that look like disbanding? replied the Fredent.

"What is the exact status of things now?"

"Well, there is every reason to believe that the Western will continue until the end of the second championship series. I see nothing now why it shouldn't, and if it does it will hardly disband then. It is true that the first series has not been a success financially, but that has been due largely to to the bad weather. All the clubs are satisfied to continue, and have all gone to the various cities to play the games scheduled."

"What about that \$1,200 due the National Leaguee."

"Well, we owe that of course. It has been due for some time, but the National League Board has recognized the unfortunate circumstances which have surrounded the Western, and they have not pressed us for the course of the surrounded the surrounded the western, and they have not pressed us for the surrounded the surround

PROSPECTS IN THE LEADING EVENTS This afternoon the field meeting of the Alle-

gheny Athletic Association will take place at the grounds formerly Recreation Park, and unless the damper on the spirits of the people, is will be one of the largest attended af-76 fairs of its kind ever given in the city. The fact that so large

ried away if they can help it. These trophies, in the shape of medals, etc., have been displayed in a jeweler's window on Fifth avenue during the week, and have attracted a good deal of attention.

There will be not a few distinguished athletes among the visitors, and the Allegheny county men will have to do their best to win. Detroit has expressed a determination to take away some of the prizes, and has sent some of her best men here. For instance Harry Jewett is said to be the best all around man in the country in which he lives. He is 22 years of are, 5 feet 11 inches and weighs 164 pounds in condition. He has done 100 yards in 10 seconds several times, 220 yards in 23 seconds, 400 yards in 33 seconds, 21 feet. 5 inches in a running broad jump, 5 feet 9 inches in the Mirh jump, 44 feet 8 inches in the hop, step and jump, 120 yards hurdles in 17 3-5 seconds, 9 feet in the pole vault, 33 feet in putting, the 16-pound shot and 75 feet in throwing the 18-pound hammer. His first race of any account was in 1890 when he beat Owens 100 yards in 10 2-5 seconds. Last season he won first in the 100 and 220 yards and later in the year won the Canadian championship for 220 yards, doing it in 22 1-5 seconds, breaking the record by 1-5 of a second in the 100. The judges gave Carey the race, but outsiders who were at the finish claim Jewett won. He did not get better than second and third at 8t, Louis in the 100 and 220 yards events, owing to it being an one of day. He has won altogether over 100 medals and is ready to run any man in America from 100 to 3 0 yards. Theo, Luce, also of Detroit, is the champion pole vaulter of America and Canada, both of which championships he won last season. He is now 18 years old, 5 feet 10 inches and weighs 128 pounds. He is the youngest champion ever produced by any club. His record is 10 feet 6½ inches made at the forthe Canadian record of 11 feet, but it being a chilly day he did not get better than second and third at 8t, Louis he he should be seen and will make the best of them. DEATH IN WATER

and the Rapidity With Which They Increase—Don't Take Any Chances.

Few people have any idea how impure even the purest drinking water is. The very best water known is full of germs. They are the most prolific creatures of which we have any knowledge, for a single one may be the causative purent of more than sixteen million five hundred thousand descendants in a day. They are also possessed of great vitality, for they can be carried great distances in water without losing their power of producing disease. They can be frozen or even boiled without being destroyed. They may be kept dried for years and yet when placed in a suitable medium will come to life and produce fermentation and decay. They are the great producers of malaria, fever, grip and most serious diseases.

"But," you say, "what can be done to avoid them, since they cannot be killed by boiling?" There is but one thing which will effectively destroy them, and that is coming in contact with spirits. A small amount of pure spirits in the water will effectually kill them and destroy their evil effects, but it should be borne in mind that nothing but the purest and best spirits should be used for this purpose, and that nothing is equal to whiskey. Not the ordinary whiskies which are upon the market, but something far above them—something which is highly endorsed by the scientific world. Such a whiskey is Duffy's Pure Malt, which is today more popular than ever before in its history, and which is doing wonders to destroy the germs of every disease. There are hundreds of families that use it constantly in connection with their drinking water, both at the table and between meals. Beware of any druggist or grocer who seeks to offer you something he says is "just as good." Duffy's list the only pure medicinal whiskey upon the market. wniskey upon the market.

Joe McAuliffe cannot explain his defeat. He swears that after the third round he could not seem to do anything. His face is a terrible sight to-day, as both eyes are nearly shut, his nose damaged and marks of hard blows are all over his face. This defeat retires him from the prize ring. His friends are talking of getting him on the police force. He will have to do this or go back to tanning hides.

Goddard has a black eye and feverish looking flesh to-day, but he was very chipper and cockey. He evidently thinks he has a sure thing on the championship, but his performance last night shows that Jackson or Slavin could whip him. Slavin would punch him out and Jackson might treat him precisely as he did slavin. Goddard is not as good a boxer as Slavin and of course he would not be in it with Jackson. He has great confidence in himself, however, and wants to meet them both.

Lovers of old-time ball playing had plenty of it yesterday at Exposition Park in the local sluggers and the Giants from New York. There was never a livelier contest in this city, nor yet a more exciting one. It was full of fun, ginger and tall slugging from start to finish, and, while VICTORY our singgers were

ged, they managed to do their slugging at the time when it counted most. There were about 1,800 people present, and the weather was just as agreeable as if it had been made to order. Although the visitors took a good lead at the start the

home heroes got close to them speedily and eventually passed them. Meant to Die Very Bard, Then the Giants made up their minds to die hard, and they tied the score and tied it just when everybody thought they were But while all this tieing and run getting was going on the ball was being banged all over the lot. Singles, doubles, triples and home runs were just as numerous as flies on a sunny day. It was biff, bang, right, left and center all the time. First the home

There Was the Usual Amount of Kicking. Of course it would be impossible to get through such a game without some kicking at the umpire. There were any number of close decisions, and Umpire Mitchell ac-quitted himself very well, indeed. His hen, but one side benefited just as much as the other, so that the umpire's part really had nothing to do with the result. Just when the visitors made their bad plays the home players made their big hits, and that's settled it, and at the finish Farrell

came with a home run that ended the dispute. It is useless to deny that the Ginnts are not the Giants they used to be.

Fuller retired after the first inning with n bad leg, and Donovan also went to the bench in the fifth inning, feeling unwell. Mack took Donovan's place and Boyle replaced Fuller.

desires. He aslo stated in his telegram that he is in good shape and ready to pitch at once. He wanted to know what the Pittsburg club will offer him.

Captain Burns, speaking of the Clarkson telegram last evening, said: "I don't know what we'll do. We cannot afford to give Clarkson any big figure. He is a good pitcher, but if we sign him somebody will have to be released, and we do not feel like releasing any of our pitchers. We need an outfielder more than anything else."

It is understood that an offer has been made to Clarkson. Negotiations are also going on between the home club and Georre Gore. He may be signed to-day, although a local official stated yesterday that the club would like a younger man. But the visitors came again in their half. After Boyle had been retired singles by Tiernan, H. Lyons, O'Rourke and a threeagger by Ewing scored two more runs. Lyons was caught napping at second, and Ewing was nabbed at the plate in trying to stretch his hit into a home run.

The sixth inning came and the hom players made another attempt to catch the bothersome Giants. O'Rourke made a bad muff of Bierbauer's fly and Shugart struck out. Then Beckley, with his brawny arms walked up to the plate and smashed the cent seats for a home run, scoring two runs. And the seventh inning came when the

to-day's game. Mr. Day's objection is a general one. He curiously enough admits that Ewing was out at the plate in the fifth inning, and George Gore, one of the New York players, admitted that H.
