Estimated as the Aggregate Wealth of Four New York Estates.

TWENTY MILLIONS MORE YEARLY

Trinity Church, Columbia College and Similar Corporations.

LEGAL INVESTIGATION THREATENED

CORRESPONDENCE OF THE DISPATCH. NEW YORK, July &-There are certain corporations which guard the secrets of their wealth almost as jealously as they do the wealth itself-which are so rich that they fear to divulge the figures. Silently and steadily they put away million after million in their swollen coffers, making no refuses, or if the account is unsatisfactory as showing a misuse of its powers, the are compelled by law to make to the State report of the fact beyond the returns they officials, and rendering these in such am-Lignous language and such preposterous bookkeeping as to hide most effectually the truths they are supposed to be telling.

Of these, four great estates in this city are especially worthy of notice, for the reason that none of them is engaged in commercial business ostensibly, while the aggre gate value of the property they own is probably more than \$200,000,000 Startling as this statement is, a little consideration will occasion more surprise. Invested as the most of the money is in real estate, the growth of the value (including the unexpended surplus of rentals) is probably twenty millions a year-certainly not less than ten millions. What, then, in another half century will be the extent of College, the Sailors' Snug Harbor, and the New York Hospital?

Of the origin of the great estates owned and controlled by the four corporations much has been said from time to time-of Trinity Church, especially. Claimants by scores have applied to the courts for their shares of the inheritance which they think should be theirs, but the courts have been unkind. Decisions have invariably been favorable to the vestry of Trinity, and the title which is vested in them is now as well established as any in New York. Few things are more definitely settled than that "the heirs of Anneke Jans" will never get a dollar of the estate.

A Hundred Millions in Trinity's Treasury. How great the estate is nobody outside the Board of Control knows, and it is not likely that anybody will know, excepting n one contingency, to be mentioned presently. The late Dr. Dix, when, some years go, he was at the head of this board, acspowledged that there were more than \$50,000,000 in the treasury, and it is well inderstood that this was an entirely indequate statement at that time. There is o doubt that at the present time the vestry was much more than \$100,000,000.

Probably half that sum is a reasonable timate of the wealth of the Sailors' Snug iarbor. The story of this estate is less widely known, but it is fully as interesting as that of Trinity. It is owing to the legal acumen of Alexander Hamilton that this estate has been held intact for 90 years. In estate has been held intact for 90 years. In June, 1801, he drew up a will for Captain Robert Richard Raudali The Captain desired to do something which the laws recognize as distinctly opposed to public policy, namely, to tie up his money forever for the purpose of maintaining a home for disabled sailors—the famous Sailors' Sung Harbor—and Hamilton advised leaving it to eight persons who should be trustees by virtue of sons who should be trustees by virtue of their holding certain public offices. These eight were the Mayor and Recorder of this city, the Chancellor of the State, the President and Vice President of the Marine So-ciety, the President of the Chamber of Comsenior minister of the Presbyterian denomi minister of the senior church). There is no longer any Chancellor of New York State, no there are only seven trustees, but until the succession shall tail in some of the other offices this number will not be decreased. Moreover, the eight, following the instructions of the will, incor-porated themselves in 1831, so that they sow form a self-perpetuating body which is practically responsible to no one for its management of the property. As a matter of course the individuals die, but by the terms of the will and of the articles of incorporation, the incumbents of these offices succeed to the trusteeship. It is true that the treasurer is obliged to render a statement every year to the State Government, and the law is technically obeyed, but the statements are invariably written expressly to conceal the facts, and no information is to be had by the public excepting the incomplete and misleading figures in the statements, so that nobody outside knows how great the estate now is.

Wealth of Columbia College

In regard to the other two estates mentioned, there is even less to say, by authority. Columbia College, rich as it is, undoubtedly devotes the entire income to the purposes for which it was established, and no reasonable person has ever questioned that its affairs are honestly and wisely administered. The estate of the New York Hospital, on the other hand, is conducted with such defiant secrecy as to give rise to the opinion generally held that it, like the two first mentioned, is managed with an extravagance that amounts to dishonesty, in that enormous sums are diverted from legit imate use, and paid to favored individual in the shape of unearned salaries or fees. It is not known positively, as it is in the cases of Trinity and the Snug Harbor, that this is the case, but it is vehemently sus-

Not exactly pertinent to the consideration of these four estates, but interesting in the same connection, is the story of the Manhattan Company. This is a corporation nearly as old as the present century, and exists by virtue of a charter obtained by aron Burr when he was practising law in is State. This charter authorized the mpany to supply the city with water ad to perform such other acts as should t be inconsistent with" that business. was a clever trick, and somebody discovwas a clever trick, and somebody discoved soon that it was not "inconsistent" o carry on a banking business. Accordingly the company is now a bank and permus the water supply act by maintaining tank in its costly building at 40 Wall wet, from which tank any citizen is ented to a free drink of water. It is not yield that citizens flock thither in great have for the water sumly now that the bers for the water supply now that the c squeducts have been constructed. ompany is rich—very rich, but it dis-its surplus in dividends.

Likely to Be an !.. estigation.

egard to the four great estates menoned (perhaps excepting Columbia Col-lege), there is a growing feeling on the part of the public that something should be lone. It is argued that the rapid aggregaion of money in such enormous amounts is a injury to the State; that since all the gitimate functions of the institutions at own the wealth could be and are permed with a comparatively small income enriching of individuals at the expense enriching of individuals at the expense, rectly, of the people, is a positive evil, should be remedied. Several efforts been made to induce the Legislature of State to investigate the subject and the facts public, but hitherto all these pts have proved abortive. It is not 'v, however, that the agitation of the will lead in the near inture to such investigate.

igation.

"has not studied the question," or he has been retained by some great corporation. The number who gave me the last reason is significant as showing where much of the

significant as showing where much of the income of these corporatious goes, for famous lawyers are not cheap.

Almost everyone who would talk at all referred me to the great and famous argument made by Daniel Webster in defense of the charter of Dartmouth College when that was assailed. Everybody is supposed to know that that particular speech was the master-plea for the inviolability of chartered rights. The general opinion of precedent-loving lawyers—and lawyers do love precedents—is that Webster's position, taken in that speech, is impregaable.

There are, however, many lawyers who do not agree with this idea. I could quote many names if it were necessary. Their cpinion is about as follows: A corporation

epinion is about as follows: A corporation is a body formed by the Legislature of the State. As such it is distinctly responsible to the authorities of the State for its uses of the powers delegated to it in its charter. It can be called upon at any time by the Legislature which created it for a full account of all that it has done, and if it

The foremost criticism directed against the institutions mentioned is that they have never made a full report of their acts, and that the reports they have made are misleading as well as incomplete. DAVID A. CURTIS.

STOPPED WHEN LINCOLN DIED.

story of a Remarkable Clock Which Has Been Running Forty Years.

CORRESPONDENCE OF THE DISPATCH. 1 NEW YORK, July 8 .- Probably not one in a thousand of the multitude who daily look up to Tiffany's big clock on the front of their massive fire-proof building on Union Square, New York, and set their pocket time pieces to correspond, has any the holdings of Trinity Church, Columbia , idea of its interesting history, and that it became famous at the time of President Lincoln's assassination, when its hands stopped at the very hour of his death. In a talk with Mr. Tiffany, the well-pre-

served octogenarian and active head of the house, the writer learned that the clock was constructed for the firm long before the war, in fact nearly 40 years ago, when the firm was yet in its intancy. It was when the building which still stands was creeted on that site that the famous clock was first put up. It is mounted on a wooden figure put up. It is mounted on a wooden figure put up. It is mounted on a wooden figure of herculean proportions, representing Atlas upholding the world upon his shoulders. It was carved by a well-known firm of American shipbuilders, who at that time became renowned for their superior modelbecame renowned for their superior modeling of figures and figure-heads, such as were used in ornamenting the bows of vessels. The figure itself stands nearly nine feet high, while the circular space behind the dial of the clock above, the figure, is almost large enough for the man who cleans the dial to stand up erect inside.

It was while at 550 Broadway that, by a stream coincidence it recorded one of the

strange coincidence, it recorded one of the saddest events of the history of the country; for, without warning, and without any apparent cause, the hands stopped at the hour of President Lincoln's death, 7:22 on the morning of April 15, 1865.

Morning of April 15, 1865.

After the firm became settled in their handsome new building on Union square, over 20-years ago, the clock was mounted in its present position, where it continues to mark the time of day, after 40 years of service, almost as accurately as the chronome ter in the watch department on the ground

The clock stands on the second floor of the building, fitted into the center window on the outside. The works were made in the the outside. The works were made in the first's own clock shop, and are not behind the dial as empposed, but in a glass case on the floor above, and are so constructed that several clocks can be run in different parts of the building all by this same movement. Altogether it is a unique piece of mechanism.

George Prederic Heyde.

A NAIL WITH A HISTORY.

Mrs. Potter Palmer Is to Drive It in the

Women's Building at Chicago. From Montana comes the glad tidings that Mrs. Potter Palmer's na and is now on exhibition. This nail is to be the last one driven into the Women's Building at Chicgao, and is to be driven by Mrs. Palmer herself. The metals used in its construction are gold, silver and copper. It is arranged as a brooch, in the shape of the State seal. The nail rests on a slide

the State seal. The nail rests on a side back of the pin.

Both nail and brooch will be presented to Mrs. Palmer, who will doubtless value highly the interesting souvenir of one of the proudest moments of her life. The dashing gem at the top of the shield is a Montana sapphire, said by the natives to be but little inferior to that recently purposed by the Baranness Burdett-Coutts for chased by the Baronness Burdett-Coutts for

Percentages to Be Given Out To-Day. The High School Committee was to have met last night, but failed to get a quorum. The members present argued that Chairman Holmes should send the percentages made at the recent examination to Secretary Reis-far this morning, and that they would then be open for inspection.

HIS FACE IS HIS FORTUNE.

An Actor Left a Legacy by a Woman Who Wanted to Marry Rim-He Was Already a Benedict, Though, and Is Now a

NEW BRUNSWICK, N. J., July -[Special.]-Actor George S. Dayle, of the Howard Theatrical Company, has just fallen heir to a nest little legacy of \$10,000. His good looks are responsible for his good fortune, for the money comes from a lady who admired him and wanted to marry him. Dayle was playing with his troupe at Troy, N. Y., at the time he met the lady. She had been noticed at the house every evening, and occupied one of the boxes. Finally she wrote a letter to Dayle and asked him to see her. He did so and found that the woman, who was nearly 20 years older than himself, desired to marry him. She admired and loved him, she said, and could bring him her fortune as well as her

admiration.

Unfortunately for her the actor was already married, having wedded Miss Hattie Smith, of this city, by whom he had one child. He is now a widower, but had heard nothing more of the woman from Troy till a short time ago, when he received word of her death and of the fact that she had left him \$10,000, half her fortune.

Mr. Dayle himself was in this city rehad left him \$10,000, half her fortune.

Mr. Dayle himself was in this city recently visiting his uncle, ex-Alderman Jordan Dayle. He sailed for Europe lately, and consequently nothing can be learned from him of his good fortune. His relatives are reticent about the affair, and the name of his admirer cannot be obtained from them. The legacy, however, is undoubtedly genuine, and it is from a desire to shield the lady that her name is withheld.

of age. He was brought up by his uncle, who adopted him at the age of 5, and when he was 18 he ran away and went on the stage. He has many friends in this city who remember him as a quiet lad, very

BROUGHT IN TWO STILLS,

Deputy Revenue Collector Johns Makes a Raid in Somerset County.

P. A. Johns, a deputy internal revenue Collector from Uniontown, registered at the St. Charles Hotel yesterday. He came in with several stills and worms that he had captured between Bakersville and Trent in Somerset county. Mr. Johns said he made the raid himself, and found them abandoned by the owners. He thinks three or four moonshiners are left in Somerset county.

It was reported a few days ago that Pritz was seen around his home. It is believed that he has returned and is ready to resume operations. The authorities of the county are het on his trail. re hot on his trail.

Polly Glenn and Lizzie Coleman, who live at 729 Forbes street, were locked up in the Fourteenth ward station last night, charged with stealing \$60 from Peter Quinn while he was sleeping at their house. They will have a hearing this morning. Festris Johnston claims Andrew Frailey robbed him of \$30 while he slept on the hill near Howley's brick yard.

Indorse the Mayor's Plan, Mayor Kennedy, of Allegheny, was receipt yesterday of a large number of letters from business men of that city commending him in the stand he has taken in regard to the paving of streets and the issuing of bonds to meet such improvements. His Honor is confident that the matter will be brought to a vote and the respectition pass.

ROUTING AN ARMY.

How the Worst Invasion of Modern Time

When men or women feel depressed or debilitated at the present day, it is common to say, "I think I have malaria." What is malaria! It is only germs that get into the body; germs that thrive and increase unless they are killed; germs that worm themselves all through the system; germs that ruin the health and undermine the life. They are aggressive, they feed upon the body, they must be killed. Many things which have been advocated for killing these germs will not do so. It has been thought that quining would accomplish this, but many people cannot take quinine; it disagrees with them, it often nauseates. It is known, however, that pure spirits taken in moderation will kill and entirely exterminate the worst army of germs which ever invaded the system. They cannot withstand it. Under the influence of pure stimulants the germs are killed, and the body is strengthened to expel them from the system, and thus restore the health.

It should not be understood, however, that

per them from the system, and thus restore the health.

It should not be understood, however, that all spirits will do this, few will. It requires something specially pure, and specially designed for this purpose, and that is precisely what Duffy's Pure Mait Whisky is. It is a scientific, mediefnal preparation. It does not rank with the ordinary whiskies, but is specially designed for fortifying the body and repelling disease. It has the highest endorsements of doctors and scientists; it is wonderfully popular because it is so efficient and powerful. Do not be deceived into the use of any other, for there is no other preparation upon the market that can accomplish what is accomplished by Duffy's Pure Mait. You will find that it is kept by reliable druggists and grocers.

DEPLETED BLOOD

PITTSBURG

Chronic Diarrhoa, Weakness and Debility a Result.

How Catarrh Brought on a Train of Painful Disorders-Mr. Bowman's Story.

A specialist, whose observation covers wide range of diseases, is often impressed with the frequency with which catarrh, ec-zema, rheumatism, stomach, bowel and kid-ney disease, or some other painful and an-noying blood trouble seem to go hand in The depleted condition of the blood is

The depleted condition of the blood is often due to a catarrhal affection, which takes the direction of a blood or bowel disease rather than the usual nature of such results. The case of Mr. Barnes Bowman, a packer in Messrs. Hogan, Evans & Co.'s glass house, and who resides on Paul avenue, Boggsville, West Liberty borough, may be used to illustrate this point.

"I had been troubled with chronic diarrhos for two years," says Mr. Bowman, "but which became unusually aggravated the past six or seven months. My appetite became deprayed and fitful, it was seldom I had any relish for food, and what little I did eat caused a heavy bloated up feeling, with frequent eructations of gas, and almost constant pain in my bowels. It seemed that my food passed away without being at all digested, and I lost strength and flesh steadily. I became so weak and debilitated it was hard for me to keep on with my daily labor. I was more tired in the morning than when I ended a hard day's work.

"My head always seemed dull and heavy with frequent headaches, but I had none of the usual head symptoms following catarrh of the head, excepting bad taste in the mouth and coated tongue. My trouble was principally confined to my stomach and bowels.

Mr. Barnes Bowman, Paul Avenue.

"I found that I must do something more than I had done or I would have to give up my work, so I concluded I would consult Drs. Copeland, Hall and Byers, as I had read of their good work in troubles such as mine. They at once diagnosed my allment as catarrh of the stomach and bowels, and, as their system of consultation and examination seemed so thorough, it at once inspired me with confidence and hope, and I immediately decided on a thorough course of treatment with them.

"The results have been surprising and gratifying in the greatest degree. My bowels are now regular, my appetite has returned, I am gaining in fiesh and strength daily, have no pain, no dull, heavy head ache, no bad taste in the mouth, arise refreshed in the morning, and, in truth, feel as well as I ever did in my life. To say that I am plessed with the treatment I have received from Drs. Copeland, Hall and Byers but feebly expresses my feelings, and I freely recommend them to all my friends and the public."

NERVOUS PROSTRATION. The Result of Neglected Colds-Statemen

of Mr. Robert Klein, Who Was Cured of This Most Distressing Affection.

This Most Distressing Affection.

"I had been troubled with catarrh and kindred allments for five years," says Mr. Klein, "brought on by exposure.

"My trouble first began with headsches over forehead and through temples. I had to cough and spit for quite a while every morning before I could sit down to my breakfast.

"When I would begin to eat my stomach would grow nausested and feel full and bloated in a little while, causing belching up of gas and palpitation of the heart and frequent dizzy spells. My mind grew confused, I could not concentrate my thoughts on any subject and finally could not add up a column of figures correctly. My sleep grew troubled by horrid dreams and I awoke in the morning unrefreshed. The least exertion caused palpitation and a weak and trembling feeling, spots before my eyes, etc. I felt at times I would have to give up work.

"Under Drs. Coneland, Hall & Byers' treatment I soon noticed a diminution of all my symptoms. My head became clearer; my stomach and appetite improved: my eyes, ears, nose and throat troubles nassed away; my sleep became sound and refreshing, and I awoke in the morning rested, all ready for my daily work.

"It is with pleasure I make this statement, hoping it may point others, afflicted as I was, the road to health and happiness. Drs. Copeland, Hall & Byers cannot receive too much praise for the good they are doing for suffering humanity."

Please Remember

—That this is the most favorable season of the year for treating catarrh and its kindred ailments, as the climatic conditions are per-fect and nature aids the treatment instead —That more can be accomplished in on month's treatment now than in thre months while the unfavorable influence are present.

—That as the wise man "mends his roof" while the sun shines, so should the sufferer from catarrh seek treatment during this most favorable season.

—That catarrh, especially when compli-cated by ear trouble, asthma, chronic cough, bronchitis, etc., etc., cannot be cured in a few weeks, but requires a thorough course of systematic and persistent treatment to permanently eradicate.

That if chronic catarrh could be cured in a month, Drs. Copeland, Hall and Byers would charge many times more than \$5 a month for such a thorough system of treat.

ment as they employ. The \$5 rate was in-augurated to apply to those long standing aggravated cases which require time, pa-tience and persistent treatment to eradi-cate, so that patients of moderate means could afford to continue treatment until permanently cured.

—That the \$5 rate which heretofore applied only to simple exterrh and kindred silments has been extended to include all diseases, and all patients. Positively no greater fee will be asked or accepted. The \$5 fee includes consultation, examination, treatment and medicine for all diseases and all patients.

-That all skin and blood diseases, such as ecsema, hives, blotches, pimples, ache, ring worm, tetter, salt rheum, etc., etc., are in-cluded in the \$5 rate. -That all kidney, bladder and rectal troubles, such as diabetes, Bright's, gravel, piles, fissure, fistula, etc., etc., are also treated for \$5 a month, medicine included. That rheumatism, neuralgia, lumbago, scrofula, dyspepsia, chronic diarrhesa, dysentery, constituation, dropsy, liver complaint, jaundice, glandular tumors, excessive accumulation of flesh, etc., etc., are successfully treated for \$5 a month.

That Dra. Copeland, Hall and Byers are originators of the \$5 a month treatment, or the system of reducing the practice of medicine to a business-like basis, and though many may imitate their style of advertising, the thorough, conscientious and skillful method of their treatment can be approached by many

WANAMAKER & BROWN

ANDERSON BLOCK.

KEEP THE SKIN COO

A great many people are annoyed by Itchy Skin, and attribute the cause to various skin diseases or stomach trouble. Most frequently the itchiness is caused by the clothes worn being washed with soap containing Free Alkali. This alkali, not being thoroughly rinsed out of the clothes, has a heating and irritating effect on the skin, as well as gradually destroying the clothes.

WALKER'S FAMILY SOAP contains no Alkall; it is all Soap. Clothes washed with it last twice as long as those washed with ordinary soap, and do not heat and irritate the skin.

THIS INK IS MANUFACTURED

The result of the above sweeping and startling offer, which went into effect last Monday, had a most electrifying effect. From all sides buyers streamed to take advantage of this glorious opportunity, and several thousand Suits, which were on our counters last week, are now in the hands of several thousand happy customers, every one having saved from \$5 to \$15. But the money thus saved by the people was our loss. And it's a big one. It has swallowed the profits of a year-and more. Under the circumstances nobody will be surprised to learn that this great and glorious offer of

ANY SUIT IN OUR HOUSE FOR \$15

Will positively and irrevocably terminate to-night. We can't afford to keep it up any longer. Besides, the sole object for which we made this great financial sacrifice, the reducing of our large stock, has to a large measure already been accomplished. Now, then, gentlemen of Pittsburg and Allegheny, if you don't want to miss this rare chance, come in before 10 o'clock to-night. Remember, it means choice of our entire stock for \$15. The same, or an even lower offer, might be made by other houses without causing as much as a ripple of excitement, but how different when made by Kaufmanns'! The reason is plain. Here it is: People prefer to take choice from Kausmanns' stock for \$15 to taking choice from other dealers' stock for \$12 or even \$10. And why? Simply because Kausmanns' show finer Suits and more of them than any other house in this city. It is a matter of fact that over three-quarters of Kaufmanns' stock consists of suits worth from \$18 to \$30, the other quarter being medium grades. Elsewhere the case is reversed—the bulk of the stock consisting of lower qualities. But why explain what everybody knows? Wise men will be on deck to-day and save from \$5 to \$15 each by taking choice from Kaufmanns' entire stock of Men's Suits for Fifteen Dollars.
