FUSION EXPECTED IN KANSAS.

Democrats and People's Party Landers Likely to Come to an Agreement.

TOPERA, KAN., July 5 .- The Democratic State Convention meets to-morrow. Many delegates are in the city, but there are no candidates for nomination, the general inference being that the Democrats will indorse the People's State ticket. The will indorse the People's State ticket. The only obstacle to fusion appears to be the certainty of the People's party leaders that they do not need Democratic assistance, re-lying upon their ability to carry the State unaided. Of course, they would not object to the Democrats indorsing the People's party ticket, but the Democrats decline to do that unless some of their Congressional cominees will in turn receive the indores.

NO USE IN PLAYING OSTRICH.

A Canadian Paper Bints of the Formation of an Annexation Party.

TORONTO, ONT., July 5 .- The News, an influential conservative paper, in an editorial on "The Duty of Loyal Citizens," says: There are at least a dozen journals in Western and Central Ontario that, if not Western and Central Ontario that, if not advocates of annexation, are certainly far from being strong in loyalty to Canada. This is an evidence of feeling among certain sections of the community, to which many are willfully blind. There is no use playing the ostrich act. An annexation party is either mexistence or in course of formation, and it is the duty of loyal men to line up without regard to previous party affiliations in opposition to it.
