

SOCIETIES OF MURDER.

The Mala Vita of Italy, a Counterpart of the Dreaded Mafia,

CONTINUES ITS BLOODY WORK.

Germany Jealous of the Pope's Favor of the French Republic.

A GOSSIPY CABLE LETTER FROM ROME

ROME, July 9.—It will be remembered that last year a large number of persons were convicted at Bari of belonging to the Mala Vita Society, an association of somewhat similar character to the Chimorri of Naples, and the Mafia of Sicily. There are now being tried at Trani, 212 persons charged with being connected with the Mala Vita of Andria, from which it may be inferred that the convictions at Bari were not sufficient to suppress the organization.

The accused at Trani have been divided into a number of groups, each group having its own trial. The first group to be tried consists of 28 members. From the testimony brought out, it appears that they met in the catacombs of Santa Margherita, where their mysterious rites were performed before an image of the Madonna. The constitution of the society, consisting of 20 articles, with its oaths and penalties, has been discovered and laid before the court. It is expected the trial will last several months.

The Silk Crop Smaller Than Usual. According to the reports received at the Minister of Agriculture, the silk crop of 1892 is completed. The crop is somewhat smaller in quantity than that of 1891. The price of cocoons, as far as established, is about 6 1/2 cents per kilogram. In some sections, especially about Comasco, high rates are demanded.

At a recent conference of the Italian High Council of Health, there having been discussed measures that have been taken by various States adjoining Italy, to prevent the introduction of cattle into the country, on account of their alleged unhealthy sanitary condition. It is alleged that the prohibition is really a protectionist measure under the guise of the sanitary condition of the cattle. The council resolved to take every measure possible to ascertain the condition and promote the health of cattle in Italy, and to ask the Government to insist upon international regulations being made to regulate the prohibition of the importation and exportation of cattle by the various States interested.

Germany's Tiff Against the Pope. The language of the German clerical journals favorable to Italy and the Triple Alliance has produced a lively and unpleasant sensation at the Vatican. An eminent prelate, in discussing the subject, said the German clerical press had been inspired lately by discourses with the policy of Leo XIII. toward France, which shows him to be a partisan of the Republic. It was not, therefore, to be wondered at if the German press, and especially the clerical portion, under such circumstances, could not conceal their dislike of the course of the Pope. The Francophile policy of Leo XIII., pushed to an extreme, naturally displeases even those Germans who are devoted to the Pope and to religion.

The Propaganda has just finished the new missal for the use of the Slavo church in Montenegro. This concession, which is demanded by Manager Strossmeyer in 1888, is an important political act, as tending to draw into the Western Catholic orbit the Slav people of the Balkans, and to act as a counterpoise to the Russian Pan-Slavism. The Vatican on the Uganda Affair. The Vatican and the Propaganda have received from London assurances that the Government will take prompt measures in the Uganda affair as soon as the results of the inquiry into the alleged outrages on the Catholic missionaries has been ascertained. These declarations, which appear to have been made to gain time, begin to be wearisome and excite disgust.

MORE CHINESE OUTRAGES.

The Anti-Christian Feeling Still Breaks Out Frequently.—The Literal Stirring Up the People to Violence.—An American Lady Insulted by a Native.

YANCOUVER, July 10.—Hong Kong advices of June 28 say the probability of a general renewal of the anti-Christian demonstrations in the Yangtse valley is still felt to be by no means remote. The "Literati" are still energetically doing what they can to stir up the people against the hated foreigners, and their efforts in this direction are more frequently encouraged than checked by the officials.

At Chin Kiang recently, there were threats of destruction of the Roman Catholic and other mission buildings, and of the wholesale murder of missionaries and foreigners generally. The authorities considered it advisable to interfere, and the danger was thereby averted for a time. A feeling of security among foreign residents is still far from being restored.

There is a good deal of incendiary talk of an anti-Christian character at Wushih. As usual, the principal charge made against the missionaries is that of kidnapping children. At Shanghai, when two American ladies were out driving, a Chinaman rushed up to the carriage and spat at the occupants, and afterwards threw stones at them, one lady being struck on the arm. Tea growers are being exhorted by emissaries of the "Literati" to pull up the plants and grow sweet potatoes instead, so that it will not be necessary to them to trade with the "foreign devils."

CUSTOMERS BLOWN UP.

Serious Results of an Explosion in a Peoria Grocery Store. PEORIA, ILL., July 10.—The grocery store of George Wilms yesterday was the scene of a terrific explosion, in which a dozen persons were injured, two of whom may die. The building was well filled with customers, when, without warning, there was an explosion of several barrels of gas-oil stored in the cellar.

Everyone in the store at the time was thrown down and some of them rendered unconscious. Joseph Rising was hurled through a glass door and his throat and breast were cut in a shocking manner. Mrs. Davis, who was standing in the center of the place, was thrown out of the front door and her injuries are considered fatal. Two of the clerks were rendered unconscious and were rescued from the burning building by the firemen. The flames spread with great rapidity, and there was the utmost difficulty in getting all the injured ones from the building in time to save their lives. The funeral was held at 10 o'clock. What caused the explosion has not been ascertained.

DYNAMITERS IN COREA.

Bombs Thrown at a Prince Week After Palace But Fail to Hurt Him. VANCOUVER, July 10.—News comes of serious trouble in Corea. A person called the Tai in Kun, uncle of the King of Corea, has for some time been credited with pro-Russian tendencies. Some Coreans, desiring to visit on him some Russian methods, threw two bombs into his room and wrecked the place, but did not injure the Prince. A Japanese gunboat was sent to protect National interests.

Worse Than the Mississippi Flood. VANCOUVER, July 10.—The recent flood in Fukuhsina submerged 1,000 houses, swept 600 bridges away, drowned 35 persons and inundated 4,000 acres of rice.

A Woman's Hardest Struggle. Perhaps the hardest struggle for a woman is to let others be mistaken. The best evidence of this can be found among the thousands of women who are convinced that the Marshall Kennedy Milling Company make the best flour and are inducing their friends everywhere that they are making a mistake when they use any other. It is white, rich, pure; it makes a delicious loaf and is just the flour for that large class of people who do not feel able to buy the finest fancy patent and yet demand a splendid family flour. Bayard Amber is the flour for you. Try it once.
