THE COALERS HALTED SOMEWHAT BRACED UP. toppages of Some Mills Having In Their Upward Turn by Rather NEW YORK, July 14. - [Special.]-The Fron Age to-morrow will size up the metal markets as Heavy Offerings. INDUSTRIALS AGAIN BUOYANT. Inside Buying of Richmond and West Point been to keep pig iron dull and weak, while finished iron and steel, notably in the West, have been strengthened and have advanced. Securities. This advance, however, is merely for imme diate delivery, the situation having been A DULL CLOSE AT THE LOWEST PRICES NEW YORK, July 14 .- The stock market

suffered a relayse from its strength and activity of yesterday, though for this result the cessation of the buying in Reading was chiefly responsible, and, while the buying of the Richmond and West Point shares was continued, its scale was too small to retrieve the dullness of the rest of the list. The high prices to which the coal shares had been pushed brought out a large amount of stock for sale, and, while the selling movement did not last long, after the buying had ceased a material decline from the best figures was seen. The conductors of the campaign in the coalers have evidently come to the conclusion that the conditions prevalent at this time are not favorshie to an extended bull market, especially as many doubt the wisdom of the proposed advances in coal prices, and the amount of stock brought out by the very moderate

rise of the last few days compelled a halt. The movement in the Richmond and West Point securities has for its basis good buying for inside account, said by some to be for the Thomas party, but the authorities differ and the stock offering at the advance soon compelled a subsidence of the anima-tion in these shares also. The Grangers have taken a secondary

position in the market and the industrials bid fair to become the only features. Sugar to-day was again strong and active, while the others were very well held in the face of the general drooping tendency. There was nothing whatever in the rest of the market, though St. Paul, Burlington and Louisville, New Albany and Chicago were comparatively active, but their fluctuations were slight and of no significance.

listed shares. Railroad bonds also sank into the utmost stagnation and the transactions of the day dwindled down to \$1.038,000, of which Read-ing FS contributed \$15,000. The temper was fairly firm for most of the list, but a ew issues scored substantial losses for the day Government bonds were dull and steady. Close of the list:

as extensively as could be done without breaking the market. The firm and higher cables helped the ad-vance in wheat here, with the short interest more disposed to cover. The sharp rally in July which was bid up on light offerings, as-July which was bid up on light offerings, as-sisted. The disappointing yields in thresh-ing were mainly reported from Ohio, In-diana and Illinois. There was, in addition, a decided inquiry for good milling wheat and reports of rain in Missouri, Illinois and North Dakota. In corn first trades were at %%%/c de-cline, the easier tone at the start being due in a measure to reports of rain in Southern Illinois and in Missouri, and to a denial of hot winds in Kansas, it being reported rather cooler in that State and in Nebraska, Cudahy & Wright, who are interested in keeping up the price of provisions, helped on the bulge in corn when opportunity of-fered.

Market Opinions

The New York Evening Post says: "Som of yesterday's late buying of stocks was in-dulged in under the belief that London dulged in under the belief that London would greet the silver bill's defeat with a buoyant market. But just as the English operators failed to sell when the Senate passed the bill, so they failed to buy when the House buried it. Our own protestional traders were discouraged at this indiffer-ence and proceeded to sell down the stocks which were strongest yesterday." The idle works have been trying to take care of their contracts by buying in the local open mar-kets and have been forced to pay for the ac-commodation. Unless the strike continues much longer these advances are looked upon as merely temporary, and really possess lit-tle significance as yet. Steel billets are quiet all around, the rush during the latter part of June having disconnted the present state of affairs. The demands upon the Eastern mills have somewhat strengthened them, but the majority of buyers have their heeds provided for for many months to come and in some cases for a whole year. Tants have attracted more attention, but the speculation is still tame and prices have un-dergone little change. In Cleveland there has been little doing since "bear" accounts were squared, and the price has remained almost stationary. Hematiles are dearer, owing to continued decrease in stocks. Ex-ports of piz from last month were 55,000 tons, acainst 75,000 tons in June, 1891. There are now 117 English furnaces blowing. Stocks in Connal's stores include 429,000 tons Scotch and 35,000 tons Cleveland. Latest sales of warrants were at 418 31 for Scotch, 408 36 for Cleveland, and 49s for Hematiles. Straits has declined about £4 during the week. The timplate market has undergone no change. Cokes are in fair demand, chiefly for Russin and San Francisco, but ternes and charcoals are neglected. FIRMNESS DISPLAYED

By the Local List in the Face of Continued Dullness.

LUSTER'S BOOM IN BAD SHAPE.

Union Switch and Signal Shows a Re covering Tendency.

CHANGES GENERALLY SMALL GAINS

THURSDAY, July 14.

So far as the sales on 'Change were any criterion to-day's market for local securities was the dullest for the week, or, for that matter, of many weeks. There was, however, evidence of a fair midsummer volume of business in progress along the street. The tone appeared to be improved also, and, in a general way, encouraging indications were quite as numerous as discouraging ones, the main one being the firmness displayed by the list in the face of the dullness present and prospective. So far, also, from there being any pressure to sell anything excepting one of the items of the mining group that has been manipulated more or less during the past few days there was a slight improvement in the inquiry for some of the leading specialties, and a number of them displayed a hardening

tendency. Course of the Market.

As foreshadowed in this column yester-day, the boom, or rather boomlet, in Luster collapsed almost completely. There were no sales of the stock and no one desired to buy, even at softening quotations, and with a number of the brokers and traders, evidently desirous of taking profits or a whack at the short side, a gradual decline ensued,

as the short side, a gradual decline ensued, the close being heavy at 10@11½, with one lot offered under 11 after the close. On its merits, so far as can be discovered, the stock should go lower, but there is very lit-the floating about, and as the bulk of the capital is held by the immediate insiders, it would be a very easy matter to mark up the price.

union Switch and Signal reacted some what from the weakness of yesterday, sell-ing at 15%, against 18% yesterday atternoon, and closing strong and in fair demand at 15%. Evidently there is someone who fan-

ing at 10%, against and in fair demand at and closing strong and in fair demand at 15%. Evidently there is someone who fan-cles the stock for some purpose or other, and it will probably go higher. In the street railway list Central Traction sold at 29%, closing strong at 29@29%, but all the others were quict and anchanged. Pleas-ant Valley closed offered at 26 ex-dividend, however, and the best bid for P. & B. Trac-tion was 25%.

ant Valley closed offered at 35 ex-dividend, however, and the best bid for P. & B. Trac-tion was 25%. In the gas group Philadelphia Company closed a slight fraction higher at 15% 5%. which was the only noticeable change. Boatman's insurance Company was bid up to 35 and Junction Railroad to 33%, which is the highest point touched by the latter in years. There has been a good demand from the East for Junction for some time past and it is reliably stated that a good deal of the stock has gone East. It is also said that the Eastern buyers are interested in some scheme that will ultimately benefit the road quite materially, but character could not be ascertained. The price bid for Boat-man's Insurance was not high, considering the fact that the company, now in process of liquidation, will probably clean up some-where above 40. About the usual quotations were made on the remainder of the list, the only fresh ones being 44 bid and 46 asked for Allegheny Gas.

The June Exports.

The total exports of breadstuffs during June reached the value of \$16,448,977, making the exports for the past six months \$132,935. 807, and the exports for the past 12 months 807, and the exports for the past 12 months \$288,925,000. The corresponding figures for 1591 were \$13,199,536 for June, \$85,350,307 for six months and \$123,136,500 for 12 months. The exports of live cattle during June were 33,-102 head, valued at \$3,031,147, making the ex-ports for 12 months ending June 30, 1892, 380,177 head, valued at \$34,215,233, against ex-ports for the preceding 12 months of 355,878 head, valued at \$20,296,496. The exports of hors during June last were 2,364, valued at \$19,780 against exports in June, 1891, of 745 head, valued at \$5,944. The value0 of the ex-ports of hors for 12 months ending June 30, 1892, was \$170,551, against \$299,266 for 1891. The total value of the exports of beed, hors and

total value of the exports of beef, hogs and dairy products was \$12,028,547 for June, 1892, against \$8,139,275 for June, 1891, making the values for six months \$67,558,202 in 1892, against \$59,898,631 in 1891. MONETARY.

SALES AND SCHEMES

Of Recent Occurrence and Origin in the Real Estate Line-Building Progressing cars.

Satisfactorily.

According to report, an entire square, 123x198 feet, fronting on Perrysville avenue, in the Mayfield plan, Tenth ward, Allegheny, was picked up yesterday by three prominent business men. The price was not stated. Each of them, report added, will build a handsome brick restdence. John K. Ewing & Co., the agents, intimated that the story was about correct.

Ira M. Burchfield has about cleared up all the deals in the Twenty-second and Twenty-third wards, upon which he has been engaged since March last. They include the Howley purchases footing up about \$150,000, and a number of others of less magnitude. The aggregate of these transactions, including those of Senator Flinn and associates, amounts to upward of \$400,000. Mr. Burchfield said: "The last of the deeds will be made over by the middle of

August or sooner, when the full story of the deal will be given. It is the largest on prices is strongly upward. Two or three canners of California fruit have withdrawn the deal will be given. It is the largest on record in rural property. There is now no obstacle to the building of the Homestead Connecting Railway, upon which I have been unremittingly engaged for nearly four from the market owing to its excited condidred cases of New York State gallon canned years.

Land values in East Bellevue are looking up in confident expectation of the early introduction of rapid transit. The Pleasant Valley people broke ground there yesterday. Four acres have practically changed hands at a trifle less than \$4,000 an acrethe highest sale ever made in that locality. Owners, as a rule, are not anxious to sell at prevailing figures.

The leading western packers of canned beef have advanced their price to \$1 65 per dozen for 2.B tins. The market for canned tomatoes continues to gradually harden in the East. Standard No. 3 now fbrings 200 readily, for choice goods 95c is obtained. France will have a large peach crop this year. The only packing there is of brandled year. The only packing there is of brandled fruit, and holders of American canned peaches therefore need not be slarmed. Michael Maloney is taking bids on seven

The Situation in the South.

The Tradesman of Chattanoogs, Tenn., in its review of the industrial situation in the South for the week ending July 9, states that the general feeling among producers of iron is that the lowest prices have now been reached, and that an advance may be looked for, on account of the labor situation in the North and the reduced stocks on hand. No labor troubles are reported or are expected, as the scale of the Amalgamated Association has been generally signed. The output of the coal mines continues large and with a steady demand. The wet weather is with a steady demand. The wet weather is affecting the supply of ore, and, if it con-tinues, some of the furnaces will be obliged to close down for want of stock. The mine owners generally have no complaint to make, and a readjustment has been made in certain quarters which will bring about a triendly undertaking and aid in maintain-prices. prices.

"Grain markets quiet but firmer on reports of crop damage: Senator Sherman introduces a bill repealing the law for the purchase of silver builton; some bad blood between the granger roads on account of Burlington's position toward the Advisory Board; pig iron production decreasing 5,000 tons weekly; Atchison income bond plan declared effec-tive; two million gold expected to go out Saturday." Watson & Gibson's letter to Oakley & Co. says the buying of sugar was for short ac-

counts, and attributes the purchasing of Richmond to the perfection of a reorganiza-tion plan that suits the majority of the in-fluential leaders.

Britain's Capital Creations,

A recent report of new capital creations in Great Britain for the first half of 1893 shows now this periodical movement affects new

how this periodical movement affects new enterprises in that country. In the year 1883 the new securities offered amounted to \$3.0,000,000, in 1889 to \$47,000,000 and in 1899 to \$712,000,000, while the year 1889 had also been one of unusual expansion. The collapse came with the last quarter of 18.0, in which the new issues were only \$68,000,000, and in the whole year 1891 they were only \$523,000,-000, while in the first half of 1892 the amount was but \$270,000,000.

Financial Notes,

The directors of the Edison General Electric Company have declared the quarterly dividend of 2 per cent on all the stock of the company, payable August 1. * The directors of the Pennsylvania Water

Company yesterday declared a semi-annual dividend of 3 per cent on the preferred stock. Checks will be mailed to stockholders July

The bridge over Jack's run for the Belle vue branch of the Pleasant Valley Railway will be completed about October 1. It will be 155 feet above the run, 1,000 feet long and

win be completed motion of the long and will cost \$25,000. It was stated more confidently than ever to day that the Philadelphia Company has a process for the manufacture of gas for both heating and illuminating purposes that has been tested and proven to be a pronounced success in every respect. Buffalo, Rochester and Pittsburg's gross earnings for the first week of July were \$30,545, an increase of \$330. Pittsburg and Western, \$43,323; decrease, \$6,851. An agent of the Pennsylvania Railroad sailed for Europe to-day to open an office in London, with possible branches elsewhere, to secure passengers for the World's Fair by way of this company's line. All of the railroads will bigh for this class of cus-tom. tom. At the meeting of the sales agents of the

tom. At the meeting of the sales agents of the anthracite- coal carryin r and producing roads to be held in the last week of this month, the price of coal of all sizes will probably again be advanced 25 cents per ton, the increase to take effect August I. The expected movement in Pleasant Valley did not materialize. The generators that the Westinghouse Company is building to furnish electricity for the \$6,000 incondescent lamps at the world. One of them will onerate 20,000 lamps. "The ordinary generator supplies but 1,500 lamps," Mr. Westinghouse says, "and most of them less. Our largest generator will sup-ply 20,000 lamps, and most of the others will be oi 10,000 lamp capacity." At the last call Electric scrip was offered at 90 per cent, and Howard Plate Glass at 100. The Acting Comptroller of the condition of national banks at the close of business Theody, July 12. Sales and Final Prices.

The only transactions on 'Change occurring at the second call were as follows; 29 shares Central Traction at 29%, and 10 shares Union Switch and Signal at 15%. Closing bids and

houses on Fifth avenue, near the market house. Mr. Vilsack, the brewer, will soon begin the erection of four nice dwellings on Negley avenue, East End. Architect

Bickel prepared the plans. Ground will be broken next week for three frame houses on the hill back of Lucy Furnace.

There is strong talk of the property on the northwest corner of Penn and Negley avenues changing hands for business pur-

poses. The lot fronts 223 feet on Penn by 125 on Negley. It is held at about \$150 a foot front on the first-named avenue. The consummation of this deal would start a new business center.

As showing a rapid absorption of lots in

the Twelfth ward, Allegheny, John K. Ewing & Co. have just put on the market two new subdivisions to be called the Falk and Ittle plans, fronting on California avenue. The first sales were made vesterday, tour The same firm is dickering on behalf of a small but wealthy syndicate for about ten acres in the same ward on the New Brighton road. If negotiations turn out success-fully, as is probable, the tract will be im-proved in the same manner as Boulevard place in the East End.

It is expected that the project for the erection of a Heptasoph temple in this city will soon pass out of the paper stage. Subscriptions to the stock are coming in liberally.

The Denham property, on Highland avenue, recently purchased by Prof. Andrews and others, is being prepared for the erec-

and others, is being prepared for the erec-tion of a number of neat residences. Ground was broken yesterday for a first-class dwelling on Muiberry street, between Franklin and Rebecca, Wilkinsburg. Two others will follow. The lot at the corner of Highland avenue and Callowhill street, owned by W. C. Lyne and sold to Edward D. and Harriet A. Gil-more, of Sewickley, lor \$12,500, has a frontage of 150 feet instead of 50 nest as reported. The sale was, therefore, at the rate of \$125 a foot front and not \$250 as stated. The report that the Toomey property at Haysville is about to change ownership is denied.
