## EATURES OF TRADE

The Demand for Bicycles Greater Than Any Previous Year.

POPULAR PITTSBURG INVENTIONS.

Some Points of Interest as to Fourth of July Pyrotechnics.

THE LEATHER AND HIDE OUTLOOK

OFFICE OF THE DISPATCE, PITTEBURG, TUESDAY, July 5. The bicycle trade was never so active as it is at this time. Not less than 800 have The bicycle trace was never so active as it is at this time. Not less than 800 have been sold this season, while last year's total was not above 700. There are now in use in Pittsburg and Allegheny between 8.000 and 10,000 bicycles. The higher grades are more in demand this season than ever before. Cheap wheels are no longer in demand. The high priced article coating from \$125 to \$150 has had the call of late. A number of new features have been attached to the leading wheels the past year, which have very greatly enhanced their popularity as methods of locomotion. An arrangement for self-oiling, improved lamps and baggage carriers are among the new features. The new style of tires, inflated with air, have of late very much flated with air, have of late very much lessened the vibrations which occur when the traveler has rough roads to travel. Among the latest improvements is an iron hook which holds the bicycle in an upright position when not in action. This is the invention of a Pittsburger within the past three months, and as evidence of its value one of our firms has sold this season

50 dozen to New York firms.

The bicycle with children's seat seems to be gaining in popularity. One firm reports sales of children's seat attachments to the number of five dozen within the past month number of new dozen within the past month or two. The additional cost for children's sents is \$2 50 to \$5. A hickory wheel, made almost entirely of wood, and weighing 41 pounds, has become a favorite of late. The cost of this wheel is \$170.

Fourth of July Goods

A moderate estimate of the amount expended in Pittsburg for Fourth of July pyrotechnics and explosives places it between \$50,000 and \$60,000. The higher grade of goods was more in demand this season than ever before. There was little increase in the total value of sales over last years.

the total value of sales over last year.

The firm which furnished the fireworks at Schenley Park reports that their con-tract was for \$3,000 worth of goods, and that they received the contract by bidding

The contract was awarded to the lowes bidder out of four. There were not as many private displays this season as usual, for the reason that the masses were attracted to the not sell as much in the pyrotechnic line a usual. One dealer reports that the displar at the park lessened his sales to the exten of \$5,000. The amount of Fourth of July goods left over is, however, less than usual and the little left is mostly of the cheaper

The following from an editorial in Chicago Hide and Leather gives the latest as to the situation and outlook in this important industry:

Sole leathers are firmer. The results o the conferences of the tanners in New York and Boston are beginning to be apparent in the lessened quantities of leather on the market, and the consequently firmer attitude of the producers. Efforts of buyers to contract for future delivery at present prices have not been successful. While no ne claims there is a scarcity of leather, a one claims there is a scarcity of leather, a decided feeling prevails that concessions, frequently of a very unprofitable hature, no longer justified by circumstances. It ming more and more evident that the ear few months are likely to witness an

tive demand and increased consumption of ather goods of all kinds. Manufacturers of arness leather seem buoyed up with this hope, although we must confess that at present they have to face a poor market for their goods. Hydes, dry and green, foreign and domestic, are firmer. Those tanners who are now wetting hides are under no compulsion as to laying in stock for future use. There has been quite a flurry in Chicago in native steer hides, and during the past ten days prices have advanced sharply. Several tanners are already talking of withdrawing from the hide market if the present stiffness continues. There is not much faith in leather going higher to any appreciable extent. The tanners look for relief in hides being kept on a low basis.

## LIVE STOCK MARKETS.

Receipts, Shipments and Prices at East Liberty and All Other Tards, OFFICE OF THE DISPATCH.

PITTSBURG, TUESDAY, July 5. ( CATTLE—Receipts, 9); shipments, 80; market active; quarter better than last week's, prices. No cattle shipped to New York to-day. Hogs-licecipts, 500; shipments, 400; mar-ket active; ali grades, \$5 75@6 00. One car of logs were shipped to New York to-

SHEEP-Receipts, 1,700; shipments, 1,800; market slow; 1/2 higher than last week's prices.

A HOLIDAY DULLNESS

Overspreads the Cereal Market and Prevents Extensive Dealings-Fear of the Hatch Bill Still Continues to Exert Its Influence on the Traders in General.

CHICAGO-Wheat was dull to-day, with luctuations confined to a narrow range, and fluctuations confined to a narrow range, and the closing price unchanged for September in comparison with Saturday's figures, but 5c higher for July. The opening for July was at 78%c, against 78%c at the close on Saturday, and September at 78%c73%c, against 78%c. Cables were very fluctuating, and showed little change in the English markets, though Berlin reported a fair ad-

The amount on ocean passage showed a decrease of 2,072,00) bushels for the week, but this was fully offset by the fine weather, which was perfect everywhere and the fav-orable crop prospects which were reported. Trade was excessively dull and narrow, and the fear of the Hatch bill continued to exert a depressing influence on speculation, and kept the bulls in the back ground, although the price was generally regarded as too low to warrant much hammering by the bears July sagged off to 75%c and September to

to warrant much hammering by the bears. July sagged off to 78½ and September to 78c. Shipments last week were reported at 1,850,000 bushels, which was admitted to be pretty fair, considering the fact that a deficiency of 76,000,000 bushels had been so recently reported.

The strength which ruled in provisions and which the sharp upturn in corn after the opening finally gave some strength to wheat, and there was a rally of nearly ½c, the increase in the visible supply aiding somewhat and tending to keep the market stendy at the advance. The market was quiet and easy during the last hour, with an up turn near at the end, closing at the top. Corn was dull and lower early, influenced by the fine weather and weakness in wheat, with the absence of trade, and early sales were made at a decline of nearly ½c from Saurday's close. But then dispatches and letters began to arrive reporting crop prespects as quite unfavorable, and the market gained strength. The buying was sharp, led by Schwartz-Dupee, and there being but little for sale, an advance of a cent was quickly scored and most of it was held for a considerable time. Then the market sagged off on free selling, owing to the increase in the visible supply, but rallied again near the end and closed at the top with an advance of about ½c.

Hog products opened higher on the small receipts and an advance of 15@29c in the price of live hegs at the yards. Shorts covered freely early, but there was free realizing later, led by Wright, and the market reacted. Near the close, however, along with everything else, provisions advanced to outside figures and closed firm to strong. Estimated receipts for to-morrow: Wheat, 380 cars; corn, 550 cars; long, 27,000 head.

## RENTS ON THE JUMP

Offer for a Store at Nearly Double the Price Paid Last Year.

ANOTHER SUB-DIVISION OPENED. An Outsider Investigates the City and

Forms a Favorable Opinion. FEATURES OF MONEY AND SPECULATION

As showing that rents for central business property are going up, Black & Baird have offers for a store room on a prominent street at an advance of 90 per cent over the present rate, and 50 per cent more than is paid for a similar room not only in that quarter of the city, but in the same block. This results from a scarcity of large and modernly equipped stands. Rooms that are idle, and they are very few in number, are in nearly every case too small or im-provided with necessary facilities and conveniences. Owners and builders should stick a pin right here.

A New Sub-Division, Mr. Edwin Powell has plotted the Sargent farm, corner of Negley and Stanton avenues, Nineteenth ward, and Councils have approved the plan. There are 100 lots. The first purchaser was Mr. Peter Keil, one of the directors of the Third National Bank. He bought on the corner of Neglev and Avondale Place. His lot, as are all the rest, is 60x150 to a 20-foot alley. He paid \$100 a foot front. Mr. Keil proposes to build a very fine residence, plans for which are being prepared by Architect Frazier. It is the intention to make this plan one of the beauty spots of the East End.

Good Words for Pittsburg. A non-resident business man who is nego tiating with Baxter, Thompson & Co. for a residence site near Bellevue, said yesterday: "I admire Pittsburg very much. It is really a beautiful city. It is full of beauty spots, and these are not grouped in any quarter, but well distributed. The East End is magnificent. Evidences of wealth and culture meet the eye on every side. Some of the finest views I have every had were obtained on Perrysville avenue. I were obtained on Perrysville avenue. If am greatly impressed with the country around Bellevue. From my information I think it will not be very long until it will have the advantage of electric cars. This will cause rapid development. Every quarter of Pittsburg is full of possibilities, which I believe will in a few years become realities."

Another Fifth Avenue Corner Sold. The activity which began in real estate on Fifth avenue, beyond the Court House, continues and promises to reach important dimensions before long. Yesterday a purchase was consummated through the agency of J. C. Reilly, Diamond street, of the three lots and buildings corner of Fifth avenue and High street, being what is known as the Lafferty property. The purchasers were Messrs. J. Kaufmann and B. Furst, and the price was in the neighborhood of \$25,000. There are several other large properties in course of negotiation on the street. Most of the buyers are capable both of holding and improving, and as a good business demand is springing up there for stores, improvements out the avenue from now or will be numerous. This makes the fourth large transaction in corner property on that street within a few months.

A Successful Savings Bank. The biennial election of the trustees of the People's Savings Bank took place yesterday under auspices which were highly gratifying to the stockholders. The People's while always a popular bank and enjoying deservedly, ever since its establish-ment, the confidence of the public, has within the past couple of years made greater strides than ever in its history. It has the largest capital stock of any savings in-stitution in Pennsylvania—this being an added guarantee to depositors, and its de-posits now run up in round figures to \$2,-000,000. The trustees elected yesterday were John W. Chalfant, A. E. W. Painter, Thomas Wightman, Hon. Edwin H. Stowe, George Wilson, T. P. Day, George P. Black, W. J. Moorhead and D. McK. Lloyd. This is a strong board. The People's is also fortunate in having for its President one of the most worthy and capable of Pittsburg' financiers, Mr. David McK. Lloyd. Unde his administration the bank is going steadily

ahead. Farm lands are on the move. Since last fanuary there has probably been more sales of this kind of property-or rather more purchasers, for owners aren't unloading just now-than in the five or six years pre ceding all put together. That is the opinion of S. Overmire, who is an expert in this matter. The reason is not hard to see; last year big crops set people to thinking and many Eastern farmers have bought Wostern lands. Farmers in the Northwest have concluded that they are all right and are buying up lands adjoining their own farms. A year ago farm lands were a drug. While there has as yet been no marked advance farms are selling readily and Mr. Overmire estimates that a 25 per cent rise in prices will follow this year's harvest if it is as generous as that of last year.

Yesterday's Building Permits, Eleven permits were issued yesterday for 12 improvements, aggregating in cost \$29,-875. The largest are: Terry Morrison, frame dwelling on Morningside road, Eighteenth ward, \$1,900: R. Hayden, frame dwelling on Pacific avenue, Twentieth ward, \$1,900; J. M. Donaghy, two frame dwellings on Kirkwood street, Twentieth ward, \$2,000; A. Garrison Foundry Com-pany, machine shop on Tenth street, Twenty-ninth ward, \$10,000; W. F. Edmundson, brick dwelling on Fifth avenue, Fourteenth ward, \$8,825.

Special Features of Trade. The street railways did a land office busi ess on the Fourth. Their securities should

pick up.
The Philadelphia Company has taken up about 1,600 feet of six and eight inch pipe in the Hickory district, Washington county. Henry Rushton has purchased a residence property on Arch street, Allegheny, for \$5,000.

The addition which Boggs & Buhl are making to their store building on Federal

making to their store building on Federal street, Allegheny, will cost \$10,000. Connellsville authorities are receiving bids for paving and macadamizing several of the principal streets in that town.

Mr. C. H. Love reports a better inquiry for business and residence properties than a year ago. This is in line with the views of other real estate brokers.

Trustees of the Pecole's Saving Bank for the current year, are: John W. Chalfant, A. E. W. Painter, Thomas Wightman, Hon. Edwin H. Stowe, George Wilson, T. B. Dav, George Black, W. J. Moorhead and D. McK. Lloyd.

On 'Change yesterday Howard Plate Glass Company stock was offered at 100.

A prominent member of the Exchange is dick ering for a large residence property on Perrysville avenue.

The Humboldt Fire Insurance Company announces a semi-annual dividend of 4 per cent. This is now an 8 per cent. stock.

Additional Points in Realty.

Additional Points in Realty. Black & Baird sold to August Hiller lots Nos. 51, 52 and 53 in Torrens Place plan, fronting together 60 feet on Kelly street by 100 feet to an alley, for \$2,500. Mr. Hiller

houses.

John K. Ewing & Co. sold to John G.

Nantker a lot 30x191 on the corner of Perrysville and Mayfield avenues, in the Mayfield
plan, Tenth ward, Allegheny, for \$1.350

McGune & Coulter soid tot No. 145 in their
Dean Park plan, Twenty-first ward, to Mrs.

Amelia Sheaffer for \$700.

A. Z. Byers & Co. seld for W. A. Black,
Esq., to F. Bertley lot No. 117 in his plan,
Tenth ward, Allegheny City, having a front-

age of 100 feet on Howard avenue, and extending through 100 feet to East End avenue, for \$200.

Peter Shields reports the sale of lots 222 and 233, being 30x10 feet, situated on Nantasket street in the Greenfield avenue p lan Twenty-third ward, city, for \$1,200.

W. A. Herron & Sons sold on Bellefonte, near Ellsworth avenue, Shadyside, lot, \$5x 100 feet, with a dwelling of five rooms, for \$1,850.

James W. Drape & Co. sold a house of eight rooms with lot about 20x60 feet in Allegheny; also a large lot near the city at \$4,000.

B. J. Williams sold for ex-Mayor Robert Liddell to William Moffet a pretty frame dwelling of eight rooms, with lot 50x110, on Merrimac street, Mt. Washington, for \$2,500 cash.

HOME SECURITIES.

SATISFACTORY BEGINNING AFTER THE LONG HOLIDAY.

Philadelphia Gas Makes a Bulge on a New Well and the Good Statement-No Special Changes in Other Interests, but Steadiness the Rule. The Pittsburg stock market is seldom featureless. It was good yesterday, consid-

ering the long holiday and the difficulty of getting soundings. Though not specially active, there were some good points and no Philadelphia Gas came forward as the leader. It advanced nearly \$1 a share on report of a good well near Parnassus, and as a further result of the fine statement of last

port of a good well near Parnassus, and as a further result of the fine statement of last week. There were plenty of orders for it, but they were hard to execute, and at the end of the last call there was none in sight. These facts presage a further buige.

Pleasant Valley, as in fact all the street rallways, was steady and practically unchanged. Central improved a fraction for the day. There was nothing noteworthy in other parts of the list. Luster and Switch finished with slight recessions.

The only sale at the first call was a membership at \$500. After call 65 shares of Philadelphia Gas went at 18%. The second call was better. Sales were 25 Philadelphia Gas at 18%, 10 Switch at 17, 10 at 16%, 20 Central Traction at 28%, and 50 Wheeling Gas at 18%, After call 60 Philadelphia Gas changed hands at 19. Philadelphia Gas was the attraction at the afternoon session. Ten shares sold at 18%, 120 at 19% and 80 at 19%. The only other transaction was 80 shares of Wheeling Gas at 18%.

An expert sizes up the prospect in this fashion: "Dealing in stocks and bonds has been light and it is difficult to discover any tendency in prices. Holders are holding and that is about all that can be said. Pluctuations may be expected during the summer, based upon the varynig news of the crops and possibly the agitation of the silver question in Congress. No great rise from the present level is looked for, nor is any pronounced activity expected, with the Presidental campaign in progress and the moneyed classes scattered over the country, bent upon pleasure rather than money making."

making."

At the close of the afternoon session bidding was of a more energetic character than customary after a holiday, but the goods wanted were offered sparingly or not at all. This is a good indication that investors are a little anxious to put their money where it will do them some good. Bids and offers at each call follow:

WALL STREET DISPLEASED. SPECULATORS DISLIKE THE PASSAGE

OF THE FREE COINAGE ACT. s a Consequence They Show More Dis-

position to Part With Securities-Prices Ruled Lower All Along the Line-Coal and Iron Stocks Without Feature.

New York, July 5.—The passage by the national Senate of a free coinage act last Friday was not well reserved in financial here was more disposition to part with se curities than has been in a long time, and while the seiling movement was not of special long duration, the losses suffered were not recovered and prices are lower all along the line. There was no other news of importance to-day, and while operators are looking forward with interest to the publication of the next Government crop report which is due next Monday with a hopeful expecta-tion, the preponderance of the Grangers in the market of late made them the leading weak stocks in the liquidation of this fore noon. The coal stocks in view of the suits against the Reading combine were dull and noon. The coal stocks in view of the suits against the Reading combine were dull and without feature, though they were all well supported and failed to yield with the leading active shares. One of the features of the day was the strength dispiayed in Chicago Gas in which the liquidation, however, has undoubtedly been completed, and the demand for the stock for both sides of the account was sufficient to move it up 1½ per cent in the face of the selling of the railroad list, while the other Industrials shared in the stubborn resistance to the general pressure. The effect of the July disbursements was seen, however, in a growing scarcity of money, and while this is only temporary its influence for the time being is to disturb loans and a flurry in money rates resulted which ran the rate on call up to 5 per cent; The bears selzed this opportunity to raid the market and jurther losses were sustained all along the line. The depression lasted till the close which was fairly active, but weak at the bottom figures. The trading reached 263,187, listed, and 19,548, unlisted.

Railroad bonds sold to some extent, especially the Reading Junior issues, but there was no general weakness as in stocks, and though many material losses are seen to-night, the majority of the list remains only slightly changed and a few advances are to be noted. Business reached 41,292,000. Government bonds have been dull and steady.

State bonds have been dull and firm.

Stade bonds have been dull and firm.

State bonds have been dull and firm.

At New York yesterday money on call was
easy at 11/65 per cent: last loan, at 11/6 per
cent; closed offered at 11/6 per cent. Frime
mercantile paper 3@5 per cent. Sterling
exchange quiet but steady at \$4 87 for 30-day
bills, and \$4 88% for demand.

The following table shows the prices of active stocks on the New York Stock Exchange yesterday, Currected daily for I'm Disparch by Whitney & STRFHENSON, oldest Pittsburg members of New York Stock Exchange, 57 Fourth avenue:

AT THE BANKS.

Maturing Papers Met With No Display of Local Friction

Local bankers reported a fair demand for money yesterday. Maturities aggregated a large amount, but with large deposits every-thing was met without friction. There was no essential change in conditions growing out of the holiday. Checking was heavy as out of the holiday. Checking was heavy as shown by the clearings. Rates were unchanged at 566 per cent. Exchanges were \$3,109.824 88 and balances \$595,824 12.

A New York banking house puts out this statement: "There is nothing at present to indicate that there will be any tight money, and there will be none unless some scare comes up to disturb things. There will probably be more shipments of gold, but this ought not to have any effect. The shipments of gold this year have not been much larger than they have been in past years. There is plenty of money here and absolutely no prospect of a tie-up unless the money institutious themselves bring it about."

about."
At New York yesterday the total sales of stocks were 282,738 shares, including: Atchison, 9,108: Chicago Gas, 19,250; Erle, 12,245; Hocking Valley, 3,105; Louisville and Nashville, 2,800; Missouri Pacific, 14,650; Northewestern, 3,340; Northern Pacific, preferred, 14,441; New England, 7,347; Reading, 30,000; St. Paul, 87,675; Union Pacific, 20,990; Western Union, 5,760.

Eggs Quiet and Poultry Active-Cereal Re ceipts Large and Markets Favorable to Buyers-The Grocery Trade Is Feature

OFFICE OF THE DISPATCH, PITTSBURG, TUESDAY, July 5. COUNTRY PRODUCE-Jobbing Prices-There was no Monday market in this line and Tuesday's market was quiet. The usual Monday sales of creamery butter at Elgin were postponed until to-day. Dealers here anticipate an advance in price of fancy creamery. Cheese is firm at a slight advance on prices previously reported. Poultry is in limited supply and markets are very firm. Eggs are quiet at quotations. Berries are in fair supply and tendency of

markets is toward a lower level. Receipts of melons have been light for a few days past, but prices fail to advance. The quality of watermelons and canteloupes on sale to-day was below par, and for this reason there was little demand. Tropical fruits of choice grade are active and firm at prices quoted.

APHCOTS—Californ ias, \$2 per box.
APPLES—New, \$3 5004 00 per barrei.

FUN FOR THE MOONSHINERS.

Lack of Funds Cripples the Revenue Authorities in Their Work. GREENSBORO, N. C., July 5 .- [Special.]-Within the past four weeks in the revenue division of North Carolina, South Carolina and Virginia there has been a series of determined raids upon illicit stills, and the result is stills destroyed in various sections and violators of the law arrested. Friday the biggest outfit ever captured in this State was destroyed by deputy collectors and revenue inspectors in Stokes county, a four-bushel house that had evidently been running for several years. This place was equipped with everything as perfectly as a registered distillery, and evidently the owner had been fattening some 20 odd hogs. It is estimated that there are several hundred illicit stills in this State, although shout 300 have heen destroyed since Destroyed sin bout 300 have been destroyed since December last.

cember last.

Congress has refused to appropriate the usual fraud fund, and a part of the revenue force has been consequently relieved. The result will be that the revenue agents will be wholly unable to keep violations of the law in check during the coming year. As it is the registered distilleries are stealing about two gallons to every bushel of meal. Stokes, Surrey and Wilkes counties, all mountainous counties, are the headquarters for the blockaders, but blockading is done in every hill county in the State. If the revenue department is expected to enforce the law Congress will have to furnish the means. Otherwise violations will be on the increase, and continue public, as they were during the Cleveland administration.

They Knew the Combination. Charles Somers & Co., real estate agente at 137 Fourth avenue, had their safe opened and \$220 and valuable papers stolen. The safe was evidently robbed by someone who knew the combination as the doors showed that they had not been forced open.

When Baby was sick, we gave her Castori When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria When she had Children, she gave them Castorie
