that body to pass it also.

Mr. Morgan expressed his conviction that it would not be vetoed, but would be signed. A motion to recommitt the bill to the Finance Committee was pending when the Senate adjourned, as was also an amendment to Mr. Stewart's substitute, which would seem to confine the free coinage privileges of the bill to the product of American mines after the bill becomes a law.

The joint resolution extending for 15 days the appropriations for the support of the Government passed the House yesterday after some discussion. The Republicans in the House then proceeded to filibuster against the tin plate bill and their effort was successful in preventing its consideration.

ASSISTANT SECRETARY NETTELTON, who represents the Treasury Department in its relations to the World's Columbian Exposition, having had his attention called to a dispatch announcing the bankruptcy of the World's Columbian Commission, stated that in his judgment the publication without the accompanying facts was misleading and calculated to do mischief.

The Secretary of the Treasury had a conference with the President this afternoon, in regard to the American representatives in the international monetary conference. There will be five of these conferees and the selection is said to have been narrowed down to seven persons. Out of these is Senator Jones, of Nevada, whose appointment is practically settled. It is said that the President is also favorably inclined to the appointment of Francis A. Walker, of Massachusetts, and H. W. Cannon, of New York.

MORE than two months ago the silver question was sprung upon the unsuspecting Senate through the presentation of the House bill amending the Arizona funding act. There was a lively debate. The clause requiring the interest on the bonds to be paid in gold was stricken out by a majority vote, and the bill was sent to conference. The conferees have just reached an agreement, and are felicitating themselves that they have cleverly rid themselves of the issue.

equalize the pay of letter carriers was favorably reported to the House today by the Committee on Postoffices and Postroads. The bill fixes the pay of letter carriers in all cities where free delivery has been or may be established at \$600 for the first year, \$800 for the second year, \$1,000 for the third year, and for the fourth year and thereafter \$1,200. The cost to the Government per year by this proposed change will be \$1,657,950.

A BILL amending the Chinese exclusion act, introduced today by Senator Dolph, requires a Chinaman appearing before a court under arrest for not having a certificate to show by a witness other than one of his own countrymen that his failure to have it was unavoidable, or else suffer the penalties of the law.

The Secretary of the Treasury has designated Laredo, Tex., as a port from which imported merchandise may be shipped in bond in transit through the United States to Mexico, by such routes and under such conditions as may be prescribed hereafter.

The conferees on the agricultural appropriation bill have reached an agreement. The item relative to the crop reports of the Agricultural Department stands as it left the Senate.
