LIVE STOCK REVIEW

Light Receipts of Cattle at Local Yards, and Prices Were

ADVANCED ALL ALONG THE LINE.

Light Butcher Peeves Higher Than Any Time This Season.

SWINE HIGHER AND SHEEP STEADY

OFFICE OF THE DISPATCH, PITTSBURG, WEDNESDAY, July 6. There were 57 loads of cattle on sale at East Liberty yards this week, against 104 loads last week. Of this week's offerings about seven car loads were held over from last week. Notwithstanding the fact that markets opened on the great national holiday, trade started up lively at a sharp advance all along the line. On desirable grades, such as light, smooth butcher beeves, the advance was equal to 40 per cent, and on all grades there was an advance of not less all grades there was an advance of not less than 25 per cent. The highest price paid was for a load of good, but not prime beeves, weighing 1,500 pounds, from Southern Ohio.

The price at which this load was sold was \$5 10. Another load brought \$5 00 per cwt. These were the highest prices paid at the East Liberty yards for some months past. Last week the top of market was \$4 55. Fresh cows were in light supply, and range was the same this week as last. and range was the same this week as last namely \$20 to \$40 per head. There were all told about 30 loads of sheep and lambs on the market this week. In the offerings there were few good and no choice. Markets ruled strong at 1/2c advance on good stock, while low grades were steady at former prices.

Hogs were in light supply and active de-

mand at 30c advance on opening prices of last week. Sales reported as high as \$5.95, and this morning there would have been no difficulty in obtaining \$6 00 per cwt for Philadelphias had there been any such on A Live Stock Firm's Review.

Following is the report of the week's transactions at Liberty by Holmes, Briggs

We report 45 loads fresh cattle and 8 loads of State cattle on sale Monday, making in all 35 cars against 98 loads on Monday of last week. There was not a full attendance of buyers on account of the holiday, yet the demand was greater than the supply, which made an active market at an advance of 55@36c per 100 over last week's price. Since Monday receipts have been light and everything sold at strong Monday prices with prospects good from now until next week, especially on good grain-fed stock, which are scarce on all markets East and West, and must go higher. We quote prime to extra steers at \$4.90% 10; good to prime, \$4.75% 4.85; fair to go d, \$4.40% 60; common and medium, \$4.00% 30; cows and buils, \$2.30% 32; fresh cows and springers, \$18.00%40.00 per head.

per head.

The receipts of hogs has been light all week and demand not half supplied at an advance of 10@15c over last week's closing prices, and every thing sells on arrival. We quote select hogs at 6c, good, mixed, \$5.30@5.5 55; best Yorkers, \$5.80@5.90; common Yorkers, \$5.60@5.75.

Receipts of sheep have been comparatively hight all week, demand is light and prices do not appear to improve. Good sheep and lambs sold on Monday about 25c higher than last week, while common were very dull

lambs sold on Monday about 25c higher than last week, while common were very dull sale. Since Monday receipts have been light and no apparent demand except for good fat sheep which are not coming. As commoner grades will have to take the place of good sheep soon, we hope they will command better prices. We quote good to prime sheep at 565%; fair to medium, 4% 6%; common, 263%; c. spring lambs, 4% 6%; veal calves, 5% 653%c.

RIOTERS ROUT THE BULLS.

The Homestead War Is the Controlling Factor on the Chicago Board of Trade-Everything Traded in Drops-No Other News Has Any Effect. CHICAGO-A decided break in prices to

day for nearly every staple dealt in on the Chicago Board of Trade was largely due to the conflict being waged at Pittsburg. Not only wheat, but corn, oats and provisions and the minor articles as well, were unand the minor articles as well, were unsettled. Wheat closed 1/c lower, corn at a
decline of ic, oats from 1@11/c, pork 25c, lard
121/c and ribs 15c.

The labor trouble bulletins which kept
dropping in during the sossion, had an influence upon values generally quite independent of the regular market news; and,
although the foreign markets all closed
either firm at previous prices or somewhat
higher, the fear inspired by the news of the
riotous proceedings among the steel workers
became the superior influence and caused
the price for September wheat to drop suddenly from about 75/c to 77/c, and after a
slight recovery it declined still further,
getting down to and closing at 775/c.

GRANT STREET BOOM

Three Deals Concluded Which Mean Two Fine Improvements.

BUSINESS BLOCK AND LAW OFFICE

To Go Up on the Corner Opposite the Large St. Nicholas Building.

HERBERT HOSTETTER SCORES A POINT

Grant street, for years one of the notably ackward thoroughfares of the city, but full of possibilities, is to have a little boom which may lead to a big one. There is no apparent reason why this fine street in the heart of the city and traversed and crossed by a number of electric and cable lines leading to all parts of the lower city and suburbs should not have a business resurrection. Signs point to this consummation.

Three transactions in realty on this street have been concluded-two of them yesterday-the outcome of which will be a large and handsome business block and a commodious law office. About six months ago Mr. D. Herbert Hostetter purchased through the agency of W. A. Herron & Sons the lot on the southeast corner of Grant street and Fourth avenue, opposite the St. Nicholas building. Mr. Hostetter believed a business block in that quarter would be a good investment and this purchase was the first step toward securing a suitable location and sufficient ground for such a building as he had in con-

ground for such a building as he had in con-templation.

This property secured, Mr. Hostetter en-tered upon negotiations, through the firm of George Johnston & Co., for the adjoin-ing lot, owned by the Irwin heirs, and, after considerable dickering, this also was acquired. These two lots have a combined frontage on Grant street of 73 feet 6 inches, by a depth of nearly 100 feet. It is proper by a depth of nearly 100 feet. It is upon this site that Mr. Hostetter will build. this site that Mr. Hostetter will build.

This completed the Hostetter deal, but Mr. Johnston did not stop at that point. He had a customer who wanted the third lot in the row, owned by Edward F. Arthurs, of Baltimore. Mr. Johnston went to that city, opened negotiations with the owner and finally secured it at a good round price. The name of the purchaser is withheld for the present. As indicated, it is his intention to erect thereon a handsome law building. law building.

THE MONEY MARKET.

Financial Doctors Differ in Estimating the Tendency of Rates.

Yesterday was a quiet day in financial circles. The Homestead trouble received more attention than business. Bankers scanned the frequent reports with deep interest, and were pressed with inquiries from correspondents East and West for information, showing a widespread interest in these tion, showing a widespread interest in these unfortunate events. Clearances were \$2,-724,548 11 and balances \$543,859 85.

The New York Journal of Finance remarks editorially: "As an instance of the ease which prevails now and which is likely to continue it may be noted that just before the first of the month, when large amounts were tied up to provide for interest payments due July 1, money on three months' time was offered at 2 per cent. And it went begging at that!

Philadelphia Gas Climbs Higher, With More Wanted Thun Offered - Buying Orders Hard to Execute - Sales and Fluctuations for the Day.

The stock market was firm yesterday, but dull, the exciting events at Homestead over shadowing everything else. Philadelphia Gas continued its upward movement, selling up to 19% against 19% the previous day, and holding the advance to the close, with buy-ers largely outnumbering sellers.

Changes in other parts of the list were light. Central, Citizens' and Pittsburg light. Central, Citizens' and Pittsburg Tractions finished the day with fractional gains, as did Wheeling Gas, Luster and Switch. Pipeage receded a trifle. The market, all in all, was strong, nearly all the changes being improvements. There were plenty of buying orders, but they were hard to execute, showing that holders have a good stock of confidence.

Sales at first call were 10 Philadelphia Gas at 19%, and \$10,000 Duquesne bound at 100%. After call, 200 Pleasant Valley at 20% and 150 Philadelphia Gas at 19%. There was only one sale at the last call—20 Wneeling Gas at 18%. Bids and offers at each call follow:

the New Investment Demand to Raise Prices of Stocks-Sage Denies the Texas Pacific Receivership Story. New York, July 6 .- Disappointment has

been caused during the last two days by the course of prices in the stock market, and where there has been the usual expectation of a stimulation of trade and advances in prices from the new investment demand the reality has been the opposite and weak-ness and falling prices have prevailed. To this result the passage of the free coinage act by the Senate undoubtedly contributed most, acting through the fears of foreign investors, but the local element espoused the bear side, and the industrial troubles at Pittsburg also helped to-day to cause distrust.

to an Allegheny City merchant, but the price was not stated. The report added that he would improve part and dispose of the rest in large lots.

Black & Baird soid to George B Duncan for James Kenta lot on the north side of Kelly street, Twenty-first ward, being the westerly one-half of No. 47 in the R. M. Kennedy plan, with a two-story frame dwelling thereon, for \$2,800.

John K. Ewing & Co. sold to Peter W. Metz a lot 24x154, on Ellis avenue, in Mayfield plan, Tenth ward, Allegheny, for \$525, John F. Sweeny sold for William R. & E. G. Mooney, the East End contractors, a house and lot on Spahr street, having a frontaire of 25 feet on Spahr street, having a frontaire of 25 feet on Spahr street and extending back to a diagonal line. The purchaser is Mrs. M. Roueliffe, of Monongahela City.

A. Z. Byers & Co. sold for Frank Health and the industrial troubles at the industrial troubles at the first shurg also helped to-day to cause distrust.

There is, also, a suspicion that the investing public, which has been depended upon to come and advance the market, are not to come and advance the market, are not to come and advance the market, and the active stocks are those was litely and and a few specialties showed the largest declines to-day, though the whole list was affected by the selling pression buying by the foreigners who threw on the covering of some buying by the foreigners who threw and the industrial troubles at the subject to seeing lower quotations. still inclined to take a small profit whenever it is seen, and the impression made upon prices was much smaller than that of yesterday. There was some talk on the street of a movement to bring about the repeal of the present silver law, in order to force the fight against the silver men.

Texas Pacific securities were sold down last week on reports of the possible appoint of a receiver; but Russell Sage denied positively to-day that there is any foundation for such a rumor down in Wall street. The market, however, gave no sign of rallying through the afternoon until just before the close, when shorts again covered and prices were lifted a little. The close was firm and quiet generally at close to the lowest figures. The transactions reached 257,560 listed and 11.854 unlisted.

The transactions reached 257,560 listed and 11.834 unlisted.

The total sales of stocks to-day were 289,414 shares, including: Atchison, 150; Chicago Gas, 9 700; Erie, 8,195; Louisville and Nashville, 9,625; Northwestern, 815; Northern Pacific, preferred, 5,875; New England, 17,005; Reading, 30,600; st. Paul, 46,900; Union Pacific, 12,270.

Railrond bonds were quiet but showed the effects of the late interest disbursements in the wide distribution of the business and the refusal of the list to follow the stock list down. A firm temper prevailed throughout aud a few marked gains were seen among the investment issues.

MELONS AND BERRIES IN BOUNTIFUL SUPPLY, AND TRADE QUIET.

Choice Tropical Fruits Firm-Corn Finds Lower Level, and All Cereals Favor the Buyer - Lumber Staggish and Unchanged.

OFFICE OF THE DISPATCH, PITTSBURG, WEDNESDAY, July 6. COUNTRY PRODUCE-Jobbing Prices-At Tuesday's sales at Elgin last week's prices of creamery butter were reaffirmed. Markets were active and strong. Supply of Ohio cheese is short of late, while New York cheese is plenty. Watermelons and cauteloupes were in liberal supply to-day. Quality of canteloupes on the market was not first-class, and for this reason prices de clined. Choice tropical fruits are in good demand at outside quotations. The supply of berries is fully equal to demand, and markets are quiet. Tennessee is now fur-nishing an abundance of potatoes, and quality of late shows improvement. Poul-try is as it has been for a week or two past, scarce and firm.

IN THE OIL FIELDS.

Yesterday's Developments Not of a Very The field developments in the Southwest yesterday were featureless so far as bring-

ing in new wells.

The Brown & Davis well, an old producer on the Wilkinson lot at Noblestown, was shot and the production immediately sprang up to 20 barrels an hour. The result had no other effect than to hold the production of the field up to 20,000 barrels. Otherwise it would have fallen lower than at any time since the decline set in.

The No. 5 E. Wright, of the Forest Oil
Company in the McCardy end of the field. Fitzgibbons & Co.'s No. 4 Walker will get the sand next week.

The New York Oil Comp. ny's No. 3 Fife is drilling in the sait sand and will be due next week.

Fitzgibbons, Williams & Jennings' No. 1, McKee in the same part of the field, is drilling in the sait sand.

McGinnis & Co. have a rig up for No. 5 Singfor.

Strates. Strates are a rigup for No. 5 Shaffer.
SISTERSVILLE—The Johnson well on the Moore arm is showing for 75 barrels a day.
The Gillespie Bros. well, on the G. W. Stocking farm, is doing 200 barrels a day which makes it look encouraging for operators in the northeast. Gauges of McDonald. The gauges of the big wells yesterday were as follows:
