HEBREWS AND HUMAN SACRIFICES

(COPTRIGHT, 1802, BY N. T. ASSOCIATED PRESS.) BERLIN, July 16 .- Since starting on his fourney to the North, the Emperor has sent instructions to Chancellor von Caprivi to ignore the Bismarck controversy. Hence, though a day does not pass without the Prince's organs making a fresh attack upon the Government, the semi-official press remains silent. A majority of the other cluding the National Liberal journals, which would willingly let the polemic die

The Freissinig organs alone try to keep the dispute seething, while the Socialist papers seize what advantage Prince Bismarck's indiscretions give them to assail generally his services to the nation, his claims to greatness and his personal char-

The quiescent attitude of the Government will cease should Prince Bismarck prosecute his design to continue the agitation by touring the various cenetrs throughout Germany, accepting receptions and giving here and there expressions to utterances hostite to the Emperor's policy. Waldersee's Hand Not in the Pic.

The official circle entirely discredits the report that General Count von Waldersee is inciting the Prince. On the contrary, General von Waldersee and other old colleagues of Prince Bismarck are trying to induce him to spare Germans the sight of a public conflict between the Emperor and statesmen who created united Germany. The Prince's own family circle support him. There is reason to believe that high personages in Bavaria and Wurtemburg ap-prove of his keeping up the irritation against Chancellor von Caprivi. Count William Bismarck has resigned his

position of Pretect of Hanover, and Count Bantzau has also resigned his post of Minis-

ter to the Hague.

The relations of the Government with the Vatical tend to improve. With a view to cultivating the Center party, Chancellor von Caprivi has expedited the Sperrgelder arrangements under which 16,000,000 marks voted by the Lower House of the Prussian Diet in restitution for the sums the Catholic clergy were deprived of during the Kulterkumpt will be paid. The Commissioners, who were appointed after the vote was passed, have been lingering over the details of the distribution of the money. The Chaucellor has energetically brought their deliberations to a conclusion, and the Com-nissioners now report that the moneys will be distributed within three months.

The Germania still maintains that the Talmud encouraged human sacrifices. The Kreuz Zeitung contends that although the Hebrew Scriptures do not support ritualis-tic murders, some illiterate Hebrews be-lieve in such murders. Apart from the anti-Semites, popular sympathy is with Buschoff. Liebermann von Sonneberg is stumping the Rhine Valley, exciting anti-Semitic moves, while other conservative or-ators cultivate the popular passion in South

AN IDIOT ON EXHIBITION.

A Wild Girl at Atlantic City Turns Out to Bean Unfortunate

DELPHIA, July 10 -The sym-pathy and laterest of Secretary Crew, of the Society to Protect Children from Cruelty, has been entisted in the case of the "Australian Wild Girl," on exhibition along the board walk at Atlantic City. The case was brought to his notice by a reputable physician of the city, who is confident that the so-called wild girl of 25 years is nothing more than an idiot. The girl is penned up in a wooden cage, and is, according to the judgment of the doctor,

not over 8 years of age.

The fact that the case is one which comes under the jurisdiction of the New Jersey authorities prevents Mr. Crew from taking direct action to have the child liberated and properly taken care of. He lost no time, however, in communicating the case to the Chief of Police of Atlantic City, and wrote him a strong letter yes-terday, branding the act as highly inhuman, for two reasons: One because the child was so closely confined, and the other because it held her misfortune up to ridicule.

'IWAS TOO HOT TO LIVE,

A Philadelphia Sulcide Who Wanted to Rest in a Cooler Place.

PHILADELPHIA, July 16 .- The heat of the last few days, particularly yesterday, is again causing numerous prostrations, and, indirectly, it appears, augmenting the number of suicides. The case of Gottlieb Eckstein, 58 years of age, of No. 2958 American street, who was found drowned in the Schuylkill on Thursday, is a fair example. It was brought out at the inquest in his case yesterday, through two letters which were found on his person, that heat was one of the causes of his rash act. "Bury me in a cool place," was an injunction in one of the epistles to the undertaker. The jury gave a prompt verdict of suicide.

Dispatches have passed between the authorities here and at Sistersville, and the identification seems to be almost complete. The distance from this city to Sistersville is fully 400

HOME TREATMENT.

He Orders His Organs to Pay No Its Beneficial Results Illustrated by Testimonials From Many Grateful Patients.

> Years of Practical Experience in Treating Catarrh and Kindred Ailments Results in a System of Treatment by Drs. Copeland, Hall and Byers Which Is Nearly Perfection.

The system of mail treatment as perfected by Drs. Copeland, Hall and Syers has grown to be such a great part of their sys-tem of treatment they feel that it at present demands greater consideration than it has ever received at their hands.

Their question blank, if properly filled out and other systematic arrangements obmains silent. A majority of the other papers follow this dignified example, incase can thus be obtained to make treat ment an easy matter, and as medicines are promptly prepared and shipped those liv-ing out of the city have the same advantage as those who come to the office. A system of correspondence is required and mainof correspondence is required and maintained for which they have engaged the services of an expert stenographer and typewriter. Every letter sent out is dictated by the physician in charge of the correspondence, so that mail patients receive the same careful consultation and medical advice at their homes as those who visit the office personally. Prompt replies to all letters are made by Drs. Copeland, Hall and Byers, modifications in treatment prescribed with the proper medicines, and in every detail each case is worked out until a cure is effected.

case case is worked out until a care is effected.

There is not a city or town within the radius of 100 miles in which Drs. Copeland, Hall and Byers have not a number of grateful patients who gladly proclaim the good results of their treatment. Every patient whose testimony appears to-day was treated exclusively by their system of home treatment. The majority of these patients never received a personal examination, their cases being diagnosed from the answers to the symptom blank. Among this number may be mentioned Mr. John A. Wilson, of Percy, Fayette county, Pa., whose testimony appears below:

the Suff rer. Mr. Wilson is aged 69 years, a weaver of carpets by occupation, and resides at Percy, Fayette county, Pa., although he receives his mail at Mt. Braddock. "I have been troubled over two years with my head and stomach which resulted from neglected colds," said Mr. Wilson. "I had violent headaches over forehead and through temples, my nostrils were clogged up with tough mucous which dropped into my throat, causing a continuous effort to raise by hawk-ing and spitting. When I would lie down at night this mucous would fill my throat so completely I would almost suffocate for breath. I also had buzzing and roaring

noises in my carrs.

concerning my condition. I had no relish for anything and eating caused considerable distress. Every meal was followed by nausea, bloating up and rifting of gas, dizziness, palpitation and fluttering of heart, cold extremities; hot and cold flashes, etc. I lost 36 pounds during the last year.

"As I doctored continually for two years without receiving any benefit I thought there was no help for me. My health got so bad I could not do my work and I feit there was no place for me but in the grave. At last I happened to read what Drs. Copeland, Hall and Byers were doing for cases similar to mine and I determined to write to them. I have only been taking their medicine a little over one month, started my second month on July 2, and am glad to say that I have improved in health and weight wonderfully. My weight has increased from 160 pounds to 173 pounds and I feel better than I have for two years. My sleep is sound, as I am not troubled with the dropping of mucous and the racking cough has disappeared.

"I feel like an entirely different person.

BRONCHIAL ASTHMA.

Mrs. John Shore, No. 774 Presqueisle St., Youngstown, O., Suffered for Years With Pronchial Asthma, Which Was Fast Developing Into Consumption.

Asthma is rarely a disease of itself. It ises from numerous causes-diseases of the kidneys, stomach, heart, nerves, lungs, blood and nose. If these several causes were well understood and treated accord ingly, there would be fewer irascible asthmatics. Catarrh of the nose, moist, dry, atrophic, hypertrophic, is now regarded the most frequent cause of asthma-reflected asthma, it is called. The cause, of course, indicates the treatment—cure the catarrh, correct the deformity in the nostrils, if there be any, and the asthma will disappear.
"I take pleasure," writes Mrs. Shore's hus-

"I take pleasure," writes Mrs. Shore's hus-band, "in informing you that my wife has improved wonderfully since she began your treatment. She has been able to eat her meals regularly, her cough has improved, and she has gained about ten pounds in weight. She is able to sleep all night now, without coughing, where before she had to be propped up to get her breath. Her gen-eral health is greatly improved, and she is able to take a walk every day. I do not know how to thank you for your skill in doing her so much good in so short a time.

RINGING NOISES IN EARS.

Mr. J. P. Growall, of A. Growall & Co., Carpenters and Bullders, Rockwood, Pa., Writes the Following Letter to Drs. Copeland, Hall and Byers.

"I am happy to say to you that I feel 100 per cent better than I did last fall. The ringing in my left car is about gone, by spells I do not notice it at all. My head is spells I do not notice it at all. My head is clear, memory good, and the dizziness all gone. All whole system is again in good health. Am breathing once more through my nostrile, which I could not do last fail, and realize that of all God's blessings there is none like good health. I thank you for the interest manifested in my case, and have recommended a gentleman, whose case is similar to mine, to try a course of your treatment."

NEURALGIC PAINS HEAD AND CHEST Mr. C. W. Williamson, Foxburg, Pa., Suffered From Pains in Head, Nose and

Mr. Williamson makes the following state ment by letter: "I had been troubled a long my head, nose and chest, which caused a times the most intense suffering. Besides this I had catairh of the stomach, which, because of frequent billions attacks it produced, kept me in an all-run-down condi-tion. I am happy to inform you that my pains are all gone, and that I am gaining in strength, my appetite is restored, and I have no stitches through to my shoulder blade like I had.

Drs. Copeland, Hall and Byers:

Drag Sirs—I have had catarrh ever since 1861; at that time I was in the South. I have been hawking and spitting ever since, and feel so miserable I am cross and ill-natured all the time. I notice that is leaving me. I commenced your home treatment January 5th, the 5th of February I weighed seven pounds heavier, my appetite is more regular and my sleep better. My head is also better and the hawking and spitting is not so bad, I am better in every way.

From 1861 to 1892 is ever 50 years. I think if you can help me so much in one month you can certainly cure me, and if a case of such long standing as mine can be cured I do not see why anybody cannot be. I think your treatment has done all that any medicine could do.

Yours truly,

D. F. BARNES.

HEAD AND STOMACH TROUBLE. Mr. John Hefner, East Liverpool, Ohio, Describes How Neglected Catarrh Affected His Head and Stomach and How He Was Cured by Drs. Copeland, Hall and

"I had been troubled two years with my head and stomach," says Mr. John Hefner, who is a teamster in the employ of Mr. Will-iam Sells, contractor, East Liverpool, O. "It was no doubt brought on by exp all kinds of weather, and the result of neglected colds. My nostrils were always clogged by mucous, which also dropped down into my throat, causing me to hawk to dislodge, and I was often attacked by the nost excruciating headaches, which lay me off from my work several days at a

time.

"My stomach also became affected to such an extent that it was with difficulty I ate enough to keep up sufficient strength to enable me to get through with my work. I would get such fearful attacks of heart-

burn that I would be worth nothing for hours afterward.

"I had doctored and doctored without benefit, until one month ago I decided to go to Pittsburg and consult Drs. Copeland, Hall and Byers. They examined me carefully, and told me my head and stomach trouble came from exterrh, and that they could cure me if I would follow their instructions faithfully. They gave me a month's supply of medicine to take home; and I must say that I have not been troubled with my head and stomach since the second day's treatment. It is simply miraculous how quick the medicine took effect. I cheerfully recommend them to all my friends and the public who may be suffering with any chronic trouble, as I know they understand their business perfectly."

THE RIGHT TREATMENT.

o States Mr. D. I. McVay, The Promine

"I have used Drs. Copeland, Hall and Byers' treatment for two months,' writes Mr. McVay, "and am a great deal better, and am satisfied you will cure me. I am fully satisfied your treatment is the right kind for chronic catarrh, and can freely recommend its use to anyone suffering with that dreadful disease."

EX-MAYOR DUNN, FRANKLIN, PA. An Open Letter From Hon, R. W. Dun

Mayor of Franklin, Pa. FRANKLIN, PA., November 13, 1891.

Dzar Sirs-My father died from catarrhal complications. I had been coughing, aching, and been converted into a catarrhal nuisauce for 10 or 15 years, but was not prepared to learn, till I began treatment with you, that I had catarrh with the grip of a vise, chronic in form, and had attained to the dignity of incipient consumption. I now see what was meant by the night sweats, pain over the eyes, dizzy images dancing betimes before my eyes a cough which for the pastyear or more has played havoe with my dreams at night and my professional duties in the day. I got so thin that they talked of using me for a skeleton at initiations. I wrote you, began treatment with you, and I just cannot draw a comparison between how I am now and what I was when I began. I sleep well, cannot get enough to eat, feel years younger, and pursue my professional duties with pleasure. I owe it to you. I do not know what other physicians can do, but I do know that I can recommend you in the treatment of serious chronic catarrh.

IN COMPOUNDING, an incomplete mixture was accidentally spilled on the back of the hand, and on washing afterward it was discovered that the hair was completely removed. We purchased the new discovery and named it MODENE. It is perfectly pure, free from all injurious substances, and so simple any one can use it. It acts midbly but surely, and you will be surprised and delighted with the results. Apply for a few minutes and the hair disappears as if by magic. It has no resemblance whatever to any other preparation ever used for a like purpose, and no scientific discovery ever attained such wonderful results. IT CANNOT FAIL. If the growth be light, one application will remove it permanently; the heavy growth such as the beard or hair on moles may require two or more applications before all the roots are destroyed, although all hair will be removed at each application, and without the slightest injury or unpleasant feeling when applied or ever afterward. —Norms supergoing entrolights, when applied or ever afterward.

**Gentiemen who do not appreciate nurve's gift of a beard, will find a priceless boon in Modene, which does away with shaving. It dissolves and destroys the life principle of the hair, thereby rendering its future growth an utter impossibility, and is guaranteed to be as harmless as water to the skin. GREAT SEMI-ANNUAL

That liberal and enterprising event so anxiously looked forward to by the residents of these two cities and adjoining towns, our fourth semiannual free distribution of merchandise, will commence at 9 o'clock to-morrow morning and be continued throughout this week. The same old tried and trusted methods, insuring a perfectly fair, frank, open and impartial distribution, will again dominate. And the plan is as simple as it is fair. Here it is: A disinterested person, watch in hand, sitting near the Smithfield street entrance, will ring a gong every five minutes, and any amount of money first received by the Cashier, after each ringing of the gong, will immediately be handed back to the customer who paid it, whether it be 50c or \$50. Both, the person ringing the gong, and the Cashier returning the money to customers, are seated in full view of the public, and their actions may be watched and scrutinized by anybody who chooses. There is nothing secret or concealed about this distribution, but everything is open, honest and above board.
