THE encampment of Post 128 at Beaver was quite a success. A large number of Pitts-ourg and Allegheny comrades went down and had a pleasant time.

Post 117, fed hundreds at Schenley Park on the Fourth and made quite a snug sum with which to help the veterans. Post 157 mustered a recruit last Thursday

was a big one for a warm night. PERSION AGENT BENGOUGH and his clerks had a busy time of it last week. The num-ber of pensioners drawing their money at the Pittsburg office is greater than ever.

THE soldiers' reunion, to be held at Caldwell, O., July 21 and 22, is being boomed in great shape by enthusiastic circulars. There will be campfires, concerts, races and other attractions. It ought to be a success.

Company E, Seventy-fourth Pennsylvania Volunteers, died at his home on Juniata street, Alle-heny, Friday, after a long ill-ness. The Post will assemble at the Post room at lr. M. to-day to attend the funeral. SENIOR VICE DEPARTMENT COMMANDER W. O. RUSSELL will wind up his official visits next Tuesday evening, when he will "return home" to his own Post, No. 151. That his reception will be a rousing one is past ques-tion. Those who do not turn out will miss it.

THERE was quite a large attendance at the open meeting of Post 162 last night a week. A number of visiting comrades were present and the comrades of Post 162 with their families turned out well. Speeches, music and refreshments helped to make the evening a very pleasant one.

Post 157's committee having the fair in sharge has formulated all the details, and promises are for a highly successful run and an enjoyable time for all who attend. The fair will begin August 28 and continue four weeks, in Central Turner Hall, Forber street. The young folks are greatly inter-

A PANIC IN PROVISIONS.

The Decline Succeeded by a Sudden Bulge in Bog Products-Selling Interest Turn to the Buying Side-A Mild Reflex on

CBICAGO-A startling sudden bulge in provisions was the feature to-day on the Board of Trade. The market has gone down, scalping trade tailing on for still further decline in prices. The end of the decline was reached this morning. Pork for September was off to \$11 45 from the \$12 mark, September lard was at \$7 6, and mark, September lard was at \$7 4%, and ribe at \$7 17%. They were lower yesterday, and the trade played for another downward turn with grain to-day. But the heavy selling interests of yesterday quickly turned in the last half hour to the buying side. This startled the trade and put the shorts in a panic. There was a rush for all products at once. It took bidding at higher prices to get anything. Pork jumped 35c to \$11 80, and closed \$11 73½ about 23½c better for the day. Ribs rebounded 22½c to \$7 45 for September, closing life higher at \$7 37½. Lard was up 12½c from last night at \$7 20 for September.

was up 12%c from last night at \$7.20 for September.

The sharp upturn in the hog products had a mild reflection in corn, which closed that market firm, but at a decline of \$4c for July and \$5c for September compared with yesterday's resting prices.

Nothing could lift wheat from the double depression of the expected Government report and the financial and commercial legislation at the Federal capital. September wheat closed at 75%c, against 70%cockey esterday. It was estimated that there would be only a small decrease, if any, in the visible supply of wheat. Cholera talk and the weather helped the decline in grain.

Outs opened steady, declined \$60%c and recovered \$6c, following corn closely. A good deal of July was changed to September and a good deal of September was sold by the elevator people. At the opening July and September were \$6c apart. They then came toxether and sold at the same price, but closed about \$60%c apart.

TRADE OF THE WEEK.

Net Favorable to Expansion.

STILL BETTER THAN A YEAR AGO. Interesting Movements in Urban and Sub-

FEATURES OF MONEY AND SPECULATION

ness. It consisted of but five days, and these were environed by conditions which checked for the time any tendency toward expansion. Industrial disturbances, like leprosy, affect everything with which they come in touch. Nevertheless, as bank clearings show, transactions footed up a respectable aggregate. So long as this level is maintained complaints will be out of order. People should not expect too much. That present conditions should continue for any great length of time is impossible. Big crops will certainly make an active fall trade. Any change, therefore, will clearly be for the better.

The Outlook for Realty. Real estate broken expect a quiet market until the opening of the fall trade. Many buyers will soon be out of the city, and those remaining are not likely to be aggressive during the dog days. But things are in good shape for an active movementmuch better than a year ago. The city is full of money seeking investment. This, with the promise of a heavy crop, is suffiburg realty will be an active commodity before the tall is very old.

Business in a New Quarter. Strange to say, there have been recently several transactions in realty at the eastern end of Lincoln avenue near and just beyond the line separating the city from Penn township. These are the first sales in that quarter for several years, and their chief significance lies in the fact that the city is reaching out in that direction. The sales comprise several lots and two farms, that of Mr. Raum, consisting of 16 acres, and that of Mr. Kabee, containing 22. The price in each case was about \$1,000 an acre. The

A Deal in City Property.

It is rumored that a large transaction involving 20 acres in this city will be consummated in a short time. The tract belongs to the McClury heira. Robert H. Douglas, Esq., attorney for the estate, when that the price approximates \$60,000.

During the week J. H. Coleman & Co. closed the sale of a piece of Squirrel Hill property, located on Forbes street, Shady lane and Irwin avenue, and known as the Armstrong tract, at a figure close to \$35,000. The purchasers are two well-known business men, who have not divulged what they propose to do with their purchase.

Residence Properties Change Hands, The Squirrel Hill Land Company yesterday sold the two-story brick mansion, for-merly the residence of A. Garrison, on Knercher street, Twenty-third ward, for \$10,000. Another residence on the same street changed ownership at about \$8,000.

Special Features of Trade, Judging from the number of permits is med last week, building is satis actory for the season. It is better than a year ago The country residence of the late Dr. John Donglas, consisting of 42 acres and a large modern dwelling, situated a short distance

back of Sewickley, will shortly be put on the market.

An offer of \$22,500 was made and refused last week for 100 sect of frontage on Ellsworth avenue, near Bidwell street.

Helwig Lange took out the only important building permit issued yesterday. It was for a four-story shop and factory on Second avenue, Second ward, and will cost \$15,000. For the week permits number 29, representing 44 improvements, at a cost of \$28,590.

The cool weather of the past week has evidently not essentially prejudiced acreage condition of the corn erop and seasonable advancement is shown. Average condition is regarded higher than 80 per cent.

The delay of the Duquesne Traction people in laying tracks on Neville street was occasioned by the complicated nature of the work at the corner of Elisworth and Neville.

INCIDENTS OF THE WEEK IN LOCAL SPECULATIVE CIRCLES.

Trading of Moderate Proportions - The Arder of Investors Restrained by Infinences of a Bearish Complexion-Talk About Dividends-Sales and Fluctustions. The stock market was badly handicappe

all through the week. The holiday broke in upon it at the start, and, later, the Home-

stead affair intensified the apathy. Investors held aloof, and only bought on breaks. These, however, were too slight to be of much significance.

That prices should be so well sustained under circumstances which would set Wall street wild speaks in no uncertain tones of unimpaired confidence in local securities. This week Pleasant Valley will declare a dividend. There was strong talk in well-

informed quarters of dividends by Birming-ham and Manchester. This prospect is a ham and Manchester. This prospect is a prop to the market which it is hard to knock away.

There is disappointment in some quarters that the market has so far falled to reflect any in-lication of the reinvestment of the large sums paid out for dividends and interest. This is not the season for pushing things. Many investors are leaving the city for the summer. They will take hold when they return.

hey return.
Another thing should not be overlooked.

Another thing should not be overlooked. The foreign financial situation is an impediment to a buil movement. While Pittsburg is in a measure independent of outside influences, they naturally have an effect on buyers.

The unlisted tractions finished the week as follows: Manchester, 45½ bid, offered 46; Duquesne, 28½ bid, offered 26; Birmingham, 25½ bid, offered 26%.

Sales yesterday were 5 shares Citizens' Traction at 63½, 5 at 64, 20 Switch at 16¾, 10 Luster at 9½, 10 Duquesne at 28½, and 10 Manchester at 45½. Sales for the week were 1,327 shares and \$12,000 bonds. Philadelphia Gas led with 770 shares, followed by Pleasant Valley with 225. Final bids and offers for the week follow:

Besults of the Week Not Bad Under the Circumstances. Money ruled easy all through the week, with the demand for loans altogether out of proportion to the supply. Duliness incident to this season of the year was intensi-fled by the holiday and the Homestead

affair. Besults were surprisingly good under the circumstances. Clearing House opera-tions show:

> Pittsburg Schools at Saratogs, Prof. Coffey, of Braddock; Miss Kennedy, who gave the class drill in physical culture at the State Teachers' Association; Prof. H. W. Fisher and wife and Mrs. Van Waggoner, supervisor of drawing, will be in attendance at the National Teachers' Association at Saratoga this week, where there is also to be a drawing exhibit from the Pittsburg schools. The magnificent exhibit to be seen at Bedford this week is still a subject for admiring comment among the principals and teachers, who themselves

had seen but fragmentary contributions from their own schools, and were surprised at the beautiful collective display. There is every probability that Mrs. Van Waggoner, Supervisor of Drawing, will be asked to have returned to her the drawing exhibits which are to be attractions at the four educational gatherings, Bedford, Sara-toga, Chicago and Glen Falls, N. Y., and have then displayed in Pittsburg so as to give the public an idea of the progress of

art in the city schools.

Gossip of the Schools. TUESDAY evening the Central Board of Education holds a regular meeting, but in the month of July seldom sufficient members month of only scients stated the memory present themselves to have a quorum. So little stir is expected in educational circles for weeks that the trio of officers at the Central Board of Education may "slut up shop" at noon if they have a mind to.

FORBES SCHOOL is likely to reign supreme in having the only Sloyd school in the city, as the local board of the Washington district, Seventeenth ward, has decided not to open a Sloyd room at the Fortieth street building. Tais will be the last time that the report of the High School examination will be given by numbers as was done a few weeks ago, as it is reported that the High School committee is in favor or returning to the old system of publishing names and percent-

THE WORLD'S LONGEST BAILBOAD. It Is to Be Three Times as Long as the Dis tance Across the States.

CHICAGO, July 9.-Nicholas Rosanoff captain of the Russian army and navy and an attache of the Russian royal engineers, is at the Richelieu on his way to Vladivostok, Siberia, where he will take charge of the work of building the longest railroad in the world. This road has just been begun by the Russian Government. It will be built from Vladivostok, on the Siberian coast, to Moscow, Russia, a distance of 11 .-000 versts, or about 8,000 English miles. Captain Rosanoff says this immense line, almost three times the distance across the United States, will be completed in five years and commerce will be almost revolutionized thereby. Agricultural product from this country can then be sent to Russia via San Francisco and the Pacific Ocean to Vladivostok and thence to Moscow, instead of as now to New York, Liverpool, and St.

Petersburg.
"The Russian Government has ample funds to build the road," said Captain Rosanoff, "and there will be no delays in the work of construction. Two hundred miles of the line has already been built. Enormous docks and barracks for the army and naval stations which will be lo the eastern terminus of the road will also

numerous letters from his fellow-officers in which they expressed their gratitude to the American people in responding so readily to the requests for food for the famine-stricken peasants of Bussia. Good crops were assured this year.

BOTTOM FALLING OUT.

From 84,500 Barrels a Day McDonald Has Declined to 19,500.

FIRMS SUSPENDING OPERATIONS.

Sistersville Added Another Big Well to Its List Yesterday.

REPORTS FROM THE VARIOUS FIELDS

The production of the McDonald field fell lower yesterday than at any time since it started to decline from the phenomenal height of 84,500 barrels a day. The daily out-put of the field has for many weeks been see-sawing back and forth between 20,000 and 25,000 barrels, but yesterday it lost its hold on the 20,000-barrel mark and slipped down to 19,500. No wells of any importance were brought in and the old ones no longer respond to the former stimulating influence of nitro-glycerine.

The operations in the past week have been anything but encouraging for the investors. The wells completed were either dry or very light. Little new work is start-ing at any quarter in the McDonald field. J. M. Guffey, of the firm of Guffey, Jennings & Co., said they were drilling but five wells, and when these had been completed they would start nothing more. This seems to be the general sentiment expressed by many others who were at one time heavy operators in the McDonald field. Results Expected Soon.

The Oakdale Oil Co.'s No. 1 on the Robb sere lot back of Oakdale is expected to get the sand to-morrow night, The Woodland Oil Co.'s No. 2 Lutz is down 1800 feet. Hussnext week. This will be the last well to be

next week. This will be the last well to be drilled on this property.

The St. Clair Oil Company drilled its No. 1 on the Kirk burm, in the Meise pool, deeper last night and increased the production 202 barrelsa day.

The Wheeling Gas Co.'s Nos. 2 and 3 Gladden were both expected to reach the Gordon last night. No information of their naving been drilled in was received at the office on Sixth Svenue. Their Giffin No. 1 is still drilling in the fourth sand, it is flowing from 50 to 60 barrels a day from that formstion. They are straighting the rigs for No. 4 Morehead, No. 2 Robbins and No. 1 N. G. Cook. Their No. 1, on the Patterson farm, is drilling on top of the 50-foot.

The Philadelphia Gas Company's No. 3 Sterling will make a small well from the fourth sand. fourth sand. Greenlee & Forst cased their No. 2 Kirk

yesterday. Through the Hundred-Foot Sand. In the McCurdy end of the field Patterson Jones are through the 100-foot at their No. 2 McGarr.

about ten days at their No. 2 Shane.

A wildcat of some importance is drilling on the Oukrifige coal tract by the Moore Oil Company. The location is a half mile southeast of Oakdale. They have developed a good gas pressure in the 50-foot. A Good Well at Sistersville,

Jones & Tennant are reported to have a well in the sand on the Tennant 'arm, near the railroad trestle above town that is flow-ing oil at the rate of 700 to 800 barrels a day. The well opens up new territory, being located in the rich streak developed by the Ludwig & Mooney well on the Russell farm some months since. A telegram from Sisters ville says: The Wallace & Parker wells on the Graham and Lacy farms to the north-east of Sistersville on the West Virginia side are in the sand and reported showing for good wells. East of Glenshaw.

Patterson & Jones are starting a well on the Kessler farm, located one mile southwest of the Dixon & Co. well, drilled in a month ago on the Deitrick farm. Boyd Bros. & McCalla are starting a second

station, in Butler county. Their first ven-ture on this farm is making 75 barrels a day. Gauges of McDonald. Lynch & Co.'s No. 1, Meise, 25; Oakdale

Oil Company's No. 2, Morgan, 25; Florence Oil Company's No. 3, Robb, 30; Forst & Green ee's, No. 3 McMurray, 20.

The estimated production of the field was 19,500 barrels, and the stock in the field 55,

19,590 barrels, and the stock in the field 55,000 barrels.

The runs of the National Transit Company on the 5th were 25,051,35 and the shipments 25,805,19 barrels. The runs from McDonald were 22,651,97 barrels, outside of McDonald, 9,630,40; total, 22,295,37. THE WEEK IN OIL

A Dull Market, With a Narrow Range of Finetuations.

There was not enough business to talk bout. The market approached as near the stagnation point as at any time in the history of the trade.

Bearish influences were the labor troubles at Homestead and a general indisposition among out-iders to operate. Added to this.

the pipe line reports showed an increase in gross stocks of 500,000 barrels. National Transit acceptances increased 425 000.

The range of fluctuations for the week, as shown in the following table, shows the nar-row character of the market. Monday was

A Poor Bank Statement Counts for Nothing - Louisville and Nashville Alone in Weakness-No More Engagements for Gold Shipments-Railroad Bonds Quiet. New York, July 9.—The stock market was again intensely dull, and, apart from the trading in Burlington and Quincy and Louisville and Nashville, presented no feature of any kind. A firm temper prevailed. The expectation that further engagements of gold would be made last night pointed, and a rumor that the forthcoming Government crop report would be favora-ble on corn were influential factors in the movement; and despite the fact that the bank statement showed a material reducbank statement showed a material reduc-tion in the amount of cash held, as well as the surplus, it went for nothing in view of the strong position of the banks at present. London was apparently a seller of Louis-ville and Nashville, and at one time that stock showed a loss of 1 per cent from its last price of Friday, but it remained alone in weakness, and other stocks stea illy ap-preciated when there was business enough to cause any chance in quotations at all

in weakness, and other stocks see in appreciated when there was business enough to cause any change in quotations at all. The market, on the whole, was firm from opening to close, while retaining its professional character.

The total sales of stocks to-day were 57,767 shares, including Atchison, 3,320: Chicago Gas. 1,570: Lake Shore. 6,000; i.eading, 2,900; St. Paul, 8,600: Union Pacific, 5,300.

Railroad bonds were very quiet, and on a business of \$424,000 showed few changes of note.

The Finish in Stocks.

The following table shows the prices of active

legislation tending to advance the general industry.

"The bank statement showed a decrease in the reserves of about \$2,500,000. This was not large when the shipments of last week are considered. Money is likely to be a little more active next week, and the stock market will, we think, show increased activity and advancing prices unless the cholers reports from Russia and France assume a more alarming outlook."
