

COMING TO A TEST. The Stewart Free Silver Bill to Be Considered by the House BEGINNING NEXT WEDNESDAY, And Continuing Thereafter Till a Vote Has Been Reached.

FORTNEER PROSPECTS FOR IT EVERY DAY

(SPECIAL TELEGRAM TO THE DISPATCH.) WASHINGTON, July 9.—The Committee on Rules has decided to report a rule setting aside next Wednesday for the consideration of the Stewart silver bill, and to the order of a continuing one until the matter is disposed of.

Aside from members who doubt the wisdom of passing such a bill looked at from a party standpoint there are many free coinage advocates who support the Bland bill who do not look with favor on the Stewart bill, for the reason that they sincerely believe it will demonstrate nearly 100,000,000 of bullion certificates, unless remedial bill shall accompany it.

Every spring and summer we hear people saying: "I must take something to purify my blood." They mean up with arsenic, etc., and they are encouraged in this line of reasoning by factors and vendors of patent medicinal compounds.

Why should the blood be any more impure in the spring and summer than during the winter, except that the system is depleted by the result of neglected colds contracted during the cold season.

These "colds," as we illustrate by today's statements, are not merely a local trouble, capable of affecting every tissue and membrane of the body, and there is only one way to get rid of this "miasma" of mankind, and that is by availing yourself of the prompt, efficient and sure method of treatment as practiced by Drs. Copeland, Hall and Byers.

HEAD AND STOMACH TROUBLE. Mr. John Heffer, East Liverpool, Ohio, describes a New Neglected Catarrh Affected His Head and Stomach and How He Was Cured by Drs. Copeland, Hall and Byers.

"I had been troubled two years with my head and stomach," says Mr. John Heffer, contractor, East Liverpool, O. "It was no doubt brought on by exposure to all kinds of weather, and the result of neglected colds. My nostrils were always closed, my mucous, which also dropped down into my throat, causing me to hawk to dislodge, and I was often attacked by the most excruciating headaches, which would lay me off from my work several days at a time."

"My stomach also became affected to such an extent that it was with difficulty I ate anything. My appetite was so poor, that I could not get through with my work. I would get such fearful attacks of heartburn that I would be worth nothing for hours afterwards."

"I had doctored and doctored without benefit, until one month ago I decided to go to Pittsburgh and consult Drs. Copeland, Hall and Byers. They examined me carefully, and told me my head and stomach trouble came from catarrh, and that they could cure me if I would follow their instructions faithfully. They gave me a month's supply of medicine to take home, and I must say I have not been troubled with my head and stomach since the second day's treatment. It is simply miraculous how quick the medicine took effect. I cheerfully recommend their treatment to all who are afflicted with any chronic trouble, as I know they understand their business perfectly."

How Does This Strike You? Five dollars a month for the best medical treatment, including consultation, examination, treatment and medicine for all diseases and all patients.

Treatment for children unexcelled anywhere. Fair, honest and candid diagnosis and a desire to secure for each patient the shortest road to recovery.

All skin and blood diseases, such as eczema, hives, blotches, pimples, acne, ringworm, scabies, rheum, etc., etc., are included in the \$5 rate.

All kidney, bladder and rectal troubles.

FATAL RESULTS That May Follow Neglected Catarrhal Trouble.

Rheocho, Deafness, Headache, Dyspepsia and Chronic Diarrhea, as Well as Bronchitis, Nervous Prostration and Consumption, Are in the Wake of This Invidious Enemy of Mankind—A Series of Cases Illustrating It—The Plain Truth.

The course of catarrhal trouble, extending throughout the system, involving the head, throat, chest and lungs, the stomach and the kidneys, has been commented upon in the articles printed from time to time in these columns by Drs. Copeland, Hall and Byers, but nothing emphasizes the truth of these articles so practically and so strongly as cases of individual experience, showing just how catarrh does extend even to the ears, causing the most intense, agonizing earache and headache; to the stomach, causing dyspepsia, indigestion, chronic and acute diarrhoea, dizziness, etc.; to the bronchial tubes and lungs, causing chronic cough, bronchitis, asthma, consumption, etc.

Every spring and summer we hear people saying: "I must take something to purify my blood." They mean up with arsenic, etc., and they are encouraged in this line of reasoning by factors and vendors of patent medicinal compounds.

such as Rheocho, Bright's, gravel, pleurisy, neuralgia, etc., are also treated for \$5 a month, medicine included.

NERVOUS PROSTRATION.

The Result of Neglected Colds—Statement of Mr. Robert Klein, Who Was Cured of This Most Distressing Affliction.

"I had been troubled with catarrh and kindred ailments for five years," says Mr. Klein, "brought on by exposure. My trouble first began with headaches over forehead and through temples. I had to cough and spit for quite a while every morning before I could sit down to my breakfast."

"When I would begin to eat my stomach would grow nauseated and feel full and bloated in a little while, causing belching up of gas and palpitation of the heart, frequent dizzy spells. My mind grew confused, I could not concentrate my thoughts on any subject and finally could not add up a column of figures correctly. My sleep was light and unrefreshed. The least exertion caused palpitation and a weak and tremulous subject and finally could not get up in the morning without a severe attack of the kind."

"Under the treatment I have received from Drs. Copeland, Hall and Byers I am pleased to say that I have recovered from this ailment and I freely recommend them to all my friends and the public."

Treatment by Mail. To THE PUBLIC—The system of mail treatment pursued by Drs. Copeland, Hall and Byers guarantees the same effective results to those who desire to submit their cases through correspondence as to those who come in person. "Just" question blank, if properly filled out, will diagnose your case.

Write for the \$5-a-month treatment by mail, medicine free, and rid yourself of the most painful and annoying disease in the catalogue of human ills.

RINGING NOISES IN EARS. Mr. J. F. Grouall, of A. Grouall & Co., Carpenters and Builders, Rockwood, Pa., writes the following letter to Drs. Copeland, Hall and Byers.

"I am happy to report that I feel 100 per cent better than I did last fall. The ringing in my left ear is about gone, by and by, and I feel much better. My memory is clear, memory good, and the dizziness all gone. My whole system is again in good health. Am breathing once more through my nostrils, which I could not do last fall, and realize that all God's blessings there is none like good health. I thank you for the interest manifested in my case, and have recommended a gentleman, whose case is similar to mine, to try a course of your treatment."

Please Remember.—That this is the most favorable season of the year for treating catarrh and its kindred ailments, as the climatic conditions are perfect and nature aids the treatment instead of retards it, as is the case during the winter.

That more can be accomplished in one month's treatment now than in three months while the unfavorable influences are present.

"That as the wise man 'mends his roof' while the sun shines, so should the sufferer from catarrh seek treatment during this most favorable season."

"That catarrh, especially when complicated by ear trouble, asthma, chronic cough, bronchitis, etc., etc., cannot be cured in a few weeks, but requires a thorough course of systematic and persistent treatment to permanently eradicate."

"That if chronic catarrh could be cured in a month, Drs. Copeland, Hall and Byers would charge many times more than \$5 a month for such a cure."
