When all other means of quieting riot and restoring order have first been exhausted, the officer commanding the troops shall notify the rioters that they will be fired upon unless they promptly disperse. Should they not disperse the order to fire will be deliberately given, and every soldier will be expected to fire with effect and to continue firing until the mob disappears. The annuliment of these encampments is provided for in the orders issued to-day. The annual orders issued to-day. Impressed With Homestead's Friendliness.

Governor Pattison was not at all surprised this evening when he learned that the troops were to be received at Homestead with brass bands and other evidences of good feeling. He says he had been in-formed at the recent conference with the Homestead committee in the Executive Chamber that the National Grand and he Chamber that the National Guard would be received in a friendly manner. The Gov-ernor is impressed with the good order pre-vailing at Homestead, but of course does not endorse the placing of pickets along the roads and the interruption of people with a view of finding out their business. As to the report that martial law would probably he declared at Homestead he said no neces sity had yet arisen for such a proceeding. The Governor's attention was called to a

statement alleged to have been made by Sheriff McCleary that the latter had made several demands for troops before he sent the telegram which was followed by the order calling the militia into active service. He contradicted the story by remarking that in none of the Sheriff's telegrams exthat in none of the Sherin's telegrams ex-cept the last one was a demand for troops made. Even after the bloody fight with the Pinkerton people the Sheriff of Alle-gheny county did not ask for military aid, but simply requested the Governor to send a representative to the scene of the trouble.

A Very Determined Colonel.

Before Company C, of Columbia, left that place for Harrisburg this morning Colonel Case, commander of the Fourth Regiment, made a brief speech to the men, during which he said that he had heard that several members of the company had said that they would hand their muskets to the strikers if they got into a conflict. The Colonel declared with great emphasis that the first man he saw doing such an act he would

Resolved. That the Columbus Trades Assembly indorse the stand taken by the locked-out workmen of the Homestead Iron and Steel Works, and send them hearty con gratulations on their brave stand and glor ious victory over the Pinkerton outlaws employed by Carnegie & Co. to shoot them into submission to the wishes of unfair and

PARIS, July 11.-M. Louis Pasteur is ill, it is believed, with cholera. To the Public. I have no hesitancy in recommending Chamberlain's Colic, Cholera and Diarrhœa Remedy to the public, as I do to my triends and patrons. I used it myself after other well-known remedies had failed, and it cured me in a few minutes. I recommend it candidly and cheerfully upon its merits, not from a financial standpoint, because I have others in stock on which I make a larger profit, but because Chamberlain's is the best remedy I know of for bowel com-plaints. There is no doubt about it, it does the work. JAMES FORGY, Druggist, TuwThSu McVeytown, Pa.
