

THE END IN SIGHT.

Both Senate and House Hurrying Up the Work Yet to Be Done

BEFORE THE SESSION IS CLOSED.

Principal Appropriation Bills Passed and Cut of the Way.

WORLD'S FAIR POLITICS ROBBING UP

WASHINGTON, July 15.—The last stage of legislation was crossed in the Senate today, as to three of the principal appropriation bills—the legislative, the navy and the army—the conference reports in each of them having been presented and agreed to. Nevertheless it was found necessary to extend for two weeks longer the joint resolution of June 30 to provide for such extensions of the legislative, the navy and the army bills already sent to the President. A suggestion was made to limit the time of extension to July 25, on the assumption that the session would be closed by or before that time, but Mr. Allison thought it wiser not to take any chances, but to pass the joint resolution as it came from the House.

Most of the day's session was spent in the discussion of the fortifications bill—particularly as to the construction of breech-loading rifled mortars, and as to the selection of a site on the Pacific coast for an armory for the finishing and assembling of ordnance. The bill was finally passed, leaving only the deficiency bill unacted upon by the Senate and notice was given that that bill would be taken up to-morrow.

Cabinet's Adjourn Over Saturday.

A proposition to adjourn over till Monday was made with the consent of the committee on Appropriations, which wished to have the whole of Saturday for considering the deficiency bill further in committee, but it was met by opposition on the part of Mr. Washburn, who desired to have the adjournment over to the session on the bill. Mr. Washburn's opposition prevailed, and the motion to adjourn was defeated. The deficiency bill, however (not the anti-trust bill), will be presented.

When the fortification bill was under consideration Senator Squire offered an amendment appropriating a million dollars for the establishment on the Pacific coast of a plant for finishing and assembling the parts of heavy guns. He made an earnest speech in advocacy of the amendment, but it was rejected.

Mr. Felton offered an amendment for the appointment by the President of a board of three officers of the army and three officers of the navy to examine and report, which is the most suitable site on the Pacific coast or on the rivers or other waters thereof for the erection of a plant for finishing and assembling the parts of heavy guns and other ordnance, and appropriating \$2,500,000 for expenses of the board. Agreed to. The bill was then reported to the Senate, the committee and other amendments agreed to, and the bill passed. Adjourned till tomorrow.

Signs of Dissolution in the House.

There are signs in the House of the approaching dissolution of Congress. Had not the sundry civil bill come in to occupy attention today, the House would have been consumed in passing unobjectionable measures by unanimous consent. The area in front of the Speaker's desk was occupied by members in the Pacific coast bill, and the bill was being passed. The Speaker's eye, the committee and other amendments agreed to, and the bill passed. Adjourned till tomorrow.

Mr. Watson, of Georgia, asked consent for the consideration of a resolution instructing the committee on Labor to investigate the labor trouble at Oscar d'Alene, Idaho, and the conduct of the Sullivan police therein. Mr. Pennington, of West Virginia, objected, and the resolution was referred.

Mr. Holman, of Indiana, from the Committee on Appropriations, reported, and the House passed, a joint resolution extending temporarily (until July 30) the appropriations of the War Department.

Mr. Holman also reported back the sundry civil appropriation bill, with Senate amendments, with a recommendation that all the Senate amendments be non-concurring in.

Mr. Holman then asked consent that all the amendments (except those relating to the World's Fair) be non-concurring in, and that those (the World's Fair) amendments be considered in committee of the whole.

Mr. Goodnight, of Kentucky, objected, and the House then went into committee of the whole on the bill.

Mr. Holman then asked consent that all the amendments (except those relating to the World's Fair) be non-concurring in, and that those (the World's Fair) amendments be considered in committee of the whole.

enforcement of the act. The Department says:

The efficiency of the inspection is well attested by the increased price in the markets, not only of this country but of the world, of American meats bearing the inspection certificates of the Department of Agriculture. Meats bearing this certificate command half a cent more a pound in our own markets, and although the law in Great Britain does not exact our inspection as prerequisite to importation, the packers have advised their agents in that country that the United States Government certificate on American pork adds from 2 to 3 shillings to the 100 to its market value. The packers are in consequence, urging the department to increase the inspection facilities, so as to enable them to enlarge their shipments of inspected meats to Great Britain.

THE APPROPRIATION BILLS.

Ten of Them Already Laws or Will Be Very Shortly.

WASHINGTON, July 15.—Ten of the regular annual appropriation bills have gone to the President and have become laws or will very shortly. They are the military academy, legislative, diplomatic and consular, postoffice, army, navy, Indian, river and harbor, District of Columbia and agricultural bills. There are now pending in the appropriation committee in conference, and but three remain to pass through that stage, namely, the sundry civil, now before the House for action on the Senate amendments, the fortifications bill, ready for return to the House, and the deficiency, which will be taken up by the Senate to-morrow.

The joint resolution passed to-day, containing the appropriations until July 30, will therefore apply only to these three bills last named.

FIGURES AS TO HOMICIDES.

A Study Furnished by a Bulletin From the Census Bureau.

WASHINGTON, July 15.—The Census Bureau to-day issued an elaborate bulletin on the subject of homicide in the United States in 1920. It appears that of the 82,329 prisoners in the United States June 1, 1920, the number charged with homicide was 7,386, or 8.97 per cent. Omitting 35, who were charged with double crimes, 6,938 of them (or 94.65 per cent) were men and 393 (or 5.35 per cent) were women. As to color, 4,425 were white, 2,729 negroes, 94 Chinese, 1 Japanese, and 92 Indians. As to the nativity of the 4,425 whites, 3,157 were born in the United States, 1,213 were foreign-born, and the birthplace of 5 is unknown. More than one-half of the foreign-born whites are uneducated, and nearly one-fifth are unable to speak the English language.

Acquitted of Serious Charges.

WASHINGTON, July 15.—Judge Rannels, of the Department of Justice, who was specially detailed to investigate the charges preferred by Assistant Secretary Nettleton against W. D. Owen, Commissioner of Immigration, of incompetency, in subordination and general unfitness, has submitted his report to the Secretary of the Treasury. While the report confirms several of the specific charges on which the charges are based, it acquits Mr. Owen of all the serious charges. The report will not be made public until after copies have been furnished Mr. Nettleton and Mr. Owen.

SHARPSBURG DEDICATION SERVICES.

The German Catholic School Building to Be Opened to-morrow.

St. Mary's German Catholic Church at Sharpsburg will dedicate its new \$45,000 school building to-morrow. Before the dedicatory ceremonies visiting and local societies will parade the principal streets of the town. The building is three stories, with basement, and is the finest in the borough. The contract was let about one year ago to Hookstein & Co., of Allegheny, for \$41,000, but alterations have increased the cost of the building to the above figure.

ADVANTAGES OF INSPECTION

Frozen in the Increase in Price on American Shipments.

WASHINGTON, July 15.—It is stated by the Department of Agriculture that the inspection of meats, and especially pork, by the officers of that department under the act of March 3, 1891, has had the effect of adding at least one cent a pound to the value of hogs marketed since the withdrawal of foreign prohibition which resulted from the

Who Was Not the Maria Snell.

Maria Snell, for many years an inmate of the City Farm, came near being made the recipient of a fortune. A. Schneider, Belgian Consul to Pittsburgh, was notified several weeks ago that a Maria Snell now in Pittsburgh had been left a large fortune in the City Farm. It was thought it was the old lady at the farm, but later this proved to be false.

WONDERS NEVER CEASE.

IT'S RATHER STRANGE,

But the fact is that our Home-made Clothing costs less than the foreign-made article. Do you regard that as a surprising statement? Perhaps we ought to have said in the long run. Your immediate expenditure for a slop-shop suit may be smaller, but your ultimate expenditure will be very much larger. It isn't by any means always the case that what you pay least for is the cheapest. The really cheap suit is the suit that can be criticised in neither material, make nor fit, the suit that is faultless in all respects. A clear-headed thing is to buy one of our Home-made Suits. Our price for best in the house is not \$12 nor \$15, but what it's worth. If you select a light suit of \$10 it will cost you 10 per cent less, which is only \$9. But we'll not let you go blindly. We'll stand by every suit with our guarantee.
